and
Revenue Projections*

2019-2023

COMMITTED ADDITIONS TO THE BASE GENERAL FUND FORECAST

As has been the practice, potential future-year program expenses in the General Fund have been included in a “**Committed Additions**” section of the General Fund Forecast.

Committed Additions involve expense changes for projects that have been previously approved by the City Council and deemed relatively unavoidable. The largest item included in this category is the Arcadia Softball Complex as part of the Measure P (Parks) Bond funds. The remaining items included in this category are additional maintenance and operating expenses that will be required to operate and maintain approved capital projects scheduled for completion or will open within the five-year horizon of this forecast. These expenses are related to the maintenance and operations of new parks and recreational facilities and new traffic infrastructure assets. It should be noted that the estimated costs included in this category have been submitted by the various departments involved, but have not yet been fully analyzed by the Budget Office. It can be anticipated that refinements of these estimates will be performed prior to bringing them forward for consideration by the City Council in any given year.

A summary of the committed additions included in this Forecast is provided below and detailed in Chart A at the end of this section. In addition, based on the City Council’s adoption of Budget Principle #8 during the 2008-2009 budget process, a **General Fund Capital Operating and Maintenance/Budget Principle #8** discussion is included in this section. Capital projects with maintenance and operating costs over \$100,000 that have been previously certified by the City Council, or are recommended for certification in the future, are identified in Chart A of this section. Certification for potential new projects or modifications to existing projects identified after the release of this Forecast, that have not been previously approved by the City Council, may be recommended for certification as part of the 2019-2023 Proposed Capital Improvement Program. If certified by the City Council, the maintenance and operating costs associated with these facilities would then be included in subsequent General Fund Five-Year Forecast documents.

Following is a summary of Committed Additions included in the General Fund Five-Year Forecast. Projections factor in an inflation escalator for the out-years of the forecast and are displayed in a cumulative, not incremental, cost method.

Committed Additions Summary

New Parks and Recreation Facilities Maintenance and Operations – This category reflects the projected additional costs of maintaining and operating new and expanded parks and recreation facilities included in the City’s Five-Year Capital Improvement Program. Several parks are scheduled to come online over the next five years include, but are not limited to, Alum Rock Avenue and 31st Street Park (Dog Park), Cannery Park, Communications Hill II – Hillside Fitness Staircase and Turnkey Park, Japantown Square Turnkey Park, Mercado Park, Newbury Park, Pellier Park, Rincon South Park, San Pedro Square Urban Park, and Tramien Park Phase II. The forecast also includes operating cost estimates for trail sections along Coyote Creek trail, including Singleton, Story to Phelan and Phelan to Tully. Funding continues to be set aside for Future Trail Projects to help meet the City’s goal to expand the City’s trail system to 100 miles by the year 2022. The City currently has approximately 60 miles of trails.

<u>2018-2019</u>	<u>2019-2020</u>	<u>2020-2021</u>	<u>2021-2022</u>	<u>2022-2023</u>
216,000	523,000	667,000	725,000	809,000

COMMITTED ADDITIONS TO THE BASE GENERAL FUND FORECAST

New Traffic Infrastructure Assets Maintenance and Operations – This category reflects the anticipated additional costs that are necessary to operate and maintain transportation-related projects included in the City’s Five-Year Capital Improvement Program. Funding to operate and maintain new traffic signals, landscaping, street lighting, pavement markings, and other traffic infrastructure is assumed in this category. Most of the included projects are related to traffic safety enhancements for pedestrians and bicyclists, such as the 2018 Bikeways Program, McKee Road Safety Corridor Improvements, St. James Station at Basset Bike and Ped Improvements, and Tully Road Safety Corridor Improvements. Other project maintenance elements include landscaping, storm water mitigation (bioretention), and street lighting.

<u>2018-2019</u>	<u>2019-2020</u>	<u>2020-2021</u>	<u>2021-2022</u>	<u>2022-2023</u>
22,000	45,000	69,000	82,000	95,000

Measure P (Parks) Maintenance and Operations – This category reflects the projected maintenance and operations costs of new and expanded parks and community facilities that were included as part of a bond measure approved by the voters in November 2000. The only project included in this forecast is the Arcadia Softball Complex scheduled to open in the summer of 2019. This project has an annualized net operating cost of \$677,000, though \$381,000 is scheduled in 2018-2019 for initial staffing and other startup operating costs prior to the facility’s official opening. It should be noted that the maintenance costs for the Arcadia Softball Complex are fairly aligned with prior reported Forecasts, adjusted for the revised completion date.

The Soccer Complex, which is the other Measure P project that has not yet been completed, is not reflected in the forecast because the operating and maintenance costs associated with that facility were factored into the budget in a prior year based on a previous project schedule. Those costs have since been removed and are currently being evaluated for inclusion in a future budget based on the status of the project.

381,000	677,000	715,000	755,000	790,000

COMMITTED ADDITIONS TO THE BASE GENERAL FUND FORECAST

General Fund Capital Operating and Maintenance/Budget Principle #8

In March 2008, the City Council adopted City of San José Budget Principles as part of the approval of the Mayor's 2008-2009 March Budget Message. Budget Principle #8 is as follows:

Capital Improvement Projects shall not proceed for projects with annual operating and maintenance costs exceeding \$100,000 in the General Fund without City Council certification that funding will be made available in the applicable year of the cost impact. Certification shall demonstrate that funding for the entire project, including maintenance and operations costs, will not require a decrease in existing basic neighborhood services.

Chart A details a list of all project maintenance and operations costs assumed in this Forecast. Funding for these projects has been included as part of the approved Capital Improvement Program, approved by the City Council in 2017-2018, or align with previous City Council direction. All capital projects that were previously approved for certification by the City Council with annual maintenance and operating costs in the General Fund greater than \$100,000 have been denoted in the chart with an asterisk. As denoted by a double asterisk in the chart, the maintenance and operations costs for the Arcadia Softball Complex (previously titled Softball Complex) were established prior to the adoption of Budget Principle #8 and did not need to be certified by City Council. By 2022-2023, the costs to maintain and operate all City Council approved projects expected to come online during the five-year period are estimated at approximately \$1.7 million annually, of which approximately \$790,000 is related to the Arcadia Softball Complex.

As always, maintenance and operating costs for new capital facilities will continue to be closely scrutinized to ensure that costs for any newly built or expanded infrastructure are supported on an ongoing basis without a decrease in existing basic neighborhood services. All project maintenance and operating costs will be evaluated on an annual basis for inclusion in subsequent Five-Year General Fund Forecasts. A careful evaluation of the project schedules and/or staffing necessary to maintain and operate these facilities will be performed prior to bringing them forward for consideration by the City Council in any given year.

CHART A - 2019-2023 GENERAL FUND FORECAST Net Operating Impact of Committed Additions

	2018-2019	2019-2020	2020-2021	2021-2022	2022-2023
NEW PARKS AND RECREATION FACILITIES MAINTENANCE AND OPERATIONS
