Feedback Notes	Location
San Antonio Street-Trash and Debris is a problem in the community, it block parking, sidewalk, and street access.	<input checked="" type="checkbox"/>
San Antonio Street-Cars drive and park in the bike lanes	<input checked="" type="checkbox"/>
San Antonio Street-Dooring is a problem	<input checked="" type="checkbox"/>
King Road-San Antonio Street- needs buffered bike lanes, high visibility crossings	<input checked="" type="checkbox"/>
The community has faded crosswalks, lane markings, center lanes. Overall the road condition is very poor and unlike nearby communities.	<input type="checkbox"/>
The green painted bike lanes are dirty and less visible. Road sweeping/cleaning appears to happen less in this community then nearby ones.	<input type="checkbox"/>
Community has empty tree wells, could use more shade trees especially along corridors where folks walk to amenities. Residential neighborhoods have more trees.	<input type="checkbox"/>
E Gate-Alum Rock Avenue drivers are speeding and not yielding to other road users. Refuge island is about 5 years old and the community really appreciates it and feel safe. Especially as many parents use it with kids	<input checked="" type="checkbox"/>
Sidewalks upheaved and cracked along the route.	<input type="checkbox"/>
Alum Rock Avenue area needs corssing improvements especially high visability crosswalks so drivers see pedestrians and stop/yield. Parents with school age kid cross along route.	<input type="checkbox"/>
Students and families walking to and from San Antonio Elementary and LUCHA Elementary often cross midblock at San Antonio Street/Oakland Avenue due to limited marked crosswalks	<input checked="" type="checkbox"/>
