WHO WAS DOERR?

Robert Doerr was a former mayor of San José who served from 1956 to 1958. During his tenure, he strengthened ties between San José and the global community by establishing the City's first Sister City relationship with Okayama, Japan. That partnership paved the way for many more Sister City relationships around the world that continue to this day. As you walk along Doerr Parkway, you'll see San Jose's Sister Cities ordered as each new relationship was formalized. Visit Downtown's Guadalupe River Park to view several Sister City seating areas along the Guadalupe River Trail.
