Award Description*

The City of San José and County of Santa Clara issued a joint Request For Proposals (RFP) for the administration of their respective Homelessness Prevention and Rapid Re-Housing Program (HPRP) funds in order to create a coordinated network of homelessness prevention and rapid re-housing services and, in doing so, to maximize cross-jurisdictional collaboration, minimize or eliminate any duplication of services, make the application and contracting processes more efficient, and align the program activities and protocols to be as consistent as possible across Santa Clara County. The purpose of the HPRP is to assist individuals and families in the City of San Jose who are at risk of, or currently experiencing homelessness to attain stability and self-sufficiency. The target population for HPRP is households (a single individual or family unit) who need temporary assistance to regain stability. Specifically, HPRP provides mid-term, rather than one-time or long-term assistance to households who are most likely to succeed after HPRP assistance ends. The program employs the Housing First paradigm which places stable housing as the first priority in assisting individuals and families to attain stability and self-sufficiency.

In order to provide comprehensive services to clients, HPRP employs a two-tiered program structure. The first tier provides the immediate, Housing First-focused assistance to address the housing needs of individuals and families. The goal of immediate assistance is to preserve or secure permanent housing for participants, through homelessness prevention, eviction defense, rapid-rehousing services, and financial assistance. The first-tier of immediate assistance represents the first step in helping households to regain stability and self-sufficiency. Once stable housing is secured, the second tier of HPRP provides on-going supportive services.
