

YOU'RE INVITED

Green Infrastructure Plan Public Meeting

Thursday, November 15, 2018 • 6 p.m. – 7:30 p.m.

Roosevelt Community Center
901 E. Santa Clara St., San José

The City of San José is hosting a public meeting to inform the community about the Green Infrastructure Plan and gather feedback.

❖ Martha Gardens (Pavement and drainage improvements)

Before

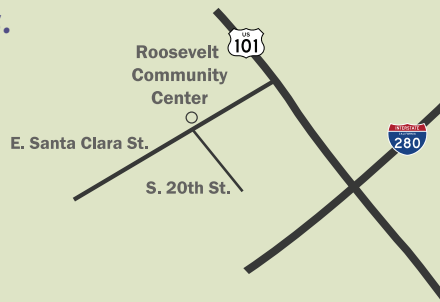

After

The Green Infrastructure Plan will guide the City's implementation of green infrastructure, which uses vegetation, soils and natural systems to manage water and create healthier urban environments.

For more information:

- Go to sjenvironment.org/greenstreets
- Email Aaron.Kinney@sanjoseca.gov
- Or call 408-975-2561

What is Green Infrastructure?

- Green infrastructure employs physical, biological and chemical processes to remove pollutants from stormwater runoff, protecting our waterways.

Community Benefits:

- Improved air and water quality
- Reduce flooding
- Better pedestrian and bicycle safety
- Traffic calming
- Enhanced wildlife habitat
- Healthier urban environment
- Neighborhood beautification
