APPLICATION PROCESS

Event organizers must complete and submit an event application, with all required attachments to the Office of Cultural Affairs. This application will provide the city with basic information regarding the proposed event; any additional necessary information will be obtained from the event organizer subsequent to the application.

This application will be distributed to city departments that may be involved in permitting and/or supporting the event described in this application, which may include: Police, Fire, Parks, Recreation and Neighborhood Services, Transportation, Public Works, Planning, Building, Code Enforcement, Risk Management, Environmental Services, and County Health. The application will be reviewed by these departments in order to determine required conditions, the scope and estimated cost of city support services, and the permits that will be required (for example, park use or tow zone). As the applicant, you will be responsible for providing all required insurance certificates and prepayments for city services and city equipment prior to the event. After the event, you will be responsible for paying the city for the actual cost of city services and equipment provided to support your event. Cancellation charges may be applied. There are no refunds for inclement weather.

You may be requested to attend a pre-event meeting to discuss the proposed event with liaisons from city departments. Non-city permitting agencies (for example, County Environmental Health) and other stakeholders (neighborhood association, adjacent businesses, etc.) may also attend the meeting. City staff may also contact you to secure any additional information that might be required, and to keep you apprised of the status of your application.
