WHAT ARE YOUTH INTERVENTION SERVICES?

Youth Intervention Services is the City's internal team that delivers services to youth in the spectrum of risk, which may include such behaviors as school truancy, school expulsion, fighting and recreational drug or alcohol use. Youth Intervention Services provides various programs to assist youth in shifting from these behaviors to a more positive life path. These programs support youth in a variety of ways, and several have a strong case management component that allows staff to develop individual service plans and strategies specific to their youths' needs.
