BID OPPORTUNITIES

The City uses the Biddingo platform to host its electronic procurement system. Most City solicitations are posted on this platform. Similarly, most responses to the City's solicitations are received through this platform. There is no cost for vendors to use Biddingo to access City solicitations or submit responses to such solicitations.

For more information on City bid opportunities, please visit our website at <u>https://www.sanjoseca.gov/your-government/departments-offices/finance/purchasing</u>.

VENDOR REGISTRATION

To receive bid notifications and participate in the City's bidding process, vendors must first register on Biddingo at <u>https://www.biddingo.com/sanjose</u>. There is no cost to register for City bids.

The information vendors provide in their Biddingo profile determines the commodity types, frequency, and delivery point of the bid notifications they will receive. It is important, therefore, that vendors carefully review their information at the time of registration and periodically thereafter to ensure it is complete, current, and accurate. Vendors may select commodity codes for all products and/or services that they can provide to ensure they receive relevant bid notifications.

For questions regarding the vendor registration process or how to use the Biddingo system, please contact Biddingo's vendor support at (800) 208-1290 or <u>info@biddingo.com</u>.

SOLICITATION TYPES

The City generally uses three types of solicitations:

- Request for Quote (RFQ): An informal solicitation process for procurements with values between \$10,000 and \$250,000. Vendors are required to submit bids electronically. The basis for award may be lowest price or best value.
- Request for Bid (RFB): A formal solicitation process for procurements with estimated values greater than \$250,000. Vendors are required to submit electronic bids on the Biddingo platform. The basis for award is cost, and award is made to the lowest priced responsive and responsible bidder(s).
- Request for Proposal (RFP): A formal solicitation process for procurements with estimated values greater than \$250,000. Vendors are required to submit electronic bids on the Biddingo system. The basis for award is best value, and award will be made to the vendor that will provide the best overall value to the City. The basis for award is best value, and award is made to the vendor(s) who are determined to provide the best overall value to the City.

Changes, addenda, questions and answers, and award notifications for solicitations are posted on the Biddingo platform as applicable. Vendors should be sure to review and understand all solicitation documents and requirements prior to submitting a response.
