

Sign Code Update

BACKGROUND

The last major revision of the City's Sign Code was completed in 1992. It's time to update the Sign Code regulations to ensure that they support current City goals for urban design and economic development.

WHAT WE'LL DISCUSS

The City of San Jose will be conducting a second visual preference survey to further explore potential signage options. We will be seeking feedback from the community on different amounts and types of signage including:

- Billboards in the Downtown
- Amount of Signage in the Downtown
- Freestanding Electronic Signs Citywide
- And More!
