

I would like to name one of the girl falcons Kya. Kya means Diamond in the Sky. Kya is an African name.

My first reason to name the Falcon Kya would be when falcons dive for their food the shape of the falcon diving reminds me of a diamond.

The second reason would be that diamonds are precious and since falcons are endangered species they are precious to the environment.

The last reason would be as falcons fly they use the sky for their hunting ground.

Kya = Diamond in the sky
