#### **INFORMATION**

#### **BACKGROUND**

This memorandum reports an overview on the financial assistance provided by the City of San José for Fiscal Years (FY) 2021-2022 and 2022-2023 to community-based organizations (CBOs). This report represents a quantitative analysis of total funding, including not only grants, but also operations and maintenance agreements, in-kind contributions, and below-market leases.

Information in this report was collected from WebGrants, the City's grant management system as well as supplementary data collected directly from the departments. Each department that administers a grant on behalf of the City is responsible for ensuring its department data is correct and up to date in WebGrants. The WebGrants system allows online posting of funding opportunities, submittal of applications, evaluation and scoring of applications, and notification of awards. After a grant has been awarded, grantees submits status reports and invoices through the system. The WebGrants database can be queried to provide an open source of City grant related information.

The information contained in this memorandum is for FYs ended June 30, 2022, and June 30, 2023.

#### **ANALYSIS**

Since FY 2011-2012, the City has collected data on financial assistance to CBOs using WebGrants. Data from that system was used to create this memorandum for FY 2021-2022 and FY 2022-2023.

For the FY ended June 30, 2022, the City provided \$108,971,540 of combined financial assistance to CBOs in the form of grants, in-kind support, below market leases, and operations and maintenance agreements. Of that amount, \$98,853,294 was provided in grants, \$384,000 of

in-kind contributions, \$5,791,746 in below market leases and \$3,942,500 for operations and maintenance (see Charts 1 and 2).

For the FY ended June 30, 2023, the City provided \$90,117,218 of combined financial assistance to CBOs in the form of grants, in-kind support, below market leases, and operations and maintenance agreements. Of that amount, \$79,880,697 was provided in grants, \$384,000 of in-kind contributions, \$5,791,746 in below market leases, and \$4,060,775 for operations and maintenance (see Charts 1 and 2).

Total funding including all types increased from \$89,061,783 in FY 2020-2021 to \$108,971,540 in FY 2021-2022 and decreased to \$90,117,218 in FY 2022-2023 (See Chart 2). The decrease in funding in FY 2022-2023 is due to reduced federal and state COVID-19-related grant assistance.
