

GUESS THAT RODENT!

This small friend stands about two feet tall and can weigh up to 150 pounds. They have partially webbed toes that allow them to glide through the water and stay atop muddy marshlands without sinking.

ANSWER: CAPYBARA

PAWS AND THINK

Test your zoo knowledge with this Happy Hollow themed crossword puzzle.

GORILLA HONEY

What do gorillas have to do with honey? The honey harvested from Happy Hollow's apiary supports rangers in the Democratic Republic of the Congo's Virunga National Park, home of the world's last remaining mountain gorillas.
