4. Amounts to be repaid to the City for funds advanced by the City to pay deficits which occurred in prior years; and
5. The net balance, which is the amount necessary to pay said costs and expenses.

On an annual basis, staff determines the assessment revenue needed to fund the maintenance and operations of the district at the City's acceptable standard for maintenance districts. If expenditures for these improvements outpace the assessments, staff will perform community outreach to the affected property owners to inform them of the funding shortfall and ask for community input. After the community outreach is performed, staff will bring forward to Council for approval a process for increasing the assessment and/or revising the scope of services in the district.
