

Environmental Services

City of San José

Energy and Water Building Performance Ordinance (BPO)

List of Qualified Service Providers

The City of San José's Environmental Services Department has prepared a directory of local qualified service providers. The service providers on this list have undergone an official review process stating that they meet the ordinance's specified requirements for performing auditing, retrocommissioning, or data verification for compliance with the Beyond Benchmarking requirements of the [BPO](#). If you would like to use a service provider that is not included on this list, they must meet the minimum qualifications set forth in [Municipal Code 17.85](#) and their qualifications must be shared with the BPO team prior to your report submission. For more guidance on selecting a service provider for Beyond Benchmarking compliance, please review Step 5 of our [Beyond Benchmarking Compliance Guide](#).

The City assembled this original list via public *Request for Information (RFI) ESD12022 Qualified Auditors and Retro-commissioning Professionals for meeting requirements of the San José Energy and Water Building Performance Ordinance (BPO)*. If your company wishes to be added to this list of qualified service providers to perform BPO compliance work, please email us at benchmarking@sanjoseca.gov to request an application. Additional qualifying responses will be added to this public list as they are received.

Vendor	Property Types	Main Contact
<u>Alternative Energy Systems Consulting, Inc (AESC)</u>	Multifamily, affordable multifamily, small business, hospitality, hotel, office, retail, medical/laboratory, other.	Antonio Corradini (760)931-2641 <i>acorradini@aesc-inc.com</i>
