

**PROJECT: Mackey Avenue Sanitary Sewer Improvement Project**

**General Description:** The project was developed to address several areas of broken pipe, sags, root intrusion, and infiltration. On all the streets listed below, the sewer main will be replaced.

To correct the deficiencies in the sanitary pipe systems and to increase the efficiency of the siphon, this project will be removing approximately 3,400 feet of 6-inch sanitary sewer vitrified clay pipe (VCP) and replacing with high density polyethylene pipe (HDPE). The project will also be replacing 16 man-holes.

**Streets to be Impacted:**  
Mackey Avenue, Cross Way, and Dawson Avenue; Arbor Drive

**Estimated-Cost:** \$1.36 Million

**Anticipated-Schedule:**

August 2011	Project Award
November 2011	Start of Construction
January 2012	End of Construction

Note: Garlarza Elementary School and River Glen Park are within a block of the project area.
