

## **PROJECT: Cropley Avenue Sanitary Sewer Improvement**

**General Description:** The Cropley Avenue Sanitary Sewer Improvement Project is located on Cropley Avenue and Largo Drive between Morrill Avenue and Capitol Avenue.

This project was developed to address capacity deficiencies in the sewer system identified by the 2004 Sanitary Sewer Master Plan Capacity Assessment Study.

The recommended improvement for the existing 10-inch sewer main is to up-size the existing main to a 14-inch pipe.

“Local Traffic Only” signs will be provided on streets that will be impacted during construction.

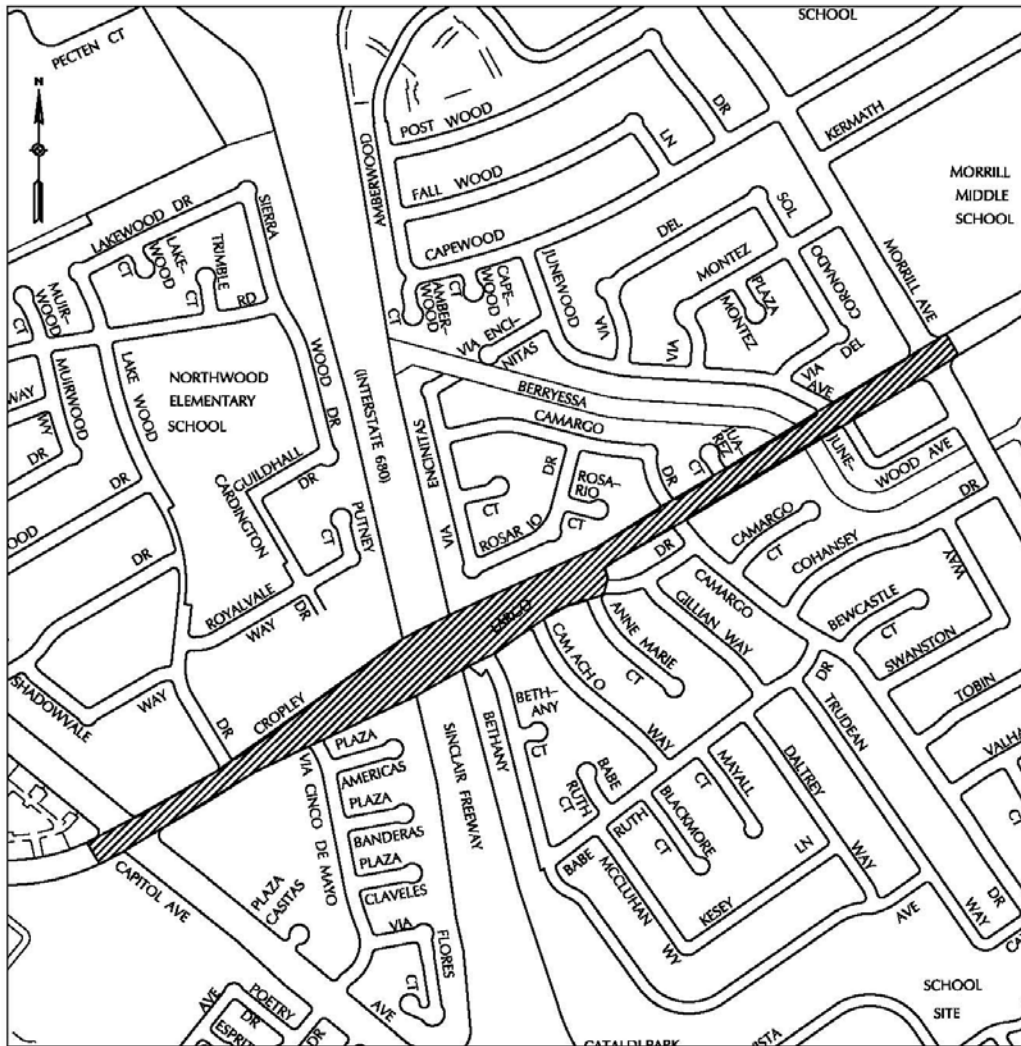

Staff will coordinate with administrators at Morrill Middle School to ensure that construction operations do not impact access to and from the school.

**Total Project Cost:** **\$1,700,000**

**Schedule:** Estimated Award: June 2011  
Estimated Construction Start : August 2011
