I believe tenants rights are human rights
As the tech capital of the nation, it is our responsibility
to show that money is not our interest, and that the
communities, families, and inhabitants of San Jose are
our corner stone.

I urge you all to take action in the right direction

Thank you
A. Meja

As a resident of San Jose, CA and a renter, I know how hard it is to pay high rents, but also if you already have a place to be able to keep it. This is why I support the RENTERS RIGHTS. I will like to see this changes, because as right now I am been a victim of this situation, that has me in fear to think that I won't be able to find a safe, stable, and secure place for myself and children. Please support this project and believe that our people deserve to live in peace. Thank You.

On 3/31/17 I received a notice of my rent increase of \$600 a month starting in June. I called Ambrose and told him how unfair it was. He came back to me stating that he had to due to the increase of PG&E. I stated that we all work ~~in~~ and there was no way we could pay up the bill that high. (shoved w/ back house)

I reminded him that the back tenants were running a business w/o a license and due to the Co. name of "Stuffy Monkey 420" that maybe they are blowing drugs. Next day I received a 60 day notice to terminate tenancy.

Since it is hard to living in Bay Area, especially we only can earn a certain amount of income, and we're paying a lot out of our income. Moreover, we, the tenants, not only ~~obey~~ obey the rule from landlord, but also, we sometimes just kick out by landlord without any reason. We are students and focus on studying, so mostly, we're always lock ourself in a small space, high payment room.

I Support renters rights because I believe it's a just cause. I've been a renter for the last 4 years and I've seen the rent price go up each year. I often wonder if the cause is not just ~~that~~ because housing is getting expensive in general but maybe because they want to ~~dis~~ have us leave, indirectly kicking us out, because they don't want us anymore. To have so little control over a matter as basic as a roof over your head is ~~not only~~ scary. There should be a policy in place to protect renters from unfair evictions, and uncontrollable raise in rents.

Reason why I agree with this petition is because it is unlawful & unfair to tenants who have lived in their homes for "x" amount of years & are being evicted or are experiencing an inflation in their rent prices. Personally I have experienced inflation the past 2 years due to the "Tech" companies coming up in Silicon Valley. Not everyone in the San Jose area makes an avg salary of 90k + a year to afford the inflation. Other alternatives should come into play such as an increase in minimum wage as other places have which are affordable. AKA

I think the issue of renters rights is a topic of huge discussion especially here in San Jose. I currently work in San Jose for a nonprofit and have considered moving here, however the rent here is really high which has impacted my decision to live here. Not only that, but through the organization that I work with I have come in contact with a lot of San Jose families that have faced homelessness due to an increase in rent, immediate evictions, etc. Some of the families that I work with also live in really small homes and tend to be overcrowded.

I support Renter's Rights reasons above because I myself have been a victim of unjust eviction more than once. At a young age, my family was forced to move out because our apartment was the oldest and it wasn't renovated. The property owner wanted to remodel it and raise the rent. So young and unaware of why I had to leave the apartment where I grew up in, I had to throw away almost ~~all~~ all of my belongings. I couldn't keep that much because we had to fit all of belongings in one little car. I had to live away from my parents for one year because I still had to finish my school year. My whole life was impacted by this housing issue. I believe I'm not the only one who has gone through a situation like this which is why it is important for you to be considerate and compassionate toward these victims like me. I am currently being evicted again and rent is an issue for my family. I'm a college student studying at De Anza college and the leader of De Anza Renter's Rights. I have to balance work (a minimum wage job), school work and financial issues. I live ~~with~~ with my family because I want to help pay rent and someday buy a house of our own. But I can't do this until other people have a place to live too. Please save our rent controlled apartments and stop this landlord retaliation against tenants so that these

My experience here in San Jose has been about 60/40. When first moving to San Jose I witnessed how expensive everything was. Being here for about 4 months now since September I had to stay at a youth shelter until I turned 25 yrs old. Having a full-time job I faced saving up enough money to sustain a one bed-room or studio Apts. I now am renting a room for \$1185 a month and can't fully pay rent. The problem with renting a room or renting a house is not fair having to live or rent to others just to make rent and have a little bit of luxury or privacy. Coming from a state where having one job is all you need to live with comfort. Rent should be lowered to a more reasonable price. The majority of people living in San Jose are homeless not because it was their choice but because they couldn't make rent. ~~too~~ too many people fall victim.

I rented an apartment with 2 of my friends. We lived on Lucretia Ave at Summerwind Apartments. The beginning was horrible and the apartment owners did not take care of the issues we had going on inside the apartment. We had roach infestation and bed bug infestation. We had to live with these issues for 2 years. All our items and belongings were infested. They sent someone 4 times (bug exterminator) and they could not get rid of it. They simply told us there is nothing they could do. On top of that they charged us an extra 400\$ on our rent. They said they would go higher. They took our deposit and ~~asked~~ asked for \$1600 more when we moved out. They asked us not to write a bad review. We had to go to small claims court.

Renters are the most vulnerable citizens. Often, in San Jose, they must pay the greater part of their income for rent, and certainly do not have the means to retain legal representation to protect their rights. The city & county have an ethical & moral responsibility to protect these vulnerable citizens, who are an essential part of the city.

My experience in Mt. View in 2014 April with owners Kalliterna, who owned the property at 91 Church St. Mt. View, was just terrible. I wasn't the only one, at least 3/4 people in the complex received the same treatment in ~~eviction~~ ^{bad treatment} as the city was turned ~~to~~ ^{to} for many reasons. Their lack of upkeep brought the City of Mt. View to investigate the premises. I support Renters Rights!
I believe no one should be evicted from their home for no reason. I also believe that rent control is extremely important in this city. San Jose has a rich culture. Displacing residents out of the city, has no benefit to the city of San Jose.

I believe no one should live in poor conditions and pay such high rent. From my own experience me and my family of five lived in such poor housing environment. The old apartment was filled with roaches and my parents had to pay such high rent. Luckily we moved, but the people and friends we left behind are still dealing with the poor lifestyle.

Please support including duplexes in the Rent Control ordinance. I am a single parent and need your help that I won't be a victim of no cause evictions and unreasonable and unrealistic and unfair rent increases.

Thank you!

As a renter in San Jose myself, I agree w/ the Renters Rights Coalition that tenants should not be victim to retaliatory evictions or no-cause evictions. I also believe that some type of rent control should be enforced to prevent unreasonable rent increases & curb homelessness.
