

CITY SERVICE AREA

PUBLIC SAFETY

Mission: Engage the community to partner on public safety and emergency prevention, mitigation, preparedness, response, and recovery.

New Emergency Operations Center

The Public Safety Capital Improvement Program included in the Public Safety City Service Area supports infrastructure improvements necessary to provide effective emergency response services. Although this program is currently primarily funded by Measure T bond proceeds, the General Fund provides ongoing resources for apparatus replacement, and Construction and Conveyance (C&C) Tax revenue (8.4% of the total C&C receipts) is allocated to the Fire Department. This provides for ongoing fire safety equipment, furniture, fixtures, and equipment requirements for new fire facilities, and some emergency fleet apparatus needs.

Art Piece in front of the newly completed Fire Training Center

On November 6, 2018, 70.95% of the voters in San José approved Measure T, Disaster Preparedness, Public Safety and Infrastructure Bond, which authorized the City to issue General Obligation Bonds totaling \$650 million. Approximately \$207.1 million is intended for Public Safety and programmed in the Public Safety and Infrastructure Bond Fund for Emergency Management and capital improvements, significantly increasing the resources available to add, relocate, and renovate public safety facilities.

Fire Station 24 Remediation – Completion of Unfinished Rooms

One of the objectives of the C&C Tax Fund is to fund the replacement Monitor/Defibrillators, the Fire Department's technology infrastructure components, and Mobile Data Computers that have reached their end of life. Additionally, the Measure T Bond will fund two new fire stations (Fire Station 32 and 36), the relocation of Fire Station 8, the purchase of land for the future relocation of Fire Station 23, the building of the Police Training Center, and the relocation of the Air Support Hangar
