NOTICE OF AVAILABILITY OF A DRAFT FOCUSED ENVIRONMENTAL IMPACT REPORT (EIR) AND PUBLIC COMMENT PERIOD

Draft Environmental Impact Report (EIR) for the **Autumn Street-Coleman Avenue Improvement Project**, File No.: PP06-166, located in Council Districts 3 & 6. The objective of the project is to provide additional roadway capacity in the Coleman-Autumn corridor in order to adequately accommodate projected traffic demand. The proposed improvements are a key component of the *Downtown San José Strategy 2000 Plan*, a long-term plan for development in the greater downtown area that was approved by the San José City Council in June 2005.

Coleman Avenue will be widened from four lanes to six lanes between Hedding Street and Autumn Street, a distance of approximately 0.8 miles. The widened roadway will include a raised median and bike lanes, landscaping, signage, street lighting, sidewalks, curbs and gutters. The bulk of the widening will occur along the east side of Coleman Avenue.

Autumn Street, between Park Avenue and Santa Clara Street will be converted from 1-way to 2-way traffic and will be widened to include two lanes in each direction. Most of the widening will occur along the east side of Autumn Street. Between Santa Clara Street and Saint John Street, Autumn Street will be widened to allow for up to four lanes of traffic during peak events at the adjacent HP Pavilion. During normal operations, the roadway will be striped for one lane in each direction and on-street parking will be permitted. Between Park Avenue and Santa Clara Street, Montgomery Street will become a minor 2-way street with a cul-de-sac constructed at the southerly end.

The proposed improvements to Coleman Avenue and Autumn Street will require the acquisition of substantial additional right-of-way. The additional right-of-way will directly result in the displacement of approximately four single-family residences and approximately 36 businesses and the demolition of structures on those properties.

The proposed project will have potentially significant environmental effects with regard to Noise and Historic Resources. The California Environmental Quality Act (CEQA) requires this notice to disclose whether any listed toxic sites are present at the project location. The project study area does contain properties in the Cortese List of toxic sites.

The Draft EIR and documents referenced in the Draft EIR are available for review online at the City of San José's website: <http://www.sanjoseca.gov/planning/eir/eir.asp> and are also available at the following locations:

Dr. Martin Luther King Jr. Main Library
150 E. San Fernando St.
San José, CA 95112
(408) 277-4822

The public review period for this Draft EIR begins on **October 17, 2007** and ends on **November 30, 2007**. Written comments must be received at the Planning Department by **5:00 p.m.** on Friday, November 30, 2007, in order to be addressed as part of the formal EIR review process. Comments and questions should be referred to Michael Rhoades in the Department of Planning, Building and Code Enforcement at (408) 535-7821, via e-mail: michael.rhoades@sanjoseca.gov, by fax at (408) 292-6055, or by regular mail at the mailing address listed above. Please reference file number PP06-166 in your written comment letter.

Following the close of the public review period, the Director of Planning, Building, and Code Enforcement will prepare a Final Environmental Impact Report that will include responses to comments received during the review period. Ten days prior to the public hearing on the EIR, the City's responses to comments received during the public review period will be available for review and will be mailed to those who have commented in writing on the EIR during the public review period.

A public hearing before the Planning Commission to consider certification of the Final EIR is tentatively scheduled for **January, 30 2008**, at 6:30 p.m. in the City Council Chambers at San José City Hall, 200 East Santa Clara Street, San José, CA 95113-1905.

Memorandum

TO: PLANNING COMMISSION

**SUBJECT: COLEMAN AVENUE
WIDENING AND AUTUMN
STREET EXTENSION**

FROM: Manuel Pineda

DATE: 01-22-08

COUNCIL DISTRICT: 3

BACKGROUND

The goal of the Coleman/Autumn transportation corridor project is to provide a safe, efficient, and attractive route to Downtown San Jose from Route 880 and to facilitate economic development of the Diridon/Arena area. The adopted development plan for Downtown San Jose (Downtown Strategy Plan 2000) includes expansion of the Downtown core area westerly to the San Jose Diridon transit station area, near the Arena (HP Pavilion). The plan identifies the Coleman/Autumn transportation corridor project as a high priority for facilitating development of the area. The specific features of the project include:

- Upgrading Coleman Avenue to a 6-lane boulevard with bike lanes, sidewalks, landscaped median.
- Extending Autumn Street as a 2/4-lane parkway from Coleman Avenue to St. John Street with an attractive frontage to the Guadalupe River Park.

Portions of the Coleman/Autumn plan have been implemented with the Route 880/Coleman interchange upgrade and the San Jose Market Place retail development.

The Coleman/Autumn transportation corridor project is included in the regional transportation master plan, known as Valley Transportation Plan (VTP) 2030. Therefore the project is eligible for grant funding from regional, state, and /or federal sources.

ANALYSIS

The key issues in analyzing the proposal are its needs and consistency with the San Jose General Plan Major Strategies, Goals, and Policies.

Policy Need

The San Jose General Plan, Diridon/Arena Strategic Development Plan, Downtown Strategy 2000 EIR, and the Downtown Access and Circulation Study all identify the Coleman Avenue

widening and Autumn Street extension projects as necessary to support the ongoing growth and development of the Downtown as an employment, housing, and cultural center. Both improvements are identified as phase 1 infrastructure improvements required for downtown development as part of the Downtown Strategy 2000 as they create a new access point to the expanded core and alleviate traffic congestion and Level-of-Service impacts for the general area.

With the additional traffic capacity this transportation corridor also improves overall circulation patterns by creating a more desirable route to the Diridon area. The project provides the following traffic capacity benefit to parallel corridors:

Roadway	Volume Decrease	Policy Goal
The Alameda	20%	Neighborhood Business District
First	10%	Transit Corridor
3rd/4th	20%	Couplet Conversion
10 th /11th	15%	Couplet Conversion

Design Goals

The project achieves the following goals:

- Develop Coleman Avenue as a grand boulevard with landscaped median islands.
- Develop a new bike corridor to Downtown San Jose.
- Develop more direct access to/from Mineta San Jose International Airport.
- Makes the Coleman/Autumn corridor the preferred Downtown access for Route 880 traffic.
- Meets the goals of the Diridon /Arena Strategic Development Plan for Autumn Street.
- Increases parking opportunities on Autumn Street.
- Develops attractive frontages for the Guadalupe Gardens and Guadalupe River parks.

Implementation Strategy

As with any other projects of this magnitude, the City will propose to pursue future funding for the project in separate phases. The current priority phasing strategy for construction is as follows:

- Phase 1 – Extension of Autumn Street from where it currently terminates at the Market Center development to St. John Street.
- Phase 2 – Widening of Coleman Avenue from Hedding to Taylor.
- Phase 3 – Widening of Autumn Street from St. John to Park.
- Phase 4 – Widening of Coleman Avenue from Taylor to Autumn.

The phasing of the project could change based on funding opportunities and possible future development.

PUBLIC OUTREACH/INTEREST

- ☐ **Criterion 1:** Requires Council action on the use of public funds equal to \$1 million or greater. **(Required: Website Posting)**
- ☐ **Criterion 2:** Adoption of a new or revised policy that may have implications for public health, safety, quality of life, or financial/economic vitality of the City. **(Required: E-mail and Website Posting)**
- ☐ **Criterion 3:** Consideration of proposed changes to service delivery, programs, staffing that may have impacts to community services and have been identified by staff, Council or a Community group that requires special outreach. **(Required: E-mail, Website Posting, Community Meetings, Notice in appropriate newspapers)**

The project has been part of a number of community processes including the Downtown Strategy 2000, the Diridon Arena Strategic Plan and the Downtown Access and Circulation Study.

Community meetings were held in discussion of the preliminary design on February 22nd and April 17th of 2007.

COORDINATION

The Coleman Avenue/ Autumn Street improvement project and has been prepared in coordination with the Departments Public Works, and Planning, Building and Code Enforcement, the City Attorney's Office, and the San Jose Redevelopment Agency.

Subject: Coleman Avenue/Autumn Street Improvements
SCH#: 2007042035

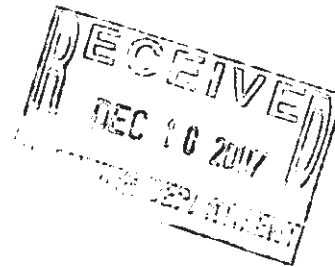

Dear Michael Rhoades:

The State Clearinghouse submitted the above named Draft EIR to selected state agencies for review. The review period closed on November 30, 2007, and no state agencies submitted comments by that date. This letter acknowledges that you have complied with the State Clearinghouse review requirements for draft environmental documents, pursuant to the California Environmental Quality Act.

Please call the State Clearinghouse at (916) 445-0613 if you have any questions regarding the environmental review process. If you have a question about the above-named project, please refer to the ten-digit State Clearinghouse number when contacting this office.

Sincerely,

Terry Roberts
Director, State Clearinghouse

Notice of Preparation

April 5, 2007

To: Reviewing Agencies

Re: Coleman Avenue/Autumn Street Improvements
SCH# 2007042035

Attached for your review and comment is the Notice of Preparation (NOP) for the Coleman Avenue/Autumn Street Improvements draft Environmental Impact Report (EIR).

Responsible agencies must transmit their comments on the scope and content of the NOP, focusing on specific information related to their own statutory responsibility, within 30 days of receipt of the NOP from the Lead Agency. This is a courtesy notice provided by the State Clearinghouse with a reminder for you to comment in a timely manner. We encourage other agencies to also respond to this notice and express their concerns early in the environmental review process.

Please direct your comments to:

Michael Rhoades
City of San Jose
200 East Santa Clara Street
San Jose, CA 95113-1905

with a copy to the State Clearinghouse in the Office of Planning and Research. Please refer to the SCH number noted above in all correspondence concerning this project.

If you have any questions about the environmental document review process, please call the State Clearinghouse at (916) 445-0613.

Sincerely,

Scott Morgan
Senior Planner, State Clearinghouse

**NOTICE OF PREPARATION
OF A
DRAFT ENVIRONMENTAL IMPACT REPORT
FOR
COLEMAN AVENUE/AUTUMN STREET IMPROVEMENTS
SAN JOSÉ, CALIFORNIA**

FILE NUMBER: PP06-166

As the Lead Agency, the City of San José will prepare an Environmental Impact Report (EIR) for the above-referenced project and would like your views regarding the scope and content of the environmental information to be addressed in the EIR. This EIR may be used by your agency when considering approvals for this project.

The project description, location, and probable environmental effects are attached.

According to State law, the deadline for your response is 30 days after receipt of this notice; however, we would appreciate an earlier response, if possible. Please identify a contact person and send your response to:

**NOTICE OF PREPARATION
of an Environmental Impact Report
for the**

**COLEMAN AVENUE/AUTUMN STREET IMPROVEMENTS
SAN JOSÉ, CA**

January 2007

A. INTRODUCTION

The purpose of an Environmental Impact Report (EIR) is to inform decision makers and the general public of the environmental effects of a proposed project. The EIR process is intended to enable public agencies to evaluate a proposed project, establish methods for reducing adverse environmental impacts, and consider alternatives to a project prior to the approval of a project.

B. PROJECT LOCATION

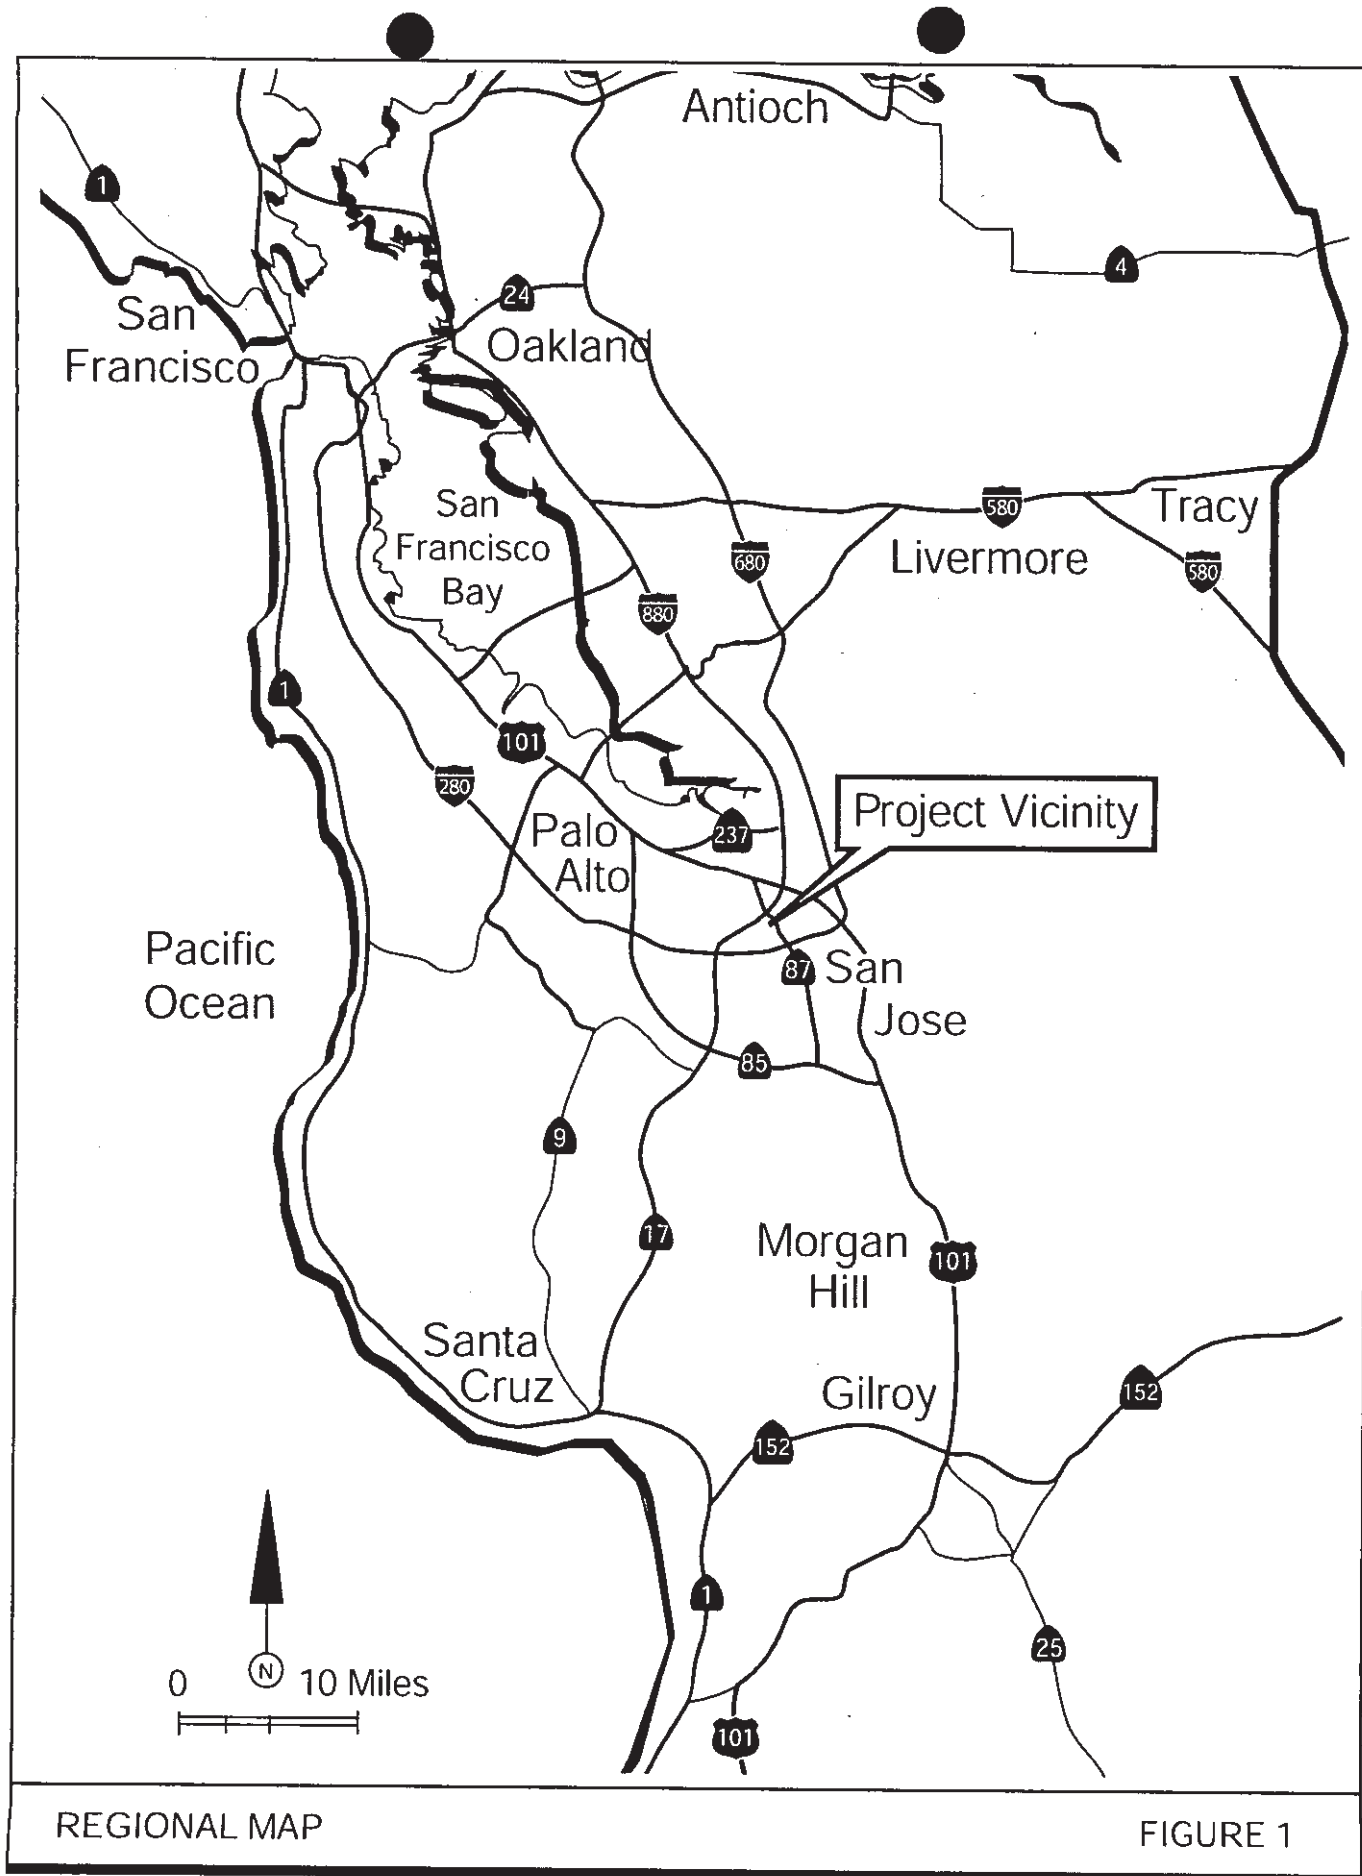

The proposed improvements will occur on portions of Coleman Avenue and Autumn Street, both of which are located within the central portion of the City of San José. The project limits on Coleman Avenue are Hedding Street on the north and Autumn Street on the south. The project limits on Autumn Street are Coleman Avenue on the north and Park Avenue on the south. See Figures 1 - 3 on the following pages.

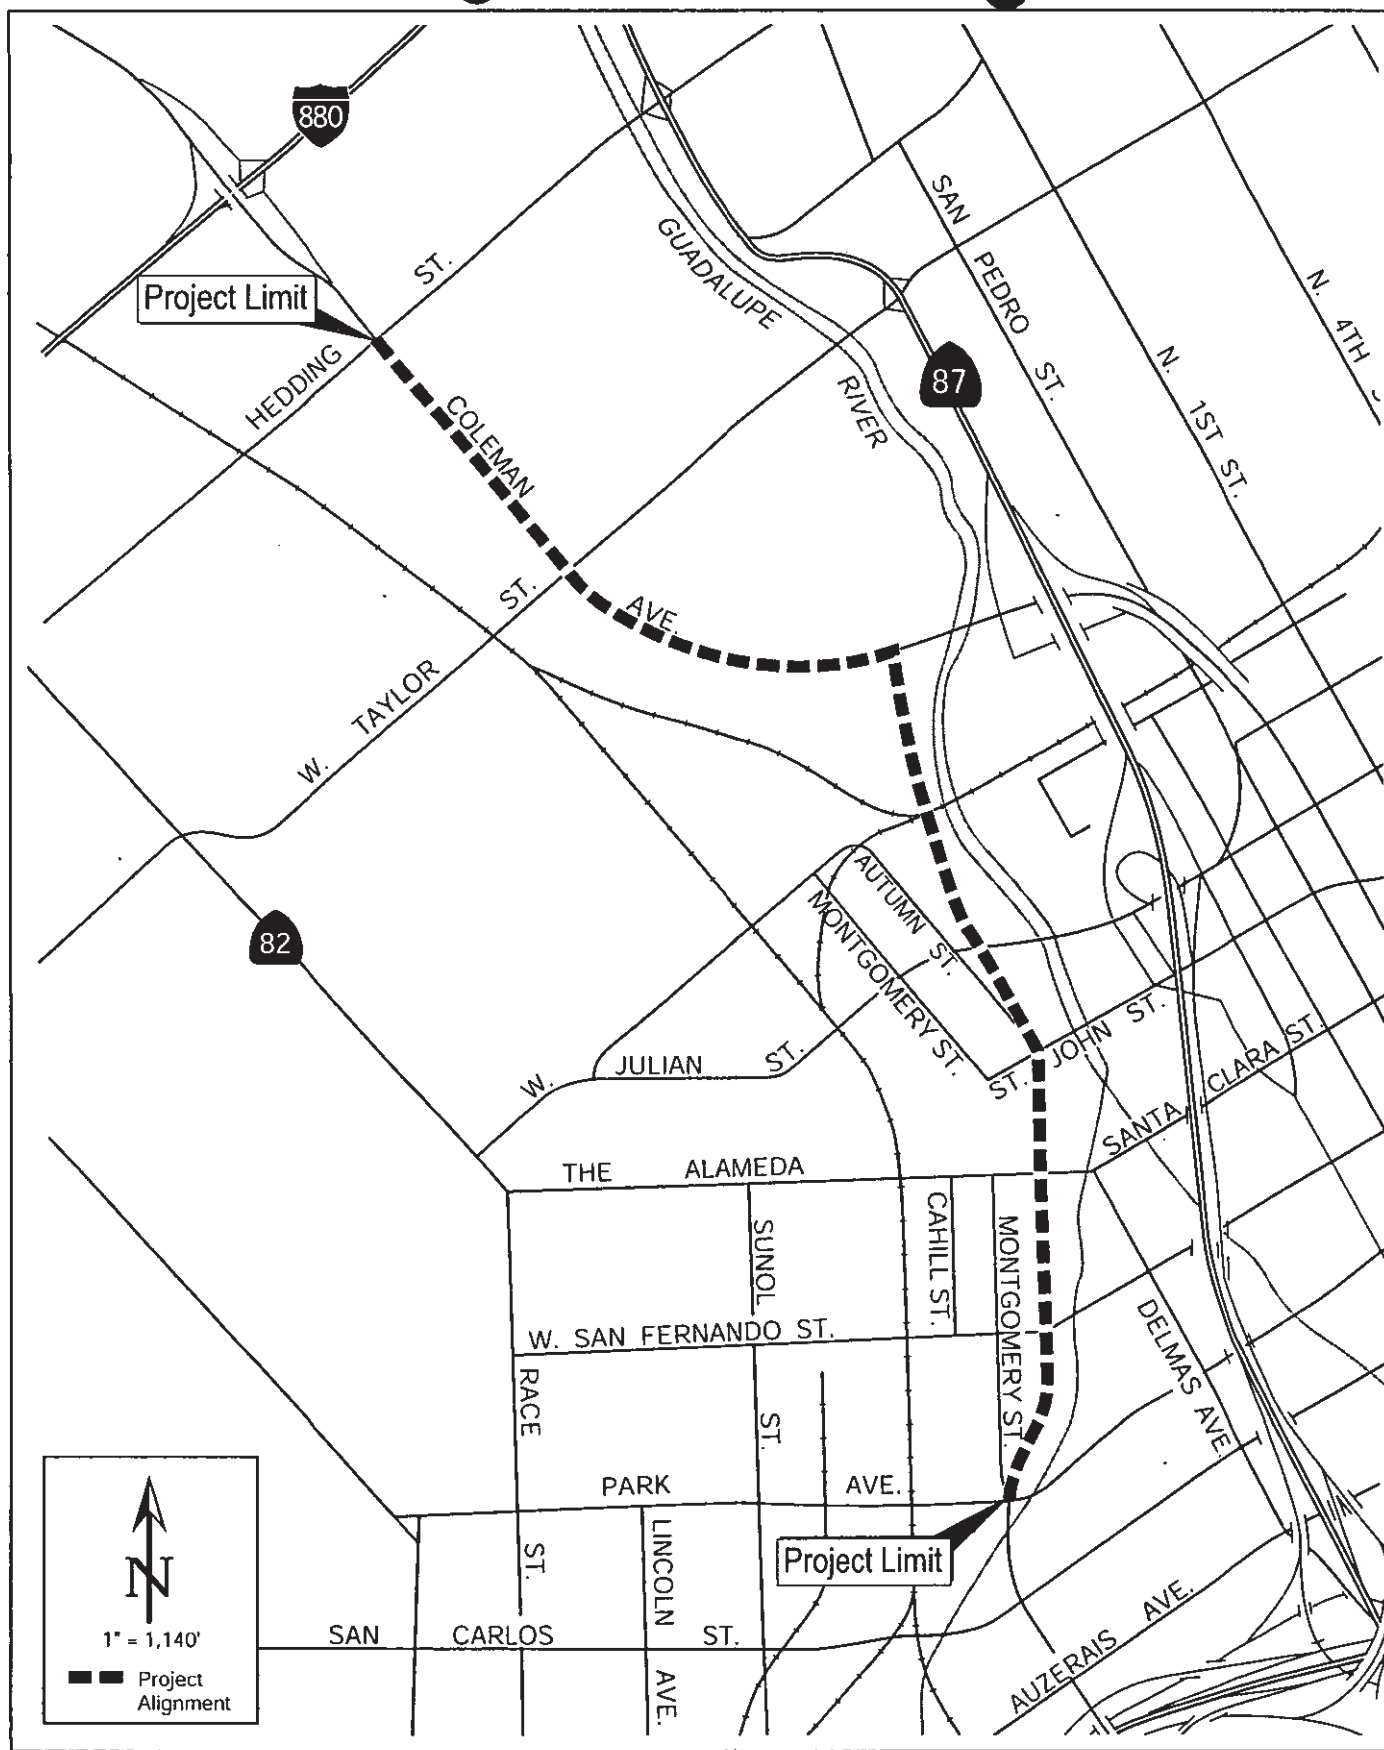

C. DESCRIPTION OF PROJECT

The proposed project consists of extensive improvements to Coleman Avenue and Autumn Street in San José. The purpose of the improvements is to provide additional roadway capacity in the Coleman-Autumn corridor, which is a major gateway to Downtown San José, in order to adequately accommodate projected traffic demand. The proposed improvements are a key component of the *Downtown San José Strategy 2000*, a long-term plan for development in the greater Downtown area that was approved by the San José City Council in June 2005.

1. Coleman Avenue Improvements

The project will widen Coleman Avenue to six lanes between Hedding Street and Autumn Street, a distance of approximately 0.8 mile. This segment of Coleman Avenue is currently four lanes. North of Hedding Street, Coleman Avenue has recently been widened to six lanes as part of the I-880/Coleman Avenue Interchange Improvement Project.

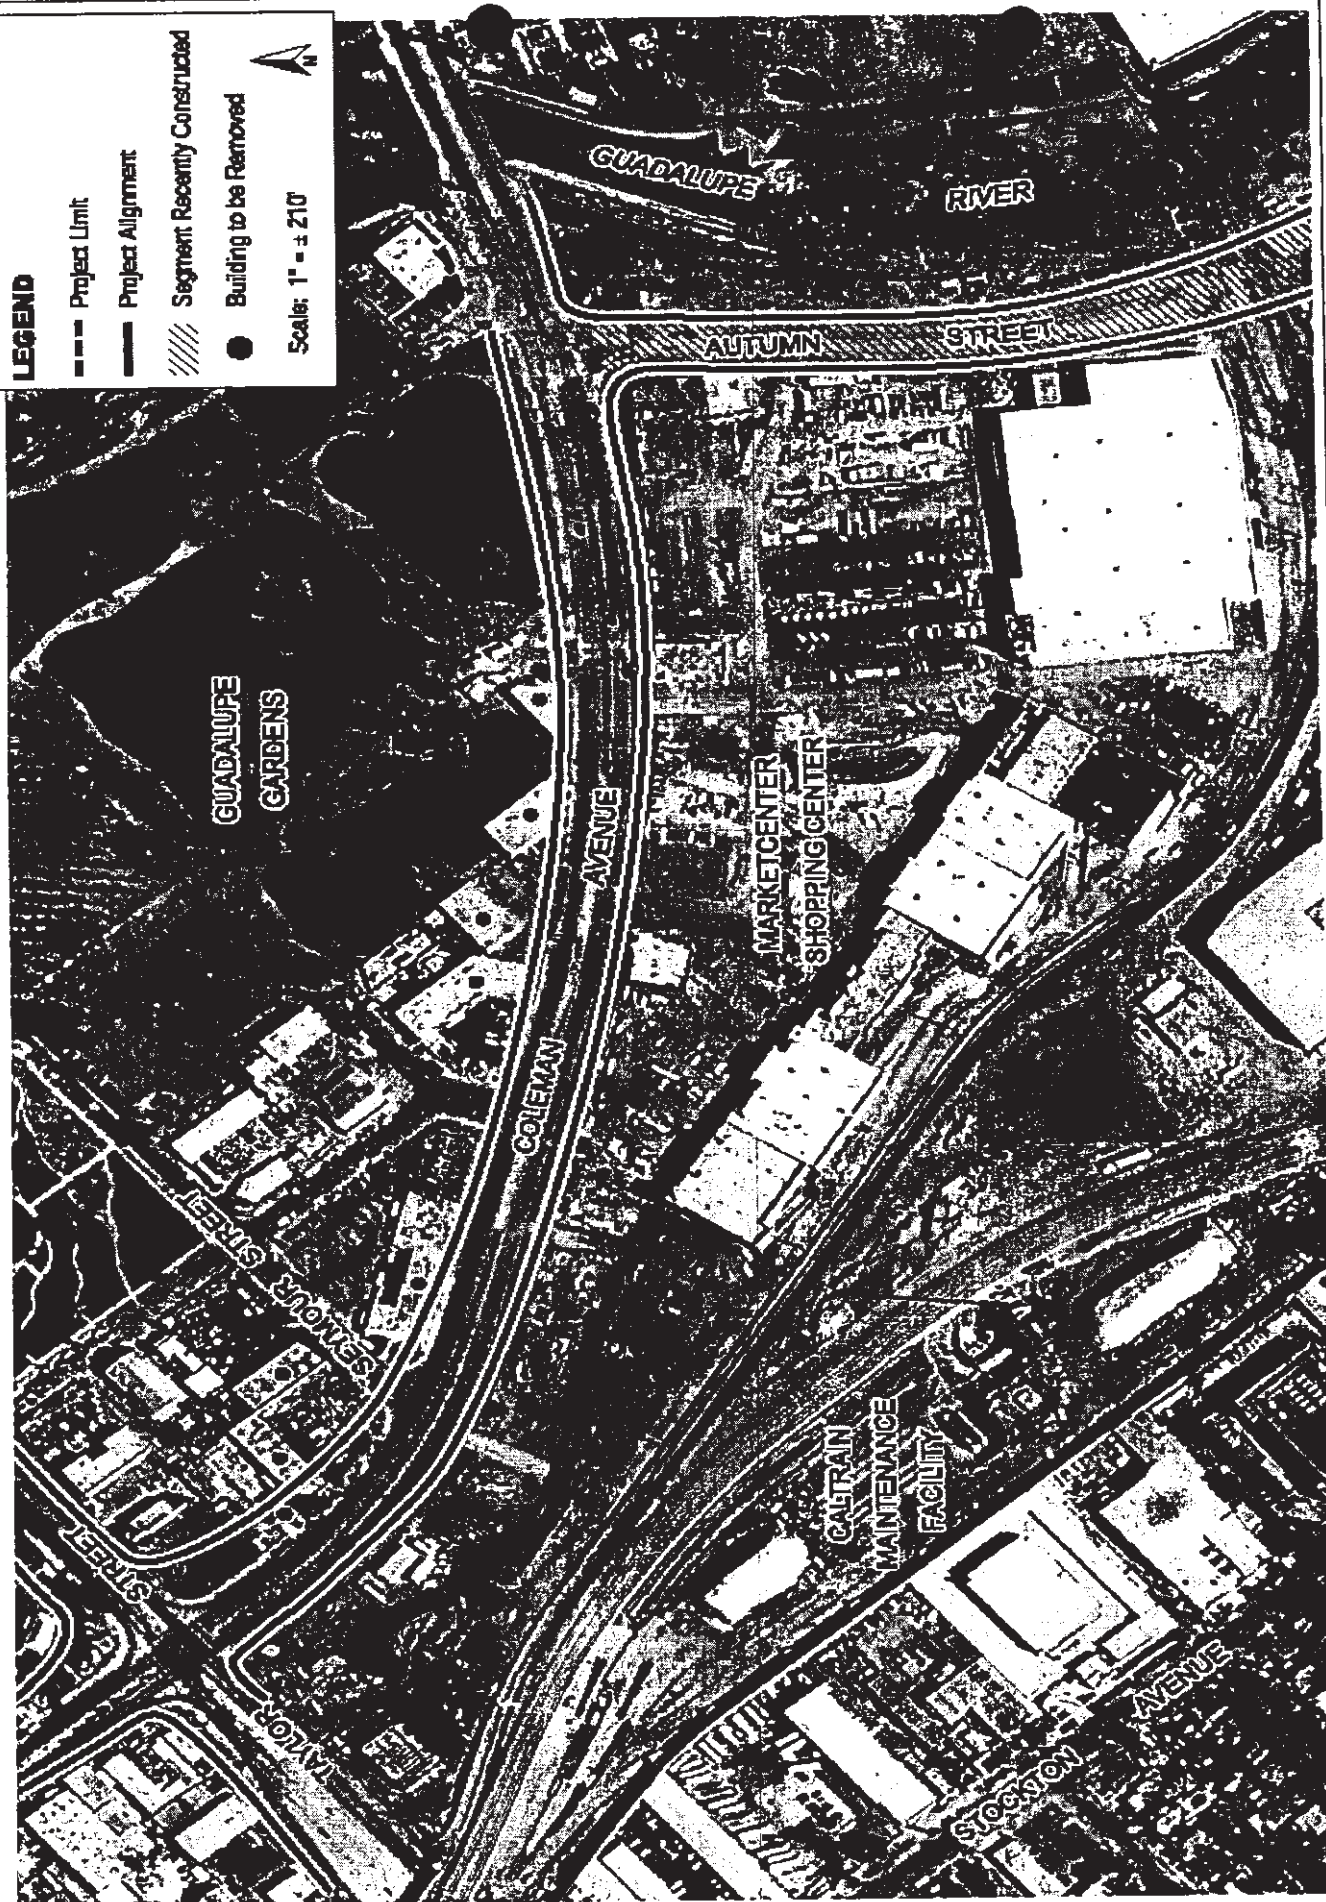

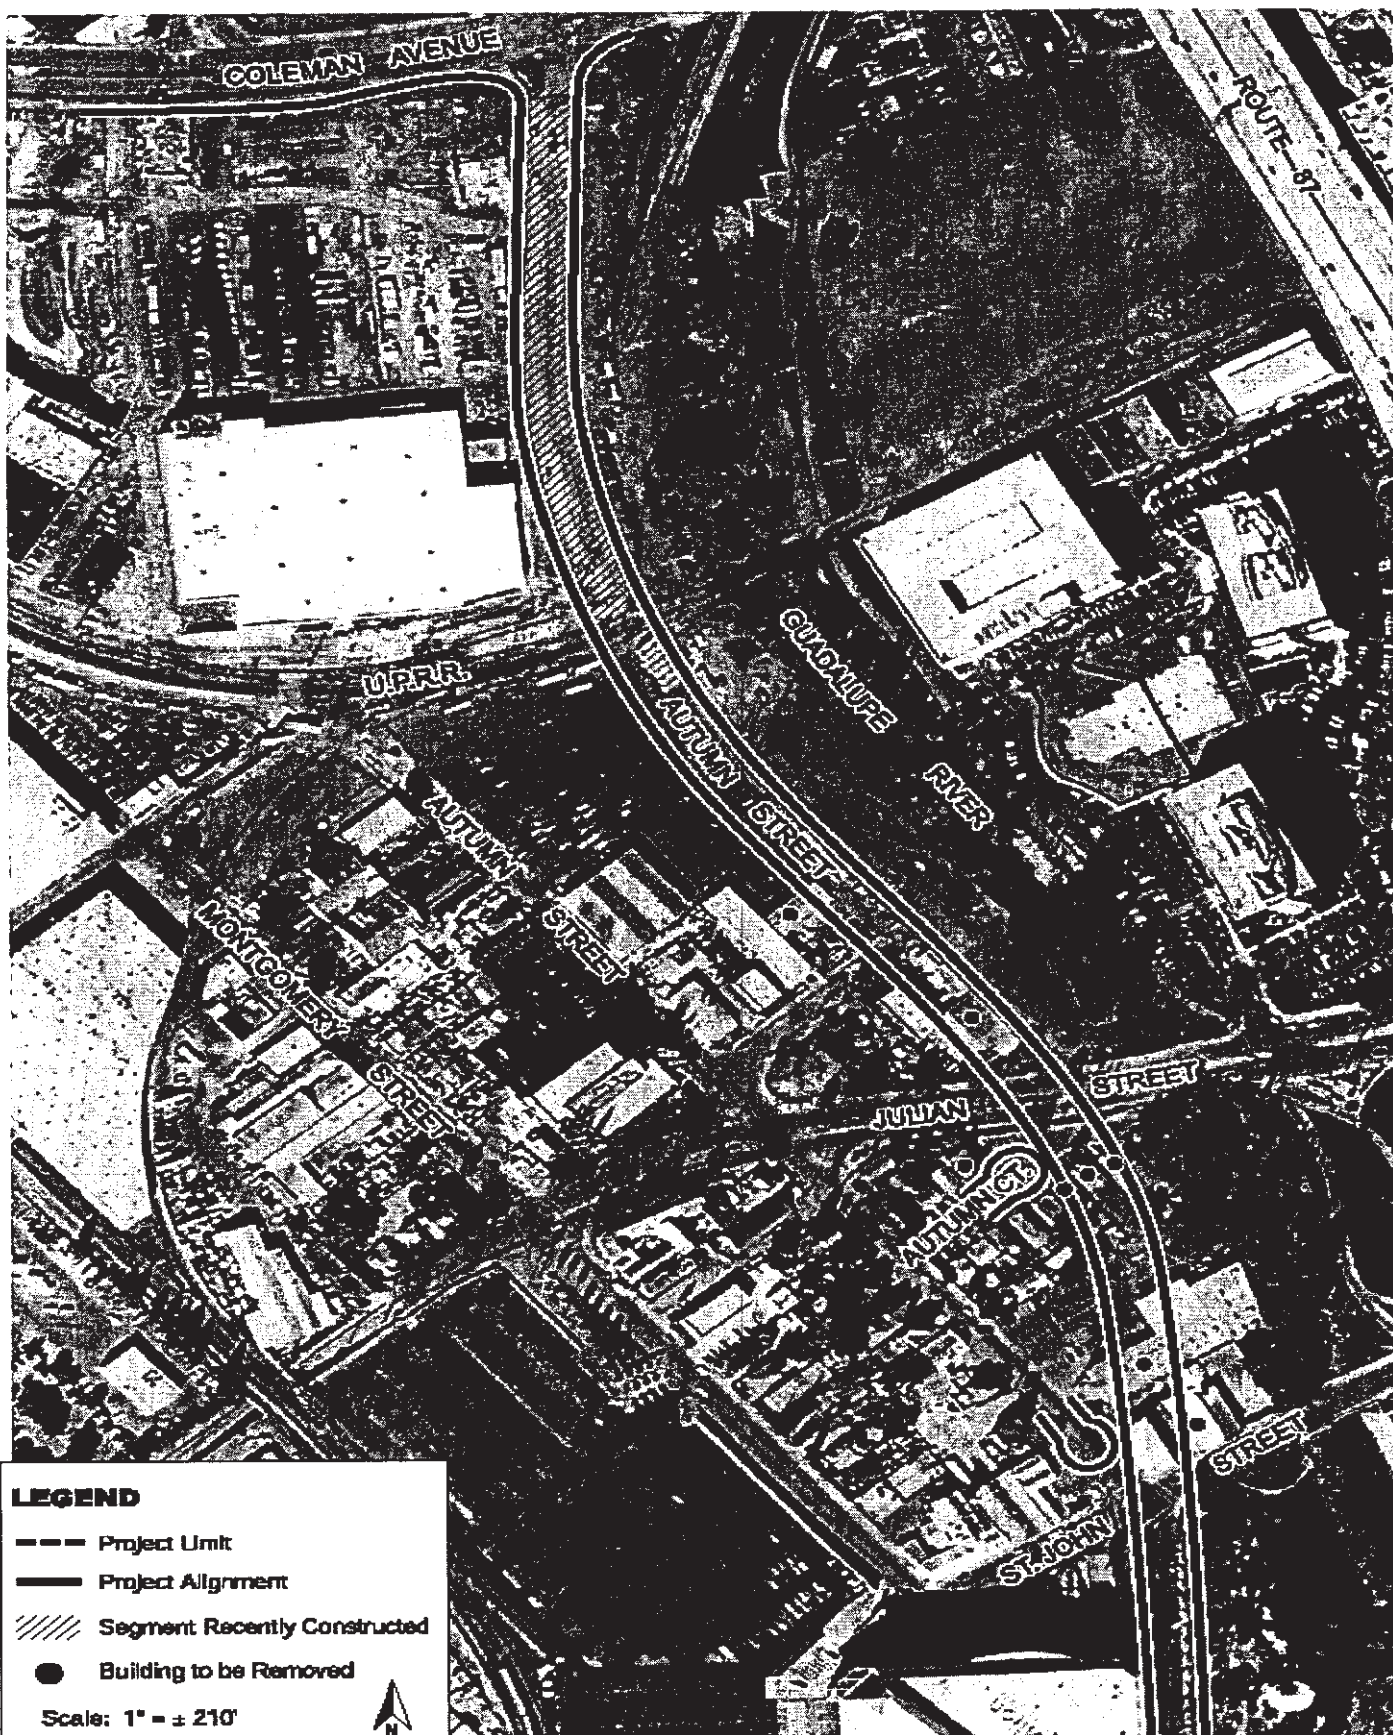

FIGURE 3B

PROJECT PLANS

PROJECT PLANS

FIGURE 3C

The widened roadway will include six thru lanes, a raised median, and bike lanes. It will also include new curbs, gutters, sidewalks, street lighting, signage, and landscaping, as necessary, in accordance with City standards and policies.

Almost all of the proposed widening will occur along the east side of Coleman Avenue. Widening along the west side, if any, would be minor in nature (e.g., realignment of existing curb and/or sidewalk) and would be limited to the segment north of Taylor Street. South of Taylor Street, there would be no widening on the west side.

The project will include modifications to Taylor and Hedding Streets at their intersections with Coleman Avenue in order to conform to the widened roadway. With the project in place, the following intersections along Coleman Avenue will be limited to right turns only: University Avenue, Emory Street, Asbury Street, Seymour Street, Hobson Street, and Spring Street.

The proposed widening will require additional right-of-way. Most of the right-of-way is proposed to be acquired from properties located along the east side of Coleman Avenue, but minor amounts may be needed from west side parcels. At many locations, the additional right-of-way will necessitate the purchase of the entire parcel, which in turn will entail the displacement of various businesses. Table 1 lists *preliminary* right-of-way requirements for the Coleman Avenue widening; these requirements are subject to change as the project design is developed and refined.

2. Autumn Street Improvements

The project will widen, partially realign, and extend Autumn Street between Coleman Avenue and Park Avenue, a distance of approximately 1.1 miles. Autumn Street currently varies from two to three lanes and terminates north of Julian Street.

Park Avenue to Santa Clara Street

Currently, Montgomery and Autumn Streets are one-way streets between Santa Clara Street on the north and Park Avenue on the south. Together they function as a couplet, with southbound traffic using Montgomery Street and northbound traffic using Autumn Street. The project proposes to convert this couplet to four lanes of two-way traffic using the Autumn Street alignment. Between Santa Clara Street and Park Avenue, Montgomery Street would become a minor two-way street with a cul-de-sac constructed at the southerly end.

Between Park Avenue and Santa Clara Street, Autumn Street will be widened to four lanes, two lanes in each direction. Most of the proposed widening will occur along the east side of Autumn Street. With two exceptions, widening along the west side would be minor in nature. The exceptions are located south of San Fernando Street, where two buildings (115 S. Autumn Street and 150 S. Montgomery Street) may be impacted.

TABLE 1**PRELIMINARY COLEMAN AVENUE RIGHT-OF-WAY REQUIREMENTS**

Assessor's Parcel No.	Property Address	Right-of-Way Required	Impact of Acquisition
230-40-079	909 Coleman Ave.	narrow strip along Hedding	realign curb and/or sidewalk

259-13-087	590 Coleman Ave.	entire parcel	removal of 5 automotive repair businesses
259-13-089	560 Coleman Ave.	entire parcel	removal of 1 business: Bay Hydraulics
259-13-088	550 Coleman Ave.	entire parcel	removal of 1 business: Bayland Battery
259-13-057	500 Coleman Ave.	entire parcel	removal of 1 business: Bevan's Electric
Information in this table is preliminary and is subject to revision.			

The widened Autumn Street will include a raised median. It will also include new curbs, gutters, sidewalks, street lighting, signage, and landscaping, as necessary, in accordance with City standards and policies.

Most of the right-of-way is proposed to be acquired from properties located along the east side of Autumn Street, but some right-of-way will be needed from west side parcels. At many locations, the additional right-of-way will necessitate the purchase of the entire parcel, which in turn will entail the displacement of various businesses. Table 2 lists *preliminary* right-of-way requirements for the Autumn Street widening; these requirements are subject to change as the project design is developed and refined. Note from Table 2 that some of the parcels that would be affected by the Autumn Street widening would also be affected by the planned BART Extension to San José/Santa Clara Project or the proposed Baseball Stadium Project.

TABLE 2

PRELIMINARY AUTUMN STREET RIGHT-OF-WAY REQUIREMENTS

Assessor's Parcel No.	Property Address	Right-of-Way Required	Impact of Acquisition
259-25-049	n/a (Santa Clara Valley Water Dist.)	≈ 1,200 ft ² (≈ 75' x 16')	vacant

259-48-053	150 S. Montgomery Street	entire parcel (also impacted by Ballpark)	removal of 1 business: Pacific Blue Traders
Information in this table is preliminary and is subject to revision.			

Santa Clara Street to Saint John Street

This segment of Autumn Street will be widened to allow for up to four lanes of traffic during peak events (e.g., sporting events or concerts at the adjacent HP Pavilion). The roadway will, however, be striped for one lane of traffic in each direction during normal operations and on-street parking will be permitted. During peak events, on-street parking would be prohibited so as to provide for four lanes of traffic.

The proposed improvements along this segment of Autumn Street would not require any additional right-of-way.

Saint John Street to Coleman Avenue

Beginning at Saint John Street and extending northward, Autumn Street will be realigned to the east of its current alignment. The new alignment will parallel the Guadalupe River and will connect to Coleman Avenue. [Note: The northernmost 700± feet of what will be the realigned Autumn Street, which is the piece that extends from Coleman Avenue to the Union Pacific Railroad (UPRR) track, was recently constructed as part of the adjacent development.]

The new Autumn Street will be constructed to allow for up to four lanes of traffic during peak events (e.g., sporting events or concerts at the adjacent HP Pavilion). The roadway will, however, be striped for one lane of traffic in each direction during normal operations and on-street parking will be permitted. During peak events, on-street parking would be prohibited so as to provide for four lanes of traffic.

The new Autumn Street will include a raised median, curbs, gutters, sidewalks, street lighting, signage, and landscaping. There will be an at-grade crossing of the UPRR track, which will be protected with warning lights, bells, and gates. The intersection of new Autumn Street and Julian Street will be signalized.

The project will include the construction of a cul-de-sac on existing Autumn Street just north of Saint John Street. The length of Autumn Court, an existing residential cul-de-sac that extends between Autumn Street and the Guadalupe River, will be shortened.

The proposed realignment will require substantial right-of-way. At many locations, the right-of-way will necessitate the purchase of the entire parcel, which in turn will entail the displacement of various businesses and residences. Table 2 lists *preliminary* right-of-way requirements for the Autumn Street realignment; these requirements are subject to change as the project design is developed and refined.

D. ENVIRONMENTAL IMPACTS TO BE ANALYZED

The proposed project was evaluated in the *San José Downtown Strategy 2000 Project Program EIR* (the "Program EIR"). The Program EIR was certified by the City in 2005. At the time the Program EIR was prepared, the scope of the Autumn/Coleman improvements was known only at a conceptual level. The City has now developed more detailed plans for the project.

Given the magnitude of the proposed project, including the fact that it will require the acquisition of numerous properties (see Tables 1 and 2), the City has decided to prepare an EIR to describe the environmental effects at a "project" level. Consistent with §15168(c)(1) of the CEQA Guidelines, the EIR will tier off of the 2005 Program EIR and will focus on effects that were not examined in the Program EIR. Specific impact categories to be addressed in the EIR will include, but will not be limited to, the following:

1. **Traffic Circulation:** The project will affect traffic patterns in the area. These changes will be summarized based upon the traffic analysis contained in the Program EIR.
2. **Archaeological Resources:** The project is located in an archaeologically-sensitive area. Potential impacts to archaeological resources will be described. Mitigation measures will also be discussed in the EIR.
3. **Historical Resources:** The project will directly impact more than 30 buildings. Each building will be evaluated as to its potential historic significance. For any building determined to be an historic resource, the EIR will describe mitigation and avoidance measures.
4. **Noise:** The roadway improvements will result in an increase in traffic volumes on Coleman Avenue and Autumn Street. In addition, traffic will be moved closer to adjacent receptors. Increases in noise due to these changes will be quantified, with focus on locations where such increases may affect sensitive receptors (e.g., residences).
5. **Biological Resources:** Although the project is located in an urbanized area, the proposed improvements will result in the removal of trees. This impact will be quantified in the EIR, including a discussion of the species, size, and health of the trees. Mitigation measures will also be described.
6. **Hazardous Materials:** The EIR will describe existing conditions along the project alignment and assess the potential for exposure to hazardous materials. The discussion will focus on past and present land uses, as pertains to the use and/or storage of hazardous substances.
7. **Land Use:** The compatibility of the project will adopted land use plans and policies will be described in the EIR. Such plans and policies include the San José Downtown Strategy 2000 Plan, the Riparian Corridor Policy Study, the Guadalupe Gardens Master Plan, and the Diridon/Arena Strategic Development Plan.
8. **Hydrology/Water Quality:** Impacts of the project on flooding will be described. The short- and long-term effects on water quality will also be described.
