HONORABLE MAYOR and CITY COUNCIL

**THE COMPREHENSIVE ANNUAL FINANCIAL
REPORT OF THE CITY OF SAN JOSÉ**

We are pleased to present the Comprehensive Annual Financial Report (“CAFR”) of the City of San José (“City”) for the fiscal year July 1, 2017 through June 30, 2018 as required by Sections 805(a) and 1215 of the City Charter. Although submitted to the Mayor and City Council (“Council”) for consideration, the CAFR is also intended to provide relevant financial information to the residents of San José, taxpayers, creditors, investors, and other interested parties.

This letter of transmittal provides a non-technical summary of City finances, services, achievements, and economic prospects. We ask that readers who wish a more detailed discussion of the City’s financial results refer to Management’s Discussion & Analysis contained in the Financial Section of the CAFR.

The City Administration is responsible for the accuracy of the information contained in this report, the adequacy of its disclosures, and the fairness of its presentation. We believe this CAFR to be complete and reliable in all material respects. To provide a reasonable basis for making this representation, we have established a comprehensive system of internal controls designed to protect City assets from loss, to identify and record transactions accurately, and to compile the information necessary to produce financial statements in conformity with generally accepted accounting principles.

The City contracted with Macias Gini & O’Connell LLP, a firm of Certified Public Accountants licensed to practice in the State of California, to perform the annual independent audit. The auditors expressed an opinion that the City’s financial statements for Fiscal Year 2017-2018 are fairly stated in conformity with accounting principles generally accepted in the United States. This is the most favorable conclusion and is commonly known as an “unmodified” or “clean” opinion. The independent auditor’s report is included in the Financial Section of this report.

In addition, Macias Gini & O’Connell LLP has also performed an audit of the City’s major program expenditures of federal funds for compliance with the requirements described in the U.S. Office of Management and Budget’s *OMB Compliance Supplement*, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. The report of the Single Audit is published separately from this CAFR, and when completed, may be obtained upon request from the City’s Department of Finance.

Letter of Transmittal (Continued)

This CAFR is organized into three sections:

- The Introductory Section is intended to familiarize the reader with the organizational structure of the City, the nature and scope of City services, and specifics of the City's legal operating environment.
- The Financial Section includes Management's Discussion & Analysis, Basic Financial Statements, Notes to Basic Financial Statements, Required Supplementary Information, and other Supplemental Information. The Basic Financial Statements include the government-wide financial statements that present an overview of the City's entire financial operations and the fund financial statements that present financial information for each of the City's major funds, governmental funds, as well as proprietary funds, internal service funds, and fiduciary funds. This section also contains the independent auditor's report on the Basic Financial Statements.
- The Statistical Section presents up to ten years of detailed statistical data on the City's financial trends, revenue capacity, debt capacity, demographic and economic information, and operating information as a context to the information presented in the financial statements and note disclosures.

REPORTING ENTITY

San José is a charter city that has operated under a council-manager form of government since 1916. Under the City Charter, the Mayor and Council form the legislative body that represents the community and is empowered to formulate citywide policy. The Council consists of a Mayor and ten Council members. The Mayor is elected at large for a four-year term and the Council members are elected by district for staggered four-year terms. The Mayor and Council members are limited to two consecutive four-year terms. Under the Charter, the Mayor recommends policy, program, and budget priorities to the Council, which in turn approves policy direction for the City. The City Manager is appointed by the Council and serves as the chief administrative officer of the organization responsible for the administration of City affairs, day-to-day operations, and implementation of Council policies. In addition to the City Manager, the City Attorney, City Clerk, City Auditor, and Independent Police Auditor are appointed by and report directly to the Council.

The City Charter provides that the boards of administration for each of the City's retirement plans, the Federated City Employees' Retirement System and the Police and Fire Department Retirement Plan, hire and prescribe the duties of the chief executive officer and chief investment officer within the Office of Retirement Services who serve at the pleasure of the retirement boards. The City Charter also specifies certain duties and obligations of each retirement board and authorizes the chief executive officer to hire and oversee the Office of Retirement Services' employees, subject to any applicable Civil Service Rules.

The City provides a range of municipal services, including police and fire protection, sanitation services, environmental management, maintenance of streets and infrastructure, and the administration of library services, recreational activities, and cultural facilities. The City operates a parking program, a municipal water system, a wastewater treatment facility, the Mineta San José International Airport, and three municipal golf courses. In addition, the City provides an oversight in the management of convention, cultural event and hospitality facilities that include the San José McEnery Convention Center, Center for the Performing Arts, California Theatre, Mexican Heritage Plaza, Ice Centre, Dolce Hayes Mansion and Conference Center, and the SAP Center at San José – home of the San José Sharks of the National Hockey League.

Letter of Transmittal (Continued)

The City organization is structured into six City Service Areas (“CSAs”) that integrate services provided by separate departments and offices into key alignments from the community’s perspective. The CSAs are:

- **Community and Economic Development:** The goal of the Community and Economic Development CSA is to develop and strengthen the community’s economy, nurture a safe, attractive, and vital community; and encourage a broad range of housing options.
- **Environmental and Utility Services:** The Environmental and Utility Services CSA encompasses a range of services and projects related to waste and recycling management; water supply management including administering clean drinking water, recycled water, watershed protection, and wastewater treatment; and energy initiatives to protect the environment and quality of life in the community.
- **Neighborhood Services:** The goal of the Neighborhood Services CSA is to provide services to residents and neighborhoods with the common goal of fostering healthy, vibrant, engaged, and secure neighborhoods. These connections build capable communities and the quality of life that make San José a desirable place to live. This means that residents have access to nearby parks, trails, sports fields, community centers, libraries, and a diverse range of recreational and learning opportunities.
- **Public Safety:** The goal of the Public Safety CSA is to maintain the safety of the residents throughout the City by keeping crimes rates down, reducing and investigating crimes, continuing to attract businesses, and maintaining a vibrant, safe community for residents. Although Police and Fire services constitute the bulk of City’s investment in public safety, other departments and programs also contribute to the safety of the community.
- **Transportation and Aviation Services:** The Transportation and Aviation Services CSA supports the planning, development, and operation of efficient transportation services that serve the people and economy of San José and Silicon Valley. Transportation and aviation infrastructure and services provide an important resource to support the community’s livability and economy, along with the City’s economic development efforts.
- **Strategic Support:** The overall ability of the City to provide quality and effective services depends on strategic support services, such as finance, human resources, information technology, and public works, to ensure consistency and efficiency throughout all City departments.

San José is the oldest city in California, developing from a Spanish pueblo established in 1777. Situated between the Diablo and Santa Cruz mountain ranges, San José encompasses approximately 181 square miles at the south end of the San Francisco Bay and is the county seat of Santa Clara County. San José’s central location between San Francisco to the north and Monterey/Carmel to the south makes the “Capital of Silicon Valley” a gateway to adventures throughout California. With 2018 estimated population of 1,051,316¹, it is the third most populous city in California and the tenth most populous in the United States.

The City has transformed dramatically from the rich agricultural setting of its early years into the largest city in the Silicon Valley. Silicon Valley is a region in the Southern San Francisco Bay Area of Northern California which serves as a global center of high technology, innovation, and social media. It corresponds roughly to the geographical Santa Clara Valley. The San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (“MSA”) in the Silicon Valley has a large concentration of high-tech employment with 326,100 workers out of a total civilian employment level of 1.14 million.² Silicon Valley is home to many of

²State of California, Employment Development Department, Labor Market Information Division, June 2018.

Letter of Transmittal (Continued)

the world's largest technology companies and is a global center of technology innovation. Commercial, retail, professional, high-tech manufacturing, electronic assembly, and service businesses all have a presence in San José. On the international front, San José attracts significant foreign investment from throughout the globe.

Service providers account for approximately 84 percent² of the employment in the San José-MSA with the majority of employment related to professional and business services, education and health services, information technology, government, and retail. In addition, durable goods manufacturing, primarily computer equipment, semiconductor components, and electronic instruments, account for approximately 16 percent² of the MSA employment.

The CAFR includes all funds of the City, as well as all governmental organizations and activities for which the Council has financial accountability. These organizations include the San José-Santa Clara Clean Water Financing Authority, the City of San José Financing Authority, and the Successor Agency to the Redevelopment Agency of the City of San José.

ECONOMIC CONDITION and FISCAL OUTLOOK

The local, regional and state economies are all performing well. According to a study in September 2017 by the Center for Continuing Study of California Economy (CCSCE), the Nine-County Bay Area Region¹ led the State and nation with real (inflation adjusted) Gross Domestic Product (GDP) growth of 5.2 percent in 2016, more than 3 times faster than the national growth rate. During the same period the San Jose MSA led the state with a GDP increase of 5.9 percent with the San Francisco-Oakland-Hayward MSA coming in second with a 5.4 percent. According to a U.S. Bureau of Economic Analysis' report in September 2018, the San Jose MSA's GDP grew by 8.4 percent in 2017. The state and local economies continue to have a diverse and favorable mix of businesses. Combined with a favorable location (Pacific Rim), both are well positioned to benefit from future national growth. With low unemployment and the Silicon Valley geographically well positioned, San José has been at the epicenter of growth that presents both opportunities and challenges. The Bay Area continues to face the challenges of housing and transportation which will be impediments to growth.

For June 2018, the San Jose MSA civilian employment level was 1.14 million, which was 3 percent higher than the June 2017 level of 1.11 million². This represents nine consecutive years of sustained growth from June to June. Between June 2017 and June 2018, employment in the San Jose MSA expanded by 38,000 jobs. This growth included an increase of 8,800 jobs in the information sector, which signifies the 101st consecutive month of year-over-year increases. The unemployment rates at the local, state, and national levels have continued to decline compared to prior year and remain at very low levels. In June 2018, the unemployment rate of 3.0 percent for the San Jose MSA was below the 3.4 percent experienced in June 2017. The San Jose MSA's June 2018 unemployment rate continued to be lower than the unadjusted unemployment for the State (4.5 percent) and the nation (4.2 percent).

Construction valuation in San Jose' was strong in 2017-2018 at \$1.7 billion, but decreased from a record setting level of \$1.9 billion reached in 2016-2017. The number of new residential dwelling unit permits issued in 2017-2018 totaled 3,241. Construction activity in the residential category was higher than prior year level, while commercial and industrial activity declined. Private construction activity is a driver for several development related taxes and fees and is an indicator of future activity for several other categories, such as storm and sanitary sewer system fees.

¹Includes counties of Santa Clara, San Mateo, San Francisco, Alameda, Contra Costa, Marin, Sonoma, Napa, and Solano,

²State of California, Employment Development Department, Labor Market Information Division, June 2018.

Letter of Transmittal (Continued)

The local real estate market continues to experience strong growth in home prices compared to prior year levels. The median single-family home price in June 2018 of \$1.23 million is up 23.0 percent from the June 2017 median price of \$996,000. In addition to increase in median home price, average days-on-market for single-family and multi-family dwellings has decreased from 18 days in June 2017 to 15 days in June 2018. Also of interest is the continued tightening of the inventory available in the housing market. The average number of new listings per month in 2017-2018 totaled 704, which is 6.0 percent below the average number of new listings recorded in prior fiscal year. While the median home price has risen and the average days-on-the market has decreased, the number of property transfers (sales) has continued to decline. The number of residential property transfers in 2017-2018 totaled 7,513, which represents a 4.7 percent decline from the 7,883 transfers that occurred in 2016-2017. The decrease in the number of property sales compared to prior year levels is primarily attributable to the limited inventory available on the housing market.

When the 2017-2018 Adopted Budget was developed, economic growth was expected to continue throughout the year. The assumption has proven true, with continued improvement in economic indicators and actual revenue performance during 2017-2018. Total revenues in the General Fund were \$978.8 million which represent an increase of 8.6 percent from the 2016-2017 collection levels of \$901.1 million. The categories that experienced the largest percentage increases included: Business Tax, Property Tax, Revenue from Local Agencies, Sales Tax, Transient Occupancy Tax, other revenue categories. With the local economy's sustained growth over the past several years and expenditures being closely forecasted and monitored, the City's budget remained stable. Accordingly, the 2017-2018 Adopted Budget maintained existing service levels while also providing limited enhancements to service delivery in priority areas and providing some investments in City infrastructure. The financial results of 2017-2018 will also be factored into the development of the 2020-2024 General Fund Five-Year Financial Forecast which is scheduled for release in February 2019.

In November 2016, the voters approved the Alternative Pension Reform Act, known as Measure F, that City Council placed on the ballot as a result of settlement frameworks entered with the City's bargaining groups resulting from litigation and other proceedings related to Measure B, the pension measure approved by San José voters in June 2012. In February and May 2017, the City Council adopted ordinances to implement the terms of the settlement frameworks and Measure F. The ordinances amended various sections of the San Jose Municipal Code related to the Police and Fire Department Retirement Plan and the Federated City Employees Retirement System and provided for the Voluntary Employees' Beneficiary Association ("VEBA"), a defined contribution healthcare benefit for retirees. These amendments to the Municipal Code were enacted to implement the terms of the settlement frameworks and Measure F. The terms of both retirement plans in place as of June 30, 2018 are described in Note IV.A. to the basic financial statements.

In October 2017, to address various implementation issues, the City Council and the bargaining units entered into side letters and the City Council approved ordinances further amending the terms of both retirement plans and the VEBA provisions. The City also implemented the VEBA opt-in process for eligible employees currently in the defined benefit healthcare plans provided by the retirement plans. These employees were provided a one-time irrevocable opportunity to voluntarily opt into the VEBA or stay in the defined benefit retiree healthcare plan. For the employees who elected to participate in the VEBA, their previous employee retiree healthcare contributions (without interest) were placed into an individual VEBA account. This election period ended on December 15, 2017 and received approval from the Internal Revenue Service.

In May 2017, the San José City Council voted unanimously to establish the San José Clean Energy (SJCE), the City of San José's Community Choice Energy (CCE) program. CCEs allow governments to procure electricity for their businesses and residents. With the formation of SJCE, San José is now the largest single public agency to operate a CCE. SJCE launched in September 2018 for the City electric accounts and launch is expected in February 2019 for San José residents and businesses. SJCE will provide the same electricity service that customers have now, but with more renewable energy options at competitive rates.

Letter of Transmittal (Continued)

On December 21, 2017, the Successor Agency to the Redevelopment Agency of the City of San José (the “Successor Agency”) closed on the issuance of Tax Allocation Refunding Bonds in the aggregate principal amount \$1,677,540,000 (the “Bonds”). The Bonds refunded all 25 series of outstanding obligations of the former Agency’s tax allocation bonds and reimbursement obligations related to the Series 2001A and Series 2001F Bonds issued by the City of San Jose Financing Authority (Refunded Obligations). The restructuring of Refunded Obligations is anticipated to achieve various financial benefits for the Successor Agency such as: place it into a “sufficiency of funds” situation; achieve aggregate debt service savings due to lower interest rates on the Bonds and improved credit quality of the Former Agency; eliminations of potential debt service spikes with respect to outstanding variable tax allocations bonds; and a simplified administration of the Refunded Obligations.

In addition, the refunding improved the distribution of residual Redevelopment Property Tax Trust Fund (RPTTF) revenues to the taxing agencies including the City, with \$66.7 million flowing to taxing agencies from the June 1, 2018 RPTTF distribution, and an estimated \$45.0 million flowing to the taxing entities from the January 2, 2019 RPTTF distribution. The refunding provides for greater flexibility in the operation and ownership of certain City assets (Civic Auditorium, Convention Center, 4th & San Fernando Street Parking Garage, Hammer Theater, and the Mexican Heritage Plaza,) with the refunding of tax-exempt bonds originally issued to fund these projects with taxable bonds.

The City is expected to see a major transformation over the next decade with the largest regional transportation projects in the City’s history that can fundamentally change the way our residents move around the City which include: next phase of the Airport expansion, the implementation of San Jose Clean Energy, the major rehabilitation of the Water Pollution Control Plant, improvement in broadband and other digital connections, the transformation of the Downtown, and the creation of housing. To focus on these interdepartmental efforts which will span over multiple years, the Administration identified eight enterprise priorities that align key elements of Council priorities and department work plans, including: Emergency Management and Preparedness; Creating Housing and Preventing Homelessness; Safe, Vibrant, and Inclusive Neighborhoods and Public life; The Future of Downtown; Building the San Jose’ of Tomorrow – Private Development Services; Smart, Sustainable and Reliable City; 21st Century Infrastructure; Strategic Fiscal Positioning and Resource Deployment; and Powered by People.

The 2018-2019 Adopted Budget includes investments across multiple funds that support these long-term, major initiatives. These initiatives are also in alignment with the investment priorities identified in the Mayor’s March Budget Message for 2018-2019, as approved by the City Council:

- Homelessness and Housing
- Public Safety and Disaster Preparedness
- Environment
- Innovation and Technology
- Education and Our Youth
- Community Engagement
- Saving and Improving Fiscal Sustainability

The Adopted Operating Budget incorporates budget actions to focus on these investments priorities with funding identified to address the direction in the Mayor’s March and June Budget Messages.

The City Council adopted a balanced 2018-2019 Budget on June 19, 2018. This marks the seventh consecutive year that the operating budget did not include significant reductions in services, staffing, and compensation to achieve a balanced budget. Given the availability of one-time funding and the modest funding made available, the Adopted 2018-2019 Budget follows City Council direction to focus on targeted, strategic spending as well as savings for the future. The budget takes a multi-year approach with one-time funding set aside in 2018-2019 to address the projected General Fund shortfall in 2019-2020. The Adopted Budget also maintains existing service levels, enhances service delivery in limited areas, and invests in

Letter of Transmittal (Continued)

infrastructure and technology. With limited resources, it is imperative that the City continues to innovate and leverage resources to achieve its service delivery goals.

The City's current general obligation credit ratings are Aa1/AA+/AA+ from Moody's Investors Service, Standard & Poor's, and Fitch, respectively. These credit ratings have remained the same from the prior year and the City continues to be one of the highest rated large cities (with population over 250,000) in California and the second highest among the nation's ten largest cities. The ratings continue to reflect the diversity of the local economy anchored by a strong technology presence, sound financial management, and prudent budgetary practices.

SIGNIFICANT COMMUNITY EVENTS and SERVICE DELIVERY ACCOMPLISHMENTS

Examples of significant community events and service delivery accomplishments for the fiscal year ended June 30, 2018, included the following:

- ❖ Mineta San José International Airport (SJC) marked a milestone in February 2018 with a 20.8 percent increase in passengers served year-over-year. For the first time, SJC recorded a year-over-year increase in passengers above 20 percent, while also marking 62 consecutive months of growth. SJC served 12.8 million passengers over the past 12 months (March 2017-February 2018). Passenger growth is expected to continue with new route launches through the fall of 2018. As of June 2018, the Airport served 13.5 million passengers during the prior twelve-month period.
- ❖ The Environmental Services Department reports 461 projects financed through Property Assessed Clean Energy (PACE) were completed in 2017-2018. Over its lifetime these energy- and water-efficient projects will save an estimated 73.6 million kilowatt hours of energy and 43.3 million gallons of water, and 61,722 metric tons of carbon dioxide emissions. PACE exists in hundreds of communities in the United States, enabling property owners to finance water- and energy-saving upgrades. These efforts support the goals of Climate Smart San José, a plan to reduce greenhouse gas emissions and ensure a long-term water supply.
- ❖ The grand opening of Lake Cunningham Action Sports Park (LCASP) on April 14, 2018 drew thousands of bike riders, testing the most diverse riding features of any bike park in the nation. Mountain and BMX bike riders of all skill levels joined Mayor Liccardo and Councilmember Arenas in officially opening the much anticipated bike park at LCASP. The \$2.2 million bike park is an addition to the existing 68,000 square foot Lake Cunningham Skate Park, which is largest skate park in California. Featuring the world's largest cradle and full pipe and the tallest vertical wall, the park attracts 8,600 skaters annually from all over the country, including professional skaters. LCASP amenities include: five bicycle and skateboard repair stations; shaded patio with heaters and fans; free Wi-Fi; a park-wide sound system; shaded picnic areas; and a water misting system.
- ❖ For the second year in a row, the San José Public Library's Marketing and Communications Department won the John Cotton Dana Public Relations Award from the American Library Association. The San José Public Library (SJPL) is the only Bay Area library to win the award and is one of only two library systems in the state of California to be honored for excellence in library public relations. The American Library Association selected SJPL for its *2-Step Fine Forgiveness* program – a multilingual campaign that included a unique approach that reached well over 800,000 people through social media, community outreach and news media coverage. In just 31 days, nearly half of all the overdue materials were returned, over 12,000 people participated, and a total of \$63,847 in late fees were waived, restoring account access to thousands. The winners were celebrated at a reception during American Library Association's 2018 annual conference.
- ❖ The City is the beneficiary of three grants totaling \$1.5 million from the Priority Development Area Planning Program of the Metropolitan Transportation Commission (MTC). The City's Department of

Letter of Transmittal (Continued)

Transportation (DOT) is the recipient of an \$800,000 grant for the Diridon Station Plan. This grant supports the development of the Diridon Integrated Station Concept Plan, which will explore seamless connections between different services; ensure the station design complements the surrounding neighborhoods; and propose an organizational framework to bring stakeholders together with an interest in the station's development. The Planning Division, within the Department of Planning, Building & Code Enforcement is the recipient of a \$500,000 grant for the preparation of two Urban Village plans for Southwest Expressway and the Race Street Light Rail areas, both along the Vasona Light Rail Corridor. The second grant for the Planning Division, worth \$200,000, consists of in-kind consulting services provided at no cost to the City by consultants under contract with MTC for the update to the citywide residential and commercial urban design guidelines.

- ❖ The Department of Planning, Building and Code Enforcement (PBCE) garnered two prestigious awards during the fiscal year. In October 2017, the International Code Council chose PBCE as a recipient of its "Community Service Award" and, in March 2018, the statewide association of California Building Officials named PBCE as "Building Department of the Year." Both awards noted PBCE's innovative programs: a trilingual Small Business Ally team that helped small business owners succeed with permits; a multi-agency Streamlined Restaurant Program that shaved weeks off the permit process for restaurants; an Over-the-Counter service that enabled homeowners to obtain a same-day permit for smaller projects; a cost-and-time-saving combination inspection program for multifamily buildings; a Special Tenant Improvement program that enabled commercial customers to have a single meeting with interdepartmental plan review staff; and an outreach program that promoted building careers with high school and college students.

FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM

The City publishes a five-year Capital Improvement Program ("CIP") that guides the City in the planning, scheduling, and budgeting of capital improvement projects. The CIP is updated annually and approved by the City Council. The CIP maintains critical investment to sustain, enhance, and develop a wide array of public infrastructure to improve system reliability, enhance recreational experience, advance public safety, and ensure that San José is well-positioned for further economic growth and opportunity while building on the efforts of the last several years of making targeted investments that align with the City's economic development and community livability goals contained within the Envision San José 2040 General Plan.

The City's 2018-2019 Adopted Capital Budget totals \$988.0 million and the 2019-2023 Adopted CIP totals \$3.3 billion. The 2018-2019 Adopted Capital Budget reflects a 1.5 percent decrease from the 2017-2018 Adopted Capital Budget of \$1.0 billion and, from a five-year perspective, the 2019-2023 Adopted CIP is equal to the \$3.3 billion 2018-2022 Adopted CIP. The 2019-2023 Adopted CIP allocates significant resources to upgrade and revitalize the Water Pollution Control Plant (San José-Santa Clara Regional Wastewater Facility or "RWF"); continues the investment in the pavement maintenance program; invests in and sets aside funding for the rehabilitation and enhancement of a variety of park assets and recreational facilities; and continues the renovation of the City's outstanding culture facilities. Grant resources are leveraged to implement projects throughout the CIP, including Airport projects, local multimodal transportation projects, and regional projects, including BART Phase II, High Speed Rail, and the Diridon Station. In addition, investments in Adopted 2019-2023 CIP address emergency preparedness and flood related needs, such as parks infrastructure repairs and flood protection improvements.

Key components of the 2019-2023 Adopted Capital Improvement Program include:

- Water Pollution Control Capital Program is the largest capital program accounting for 42 percent of the 2019-2023 CIP with a total of \$1.38 billion, of which \$174.7 million is budgeted in 2018-2019, and is directed to renovate and upgrade the RWF infrastructure to ensure capacity and reliability of treatment plant processes.
- Traffic Capital Improvement Program is the second largest program accounting for 19 percent of the 2019-2023 Adopted CIP with a budget of \$628.9 million, of which \$239.0 million is budgeted in

Letter of Transmittal (Continued)

2018-2019. The 2019-2023 Adopted CIP includes continued investment in street and pedestrian safety, pavement maintenance, traffic management, and local multimodal improvements, supporting the use of all modes of travel and placing emphasis on the safe travel of pedestrians, bicyclists, and transit users. The Traffic CIP includes \$319.7 million for maintenance activities, of which \$314.2 million is earmarked for pavement maintenance.

- Airport Capital Program for fiscal years 2019-2023 totals \$411.6 million, of which \$147.0 million is budgeted in 2018-2019. The CIP includes projects reflecting the Airport's strategic priorities to drive and accommodate growth, innovate, fund the future, and reinvent the organization. After the successful completion of several large Airport Master Plan projects, the 2019-2023 Adopted CIP focuses on the maintenance and preservation of Airport infrastructure, security enhancement, and technology improvement to provide a favorable environment for sustained growth. Major CIP projects such as Interim Terminal Facility, Airfield Geometric Implementation, Terminal B Ramp Rehabilitation, and Aircraft Rescue and Fire Fighting Facility are all examples of the implementation of the Airport's strategic priorities and Master Plan.
- Parks, and Community Facilities Development Capital Program in the 2019-2023 Adopted CIP provides funding of \$342.1 million, of which \$196.6 million is budgeted in 2018-2019. A major focus of the CIP program is the delivery of projects that rehabilitate City parks and recreation facilities damaged by January and February 2017 storm events and floods. The 2019-2023 Adopted CIP also provides resources to operate and maintain existing and newly constructed parks and recreational facilities and continue long-term capital investment plans.
- Sanitary Sewer System Capital Program in the 2019-2023 Adopted CIP provides funding of \$191.2 million, of which \$51.2 million is allocated in 2018-2019. The program's funding is used to enhance sewer capacity for continued development and to rehabilitate existing sewers. Program funding is supported by the Sewer Service and Use Charge Fees, Sanitary Sewer Connection Fees, and "Joint Participation" contributions from other jurisdictions served by the Sanitary Sewer System for the use of San José sewer lines.

The Sanitary Sewer System CIP is guided by several interrelated plans, and chief among them is the Envision San José 2040 General Plan (General Plan). The General Plan provides a guide for all capital improvement programs to align public infrastructure investment with San José's plans for future growth. The projects included in the Sanitary Sewer System CIP ensure adequate sewer capacity and reliability to safely convey sewage city-wide, as well as within those areas designated for future development. The land uses and growth included in the General Plan were also used in the development of the Sanitary Sewer Master Plan that was completed in 2013. The Master Plan helped identify and address trunk sewer capacity deficiencies in the existing system and forecast additional capacity-enhancing projects required to meet future demands in the context of the General Plan. As identified in the Status Report on Deferred Maintenance and Infrastructure Backlog accepted by City Council on March 6, 2018, the Sanitary Sewer Collection System has estimated unfunded needs of approximately \$1.5 million per year; however, the current backlog of the Sanitary Sewer Collection System is undergoing further evaluation. With this remaining backlog, the City will continue to evaluate staffing levels and resources and overall strategic capital improvement priorities at both the RWF and the sanitary collection system to address the remaining unfunded needs in the future.

- Library Capital Program for fiscal years 2019-2023 plans funding of \$56.4 million, of which \$24.2 million is allocated in 2018-2019. The objective of the Library's CIP is to provide readily accessible, quality library services to San José residents. Program funding is derived primarily from Library Construction and Conveyance Tax, voter-approved Library Parcel Tax (LPT), and bond proceeds in the Branch Libraries Bond Projects Fund.
- Storm Sewer System Capital Program for fiscal years 2019-2023 provides funding of \$35.7 million, of which \$17.1 million is budgeted in 2018-2019. The primary objective of the Storm Sewer Capital

Letter of Transmittal (Continued)

Program is to plan and construct improvements to the storm sewer collection system that reduce the risk of flooding and prevent property damage while managing the quality of storm water runoff. Funding for the program is provided by the Storm Sewer Operating Fund, California Proposition 84 Grants, and Storm Sewer Connection Fees.

- Public Safety Capital Program for fiscal years 2019-2023 plans funding of \$51.6 million, of which \$24.3 million is budgeted in 2018-2019. Most of the Public Safety Bond Projects for the Police and the Fire Departments funded by the Neighborhood Security Act Bond Measure have been completed. However, there is insufficient bond funding to complete the last project, Fire Station 37. The construction of this project, therefore, is deferred until the funding strategy is developed and approved by the City Council. The focus of the program remains on the rehabilitation of existing fire stations and the replacement for Fire Department emergency apparatus and related equipment.

Even with strong emphasis placed on rehabilitation and renewal, the City continues to lack the resources required to fully maintain its existing infrastructure portfolio. The persistent gap between optimal levels of capital investment and available resources, including grants and revenues from other agencies, results in a growing backlog of deferred and unmet infrastructure needs. The Status Report on Deferred Infrastructure Maintenance Backlog, accepted by the City Council on March 16, 2018, identifies a \$1.39 billion backlog of deferred and unmet infrastructure needs with an ongoing investment need of approximately \$112 million annually to maintain and prevent further degradation of the City's infrastructure. These figures reflect an improvement from the \$1.51 billion one-time backlog and \$144.0 million ongoing funding needs reported in March 2017, due primarily to the reevaluation of the City's pavement condition; however, transportation infrastructure continues to be the largest unfunded need.

It is largely because of this gap between available funding and public infrastructure investment needs that the Mayor's March Budget Message for Fiscal Year 2018-2019 directed the administration to explore a potential bond measure to provide a new and substantial infusion of capital spending. After a review of potential options, the City Council approved resolutions which called for the submission to the electors of the City of San Jose' in the next general election held on November 6, 2018 consideration of two ballot measures.

MEASURE T. Disaster Preparedness, Public Safety, and Infrastructure Bond – a ballot measure proposal calling for the issuance of \$650 million General Obligations Bonds for the acquisition, construction, and completion of certain municipal improvements.

MEASURE V. Affordable Housing Bond – A ballot measure proposal calling for the issuance of \$450 million General Obligation Bonds for the acquisition, construction, and completion of affordable housing in the City.

Under State law, the Santa Clara County Registrar of Voters must complete the canvass of the vote and certify and submit the election results to the County Board of Supervisors by December 6, 2018. As of the date of this document, the Santa Clara County Registrar of Voters has not completed the ballot counting for Measures T and V. From the ballots counted to date, the votes cast in favor of Measure T exceed the two-thirds margin for approval and the votes cast in favor of Measure V are less than the required two-thirds margin.

FINANCIAL INFORMATION

The City's Administration is responsible for establishing and maintaining internal controls that safeguard the City's assets from loss, theft, or misuse, and allow the compilation of adequate accounting data for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed its likely benefits and that the evaluation of costs and benefits is subject to management estimates and judgments.

Letter of Transmittal (Continued)

Single Audit

As a recipient of federal, state and county funding, the City is responsible for providing assurance that adequate internal controls are in place to ensure compliance with applicable laws and regulations relating to these award programs. Internal controls are subject to periodic evaluation by management, the Office of the City Auditor, and the City's external independent auditors.

As part of the City's single audit procedures, tests are performed to test the effectiveness of the internal controls over major federal award programs and the City's compliance with applicable laws and regulations related to these award programs.

Budgetary Controls

The City maintains budgetary controls through the City Council's adoption of an annual appropriation ordinance and by maintaining an encumbrance accounting system. Expenditures for City operations and other purposes identified in the annual budget cannot legally exceed the budgeted amounts approved by the City Council.

The City also uses encumbrance accounting as another technique for accomplishing budgetary control. An encumbrance is a commitment of a future expenditure earmarked for a purpose that reduces the amount of budgetary authority available for general spending. At the end of the fiscal year, encumbered appropriations are carried forward and become part of the following year's budget while appropriations that have not been encumbered lapse.

The City continues to meet its responsibility for sound financial management as demonstrated by the statements and schedules included in the financial section of this report.

Debt Management Policy

The City's Debt Management Policy was adopted by the City Council on May 21, 2002 and most recently revised on March 7, 2017, and is reviewed annually. The Debt Management Policy establishes the following equally important objectives:

- Minimize debt service and issuance costs;
- Maintain access to cost-effective borrowing;
- Achieve the highest practical credit rating;
- Full and timely repayment of debt;
- Maintain full and complete financial disclosure and reporting;
- Ensure financial controls are in place with respect to proceeds of debt issuances; and
- Ensure compliance with applicable State and Federal laws.

The first set of program-specific policies, related to the City's multifamily housing program, was adopted by the City Council on June 11, 2002 and subsequently reaffirmed and amended on March 27, 2018.

AWARDS

The Government Finance Officers Association ("GFOA") of the United States and Canada awarded its Certificate of Achievement for Excellence in Financial Reporting to the City for its CAFR for the fiscal year ended June 30, 2017. This was the thirtieth consecutive year the City has received this prestigious award. To qualify for the Certificate of Achievement, the governmental entity must publish an easily readable and

Letter of Transmittal (Concluded)

efficiently organized CAFR, the contents of which conform to program standards. Such report must satisfy accounting principles generally accepted in the United States of America, as well as all applicable legal requirements.

The Certificate of Achievement is valid for only one year. The City believes this CAFR continues to conform to the Certificate of Achievement Program requirements and will be submitting it to GFOA for consideration of the annual award.

For the twenty-eighth consecutive year, the City received the GFOA Distinguished Budget Preparation Award for its annual budget for the fiscal year beginning July 1, 2017. To qualify for this award, the government unit must publish a budget document that meets program criteria as a policy document, a financial plan, an operations guide, and a communications medium.

ACKNOWLEDGMENTS

The preparation of this CAFR represents the culmination of a concerted team effort by the entire staff of the Finance Department. Many members of the Department demonstrated exemplary personal determination and dedicated many long days of focused attention to produce this document.

In addition, staff in all City departments and the Successor Agency of the Redevelopment Agency should be recognized for responding so positively to the requests for detailed information that accompanies each annual audit. The City also recognizes the contributions and positive working relationship with Macias Gini & O'Connell LLP.

Finally, we wish to express our sincere appreciation to the Mayor and City Council for providing policy direction and a firm foundation of support for the pursuit of excellence in all realms of professional endeavors, especially their role in guiding the City to a secure financial condition that assures resources are available to provide core services to the community.

Respectfully submitted,

DAVID SYKES

INDEPENDENT AUDITOR'S REPORT

City Council
City of San José, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of San José, California (City), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City of San José Federated City Employees' Retirement System and the City of San José Police and Fire Department Retirement Plan (collectively, "the Pension Trust Funds"), which represent 86.3 percent, 117.3 percent, and 47.1 percent, respectively, of the assets, fund balance/net position, and revenues/additions of the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pension Trust Funds, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1.E. to the financial statements, effective as of July 1, 2017, the City adopted the provisions of Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis; the schedules of revenues, expenditures, and changes in fund balance – budget and actual for the General Fund, Housing Activities, and Low and Moderate Income Housing Asset Fund; the schedule of employer contributions – defined benefit pension plans; the schedule of changes in the employer's net pension liability – defined benefit pension plans; the schedule of investment returns – defined benefit pension plans; the schedule of the City's proportionate share of the net pension liability and related ratios – CalPERS; the schedule of employer contributions - CalPERS; the schedule of changes in the employer's net OPEB liability and related ratios – postemployment healthcare plans; the schedule of employer contributions – postemployment healthcare plans; and the schedule of investment returns – postemployment healthcare plans, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the combining and individual fund financial statements and schedules listed as supplemental information, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules listed as supplemental information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund financial statements and schedules listed as supplemental information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2018 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Macias Gini & O'Connell LLP". The signature is written in a cursive, flowing style.

Walnut Creek, California
November 16, 2018

City of San José
Management's Discussion and Analysis
Required Supplementary Information (Unaudited)
June 30, 2018

Management's Discussion and Analysis ("MD&A") provides an overview of the City of San José's ("City") activities and financial performance for the fiscal year ended June 30, 2018. Readers are encouraged to read the MD&A in conjunction with the basic financial statements that immediately follow, along with the letter of transmittal at the beginning of the Introductory Section, and with other portions of this Comprehensive Annual Financial Report ("CAFR"). All amounts have been rounded to the nearest one hundred thousand dollars and one tenth of a percent.

FINANCIAL HIGHLIGHTS

- The government-wide statement of net position for the City's governmental and business-type activities indicates that as of June 30, 2018, total assets and deferred outflows of resources exceed total liabilities and deferred inflows of resources by \$3.939 billion. Of this amount, a deficit of \$2.414 billion represents unrestricted net position, which is comprised of a deficit balance of \$2.667 billion for governmental activities, and a positive balance of \$252.9 million for business-type activities. In addition, the City's restricted net position totals \$1.073 billion (\$1.0 billion for governmental activities and \$72.8 million for business-type activities) based on the restrictions imposed by the enabling legislations or debt covenants. Lastly, net position of \$5.280 billion is the City's net investment in capital assets (\$4.350 billion for governmental activities and \$930.6 million for business-type activities).
- The net position decreased by \$740.1 million or 15.8 percent during 2017-2018 to \$3.939 billion from \$4.679 billion primarily due to the implementation of GASB Statement No. 75 effective July 1, 2017. Expenses continued to exceed revenues although property tax and other tax related revenues and sales taxes shared revenues increased by \$68.5 million over the prior year.
- Governmental funds reported a combined ending fund balance of \$1.424 billion at June 30, 2018, which is \$9.1 million or 0.6 percent more than the June 30, 2017 balance. The increase was attributable to an increase in the Low and Moderate Income Housing Asset Fund of \$27.0 million, the Housing Activities Fund of \$5.5 million, the Special Assessment Districts Fund of \$2.3 million, the Nonmajor Governmental Funds of \$11.2 million, and offset by decrease in the General Fund of \$19.8 million and the San José Financing Authority Debt Service Fund of \$17.1 million.
- Unassigned fund balance of governmental funds totals \$82.5 million, which is 5.8 percent of combined governmental fund balances at June 30, 2018.
- Total long-term liabilities (excluding net pension and Other Postemployment Benefits (OPEB) – net OPEB Liability) decreased by \$238.7 million to \$2.546 billion at June 30, 2018, which represents a decrease of 8.6 percent compared to \$2.785 billion at June 30, 2017. The primary factors leading to the decrease in long-term liabilities for governmental activities of \$199.1 million was primarily due to the scheduled debt service payments of \$58.9 million, refunding of two series of City of San José Financing Authority Bonds, \$67.1 million Series 2001F Revenue Bonds and \$23.9 million 2001A Revenue Bonds as part of the 2017 Tax Allocation Bond refunding. In addition, City of San José Financing Authority refunded \$37.1 million 2008F Bonds in 2017-2018 with property sale proceeds. The primary factors leading to the decrease in long-term liabilities for business-type activities of \$39.6 million was due to the scheduled debt service payments.
- Net pension liability increased by \$181.4 million or 6.0 percent during 2017-2018 to \$3.192 billion from \$3.011 billion. Deferred outflows of resources related to pensions decreased by \$116.9 million or 11.1 percent, and deferred inflows of resources related to pensions decreased by \$2.2 million or 33.2 percent. The changes were mainly due to a net gain of \$104.2 million between projected and actual investment earnings on the City of San José Police and Fire Department Retirement Plan and the City of San José Federated Employees' Retirement System, and an increase of \$241.3 million to the total pension liability resulting from changes of assumptions and differences between expected and actual actuarial experience. More details on the net pension liability are included in the Note IV.A3 on page 128.

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

- In 2017-2018, the City implemented Governmental Accounting Standards Board (GASB) 75, which requires the City to report its net OPEB liability separately on the Government-Wide Statement of Net Position and the Proprietary Funds Statement of Fund Net Position. As of June 30, 2018, total net OPEB liability was \$1.071 billion which included \$957.6 million in governmental activities and \$113.7 million in business-type activities.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis provides an introduction to the City's basic financial statements, which are comprised of four components:

- Government-wide Financial Statements
- Fund Financial Statements
- Notes to Basic Financial Statements
- Required Supplementary Information

In addition, this report also contains other supplementary information.

Government-wide Financial Statements

Government-wide Financial Statements provide readers with a broad overview of the City's finances in a manner similar to that of a private-sector business.

The **statement of net position** presents information on all assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources is the City's net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the City's financial position is improving or deteriorating.

The **statement of activities** presents information showing how the net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods. Examples include revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

Both of these government-wide financial statements address functions that principally are supported by taxes and intergovernmental revenues (governmental activities) and other functions that intend to recover all or in part a portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, capital maintenance, community services, sanitation, and interest and fiscal charges. The City's business-type activities include airport, wastewater treatment, water supply, parking operations, and clean energy program.

The government-wide financial statements include the primary government of the City and four separate components for which the City is financially accountable.

Fund Financial Statements

Fund Financial Statements report information about groupings of related accounts used to maintain control over resources segregated for specific activities or objectives. As do other state and local governments, the City uses fund accounting to ensure and demonstrate finance-related legal compliance. Each City fund falls into one of three categories: governmental funds, proprietary funds, or fiduciary funds.

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

Governmental funds account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's capacity to finance its programs in the near future.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate comparison between governmental funds and governmental activities.

The governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances present information separately for the General Fund, the Housing Activities Fund, the Low and Moderate Income Housing Asset Fund, the Special Assessment Districts Fund, and the San José Financing Authority Debt Service Fund which are all classified as major funds. These statements also report several individual governmental funds classified as nonmajor funds such as special revenue, debt service, and capital project funds, which are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements elsewhere in this CAFR.

Proprietary funds generally account for services charged to external or internal customers through fees. Proprietary funds provide the same type of information as shown in the government-wide financial statements for business-type activities, only in more detail. The City accounts for its airport, wastewater treatment, water system, parking operations, and San José Clean Energy Program in proprietary funds.

The City accounts for its public works program support, employee benefits, stores, and vehicle maintenance and operations as internal service funds. These services predominantly benefit governmental functions. Therefore, they are included as governmental activities in the government-wide financial statements. Individual fund data for each of the nonmajor internal service funds are provided in the form of combining statements elsewhere in this CAFR.

Fiduciary funds account for resources held for the benefit of City employees and outside parties in a similar manner as that for proprietary funds. Pension plan trust funds, private purpose trust funds, and agency funds are reported as fiduciary funds. The government-wide financial statements do not include fiduciary funds as their resources are not available to support City programs.

Notes to Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information includes the budgetary schedules for the General Fund, the Housing Activities Fund, and the Low and Moderate Income Housing Asset Fund. In addition, pension and other postemployment healthcare schedules present the City's progress toward funding its obligations to provide future pension and other postemployment healthcare benefits for its active and retired employees.

Combining and individual fund statements and schedules provide information for nonmajor governmental funds, internal service funds, and fiduciary funds and are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Analysis of net position: As noted earlier, net position may serve as a useful indicator of a government's financial position. As of June 30, 2018, the City's total assets and deferred outflows of resources exceed total liabilities and deferred inflows of resources by \$3.939 billion. The following table is a condensed summary of the City's net position for governmental and business-type activities:

Statement of Net Position
June 30, 2018 and 2017
(in thousands)

	Governmental Activities		Business-type Activities		Totals

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

At June 30, 2018, the City reported positive balances in net position on a total basis. Net investment in capital assets (infrastructure, land, buildings, other improvements, vehicles, and equipment, less outstanding debt used to acquire them and deferred inflow and outflow related to debt) of \$5.280 billion comprises 134 percent of the City's total net position. These capital assets facilitate providing services to the San José community, but they are not liquid, and therefore they are not available for future spending. During 2017-2018, net investment in capital assets increased by \$74.6 million primarily due to the depreciation expense of \$303.1 million offset by additions (net) to capital assets of \$241.8 million, and decrease of \$135.9 million in the long-term debt related to purchase of capital assets. A portion of the City's net position, \$1.073 billion or 27.2 percent, are subject to legal restrictions on their use, including \$1.0 billion in governmental activities and \$72.8 million in business-type activities. Of the total net position at June 30, 2018, a deficit balance of \$2.414 billion or 61.3 percent represents unrestricted net position, which comprises a deficit balance of \$2.667 billion for governmental activities, and a positive balance of \$252.9 million for business-type activities. The primary factor contributing to the deficit unrestricted net position is the City's net pension and OPEB liabilities.

During 2017-2018, the City's total net position decreased by \$740.1 million. Notable changes in the statement of net position between June 30, 2018 and June 30, 2017 include:

- Capital assets decreased by \$61.3 million or 0.8 percent compared to the prior fiscal year. Governmental capital assets decreased by \$123.1 million and business-type capital assets increased by \$61.8 million. The decrease in governmental capital assets resulted from depreciation expense of \$221.9 million for major infrastructure and other assets, partially offset by additions (net) to capital assets of \$120.4 million, which included \$47.7 million of additional capital projects and \$34.9 million of contributed capital from donated infrastructure assets. The increase in business-type capital assets was primarily due to depreciation expense of \$81.2 million, offset by additions to capital assets of \$143.1 million primarily at the Airport and Wastewater Treatment Facility. As of June 30, 2018, the Airport completed construction of Gates 29 and 30 at Terminal B and infrastructure upgrades to its perimeter security technology.
- Current and other assets decreased by \$85.0 million or 3.2 percent due to a decrease of \$93.6 million for governmental activities offset by an increase of \$8.6 million for business-type activities. The decrease in governmental activities is mainly due to the decrease in Successor Agency to the Redevelopment Agency (SARA) of the City of San Jose long-term receivables to the City with the refunding of 2001F Lease Revenue Bonds and 2001A Lease Revenue Bonds. The increase in current assets for business-type activities is mainly due to higher cash and investments resulting from revenues exceeding expenses.
- Total long-term liabilities (excluding net pension and OPEB liability) decreased by \$238.7 million to \$2.546 billion at June 30, 2018, which represents a decrease of 8.6 percent compared to \$2.785 billion at June 30, 2017. The primary factors leading to the decrease in long-term liabilities for governmental activities of \$199.1 million was primarily due to the scheduled debt service payments of \$58.9 million, and refunding of \$67.1 million Series 2001F Lease Revenue Bonds and \$23.9 million 2001A Lease Revenue Bonds. In addition, the City of San José Financing Authority refunded \$37.1 million 2008F Bonds in 2017-2018 with property sale proceeds. The primary factors leading to the decrease in long-term liabilities for business-type activities of \$39.6 million were due to the scheduled debt service payments.
- Current and other liabilities decreased by \$3.3 million or 1.1 percent due to an increase of \$2.8 million for governmental activities offset by a decrease of \$6.1 million for business-type activities.
- Net pension liability increased by \$181.4 million or 6.0 percent during 2017-2018 to \$3.192 billion from \$3.011 billion. Deferred outflows of resources related to pensions decreased by \$116.9 million or 11.1 percent, and deferred inflows of resources related to pensions decreased by \$2.2 million or 33.2 percent. The changes were mainly due to a net gain of \$104.2 million between projected and actual investment earnings on the Retirement Plans, and an increase of \$241.3 million to the net pension

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

liability resulting from changes of assumptions and differences between expected and actual actuarial experience. More details on the net pension liability are included in the Note IV.A3 on page 128.

- In 2017-2018, the City implemented GASB Statement No. 75, which requires the City to report its net OPEB liability in the Government-Wide Statement of Net Position. As of June 30, 2018, total net OPEB liability was \$1.071 billion, which included \$957.6 million in governmental activities and \$113.7 million in business-type activities. As a result of the implementation of the standard, the prior year net OPEB obligation of \$478.5 million under GASB Statement No. 45 was eliminated and replaced with the net OPEB liability.
- Unrestricted net position for governmental activities decreased by \$731.7 million or 37.8 percent with a deficit balance of \$2.67 billion at June 30, 2018. The primary factor contributing to the increased deficit unrestricted net position for governmental activities is the reporting of the City's net OPEB liability in the Government-Wide Statement of Net Position with the implementation of GASB Statement No. 75. For business-type activities, unrestricted net position decreased by \$98.2 million or 28.0 percent with a positive balance of \$252.9 million at June 30, 2018. This was also mainly due to the reporting of net OPEB liability on the Statement of Net Position in 2017-2018.

Net position at end of year.....	<u>\$ 2,682,893</u>	<u>\$ 3,437,780</u>	<u>\$ 1,256,309</u>	<u>\$ 1,241,519</u>	<u>\$ 3,939,202</u>	<u>\$ 4,679,299</u>

Governmental activities: Net position for governmental activities decreased by \$754.9 million or 22 percent during 2017-2018 from \$3.438 billion to \$2.683 billion. Total expenses increased by \$158.5 million and total revenues increased by \$117.1 million. The increase in revenues was not sufficient to offset total expenses resulting in a decrease in net position before transfers. The major factors contributing to the decrease in net position before transfers from June 30, 2017 to June 30, 2018 are as follows:

- Contributing factors resulting in increases to certain revenue categories are as follows: Property and other taxes revenue increased by \$30.8 million or 7.2 percent due to an increase in assessed valuations based on a strong real estate market. Sales tax shared revenues were also \$18.6 million or 9.0 percent higher compared to the prior year mainly due to the full year implementation of the Local Sales Tax that was approved by the voters in June 2016 and became effective in October 2016. Operating grants and contributions increased by \$27.2 million or 31.3 percent primarily due to an increase of \$20.5 million in the Low and Moderate Income Housing Asset Fund due to repayments of multi-family loans in 2017-2018 and an increase of \$1.6 million in public safety grants due to UASI grant revenues being received in 2018 for the years of 2017 and 2016. Capital grants and contributions increased by \$33.8 million in

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

current year due to a \$21.1 million increase in developer donated infrastructure projects, which included storm sewer, roadway, traffic, and land improvements, \$6.0 million increase in Special Assessment District Funds and \$5.7 million increase in Construction Excise Tax due to the receipt of new gas tax revenues from the SB1 Road Repair and Accountability Act of 2017. Transient occupancy tax receipts from guests staying in the City's local hotels increased by \$3.3 million or 7.4 percent due to continuing higher occupancy and room rates. Business tax receipts were \$16.5 million or 30.5 percent higher mainly because of the change in business tax rates as approved by voters in November 2016 and became effective on July 1, 2017. Other revenues increased by \$32.0 million in the General Fund mainly due to the sale of Airport West property.

- Contributing factors resulting in decreases to certain revenue categories are as follows: Fees, fines, and charges for services decreased by \$43.7 million or 9.4 percent, mainly due to the \$36.0 million of a one-time proceeds from the HUD judgement award recorded in the Housing Activities Fund in 2016-2017. The General Fund charges for services decreased \$18.2 million, which were partially offset by \$3.0 million higher revenues at the Convention Center, and a higher \$8.2 million in Construction Excise Tax fund due to an increase in collection of the Traffic Impact Fee.
- General government expenses increased \$5.1 million or 4.0 percent during 2017-2018 mainly due to a \$3.6 million increase in General Fund salary costs.
- Public safety expenses increased by \$74.7 million or 10.8 percent primarily due to an increase in pension expense of \$36.9 million, and higher salary and other related expenses of \$57.1 million from filling vacant positions, offset by \$11.8 million in lower workers' compensation expense.
- Community services expenses increased by \$18.8 million or 6.0 percent mainly due to an increase in pension expense of \$8.0 million and an increase of \$11.7 million in labor and other costs associated with an increase in major events at the Convention Center during 2017-2018.
- Sanitation expenses increased by \$8.6 million or 5.5 percent primarily due to an increase in pension expense of \$1.9 million, an increase of \$1.7 million in salary costs from additional positions, and an increase of \$4.7 million in the Integrated Waste Management Fund due to 1) an increase in the Refuse Rate Index for the haulers contract, and 2) an increase in back end processing costs. As part of a multi-year effort, the City expanded the recycling of general solid waste items collected from the single-family households to minimize items going to the landfill.
- Capital maintenance expenses increased by \$49.1 million or 11 percent primarily due to an increase of \$8.4 million in the General Fund which is explained in more detail in the General Fund section, an increase of \$12.0 million in the Special Assessment Districts Fund due to the significant increase in expenditures related to the design costs at the Convention Center Exhibit Hall Lighting and Ceiling Upgrade Project, an increase in pension expense of \$11.4 million, and an increase of \$4.4 million in the Construction Excise Tax Funds related to the Route 101/Trimble/De La Cruz Interchange improvements.
- Interest and fiscal charges were up \$2.2 million in 2017-2018 due to increase in variable interest rates on outstanding notes, bonds, and commercial paper.

Governmental Activities Revenues 2018

The chart shows the primary components of governmental activities revenue sources for 2017-2018. Of the \$1.659 billion in total revenues generated by governmental activities, 73.9 percent is attributable to four categories: fees, fines, and charges for services (25.3 percent), property taxes (27.8 percent), sales taxes shared revenue (13.6 percent), and utility taxes (7.2 percent).

The chart below shows the major categories of 2017-2018 expenses for governmental activities. Of the \$1.946 billion in total expenses incurred by governmental activities, the categories accounting for 81.8 percent of the totals are: public safety (39.5 percent); capital maintenance (25.4 percent); and community services (16.9 percent).

Governmental Activities Expenses 2018

Business-type activities: Business-type activities net position increased by \$14.8 million or 1.2 percent to \$1.256 billion in 2017-2018.

The notable components of the changes in net position for business-type activities in 2017-2018 are:

Airport Change in net position from current year activities showed an increase of \$7.9 million in 2017-2018 compared to an increase of \$2.8 million in 2016-2017. The combination of an increase in operating income and a decrease in net nonoperating expenses was more than the offset due to an increase in operating expenses, a decrease in capital contributions, and the restatement of beginning net position to reflect the changes in accounting principle resulting from the implementation of GASB Statement Number 75.

The Airport had a net operating income of \$22.2 million, an increase of \$4.1 million compared to prior year's operating income of \$18.1 million. Operating revenues increased by 10.2 percent from \$152.9 million in 2016-2017 to \$168.6 million in 2017-2018, which was mainly due to an increase in general aviation attributable to growth in passenger traffic. A total of approximately 13.5 million passengers traveled through the Airport in 2017-2018 compared to approximately 11.5 million in 2016-2017, resulting in passenger traffic growth of 17.2 percent.

Operating expenses in 2017-2018 increased 8.6 percent, or \$11.6 million, from \$134.8 million in 2016-2017 to \$146.4 million in 2017-2018. Increases were experienced in salaries and fringe benefits, pension expenses, higher costs for public safety employees, non-personnel expenses, and depreciation expenses.

Wastewater Treatment System net position increased by \$8.7 million or 1.0 percent from \$857.4 million to \$866.1 million. The increase was primarily due to revenues exceeding expenses (before capital contributions) by \$52.8 million, offset by a restatement of 2016-2017 net position of \$46.6 million due to the financial reporting impact resulting from the implementation of the GASB Statement Number 75. The largest

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

portion, \$700.3 million or 80.9 percent, of the net position was its net investment in capital assets (e.g. land, buildings, and infrastructure) less outstanding debt that was used to acquire those assets. Approximately \$157.2 million, or 18.2 percent of the total net position, constitutes unrestricted net position, which may be used to finance day-to-day operations without constraints established by debt covenants or other legal requirements.

Operating revenues increased \$30.1 million primarily due to a 3.0 percent sewer rate increase effective July 1, 2017, higher contributions from outside users toward the Water Pollution Control Plant's (the Plant) ongoing maintenance, replacement and debt service costs by \$19.2 million, and higher recycled-water revenue due to recycled-water rate increase by \$1.5 million.

Total operating expenses increased by \$11.3 million compared to the prior fiscal year. The increase was due to an increase of \$7.7 million in pension expense; an increase of \$3.2 million in personnel costs; an increase of \$2.7 million in direct overhead costs; an increase of \$6.0 million in sanitary sewer line condition assessment, rehabilitation, and preventive maintenance programs in the wastewater collection system; and an increase of \$2.6 million of equalization payment to the Santa Clara Valley Water District for the Silicon Valley Advanced Water Purification center, offset by a \$9.6 million decrease due to various Plant capital projects progressing from planning, feasibility or development phases to design and construction related work and a decrease of \$2.6 million in Owner Controlled Insurance expenses to provide a centralized insurance program for losses associated with onsite construction of Capital Improvement Program at the Plant.

Net nonoperating revenues increased by \$1.3 million primarily due to higher investment income and receipt of higher operating grants. Capital contributions increased by \$2.6 million mainly due to an increase in donated assets from developers.

Municipal Water System net position decreased by \$4.3 million or 5.0 percent from \$87.8 million to \$83.5 million. The decrease was due to a restatement of \$5.1 million to the beginning net position related to the adoption of GASB Statement No. 75. Operating revenues of \$48.6 million increased by \$3.9 million or 8.8 percent due to increase in both user fee rates and total consumption. Operating expenses of \$49.1 million increased by \$6.5 million or 15.2 percent due to an increase in the cost of wholesale water for both portable and recycled water, and an increase in operations and maintenance costs, higher costs due to increased staffing, and higher salary and benefit costs.

Parking System net position increased by \$3.7 million or 3.6 percent from \$99.7 million to \$103.4 million. Operating revenues were flat compared to the prior fiscal year. Nonoperating revenue decreased by \$14.6 million or 78.9 percent. The decrease is due to the recording of a \$13.5 million loan reinstatement between the City and Successor Agency to the Redevelopment Agency (SARA) as nonoperating revenue in 2016-2017. Operating expenses increased by \$0.0234 million or 1.6 percent reflecting higher general and administrative costs.

San Jose Clean Energy (SJCE) is the newest enterprise fund established in 2017-2018 to account for revenues from the sale of electricity and the costs associated with the San Jose Clean Energy Program. There were no operating revenues in the current fiscal year. Operating expenses were \$1.1 million which were mainly SJCE personnel and operations start-up costs. The deficit position is projected to improve in 2018-2019 when the SJCE programs are fully operational.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses **fund accounting** to ensure and demonstrate compliance with finance-related legal requirements.

As of June 30, 2018, the City's governmental funds reported combined fund balances of \$1.424 billion compared to \$1.415 billion balances in 2016-2017. The governmental fund balances are categorized as nonspendable, restricted, committed, assigned, or unassigned.

- \$0.15 million consists of nonspendable fund balance related to advances and deposits that are not intended to convert into cash and long-term in nature and do not represent currently available resources.
- \$979.6 million is reported as restricted fund balance that includes restrictions imposed by external parties or enabling legislation. This amount includes unspent bond proceeds, unspent grant revenues, and restricted tax revenues.
- \$155.7 million is reported as committed fund balance that had been limited by formal Council action to a specific purpose.
- \$206.3 million is reported as assigned fund balance that includes amounts that may be used for specific purposes, but do not meet the criteria to be classified as restricted or committed.
- \$82.5 million is reported as unassigned fund balance that represents the residual classification for the City's General Fund and includes all spendable amounts not contained in the other classifications.

General Fund: The General Fund is the chief operating fund of the City. At June 30, 2018, the General Fund's unassigned fund balance is \$82.5 million or 28.2 percent of the \$293.0 million total General Fund balance. Comparing unassigned fund balance and total fund balance to total fund expenditures may be useful as a measure of the General Fund's capacity to liquidate future obligations. At June 30, 2018, unassigned fund balance represents 8.1 percent of total General Fund expenditures of \$1.013 billion, while total fund balance represents 28.9 percent of total General Fund expenditures. At June 30, 2017, the same measures were 8.9 percent and 34.9 percent, respectively.

For the second time in five years, the revenue sources in 2017-2018 were not sufficient to cover all expenditures. The General Fund ending fund balance decreased by \$19.8 million from \$312.8 million to \$293.0 million at June 30, 2018.

In 2017-2018, General Fund revenues of \$978.8 million were \$77.7 million or 8.6 percent higher than 2016-2017 revenues of \$901.1 million. Taxes and special assessments revenues increased by \$48.4 million or 9.3 percent. The increase was primarily attributed to the following revenue sources: increases of \$29.6 million in property tax due to increased assessed valuations based on a strong real estate market as well as additional property tax distribution after the Successor Agency to the Redevelopment Agency bond refunding in December 2017 and higher excess Educational Revenue Augmentation Fund revenues; an increase of \$1.5 million in franchise fee due to a growth in the electricity and gas utilities; an increase of \$16.5 million in business tax due to changes in the City's business tax base rates as approved by voters in June 2016 and became effective on July 1, 2017; and an increase of \$1.3 million in the transient occupancy tax allocated to the General Fund due to continued strong hotel occupancy and increases in average room rates in the City.

Sales taxes shared revenues increased by \$18.6 million or 9.0 percent due primarily to the full year implementation of the Local Sales Tax that was approved by the voters in June 2016 and became effective in October 2016. During the past ten fiscal years, this revenue source has grown 77.1 percent from \$127.8 million in tax receipts in 2008-2009 to \$226.3 million in tax receipts in 2017-2018.

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

Charges for services revenues were \$6.3 million or 13.6 percent higher compared to prior fiscal year primarily due to an increase in Planning and Public Works development related revenues and recreation program fee.

2017-2018 General Fund expenditures of \$1.014 billion were \$116.5 million or 13 percent higher than 2016-2017 expenditures of \$896.9 million as discussed below:

General government expenditures increased by \$4.9 million primarily due to increases in salary and benefit related costs.

Public safety expenditures increased by \$57.1 million primarily due to filling vacant sworn positions, salary and pension cost increases, and acquisition of additional equipment.

Community services expenditures were \$6.1 million higher mainly due to an increase in non-personnel costs.

Capital maintenance expenditures increased by \$8.4 million due to increase spending on streets and road pavement activities, acquisition of fire apparatus, and upgrade of the police communication system,

Debt service payments were \$38.4 million higher due to the refunding of City of San José Financing Authority Series 2008F bonds and HUD loans with proceeds from the sale of property.

Housing Activities Fund: The City's Housing Activities fund receives resources from the U.S. Department of Housing and Urban Development and the California Department of Housing and Community Development. At June 30, 2018, the fund's loan receivable balance (net), which represents loans to developers of various affordable housing projects and first time homebuyers, was \$69.0 million. This balance includes loans to developers for various projects, including Ford and Monterey, Taylor Oaks Apartments, Donner Lofts, Japantown Seniors, The Metropolitan, Roundtable, Kings Crossing, Fourth Street Apartments, Peacock Commons, Archer Studios, Canoas Terrace, Curtner Studios, Homesafe, Markham Plaza, Plaza Del Sol, Corde Terra Village Senior, Willow Glen Senior Housing, Santa Clara Inn, and Second Street Studios. Restricted fund balance increased by \$5.5 million to \$133.2 million at June 30, 2018. The increase is primarily due to revenues from intergovernmental (\$8.1 million), and investment and other revenues (\$11.8 million) exceeding expenditures for community services (\$14.4 million). Intergovernmental revenues decreased by \$3.4 million or 29.3 percent compared to prior year due to less grant funds received from HOME Investment Partnership Program. Other revenue decreased by \$36.0 million or 81.3 percent compared to prior year due to a one-time proceeds from the HUD judgment awarded to the City in 2016-2017.

Low and Moderate Income Housing Asset Fund: The Low and Moderate Income Housing Asset fund was created pursuant to the Redevelopment Dissolution Law to administer the housing assets and functions related to the Low and Moderate Income Housing Program retained by the City following the dissolution of the former Agency. At June 30, 2018, the fund's loan receivable balance (net) was \$223.6 million. This balance consists mainly of loans to developers for various projects including Almaden Family Apartments, Belovida Apartments, Brookwood Terrace, Cinnabar Commons, Corde Terra Village, Las Ventanas, Oak Tree Village, Pollard Plaza, Terramina Square, Villas on the Park, Second Street Studios, and The Metropolitan (South). Restricted fund balance increased by \$27.0 million to \$379.3 million from \$352.3 million. The increase is primarily due to repayments of developer loans.

Special Assessment Districts Fund: The Special Assessment Districts fund accounts for debt issuance and capital improvements related to the specific purposes of eight special assessment and community facilities districts located in different parts of the City. A total of \$130.8 million in special assessment and special tax bonds were outstanding at June 30, 2018. All bonds are secured by special assessments or special taxes charged to the owners' real property in the district issuing the debt, except for the Special

City of San José

June 30, 2018

Hotel Tax Revenue Bond, Series 2011, which are secured by a first lien on the Convention Center Facilities District No.2008-1 special tax revenues and any of the Available Transient Occupancy Tax (Available TOT as defined in the bond documents) as appropriated by City Council. The City is not obligated to advance available surplus funds from the City Treasury to cure any deficiency in the Redemption Fund for these bonds; provided, however, the City is not prevented, in its sole discretion, from so advancing funds.

Restricted fund balance increased by \$2.3 million from \$39.7 million to \$42.0 million as of June 30, 2018. The 2017-2018 total revenues of \$26.9 million were below total expenditures of \$33.4 million for 2017-2018. The net transfers amount of \$8.7 million resulted in a \$2.3 million net positive change in fund balance. The higher expenditures of \$12.9 million, or 63.0 percent compared to the prior fiscal year were related to the capital maintenance toward the Convention Center Exhibit Hall Lighting and Ceiling Upgrade Project and funded by the \$15.0 million Commercial Paper note issuance from the City of San José Financing Authority.

City of San José Financing Authority Fund: The City's Financing Authority Debt Service Fund accounts for debt activity related to lease revenue bonds and commercial paper notes, which serves as a mechanism for financing City public improvements and other eligible purposes. Restricted fund balance decreased by \$17.1 million from \$28.5 million to \$11.4 million as of June 30, 2018. The decrease was primarily due to a \$15.0 million transfer of commercial paper proceeds to Convention Center Exhibit Hall Project, Flood Improvement Project, and Energy Conservation Project. In 2017-2018, this fund received \$92.6 million proceeds from the sale of Successor Agency to the Redevelopment Agency (SARA) refunding bonds, which were used to refund 2001A and 2001F Bonds. In addition, the Authority also refunded \$37.1 million 2008F Bonds in 2017-2018 with property sale proceeds.

Proprietary Funds: The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, but in more detail. At June 30, 2018, the unrestricted net position was \$41.9 million for the Airport, \$157.2 million for the Wastewater Treatment System, \$9.9 million for the Municipal Water System, \$45.0 million for the Parking System, and negative \$1.1 million for the San Jose' Clean Energy fund. Net position for proprietary funds increased from \$1.242 billion at June 30, 2017 to \$1.256 billion at June 30, 2018, resulting in an increase of \$14.8 million or 1.2 percent.

Other aspects of proprietary fund activities are discussed in the business-type activities section above.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City's Charter requires the City Manager to submit balanced operating and capital budgets to the City Council prior to the beginning of a new fiscal year that begins each July 1 and ends on the following June 30. Council approved the 2017-2018 budgets in June 2017.

During the year ended June 30, 2018, there was a \$48.5 million increase in the budgeted revenues between the original and final amended operating budget for the General Fund. The budgeted revenues increases were in all revenue categories except for licenses, permits and fines, and charges for service categories.

Actual budgetary basis expenditures of \$1.051 billion were \$124.2 million less than the amended budget and \$274.4 million less than the original budget due to planned expenditures not occurring in the fiscal year ended June 30, 2018.

June 30, 2018

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City's capital assets, net of accumulated depreciation, for its governmental and business-type activities together amounted to \$7.440 billion at June 30, 2018. This investment includes land, infrastructure, structures and improvements, vehicles, equipment, intangible assets, and construction in progress. The City's decision to depreciate infrastructure capital assets results in recording a large non-cash depreciation expense each year that offsets additions to capital assets. For the year end June 30, 2018, net capital assets decreased by \$61.3 million (\$123.1 million decreased in governmental activities and \$61.8 million increased in business-type activities) compared to net capital assets at June 30, 2017. The decrease in capital assets of \$123.1 million in governmental activities is primarily due to depreciation expense of \$221.9 million and deletions of capital assets totaling \$21.6 million, which included a \$20.6 million land sale land at 1125 Coleman Avenue. These decreases were offset by acquisitions of capital assets of \$120.4 million. The increase of \$61.8 million in capital assets in the business-type activities resulted from depreciation expense of \$81.2 million, offset by additions of capital projects of \$107.6 million and additions of \$35.4 million in other capital improvements at the Airport and the Wastewater Treatment Facility.

Total construction in progress (CIP) increased by \$61.7 million from \$168.8 million at June 30, 2017 to \$230.5 million at June 30, 2018. Construction in progress for the governmental activities decreased by \$2.4 million primarily due to more CIP additions being placed into service than new additions to CIP. Two of the larger assets placed into service included the expansion of Del Monte Park and Civic Auditorium HVAC rehabilitation, which resulted in a \$9.5 million decrease in CIP. Business-type activities contributed an increase of \$64.1 million to the total CIP as additions to the Airport and the Wastewater Treatment System totaling \$102.1 million was offset by \$36.5 million in Airport projects that were completed and placed in service. The completed Airport projects include the following: completion of infrastructure upgrades to its perimeter security technology and construction of Gates 29 and 30 at the Terminal B.

The City records infrastructure assets at historical cost in the government-wide financial statements and depreciates assets from acquisition date to the end of the current fiscal year as required by GASB Statement No. 34. For governmental fund financial statements recording purposes, capital asset purchases are recorded as expenditures, rather than capitalizing and recording related depreciation. Capital assets, net of depreciation, for governmental and business-type activities in the government-wide financial statements are presented below to illustrate changes between June 30, 2018 and June 30, 2017 (in thousands):

	Governmental activities		Business-type activities		Total	
	2018	2017	2018	2017	2018	2017
Land	\$ 409,022	\$ 413,533	\$ 137,938	\$ 134,926	\$ 546,960	\$ 548,459
Intangible assets	-	-	12,882	12,882	12,882	12,882
Construction in progress	46,570	48,995	183,980	119,839	230,550	168,834
Buildings	1,000,352	1,037,733	1,046,008	1,071,189	2,046,360	2,108,922
Improvements, other than buildings	224,407	214,072	650,662	636,328	875,069	850,400

Furniture and fixtures, vehicles, equipment	43,259	36,824	91,854	86,408	135,113	123,232
Total capital assets	\$5,316,928	\$5,439,984	\$2,123,324	\$2,061,572	\$7,440,252	\$7,501,556

City of San José
Management's Discussion and Analysis (Continued)
Required Supplementary Information (Unaudited)
June 30, 2018

Commitments outstanding as of June 30, 2018, related to governmental and business-type activities construction in progress totaled approximately \$32.4 million and \$233.1 million, respectively. Additional information about the City's capital assets can be found in the Notes to Basic Financial Statements, Note III.D.

Net General Obligation Bonded Debt Limit

The City Charter limits bonded indebtedness for General Obligation bonds to 15 percent of the total assessed valuation of all real and personal property within the City. The total assessed value of taxable property on the City's 2017-2018 tax roll was \$177.0 billion, which results in a total debt limit of \$27.0 billion. As of June 30, 2018, the City had \$347.3 million of Net General Obligation bonds outstanding which represents approximately 1.3% of the General Obligation bonds debt limit.

General Obligation Bonds and Other Bond Ratings

The City's current general obligation credit ratings are Aa1/AA+/AA+ from Moody's Investors Service ("Moody's"), Standard & Poor's ("S&P"), and Fitch Ratings ("Fitch"), respectively. These credit ratings have remained the same from the prior year, and the City continues to be one of the highest rated large cities (with population over 250,000) in California.

Moody's credit rating for the City of San José Financing Authority, lease revenue bond Series 2003A, 2006A, 2013A, and 2013B is Aa2. Moody rated 2011A lease revenue bonds at Aa3. S&P and Fitch both have an underlying rating of AA. The outlook for all the three agencies is stable.

For Norman Y. Mineta San José International Airport, S&P currently has an underlying rating of A with stable outlook, Moody's currently has an underlying rating of A2 with stable outlook. Fitch currently has an underlying rating on Airport Revenue Bonds at A- with stable outlook.

Sewer revenue bonds issued by the San Jose-Santa Clara Clean Water Financing Authority have current underlying ratings of AAA by S&P and Fitch, and a rating of Aa2 by Moody's. The outlook for all three agencies is stable.

Outstanding Debt

The City's debt service obligations include general obligation bonds, revenue bonds, lease revenue bonds, and special assessment and special tax bonds.

During 2017-2018, the City's outstanding long-term debt decreased by \$244.2 million to \$2.262 billion, comprised of \$982.3 million of governmental activities and \$1.279 billion of business-type activities. The balances at June 30, 2017 were \$1.168 billion for governmental activities and \$1.338 billion for business-type activities, for a total of \$2.506 billion. The decrease of \$244.2 million is primarily due to the scheduled debt service payments and redemption of the City of San José Financing Authority 2001A Bonds, 2001F Bonds, and 2008F Bonds.

Total:	<u>\$ 2,261,804</u>	<u>\$ 2,506,013</u>	<u>\$ (244,209)</u>

Additional information about the City's long-term obligations appears in the Notes to Basic Financial Statements, Note III.F.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

- The City's General Fund completed 2017-2018 with better operating financial results than expected when the 2017-2018 Adopted Budget was developed. Although the local economic activity remains strong, the City still faces fiscal challenges on a long-term basis to achieve a more desirable level of budget stability while avoiding any reduction in services. In June 2018, the City Council approved a balanced General Fund budget for fiscal year 2018-2019. Given the availability of one-time funding and the modest funding made available, the Adopted 2018-2019 Budget follows City Council direction to focus on targeted, strategic spending as well as savings for the future. The budget takes a multi-year approach with one-time funding set aside in 2018-2019 to address the projected General Fund shortfall in 2019-2020. It also maintains existing service levels, enhanced service delivery in limited areas, and investment in infrastructure and technology. With limited resources, it is imperative that the City continues to innovate and leverage resources to achieve its service delivery goals.
- The 2018-2019 Adopted Budget includes modest increases to staffing levels to support a variety of activities and limited enhancements to other critical services. Overall, the level of staffing will increase by a net 163 (a total of 46 positions are one-time funded), from 6,250 full-time equivalent positions in the 2017-2018 Adopted Budget to 6,413 positions in the 2018-2019 Adopted Budget. This 2.6% increase still leaves City staffing well below its peak of almost 7,500 positions in 2001-2002 and well below the average of large cities.
- 2018-2019 redevelopment property tax revenues are forecast to be sufficient to pay debt service obligations of the SARA. With the issuance of \$1.7 billion of Tax Allocation Refunding Bonds in 2017-2018 which refunded 23 series of tax allocation bonds and the City of San José Financing Authority's

City of San José
Management’s Discussion and Analysis (Continued)

June 30, 2018

Series 2001A Bonds and 2001F Bonds. The refunding put SARA into a “Sufficiency of Funds” situation, improve its cash flow, and accelerate distribution of residual revenues to other taxing agencies including the City.

- As reported in the GASB 67/68 Report as of June 30, 2018 prepared by the actuary for the Police and Fire Department Retirement Plan (“PFDRP”), the net position of the Defined Benefit Pension Plan was 73 percent of the total pension liability. The total pension liability was \$4.534 billion, and the fiduciary net position was \$3.293 billion, resulting in a net pension liability of \$1.241 billion.
- As reported in the GASB 67/68 Report as of June 30, 2018 prepared by the actuary for the Federated City Employees’ Retirement System (“FCERS”), the net position of the Defined Benefit Pension Plan was 50 percent of the total pension liability. The total pension liability was \$3.923 billion, and the fiduciary net position was \$1.973 billion, resulting in a net pension liability of \$1.950 billion.
- For funding purposes, as of June 30, 2017, the most recent actuarial valuation date, PFDRP’s Postemployment Healthcare Benefits (OPEB) Plan had a 21 percent actuarial funded ratio for postemployment healthcare benefits. The actuary reported total OPEB liability was \$714.5 million and the fiduciary net position was \$149.7 million, resulting in net OPEB liability of \$564.8 million.
- For funding purposes, as of June 30, 2017, the most recent actuarial valuation date, FCERS’s Postemployment Healthcare Benefit (OPEB) Plan had a 347 percent actuarial funded ratio for postemployment healthcare benefits. The actuary reported total OPEB liability for postemployment healthcare benefits was \$766.8 million and the fiduciary net position was \$260.4 million, resulting in a net OPEB liability of \$506.4 million.
- For 2018-2019, the City’s contribution rates for pension benefits and postemployment healthcare benefits, as a percentage of payroll are as follows:

Contribution Rates	PFDRP ⁽¹⁾				FCERS ⁽¹⁾		
	Police	Police	Fire	Fire	Tier 1	Tier 2	Tier 2B
	Tier 1	Tier 2	Tier 1	Tier 2			
Retirement Pension	97.55%	13.71%	98.49%	15.13%	99.16%	8.28%	8.28%
Postemployment Healthcare Benefits	11.0%	11.0% ⁽²⁾	10.1%	10.1% ⁽²⁾	7.2%	7.2%	7.2%

- (1) The rates above are the Retirement Board adopted rates based on the June 30, 2017, actuarial valuations.
- (2) Subsequent to the implementation of the revised Tier 2 pension benefits for sworn Police and Fire Tier 2 employees, the City Manager exercised his discretion, pursuant to the Municipal Code, to terminate the defined benefit retiree healthcare plan for these employees. Effective July 30, 2017, Police and Fire Tier 2 employees were no longer eligible for the defined benefit retiree healthcare plan and, as such, will not make contributions to the plan. The City continues to pay its contributions for the Tier 2 police and fire employees. Additional information about the City’s Postemployment Healthcare Benefits appears in the Notes to Basic Financial Statements, Note IV. A.4 would not apply to FY 2018-2019.

- On June 24, 2008, the City Council adopted Ordinance No. 28332 amending Title 3 of the San José Municipal Code to provide the City with the option to make lump sum prepayments of City required contributions for pension benefits and postemployment healthcare benefits to PFDRP and FCERS. The lump sum prepayment for the fiscal year ending June 30, 2019 was calculated to be actuarially equivalent to the biweekly payments that would otherwise have been the City’s required contributions to the benefit pension plans and the postemployment healthcare plans. The Boards of Administration for PFDRP and FCERS approved the actuarially determined prepayment amount of \$183.1 million for PFDRP, and \$175.4 million for FCERS Tier 1 members. The prepayment for PFDRP and for FCERS Tier 1 members was paid by the City in July 2018.

FORWARD-LOOKING STATEMENTS AND REQUESTS FOR INFORMATION

Forward-Looking Statements

When used in this CAFR, the words or phrases “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” “forecast,” “expect,” “intend” and similar expressions identify “forward-looking statements”, but are not the exclusive means of identifying forward-looking statements in the CAFR. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward-looking statements. Any forecast is subject to such uncertainties. Inevitably, some assumptions used to develop the forecasts will not be realized and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between forecasts and actual results, and those differences may be material.

Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this CAFR. The City undertakes no obligation to revise or update any forward-looking statements to reflect any event or circumstance that may arise after the date of the CAFR.

Requests for Information

This financial report is designed to provide our residents, taxpayers, customers, investors, and creditors with a general overview of the City’s finances. All summaries of documents contained in this CAFR are made subject to the provisions of such documents and do not purport to be complete statements of any or all such provisions. Each reference in this CAFR to a document is qualified in its entirety by reference to such document, which is on file with the City.

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, 200 East Santa Clara Street, San José, California 95113. Requests for documents may be directed to the City department designated in the CAFR as the holder of a particular document or to the Director of Finance.

City of San José
Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Position
June 30, 2018
(\$000's)

Total fund balances-governmental funds (Page 27) \$ 1,424,276

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

Land	\$	409,022	
Construction in progress		46,570	
Infrastructure assets		11,543,605	
Other capital assets		2,097,892	
Accumulated depreciation		<u>(8,785,937)</u>	
Total capital assets			5,311,152

Other long-term assets associated with the New Market Tax Credit (NMTC) financing program are not current financial resources, therefore, are not reported in governmental funds. 19,610

Long-term receivables are not available to pay for current period expenditures and, therefore, are reported as deferred inflows of resources in governmental funds. 41,441

Prepaid bond insurance costs are expensed in governmental funds when paid, however, such costs are capitalized and amortized over the life of the corresponding bonds for purposes of the statement of net position. 326

Refunding of debt reported as deferred outflows/inflows of resources are not financial resources, therefore are not reported in the funds. Such costs are capitalized and amortized over the life of the corresponding bonds for purposes of the statement of net position. 721

Special assessments are reported as revenues when levied in government-wide financial statements. In governmental funds, these assessments are reported as deferred inflows of resources since they are not available. 30,950

Interest payable on long-term debt does not require the use of current financial resources and, therefore, interest payable is generally not accrued as a liability in the balance sheet of governmental funds. (9,630)

Internal service funds are used by management to charge the cost of public works support, employee benefits, and vehicle maintenance and operations to individual funds. The assets and liabilities are included in governmental activities in the statement of net position. 20,656

Long-term obligations are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:

Bonds, loan payables, and lease-purchase agreements	\$	(998,788)	
Accrued vacation, sick leave and compensatory time		(73,285)	
Estimated liability for self-insurance		(135,326)	
Other		<u>(23,323)</u>	
Total long-term obligations			(1,230,722)

Net pension liability and pension related deferred outflows and inflows of resources are not due in the current period and therefore are not reported in the funds. These amounts consist of:

Net pension liability	\$	(2,835,815)	
Deferred outflows of resources		824,288	
Deferred inflows of resources		<u>(3,980)</u>	
			(2,015,507)

Other postemployment benefits liability and related deferred outflows and inflows of resources are not due in the current period and therefore are not reported in the funds. These amounts consist of:

Net other postemployment benefits liability	\$	(957,581)	
Deferred outflows of resources		50,616	
Deferred inflows of resources		<u>(3,415)</u>	
			<u>(910,380)</u>

Net position of governmental activities (Page 24) \$ 2,682,893

City of San José
Reconciliation of the Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2018
(\$000's)

Net change in fund balances--total governmental funds (Page 31)	\$	9,042
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay	\$ 81,311	
Depreciation expense	<u>(219,297)</u>	
		(137,986)
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, retirements, trade-ins, donations)		
Donated assets	\$ 37,824	
Transfers from SARA	316	
Proceeds from sale of capital assets	<u>(38,187)</u>	
Gain on disposal of assets	<u>16,817</u>	
		16,770
Decrease in long-term receivables associated with lease, pledge revenue, and reimbursement arrangements from the private purpose trust fund are not current financial resources and therefore are not reported in the governmental funds.		
		(102,610)
Prepaid bond insurance costs are expended in governmental funds when paid, however, are capitalized and amortized over the life of the corresponding bonds for the purposes of the statement of activities.		
		(19)
Amortization of deferred outflows of resources resulting from the deferred loss on refunding of bonds		
		(185)
Repayment of long-term obligation principal is reported as an expenditure in governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the government-wide statements, however, the principal payments reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities. The City's long-term obligations were reduced because principal payments were made to bondholders and HUD.		
		184,192
Accrued interest payable on long-term debt is reported in the government-wide statement of activities, but does not require the use of current financial resources. Amortization of bond premiums and discounts should be expensed as a component of interest expense on the statement of activities. This amount represents the change in accrued interest payable and the amortization of bond premiums and discounts not reported in governmental funds.		
Decrease in accrued interest payable	\$ 474	
Amortization of premiums and discounts on bonds issued	<u>1,971</u>	
Total net interest expense and amortization of discount/premium		2,445
Because some revenues will not be collected for several months after the City's fiscal year end, they are not considered "available revenues" and are reported as deferred inflows of resources in the governmental funds.		
		(4,269)
Internal service funds are used by management to charge the cost of public works support, employee benefits, and vehicle maintenance and operations to individual funds. The change in net position is included in governmental activities in the statement of activities.		
		(641)
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:		
Net decrease in vacation, sick leave, and compensatory time	\$ 897	
Net decrease in estimated liability for self-insurance	9,451	
Net decrease in other liabilities	<u>2,324</u>	
Total expenditures		12,672
Changes to net pension liability and pension related deferred outflows and inflows of resources do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
		<u>(260,099)</u>
Changes to other postemployment benefits liability and related deferred outflows and inflows of resources do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
		<u>(6,592)</u>
Change in net position of governmental activities (Page 25)	\$	<u>(287,280)</u>

The Notes to Basic Financial Statements are an integral part of this statement.

I. Summary of Significant Accounting Policies

A. Reporting Entity

The City of San José, California (the “City”), was chartered on March 25, 1850, and has operated under a Council–Manager form of government since 1916. The City has defined its reporting entity in accordance with generally accepted accounting principles (“GAAP”) in the United States of America, which provide guidance for determining which governmental activities, organizations, and functions should be included in the reporting entity. In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. The primary criteria for including a potential component unit within the reporting entity are the governing body’s financial accountability or whether the nature and significance of the relationship with the primary government is misleading to exclude.

A primary government is considered to be financially accountable, if it appoints a voting majority of an organization’s governing body and it is able to impose its will on the organization, or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government. A primary government may also be financially accountable if an organization is fiscally dependent on the primary government regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government. Based upon the application of these criteria, the following is a brief description of each component unit included within the City’s reporting entity. All such component units have been “blended” (or in the case of the Successor Agency to the Redevelopment Agency of the City of San José reported as a fiduciary fund) as though they are part of the primary government because the component unit’s governing body is substantially the same as the City’s primary government and there is a financial benefit or burden relationship between the City and the component unit, management of the City has operational responsibilities for the component unit, and/or the component units provide services entirely, or almost entirely, to the City or otherwise exclusively, or almost exclusively, benefits the City, even though it does not provide services directly to it, or the City is entirely or almost entirely responsible for the repayment of the debt of the component unit.

- **Successor Agency to the Redevelopment Agency of the City of San José** – The Successor Agency to the Redevelopment Agency of the City of San José (the “SARA”) was created by State statute, referred to in these notes as the Redevelopment Dissolution Law, to serve as a custodian for the assets and to wind down the affairs of the SARA. The SARA is subject to the direction and oversight of a board consisting of the Mayor and the other members of the City Council (the “SARA Board”). The SARA is also, pursuant to the Redevelopment Dissolution Law, subject to the direction and oversight of an Oversight Board. Through June 30, 2018, the Oversight Board is comprised of seven member representatives from local government bodies: two appointed by the Mayor; two appointed by the County of Santa Clara (the “County”); one appointed by the County Superintendent of Education; one appointed by the Chancellor of California Community Colleges; and one appointed by the largest special district taxing entity in the Merged Project Area (currently the Santa Clara Valley Water District).

Beginning July 1, 2018, pursuant to Health and Safety Code section 34179(j), the individual oversight boards within Santa Clara County no longer existed and were combined into one county-wide Oversight Board. The county-wide Oversight Board as of July 1, 2018 is comprised of seven member representatives with one member appointed by each of the following: County Board of Supervisors, the city selection committee established pursuant to Section 50270 of the Government Code, the independent special district selection committee established pursuant to Section 56332 of the Government Code, the County Superintendent of Education, the Chancellor

City of San José
Notes to Basic Financial Statements
June 30, 2018

of the California Community Colleges, a public appointment made the County Board of Supervisors, and the recognized employee organization representing the largest number of successor agency employees in the county. The county-wide Oversight Board is staffed by the County of Santa Clara Auditor-Controller and tasks have been delegated among the County Finance Agency, the Office of the County Executive, the Clerk of the Board of Supervisors, and Office of the County Counsel.

In general, the SARA's assets can only be used to pay enforceable obligations in existence at the date of dissolution, February 1, 2012 (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments). The SARA is only allocated revenue in the amount that is necessary to meet the enforceable obligations of the former Redevelopment Agency of the City of San José (the "Agency") each year until all enforceable obligations of the Agency have been paid in full and all assets have been liquidated. Based upon the nature of the SARA's custodial role, the SARA is reported in a fiduciary fund (private purpose trust fund).

- **San José – Santa Clara Clean Water Financing Authority** – The San José – Santa Clara Clean Water Financing Authority (the "Clean Water Financing Authority") was created pursuant to a Joint Exercise of Powers Agreement between the City and the City of Santa Clara. The purpose was to finance the acquisition of, and additions and improvements to the existing San José – Santa Clara Water Pollution Control Plant (the "Plant"), currently known as the San José – Santa Clara Regional Wastewater Facility (the "RWF"). The Clean Water Financing Authority is governed by a five-member Board of Directors; three are members of the San José City Council and two are members of the City Council of the City of Santa Clara. The Clean Water Financing Authority and the cities of San José and Santa Clara entered into an Improvement Agreement and subsequent amendments to the Improvement Agreement (the "Improvement Agreement"), which requires each city to make base payments that are at least equal to each city's allocable share of debt service requirements of the Clean Water Financing Authority's outstanding revenue bonds. Under the Improvement Agreement, the City of San José is entirely responsible for the repayment of the Clean Water Financing Authority's outstanding revenue bonds. The Clean Water Financing Authority is blended in the Wastewater Treatment System Enterprise Fund for financial reporting purposes.
- **City of San José Financing Authority** – The City of San José Financing Authority (the "Financing Authority") was created by a Joint Exercise of Powers Agreement between the City and the Agency. The Financing Authority was created for the purpose of facilitating the financing of public improvements and facilities within the City and is authorized to issue bonds for this purpose. The Financing Authority is governed by an 11-member Governing Board, which consists of the members of the City Council. The Financing Authority is blended in the San José Financing Authority Debt Service Fund for financial reporting purposes.
- **San José Diridon Development Authority** – The San José Diridon Development Authority (the "Diridon Authority") was created in March 2011 by a Joint Exercise of Powers Agreement between the City and the Agency. The Diridon Authority was created for the purposes of overseeing the development of properties within the area of the City surrounding the San José Diridon Station, and is authorized to issue bonds for this purpose. The Diridon Authority is governed by an 11-member Governing Board, which consists of the members of the City Council. The Diridon Authority did not have any activity in fiscal year 2017-18.

Separate financial reports for City departments and component units for the fiscal year 2017-18, containing additional information and more detailed information regarding financial position, changes in financial position, and, where applicable, cash flows, are available from the City's Director of Finance, 200 East Santa Clara Street; 13th Floor, San José, CA 95113-1905, for the following:

City of San José
Notes to Basic Financial Statements
June 30, 2018

- Federated City Employees' Retirement System (the "FCERS")
- Police and Fire Department Retirement Plan (the "PFDRP")
- Successor Agency to the Redevelopment Agency of the City of San José
- Norman Y. Mineta San José International Airport (the "Airport")
- San José – Santa Clara Clean Water Financing Authority

B. Financial Statement Presentation

Government-wide Financial Statements. The government-wide financial statements, i.e. the statement of net position and the statement of activities, display information about the primary government and its component units. These statements include the financial activities of the overall government, except for fiduciary funds or component units that are fiduciary in nature. Eliminations have been made to prevent the double counting of internal activities. For example, the direct expense charges based on actual use are not eliminated, whereas indirect expense allocations made in the funds are eliminated. These statements distinguish between the *governmental* and *business-type* activities of the City. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other non-exchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each business-type activity of the City and each function of the City's governmental activities. Direct expenses are those that are specifically associated with a business-type activity or governmental function and, therefore, are clearly identifiable to a particular activity or function. Program revenues include 1) fees, fines and charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meet the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements. The fund financial statements provide information about the City's funds, including its fiduciary funds. Separate statements for each fund category, such as governmental, proprietary and fiduciary, are presented. The emphasis of fund financial statements are on the major governmental and enterprise funds of the City and are reported separately in the accompanying financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds in the accompanying financial statements.

Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all revenues and expenditures necessary to carry out basic governmental activities of the City that are not accounted for through other funds.

The **Housing Activities Fund** is a special revenue fund that accounts for all of the City's affordable housing activities funded by federal and state grants, as well as various fees. Prior to the dissolution of redevelopment agencies, the Housing Activities Fund accounted for all of the City's affordable housing activities, including the 20% redevelopment property tax revenue (i.e. former tax increment) set-aside for low and moderate income housing and related expenditures. Upon dissolution of the Agency and the City Council's election to retain the housing activities previously funded by the Agency, the City created a housing successor fund and transferred the

City of San José
Notes to Basic Financial Statements
June 30, 2018

assets and affordable housing activities funded by the Agency to the Low and Moderate Income Housing Asset Fund.

The **Low and Moderate Income Housing Asset Fund** is a special revenue fund that was created to administer the housing assets and functions related to the Low and Moderate Income Housing Program retained by the City following the dissolution of the Agency on February 1, 2012. This fund is primarily funded by loan repayment program income generated from the former Agency's housing assets.

The **Special Assessment Districts Fund** is a capital project fund that accounts for the capital project and debt activities related to debt issued to finance public improvements benefiting properties against which special assessments or special taxes are levied.

The **San José Financing Authority Debt Service Fund** is a debt service fund that accounts for the debt activities related to capital projects funded with Financing Authority debt.

The City reports the following major enterprise funds:

The **Norman Y. Mineta San José International Airport Fund** accounts for the activities of the City owned commercial service and general aviation airport.

The **Wastewater Treatment System Fund** accounts for the financing, construction and operations of the Plant, the regional water reclamation program (known as South Bay Water Recycling), and the San José Sewage Collection System and the Clean Water Financing Authority.

The **Municipal Water System Fund** accounts for the operations of the five water system operating districts: North San José, Evergreen, Coyote, Edenvale, and Alviso.

The **Parking System Fund** accounts for the operations of the City owned parking garage facilities, parking lots, and parking meters located within the City.

The **San José Clean Energy Fund** accounts for the City's Community Choice Energy program known as San José Clean Energy ("SJCE"), which allows the City to procure electricity for the City and businesses and residents in San José with more renewable energy options.

The City also reports the following types of funds:

The **Internal Service Funds** are used to account for the public works support services provided to City-wide capital programs; the cost of operating an automotive maintenance facility used by other City departments; and employee benefits including medical, vision, dental, and unemployment insurance costs on a cost-reimbursement basis.

The **Pension Trust Funds** account for the accumulated resources to be used for retirement annuity and postemployment healthcare payments to members of the FCERS and the PFDRP, collectively, the "Retirement Systems".

The **Private Purpose Trust Funds** account for the custodial responsibilities that are assigned to the SARA with the passage of the Redevelopment Dissolution Law and for the James Lick Fund, which holds resources in trust for the support of the EMQ Families First Agency (a.k.a. Eastfield Ming Quong).

The **Agency Fund** accounts for assets held by the City in a custodial capacity with respect to the San José Arena.

City of San José
Notes to Basic Financial Statements
June 30, 2018

C. Measurement Focus and Basis of Accounting

The basis of accounting determines when transactions are reported in the financial statements. The government-wide, proprietary and fiduciary funds (excluding agency funds) financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds do not have a measurement focus but are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales and use, transient occupancy and utility user taxes are recognized when the underlying transactions take place. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and modified accrual basis of accounting. This focus is on the determination of, and changes in financial resources, and generally only current assets and current liabilities are included in the balance sheet. Revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the fiscal period. For this purpose, the City considers revenues as available if they are collected within sixty days after the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred. However, principal and interest on long-term debt and certain estimated liabilities, such as compensated absences and self-insurance claims, are recorded when payment is due.

In governmental funds, revenues from taxes, franchise fees, investment income, state and federal grants and charges for services associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues in the current period. All other revenue items are considered measurable and available only when cash is received by the City.

Proprietary funds distinguish between operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. In addition, the Wastewater Treatment System Fund's on-going contributions from other participating agencies for their allocation of the Plant's operating and maintenance expenses, their share of debt service, and other commitments towards the Plant's improvements are also included as operating revenues. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Under the terms of grant agreements, the City funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the City's policy to first apply restricted cost-reimbursement grant resources to such programs, followed by restricted categorical block grants, and then by unrestricted general revenues.

D. Use of Estimates

A number of estimates and assumptions relating to the reporting of revenues, expenditures/expenses, assets, deferred outflows of resources, liabilities and deferred inflows of resources, and the disclosure of contingent liabilities were used to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates and assumptions.

City of San José
Notes to Basic Financial Statements
June 30, 2018

E. New Pronouncements

During the year ended June 30, 2018, the City implemented the following Governmental Accounting Standards Board (the "GASB") Statements:

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (other postemployment benefits or OPEB)*. This statement replaces the requirements of Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. The scope of this statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. The GASB Statement No. 75 requires the liability for OPEB obligations, known as the net OPEB liability (NOL), to be recognized on the Statement of Net Position. In addition, an OPEB expense is to be recognized in the Statement of Activities and the statement of changes in net position of proprietary and fiduciary funds. The OPEB expense in GASB Statement No. 75 is no longer equal to the annual required contribution and has shorter amortization periods. There is a recognition of OPEB expense that incorporates deferred outflows of resources and deferred inflows of resources related to OPEB over a defined, closed period, rather than a choice between an open or closed period. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. This statement requires that the notes to financial statements of a single employer that sponsors an OPEB plan include descriptive information, such as the types of benefits provided and the number and classes of employees covered by the benefit terms. This statement also requires that a single employer that sponsors an OPEB plan to present in Required Supplementary Information the sources of changes in the net OPEB liability and the components of the net OPEB liability and related ratios.

As of July 1, 2017, the City restated the beginning net position to record the beginning deferred OPEB contributions and net OPEB liability as follows (dollars in thousands):

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Total</u>
Net position - beginning, as previously reported	\$ 3,437,781	\$ 1,241,519	\$ 4,679,300
Change in accounting principles	(467,608)	(65,233)	(532,841)
Net Position - beginning, as restated	<u>\$ 2,970,173</u>	<u>\$ 1,176,286</u>	<u>\$ 4,146,459</u>

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. This statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. An irrevocable split-interest agreement is one type of split-interest agreement used by donors to provide resources to two or more beneficiaries, including governments. Under an irrevocable split-interest agreement, the donor does not reserve, or confer to another person, the right to terminate the agreement at will and have the donated resources returned to the donor or a third party. This statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This statement requires that a government recognize revenue when the resources become applicable to the reporting period. The application of Statement No. 81 did not have any effect on City's financial statements.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value

City of San José
Notes to Basic Financial Statements
June 30, 2018

measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). The application of Statement No. 85 did not have any effect on the City's financial statements.

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. This statement provides guidance for transactions in which cash and other monetary assets acquired with only existing resources, resources other than the proceeds of refunding debt, are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The application of Statement No. 86 did not have any effect on the City's financial statements.

The City is currently analyzing its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). This statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs, requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred, and requires the current value of a government's AROs to be adjusted for the effects of general inflation or deflation at least annually. Application of Statement No. 83 is effective for the City's fiscal year ending June 30, 2019.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. This statement establishes criteria for identifying fiduciary activities of all state and local governments and describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private purpose trust funds, and (4) custodial funds. The statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Application of Statement No. 84 is effective for the City's fiscal year ending June 30, 2020.

In June 2017, the GASB issued Statement No. 87, *Leases*. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provision of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. Application of Statement No. 87 is effective for the City's fiscal year ending June 30, 2021.

In April 2018, the GASB issued Statement No. 88, *Certain Disclosures Related to Debt, Including Borrowings and Direct Placements*. This statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit, assets pledged as collateral for the debt, terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. Application of Statement No. 88 is effective for the City's fiscal year ending June 30, 2019.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. This statement requires that interest costs incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for

City of San José
Notes to Basic Financial Statements
June 30, 2018

financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The City has updated the Capitalized Interest policy to no longer capitalize interest for the Wastewater Treatment System Fund which had an immaterial impact to the financial statements. Application of Statement No. 89 is effective for the City's fiscal year ending June 30, 2021, and will be applied to all remaining funds in subsequent years.

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interests – an Amendment of GASB Statements No. 14 and No. 61*, to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This statement requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Application of Statement No. 90 is effective for the City's fiscal year ending June 30, 2020.

F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

1. Cash and Cash Equivalents

Restricted and unrestricted pooled cash and investments held in the City Treasury and other unrestricted investments, invested by the City Treasurer, are considered cash equivalents for purposes of the statement of cash flows because the City's cash management pool and funds invested by the City Treasurer possess the characteristics of demand deposit accounts. Other restricted and unrestricted investments with maturities less than three months at the time of purchase are also considered cash equivalents for purposes of the statement of cash flows.

2. Equity in Pooled Cash and Investments Held in City Treasury

Most cash balances of the City's funds and some of its component units are pooled and invested by the City Treasurer unless otherwise dictated by legal or contractual requirements. Income and losses arising from the investment activity of pooled cash are allocated to the participating funds and component units on a monthly basis, based on their proportionate shares of the average weekly cash balance.

3. Deposits and Investments

Investments are accounted for in accordance with the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*, the City categorizes its fair value measurements within the fair value hierarchy established by GAAP in the United States of America. The following levels indicate the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

- Level 1 - Investments whose values are based on quoted prices (unadjusted) for identical assets in active markets that a government can access at the measurement date.
- Level 2 - Investments whose values are based on inputs – other than quoted prices included within Level 1 – that are observable for an asset, either directly or indirectly.
- Level 3 - Investments whose values are based on unobservable inputs for an asset and may require a degree of professional judgment.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Pooled Cash and Investments held in City Treasury. The City reports its investments held in the City Treasury at fair value. The fair value is based primarily on quoted market information and using pricing applications and models obtained from fiscal agents or other sources. Income from some investments is assigned to the General Fund. The assignment of the income from these investments is supported by legal or contractual provisions approved by the City Council. For the year ended June 30, 2018, the total investment income from these investments assigned and transferred to the General Fund was approximately \$1,327,000.

Retirement Systems. The Retirement Systems' investment policies authorize various types of investments. These investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price on the last business day of the fiscal year at current exchange rates, if applicable. Investments that do not have an established market, such as private equity, commingled real estate funds and certain pooled fund investments, are reported at estimated fair value based on the most recently available investor reports or audited financial statements issued by the manager of those funds. The fund manager provides an estimated unrealized gain/loss of the fund based on the most recently available audited financial statements and other fund information. Purchases and sales of securities are reflected on the date of trade. Investment income is recognized as earned. Rental income from real estate activity is recognized as earned, net of expenses.

Other Investments. Non-pooled investments are generally carried at fair value. However, investments in investment agreements are carried at cost. Income from non-pooled investments is recorded based on the specific investments held by the fund. The investment income is recorded in the fund that earned the income.

4. Inventories

Inventories of proprietary funds are reported at cost.

5. Loans Receivable, net

Long-term loans receivable, which consist of the principal amount of the loan plus accrued borrower's deferred interest is reported in the governmental fund statements with an offset to restricted fund balance as resources are not available for expenditure. Long-term loans receivable reported in the governmental activities on the government-wide statement of net position is not offset by unavailable revenue as it is recorded on an accrual basis at its net realizable value based on an estimate of uncollectible amounts for loan losses.

6. Special Assessment Districts

Special assessments are recorded as receivables when liens are placed on properties. Special assessments not considered available are recorded as receivables and offset by deferred inflows of resources in the governmental fund financial statements. In general, special assessment and special tax bonds are fully secured by liens against the privately owned properties benefited by the improvements for which the bonds were issued. There is no reserve for delinquent receivables since priority liens exist against the related properties and management believes full value will ultimately be received by the City. Surplus funds remaining at the completion of a special assessment district project are disposed of in accordance with the City Council's resolutions and with the applicable laws of the State of California. A liability is recorded for the balance remaining until a final legal determination has been made.

City of San José
Notes to Basic Financial Statements
June 30, 2018

7. Advances and Deposits

Amounts deposited mainly in connection with eminent domain proceedings are reported as advances and deposits. In the governmental fund statements, non-current portions of these are offset equally by either a credit or a classification of fund balance in the nonspendable, restricted or committed account. In the Business-type activities, the amount is related to the deposit with the insurance company to fund the potential claims under the Airport's Owner Controller Insurance Program (OCIP).

8. Other Assets

Other assets primarily consist of real properties acquired outright and/or through foreclosure in connection with the housing rehabilitation program and an asset associated with the City's New Market Tax Credit Financing ("NMTCF") program. These assets are recorded at the lower of cost or estimated net realizable value.

9. Prepaid Bond Insurance, Original Issue Discounts and Premiums, and Refundings

Prepaid bond insurance costs are amortized using the straight-line method over the life of the bonds. Amortization of these balances is recorded as a component of operating expenses.

In the government-wide, proprietary fund and fiduciary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable financial statements. Bond premiums and discounts are deferred and amortized on a straight line basis over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Gains or losses from refunding of debt are reported as deferred outflows or inflows of resources and amortized over the shorter of the life of the refunded debt or refunding debt. Amortization of these balances is recorded as a component of interest expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Restricted Assets

Assets that are restricted for specific uses by bonded debt requirements, grant provisions or other requirements are classified as restricted because their use is limited by applicable bond covenants or agreements.

11. Capital Assets

Capital assets include land, buildings, improvements, vehicles and equipment, infrastructure, and all other tangible and intangible assets that are used in operations and that have initial useful lives in excess of one year. Capital assets are reported in the applicable governmental or business-type activity columns in the government-wide statement of net position, the proprietary funds' statements of net position, and the private purpose trust fund's statement of fiduciary net position.

Capital assets are defined as assets with an initial individual cost of more than \$5,000 for general capital assets and \$100,000 for major infrastructure assets, and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the time received. Capital outlay is recorded as expenditures of the governmental funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold is met. For Norman Y. Mineta San José International Airport Fund, interest incurred during the construction phase of capital assets is reflected in the capitalized value for the asset constructed, net of interest earned on the investment proceeds of taxable and tax-exempt debt over the same period. For the Wastewater Treatment System Fund, interest cost incurred before the end of a construction period is recognized as an expense in the

City of San José
Notes to Basic Financial Statements
June 30, 2018

period in which the cost is incurred for financial statements prepared using the economic resources measurement. Amortization of assets acquired under capital leases is based on the shorter of the lease term, when the lease does not transfer ownership or include a bargained purchase option or the estimated useful life of the asset and is included in depreciation.

Buildings, improvements, infrastructure, vehicles and equipment, and furniture and fixtures are depreciated using the straight-line method over the following estimated useful lives:

Buildings	5 – 40 years
Improvements, other than buildings	10 - 50 years
Infrastructure	25 - 50 years
Vehicles and equipment	2 - 40 years
Furniture and fixtures	10 years

Capital assets which are used for general governmental purposes and are not available for expenditure are accounted for and reported in the government-wide financial statements. Capital assets that meet the definition of the major infrastructure networks or extend the life of existing infrastructure networks are capitalized as infrastructure. Infrastructure networks include roads, bridges, drainage systems, and lighting systems.

12. Compensated Absences – Accrued Vacation, Sick Leave, and Compensatory Time

Vacation, sick leave, compensatory time, and related benefits are accrued as determined by the agreements between the City and the respective employees' collective bargaining group. For governmental funds, compensated absence obligations are recorded in the appropriate governmental funds when due. The portion not currently due is recorded in the government-wide financial statements. For proprietary funds, compensated absences are expensed when earned by employees. At year-end, the accrued but unpaid compensated absence obligations are recorded as current and non-current liabilities in the appropriate proprietary funds.

Vacation hours may be accumulated up to two times an employee's annual accrual rate, which will vary by years of service and bargaining unit, but it generally does not exceed a maximum of 400 hours for non-sworn employees and 360 hours for employees represented by the San José Police Officer's Association ("SJPOA"). Employees represented by the International Association of Firefighters, Local 230 ("IAFF"), may accumulate vacation hours up to 400 hours for employees on a 40-hour workweek and 576 hours for employees on a 56-hour workweek.

Employees in FCERS who retire with at least 15 years of service, or 20 years for police officers and firefighters in PFDRP, may be eligible to receive, upon retirement, sick leave payouts based on percentages of accumulated unused sick leave hours as determined by the respective collective bargaining agreements for represented employees. Similar terms are applicable to eligible unrepresented employees. Eligibility for sick leave payouts depends on the employee's hire date.

City of San José
Notes to Basic Financial Statements

¹ For purposes of Sick Leave Payout. Employees will continue to accrue sick leave hours after the "Sick Leave Balance Frozen as of" date, but such accrued sick leave may not be used for sick leave payout purposes. If an employee reduces their sick leave balance below what it was as of the "Sick Leave Balance Frozen as of" date, such employee will not be able to restore their sick leave balance for sick leave payout purposes.

² For purposes of Sick Leave Payout. Employees may receive pay increases subsequent to the "Rate of Pay Frozen as of" date, but the employee's sick leave payout will be based on their rate of pay as of the "Rate of Pay Frozen as of" date.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Compensatory time is generally provided to employees who work overtime and earn compensatory time off at the rate of one and one half the number of overtime hours worked in lieu of pay. The Fair Labor Standards Act ("FLSA") provides that general employees may accrue up to 240 hours of compensatory time, and employees responsible for law enforcement or fire suppression such as those represented by SJPOA, IAFF, and in the Public Safety Communication Dispatcher classifications may accrue up to 480 hours of compensatory time.

13. Interfund Transactions

Interfund transactions are reflected as loans, services provided, reimbursements and/or transfers. Loans and balances related to unsettled service transactions are reported as receivables and payables as appropriate, are subject to elimination upon consolidation of similar fund types. The current portion of interfund loans and unsettled service transactions are reported as "due to/from other funds" and the non-current portion is reported as "advances to/from other funds". Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

Services provided are deemed to be at market or near market rates and are treated as revenues and expenditures/expenses in the fund receiving revenue or being charged. Reimbursements are defined as when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

14. Self-Insurance

The City is self-insured for workers' compensation, general liability, auto liability, and certain other risks, except as described in Note III.F.12. The City's workers' compensation activities are funded and accounted for separately in the fund financial statements based upon the activities of each fund. The current portion of claims liability is accounted for in the General Fund and the enterprise funds on the basis of settlements reached or judgments entered within the current fiscal year. In the government-wide financial statements and the enterprise fund financial statements, the estimated liability for all self-insurance liability claims is recorded as a liability.

15. Deferred Outflows/Inflows of Resources

Deferred resources related to pension expense, OPEB expense, and unamortized portions of the gain and loss on refunding debt are reported as deferred outflows and deferred inflows of resources, respectively. In addition to this, when an asset is recorded in governmental fund financial statements but the revenue is not available, a deferred inflow of resources is reported until such time as the revenue becomes available.

16. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions and pension expense, the fiduciary net position of the City's defined benefit retirement plans (PFDRP, FCERS, and the California Public Employees' Retirement System ("CalPERS")), and additions to/deductions from the Retirement Systems' and CalPERS' fiduciary net positions have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

City of San José
Notes to Basic Financial Statements
June 30, 2018

17. Other Postemployment Benefits (OPEB)

For purpose of measuring the net OPEB liability, deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the PFDRP and FCERS OPEB plans and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

18. Net Position

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

- *Net Investment In Capital Assets* – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt and deferred outflows/inflows of resources associated with the debt that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.
- *Restricted Net Position* – This category represents net position that has external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. At June 30, 2018, the government-wide statement of net position reported restricted net position of \$1,000,459,000 in governmental activities and \$72,750,000 in business-type activities. Of these amounts \$326,287,000 and \$24,365,000, respectively are restricted by enabling legislation.
- *Unrestricted Net Position* – This category represents net amounts that do not meet the criteria for “restricted” or “net investment in capital assets”. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then use unrestricted resources as needed.

19. Fund Balances

Under GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the financial statements reporting for governmental funds classify fund balances based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which those funds can be spent. Fund balance for the City's governmental funds consists of the following categories:

- *Nonspendable Fund Balance* – includes amounts that are not in a spendable form, such as inventories, prepaid items, and long-term loans and notes receivables. It also includes amounts that are legally or contractually required to be maintained intact or required to be retained in perpetuity.
- *Restricted Fund Balance* – includes amounts reported as restricted when constraints placed on the use of resources are either (1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.
- *Committed Fund Balance* – includes amounts that have been limited to specific purposes as defined in the City Charter or through adoption of an ordinance by the City Council, the highest level of decision making authority of the City. These commitments may be changed or lifted, but only by the same formal action that was used to impose the constraint originally. City Council

City of San José
Notes to Basic Financial Statements
June 30, 2018

action to commit fund balance must occur within the fiscal reporting period while the amount committed may be subsequently determined.

- *Assigned Fund Balance* – includes amounts that are intended to be used by the City for specific purposes that are neither restricted nor committed through City Council budgetary action, which include the approval of appropriations and revenue sources pertaining to the next fiscal year's budget. On June 21, 2011, the City Council adopted a resolution establishing the City's *Governmental Fund Balance Financial Reporting Policy*, which states that assigned fund balances are intended to be used for specific purposes through City Council budgetary actions. Intent is expressed by (a) the City Council or (b) the City Manager to which the City Council has delegated the authority to assign amounts to be used for specific purposes.
- *Unassigned Fund Balance* – includes amounts within the General Fund, the residual resources, either positive or negative, in excess of what can be properly classified in one of the other four fund balance categories. Unassigned amounts are technically available for any purpose. Other governmental funds may only report a negative unassigned balance that was created after classification in one of the other four fund balance categories.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance categories, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

20. Property Taxes

Property taxes are collected on behalf of and remitted to the City by the County of Santa Clara (the County). The amount of property tax levied is restricted by Article 13A of the California State Constitution (commonly referred to as Proposition 13). The County assesses property values, levies, bills, and collects the related property taxes as follows:

	Secured	Unsecured
Valuation/lien dates	January 1	January 1
Levy dates	October 1	July 1
Due dates (delinquent after)	50% on November 1 (December 10) 50% on February 1 (April 10)	July 1 (August 31)

The City has elected to participate in the "Teeter Plan" offered by the County whereby cities receive 100% of secured property and supplemental property taxes levied in exchange for foregoing any interest and penalties collected on the related delinquent taxes. Accordingly, property taxes levied for the fiscal year are recorded as revenue when received from the County.

General property taxes are based either on a flat 1% rate applied to the fiscal 1976 full value of the property or on 1% of the sales price of the property on sales transactions and construction that occur after the fiscal 1976 valuation. The assessed value increases each year by an inflationary rate not to exceed the percentage change for the California Consumer Price Index (CPI), or 2%, whichever is less."

The City's net assessed valuation for the year ended June 30, 2018, was approximately \$171.3 billion, an increase of approximately 6.1% from the previous year. The City's tax rate was approximately \$0.175 per \$100 of assessed valuation, which included the 1% basic levy and additional levies for general obligation bonds Measures "O" and "P" (2000) and Measure "O" (2002).

City of San José
Notes to Basic Financial Statements
June 30, 2018

21. Wastewater Treatment System

The Wastewater Treatment System is an enterprise of the City and is comprised of the Plant, including South Bay Water Recycling and the San José Sewage Collection System. The Clean Water Financing Authority was established to provide financing for the capital programs of the Plant including the regional water reclamation program.

The Plant provides wastewater treatment services to the City and to six other sewage collection agencies. The City's sewer service rates pay for the City's share of the Plant operations, maintenance, and administration and capital costs.

In 1959, the City and the City of Santa Clara entered into an agreement to jointly own and operate the Plant. Under the agreement, the City serves as the administering agency and is responsible for operating and maintaining the Plant. The cities share in the capital and operating costs on a pro rata basis determined by the ratio of each city's assessed valuation to the sum of both cities' assessed valuations. Annually, these percentages are determined and applied to the capital and operating costs on an accrual basis. For the fiscal year ended June 30, 2018, the City's portion of the capital and operating costs was approximately 80.7% and the City's interest in the net position of the Plant was approximately 81.5%.

II. Stewardship, Compliance, and Accountability

A. Deficit Net Position

Prior to February 1, 2012, the California Redevelopment Law provided tax increment financing as a source of revenue to redevelopment agencies to fund redevelopment activities. Once a redevelopment area was adopted, the former Agency could only receive tax increment to the extent that it could show on an annual basis that it had incurred indebtedness that must be repaid with tax increment. Due to the nature of the redevelopment financing, the former Agency liabilities exceeded assets. Therefore, the Agency historically carried a deficit, which was expected to be reduced as future tax increment revenues were received and used to reduce its outstanding long-term debt. This deficit was transferred to the SARA on February 1, 2012. At June 30, 2018, the SARA has a deficit of \$1,471,744,000, which will be reduced when future redevelopment property tax revenues are distributed from the Redevelopment Property Tax Trust Fund administered by the County's Auditor-Controller to pay SARA's annual enforceable obligations.

B. Deficit Unrestricted Net Position – Governmental Activities

At June 30, 2018, the City reported negative balances in unrestricted net position for its governmental activities in the amount of \$2,667,125,000 after adjusting for implementation of GASB Statement No. 68 for Accounting and Financial Reporting for Pension since FY2015 and GASB Statement No. 75 for Accounting and Financial Reporting for OPEB in FY2018.

City of San José
Notes to Basic Financial Statements

III. Detailed Notes on All Funds

A. Cash, Deposits and Investments

As of June 30, 2018, total City cash, deposits and investments, at fair value, are as follows (dollars in thousands):

	Governmental Activities	Business-Type Activities	Fiduciary Funds			Carrying Value
			Pension Trust	Private Purpose Trust	Agency	
Equity in pooled cash and investments	\$ 972,976	\$ 634,634	\$ -	\$ 172	\$ 3,845	\$ 1,611,627
Cash and investments	-	-	-	14,870	-	14,870
Restricted assets:						
Equity in pooled cash and investments	93,658	70,007	-	-	-	163,665
Cash and investments with fiscal agents	102,869	111,230	-	138,278	-	352,377
Other cash	20,283	2,204	-	-	-	22,487
Investments of retirement systems	-	-	5,979,236	-	-	5,979,236
Total deposits and investments	<u>\$ 1,189,786</u>	<u>\$ 818,075</u>	<u>\$ 5,979,236</u>	<u>\$ 153,320</u>	<u>\$ 3,845</u>	<u>\$ 8,144,262</u>
Deposits						\$ 7,791
Investments						8,136,471
Total deposits and investments						<u>\$ 8,144,262</u>

Pooled Cash and Investments Held in City Treasury. The City maintains a cash and investment pool that is available for use by all funds and certain component units. Each fund's portion of this pool is displayed on the accompanying governmental fund balance sheets and proprietary fund and fiduciary fund statements of net position as "Equity in pooled cash and investments held in City Treasury."

Other Cash and Investments. The City has other cash and investments outside the City Treasury that are invested pursuant to various governing bond covenants, San José Municipal Code or California Government Code provisions.

Other cash and investments consist primarily of deposits and investments with trustees related to the issuance of bonds and to certain loan programs operated by the City. These investments are made either in accordance with bond covenants, and are pledged for payment of principal, interest, and specified capital improvements or in accordance with trust and grant agreements.

Investments of Retirement Systems. The Retirement Systems' funds are invested pursuant to policy guidelines established by the respective Boards. The objective of each investment policy is to maximize the expected return of the funds at an agreed upon level of risk. The Retirement Boards have established percentage guidelines for types of investments to ensure the portfolio is diversified.

Investment Risk. The investments are subject to certain types of risk, including interest rate risk, credit quality risk, concentration of credit risk, custodial credit risk and foreign currency risk. These risks are addressed separately for the investments related to governmental and business-type activities and those related to the Retirement Systems, as follows:

1. Governmental and Business-Type Activities

Interest Rate Risk. Interest rate risk is the risk that changes in market rates will adversely affect the fair value of an investment. Generally, debt investments with fixed coupons for longer terms are subject to more variability in their value as a result of changing interest rates. The City manages its

City of San José
Notes to Basic Financial Statements
June 30, 2018

exposure to interest rate risk by capping the weighted average maturity of the investment portfolio at two years. Also, the City sets the maximum maturity for every investment at the time of purchase by asset class, with the longest not to exceed five years.

In practice, the City purchases a combination of shorter-term and longer-term investments and times the cash flows to meet liquidity needs for operations. The average maturity of the City's pooled cash and investments at June 30, 2018, was approximately 520 days.

Credit Quality Risk. Credit risk is the risk that an issuer of an investment will not fulfill its obligations to the holder of the investment. When investing, the City applies the Prudent Investor Standard and acts with care, prudence and diligence to safeguard the principal, maintain liquidity and seek reasonable yields. The City's investment policy has strict rating requirements. The City manages credit risk by selecting high quality securities, diversifying the portfolio and establishing monitoring procedures.

Investment in Local Agency Investment Fund. The City is a voluntary participant in the California Local Agency Investment Fund ("LAIF") that is governed by the California Government Code under the oversight of the Local Investment Advisory Board ("Board"). The Board consists of five members as designated by state statute. The fair value of the City's investment in the LAIF pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF, for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis, which is different from the fair value of the City's position in the LAIF pool.

At June 30, 2018, the City's pooled and fiscal agent investments in LAIF was approximately \$248,161,000 and the SARA's investments in LAIF was approximately \$14,004,850. The weighted average maturity of LAIF was 193 days at June 30, 2018. The total amount recorded by all public agencies in LAIF at June 30, 2018 was approximately \$22.5 billion. LAIF is part of the State's Pooled Money Investment Account ("PMIA"). The PMIA is not registered with the Securities and Exchange Commission ("SEC"), but is required to invest according to the California Government Code. The total amount recorded by all public agencies in PMIA at June 30, 2018 was approximately \$88.8 billion and of that amount, 66.37% was invested in U.S. Treasuries and agencies, 24.33% in depository securities, 8.44% in commercial paper, and 0.83% in loans.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City's investment policy sets forth the policies regarding concentration of credit risk.

The City Council adopted an investment policy related to the City's cash and investment pool (the "Policy") on April 2, 1985, which is subject to annual review and was reviewed and amended on March 6, 2018. The Policy specifically prohibits trading securities for the sole purpose of speculating or taking an un-hedged position on the future direction of interest rates. Per the Policy, the investments conform to Sections 53600 et seq. of the California Government Code and the applicable limitations contained within the Policy.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The following table identifies the investment types that are authorized by the Policy as of June 30, 2018:

Authorized Investment Type	Maximum Maturity	Maximum Percentage or Dollar of Portfolio	Maximum Investment in One Issuer
U.S. Treasury Obligations	5 years	None	None
U.S. Government Agency Issues	5 years	None	None
Supranationals	5 years	20% *	None
Bankers' Acceptances	180 days	20% *	5% *
Insured Time Deposits	3 years *	\$10 million *	5% *
Uninsured Time Deposits	18 months *	\$10 million *	5% *
Commercial Paper	270 days	20% *	5% *
Negotiable Certificates of Deposit	1 year *	20% *	5% *
Repurchase Agreements	92 days *	50% *	10% *
Reverse Repurchase Agreements	30 days *	Lesser of \$25 million or 20% *	None
Corporate Medium Term Notes	3 years *	30%	5% *
California Local Agency Investment Fund	N/A	State Treasurer Limit	None
Money Market Mutual Funds	N/A	20%	10%
Municipal Bonds - Category 1 (City)	5 years	10% *	5% *
Municipal Bonds - Category 2 (State of CA)	5 years	5% *	5% *
Municipal Bonds - Category 3 (CA Issuers)	5 years	20% *	5% *
Municipal Bonds - Category 4 (Other 49 States)	5 years	20% *	5% *
Investment Agreements	None	None	None
Mortgage Backed Securities (MBS) and Collateralized Mortgage Obligations (CMO)	5 years	10%*	None
Asset Backed Securities (ABS)	5 years	5% *	None

* Represents where the Policy is more restrictive than the California Government Code.

Other restrictions on investments are summarized as follows:

- Purchases of United States government agency securities are limited to issues of Federal Agriculture Mortgage Corporation (Farmer Mac), Federal Farm Credit Banks, Federal Home Loan Banks, Federal Home Loan Mortgage Corporation, and the Federal National Mortgage Association. Investment in Farmer Mac may not exceed 10% of the total portfolio.
- Purchases of Supranationals are limited to International Bank for Reconstruction and Development, International Finance Corporation and Inter-American Development Bank. Securities shall be rated "Aa3, AA or AA" or higher by Moody's, S&P, or Fitch, respectively. No rating may be lower than any of the ratings listed in the preceding sentence at the time of purchase
- Purchases of Bankers' Acceptances ("BAs") are limited to issues by domestic U.S. or foreign banks. The outstanding debt of the bank or its holding company must be rated "A3, A-, or A-" or higher by Moody's, S&P, or Fitch, respectively. No rating may be lower than any of the ratings listed in the preceding sentence at the time of purchase.
- Deposits up to \$10,000,000 may be invested in, but are not limited to, banks and savings and loans with offices located in the San José area and deposits shall not exceed the net worth of that depository. Depositories must have a short-term rating of "P1, A1, or F1" or better by two of the three nationally recognized rating services: Moody's, S&P, or Fitch, respectively. The outstanding debt of the bank or its holding company must be rated "A3, A-, or A-" or higher by

City of San José
Notes to Basic Financial Statements
June 30, 2018

Moody's, S&P, or Fitch, respectively. Deposits shall be either insured by the Federal Deposit Insurance Corporation ("FDIC") or collateralized in the manner prescribed by State law for depositories.

- Commercial paper eligible for investment must be rated "P1, A1 or F1" or better by two of the three nationally recognized rating services; Moody's, S&P, or Fitch, respectively. Issuing corporations must be organized and operating within the United States, have total assets in excess of \$500,000,000 and shall issue debt, other than commercial paper, if any, that is rated "A3, A- or A-" or higher, by Moody's, S&P, or Fitch, respectively.
- Negotiable certificates of deposit are limited to banks and savings and loans with an issuer short-term rating of "P1, A1, F1" or better by two of the three nationally recognized rating services: Moody's, S&P, or Fitch, respectively. The outstanding debt of the bank or its holding company must be rated "A3, A-, or A-" or higher by Moody's, S&P or Fitch, respectively. No rating may be lower than any of the ratings listed in the preceding sentence at the time of purchase.
- Repurchase agreements are to be executed only with primary dealers of the Federal Reserve Bank of New York and financial institutions, which have entered into the City's Master Repurchase Agreement and any subsequent amendments to the Master Repurchase Agreement. Securities accepted as collateral for the repurchase agreement are limited to U.S. Treasury or U.S. Federal Government Agencies permitted under the Policy. The market value of the securities that have been accepted as collateral shall, at the time of transfer, equal at least 102 percent of face value of the repurchase agreement. For other than overnight investments, the securities transferred shall be marked to market on a daily basis and maintained at a market value to at least 102 percent of the repurchase agreement's face value.
- Reverse repurchase agreements under the Policy are limited to the lesser of \$25,000,000 or 20% of the portfolio value and to those occasions where unanticipated short-term cash requirements can be met more advantageously by initiating a reverse repurchase agreement than by selling a security into the secondary market prior to maturity.
- Corporate medium term notes eligible for investment must be rated "A3, A- or A-" or better by two of the three nationally recognized rating services; Moody's, S&P, or Fitch, respectively.
- Funds invested in LAIF, a State of California managed investment pool, may be made up to the maximum dollar amount per separate legal entity in conformity with account balance limits authorized by the California State Treasurer. The current maximum amount authorized by the State Treasurer is \$65,000,000.
- Investments in money market mutual funds are limited to those funds registered with the SEC and for which either one of the credit criteria are met: (1) obtained the highest ranking or highest letter and numerical rating provided by no less than two nationally recognized rating services or (2) retained an investment advisor registered with the SEC or exempt from the SEC registration requirements with no less than five years of experience investing in securities and obligations authorized by California Government Code Section 53601 and managing money market mutual funds with assets under management in excess of \$500,000,000. Investments by the funds are restricted to U.S. Treasury and U.S. Government Agency backed securities permitted under the Policy and must be maintained at no less than \$1.00 per share.
- Municipal bonds under the Policy are limited to a total of no more than 20% of the portfolio value. The Policy establishes four municipal bond categories: (1) bonds issued by the City or its agencies (as defined in the Policy), (2) by the State of California, (3) by other California local agencies, and (4) by any of the other 49 states. Eligible securities must be rated "A3, A- or A-" or

City of San José
Notes to Basic Financial Statements
June 30, 2018

better by two of the three nationally recognized rating services; Moody's, S&P, or Fitch, respectively.

- Investment agreements may be used for the investment of bond proceeds in accordance with the permitted investment provisions of the specific bond indentures and in accordance with other safeguards outlined in the Policy to reduce the risk associated with a provider's inability to meet its contractual obligations.
- Mortgage backed securities and collateralized mortgage obligations must be issued by a U.S. government agency and must be AAA rated or better by a nationally recognized rating service.
- Asset backed securities must be AAA rated or better by a nationally recognized rating service. The issuer of any asset backed security must have an "A3, A- or A-" rating or better by Moody's, S&P, or Fitch, respectively, of its underlying debt.

The Policy permits the Director of Finance to authorize investments that depart from the Policy's numerical limits if such an action is in the best interest of the City and is otherwise consistent with the Policy and applicable City, state and federal laws. Whenever a deviation or exception to the Policy occurs, it must be reported to the City Manager within 3 business days and to the City Council within 10 days of its discovery.

The following schedule indicates the interest rate risk, credit quality risk and concentration of credit risk of the City's investments, as of June 30, 2018 (dollars in thousands). The credit ratings listed are for Moody's and S&P, respectively.

Type of Investment	Credit Rating	Maturity				Carrying Value

Fair Value Measurement Categorization. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Money Market Mutual Funds and LAIF are valued by net asset value. The inputs and techniques used for securities are not necessarily an indication of risk associated with investing in these securities. The City's investment in Money Market Mutual Funds and LAIF are not subject to fair value hierarchy.

The City has the following recurring fair value measurements as of June 30, 2018:

	Carrying Value 6/30/18	Fair Value Measurement Using		
		Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3

City of San José
Notes to Basic Financial Statements
June 30, 2018

Securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Government agency securities classified in Level 2 of the fair value hierarchy are valued using Interactive Data (IDC) institutional bond pricing techniques. Corporate notes and Supranational classified in Level 2 of the fair value hierarchy are valued using evaluated pricing applications and models, which gather the information from market sources and integrate relative credit information, observed market movements, and sector news. Commercial paper classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique based upon yields and effective maturity. Muni bonds classified in Level 2 of the fair value hierarchy are valued using JJ Kenny municipal pricing technique. Negotiable certificates of deposit classified in Level 2 of the fair value hierarchy are valued using IDC CD pricing, a Multi-dimensional relational model and/or Option Adjusted Spread (OAS).

The State of California Local Agency Investment Fund is part of the State's Pooled Money Investment Account that allows cities, counties and special districts to place money into the fund. LAIF operating account allows a maximum of 15 transactions per account in a calendar month. The transaction amount shall be no less than \$5,000 and in increments of a thousand dollars. LAIF allocates interest earnings once every quarter. The interest earnings can be withdrawn in exact amount at any time. LAIF bond accounts have no restrictions on the amounts allowed on deposit, but are limited to one withdrawal every 30 days.

Custodial Credit Risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker - dealer) to a transaction, the City will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code requires that a financial institution secure its deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by the depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged governmental securities and/or first trust deed mortgage notes held in the collateral pool must be at least 110% and 150% of the City's deposits, respectively. The collateral is held by the pledging financial institution's trust department and is considered held in the City's name. As of June 30, 2018, the City's deposits were collateralized at 110%. All investments in the City Treasury were in the City's name. Neither deposits nor investments held by the City were subject to custodial credit risk.

Concentration of Credit Risk. Concentration of credit risk is the risk that the failure of any one issuer would place an undue financial burden on the City. The City mitigates the concentration of credit risk by diversifying the portfolio and limiting investments in any one issuer to no more than 5% of the total portfolio unless discussed otherwise in the above table. Investments issued by or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are exempt from this requirement.

As of June 30, 2018, the City's pooled investments in the City Treasury have investments in U.S. Agencies that represents 5% or more of the total pooled investments in the following:

Federal Home Loan Banks	8.76%
International Bank for Reconstruction & Development	8.48%
Federal Agriculture Mortgage Corporation	7.45%
Federal Home Loan Mortgage Corporation	5.28%

City of San José
Notes to Basic Financial Statements
June 30, 2018

In addition, the following major funds hold investments with trustees that represent 5% or more of the funds' investments outside the City Treasury as of June 30, 2018:

Airport:	
Federal Home Loan Banks	12.52%

Foreign Currency Risk. The risk that changes in exchange rates will adversely affect the fair value of an investment. As of June 30, 2018, the City's Policy does not permit investments in the pool to hold foreign currency; as such the investments in the City's investment pool were not subject to foreign currency risk.

2. Retirement Systems

Investment Policies – The City's Municipal Code delegates authority to the Boards of Administration of PFDRP and FCERS (the "Retirement Boards") to invest monies of the respective plans as provided in the Municipal Code. Each Retirement Board has adopted detailed investment guidelines consistent with the conditions and limitations set forth in the Municipal Code. At June 30, 2018, the Retirement Systems' investment target asset allocations are as follows:

Asset Class	PFDRP - Pension		
	Minimum Allocation	Target Asset Allocation	Maximum Allocation
Global equity	25%	34%	50%
Global fixed income	10%	28%	30%
Real assets	12%	16%	25%
Private debt	5%	8%	15%
Private equity	3%	8%	13%
Absolute return	2%	6%	12%
Global tactical asset allocation	-	-	10%
Cash	-	-	10%

Note: The real assets category includes allocations to real estate, commodities, and other infrastructure assets. The absolute return category includes allocations to relative value and global macro hedge funds.

Asset Class	PFDRP - Postemployment Healthcare		
	Minimum Allocation	Target Asset Allocation	Maximum Allocation
Global equity	25%	43%	50%
Real assets	12%	22%	25%
Global tactical asset allocation	-	20%	25%
Global fixed income	5%	15%	25%
Cash	-	-	5%

Note: The real assets category includes allocations to commodities, real estate, and other infrastructure assets. The global tactical asset category is currently comprised of two global tactical asset allocation managers who run unconstrained global portfolios.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Asset Class	FCERS - Pension		
	Minimum Allocation	Target Asset Allocation	Maximum Allocation
Global equity	20%	28%	36%
Private equity	4%	9%	14%
Global fixed income	23%	33%	43%
Private debt	2%	6%	10%
Absolute return	6%	11%	16%
Global tactical asset allocation/ Opportunistic	-	-	5%
Real assets	8%	13%	18%
Cash	-	-	10%

Note: The absolute return and global tactical asset allocation/opportunistic asset class includes allocations to global macro and relative value hedge fund strategies and managers with unconstrained global mandates. In addition, during times of significant market dislocations, opportunistic mandates would be allocated to this asset class. The real assets asset class includes allocations to real estate, commodities, infrastructure and natural resources.

Asset Class	FCERS - Postemployment Healthcare		
	Minimum Allocation	Target Asset Allocation	Maximum Allocation
Global equity	40%	55%	54%
Fixed income	20%	28%	40%
Real assets	15%	17%	30%

Note: The real assets asset class allocates to commodities, natural resources, infrastructure, and real estate.

At June 30, 2018, the Retirement Systems held the following investments (dollars in thousands):

	PFDRP	FCERS	Total
Securities and other:			
Fixed income:			
Global fixed income	\$ 981,478	\$ 734,541	\$ 1,716,019

City of San José
Notes to Basic Financial Statements
June 30, 2018

Investments are subject to certain types of risks, including interest rate risk, custodial credit risk, credit quality risk, foreign currency risk, and concentration of credit risk. The following describes those risks:

Interest Rate Risk – The fair value of fixed income investments fluctuate in response to changes in market interest rates. Increases in prevailing interest rates generally translate into decreases in fair value of those instruments. The fair value of interest-sensitive instruments may also be affected by the creditworthiness of the issuer, prepayment options, and other general interest rate conditions. Certain fixed income investments have call provisions that could result in shorter maturity periods. The Retirement Systems do not have a policy regarding interest rate risk. However, the Retirement Systems do settle on a transaction plus one day basis (T+1), therefore limiting the Retirement Systems' exposure to counterparty risk.

The following tables provide the segmented time distribution for fixed income investments based on expected maturity (in months and years) as of June 30, 2018 (dollars in thousands):

	PFDRP						Total Fair Value	Total Cost
	0 - 3 months	3 - 6 months	6 months - 1 year	1 - 5 years	5 - 10 years	More than 10 years

Custodial Credit Risk – Custodial credit risk is the risk that the Retirement Systems will not be able to recover the value of their investments or collateral securities that are in the possession of an outside party, if that outside party fails. The Retirement Systems do not have a policy regarding custodial credit risk. As of June 30, 2018, all of the Retirement Systems' investments are held in the Retirement Systems' names, and/or are not exposed to custodial credit risk.

Credit Quality Risk – The Retirement Systems' investment policies allow for investments in a wide variety of domestic and international debt securities that may carry a high rating, low rating, or be unrated. Investment managers may, as part of their investment strategy, invest in securities where the issuer's ability or willingness to pay is limited. At times, these debt securities may be converted into other debt, equity, or hybrid securities that have different risk and return characteristics than the

City of San José
Notes to Basic Financial Statements
June 30, 2018

securities initially purchased. The Retirement Systems may hedge against the possible adverse effects of currency fluctuations on the Retirement Systems' portfolios of international fixed income obligations when it is considered appropriate. This is typically achieved using forward currency contracts. Short-term investments may consist of commercial paper rated at least A1 or P1, repurchase agreements, short-term U.S. securities, and other money market investments. Nationally recognized statistical rating organizations provide ratings of debt securities' quality based on a variety of factors, such as the financial condition of the issuers, which provide investors with some idea of the issuer's ability to meet its obligations.

The table provides information for the portfolios as of June 30, 2018 concerning credit risk (dollars in thousands) and reflect only securities held in the Retirement Systems' names.

S&P quality rating	PFDRP		FCERS	
	Fair Value	Fair value as a % of fixed income investments	Fair Value	Fair value as a % of fixed income investments

Foreign Currency Risk – This is the risk that changes in the exchange rates will adversely affect the fair value of underlying investments. To mitigate this risk, the Retirement Systems' investment policies permit individual investment managers to mitigate the impact of currency fluctuation on the underlying asset value. The Retirement Systems' investment managers enter into international forward currency contracts, which are commitments to purchase or sell stated amounts of international currency. The Retirement Systems utilize these contracts to control exposure and facilitate the settlement of international security purchase and sale transactions. At June 30, 2018, the Retirement Systems' net positions in these contracts are recorded at fair value as international currency contract investments. The fair values of international currency contracts are determined by quoted currency prices from national exchanges. The Retirement Systems' commitments relating to international currency contracts are settled on a net basis.

Investment Concentration Risk – The Retirement Systems' investment policies specify that investments shall be diversified with the intent to minimize the risk of large investment losses. The total portfolio shall be constructed in a way to provide prudent diversification with regard to the

City of San José
Notes to Basic Financial Statements
June 30, 2018

concentration of holdings in individual asset classes, issues, issuers, geographies or industries. In addition, assets will be assigned to a variety of investment managers that employ a range of investment management strategies. No single investment management firm shall be authorized to manage more than 10% of the applicable plan's assets without approval by the applicable Retirement Board, with the exception of passive management, where the applicable plan's assets are not held in the applicable plan's name at the applicable plan's custodial bank. In such cases, the investment management firm can manage no more than 20% of the applicable plan's assets without approval by the applicable Retirement Board. As a general rule, assets placed with an investment manager should not represent more than 10% of the total assets of the applicable plan managed by that firm, without approval of the applicable Retirement Board. As of June 30, 2018, none of the Retirement Systems held investments in any one issuer, excluding U.S. Government guaranteed investments that represented 5% or more of the total applicable plan's net position or total investments.

Derivatives – The Retirement Systems' investment policies allow for investments in derivative instruments that comply with the Retirement Systems' objectives of providing a cost effective means of managing portions of a portfolio and to manage risk through hedging activities. The Retirement Systems are currently authorized to use derivative strategies to equitize cash during portfolio transitions until physical securities are in place, and to reproduce or replicate a physical holding that corresponds to the applicable Retirement Board's approved policy benchmark. In addition to the Retirement Systems' internal derivative policies, it is understood that the mandates of certain investment managers retained by the Retirement Systems may use derivatives.

Derivative investments are reported at fair value. Derivative instruments traded on a national or international exchange are valued at the last reported sales price on the last business day of the fiscal year at current exchange rates, if applicable. Futures contracts are marked-to-market at the end of each trading day, and the settlement of gains or losses occur on the following business day through variation margins. As a result, futures have no fair value as of June 30, 2018. The fair value of international currency forwards represents the unrealized gain or loss on the related contracts, which is calculated based on the difference between the specified contract exchange rate and the exchange rate at the end of the reporting period.

The fair values and notional amounts for a portion of derivative instruments outstanding as of June 30, 2018, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the financial statements are as follows (amounts in thousands):

PFDRP					
Investment Derivative Instruments	Net Appreciation/(Depreciation) in Fair Value of Investments through June 30, 2018		Fair Value at June 30, 2018		Notional Amount/Shares
	Classification	Amount	Classification	Amount

City of San José
Notes to Basic Financial Statements
June 30, 2018

Derivative investments are also subject to counterparty credit risk (non-exchange traded). The following describes the risks applicable to the investment derivative instruments that are reported as of June 30, 2018.

Counterparty Credit Risk – The Retirement Systems are exposed to credit risk on derivative instruments that are in asset positions and non-exchange traded. The Retirement Systems' investments in forward currency contracts bear counterparty credit risk in that parties to the contracts may fail to perform according to the terms of the contract.

As of June 30, 2018, PFDRP had total commitments in forward currency contracts to purchase and sell international currencies were \$360,253,000, with fair values of \$357,111,000 and \$359,996,000, respectively, held by counterparties with an S&P rating of at least AA-.

As of June 30, 2018, FCERS had total commitments in forward currency contracts to purchase and sell international currencies were \$53,923,000, with fair values of \$53,926,000 and \$53,757,000, respectively, held by counterparties with an S&P rating of at least A and above.

Fair Value Measurements – The Retirement Systems categorize its fair value measurement within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Retirement Systems have the following recurring fair value measurements as of June 30, 2018:

PFDRP		Fair Value Measurement Using				
(In Thousands)	Total	Level 1	Level 2	Level 3	Net Asset Value (NAV)	
Investments by fair value level

City of San José
Notes to Basic Financial Statements
June 30, 2018

Equity and Fixed Income Securities

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets issued by pricing vendors for these securities. Debt and equity securities classified in Level 2 of the fair value hierarchy are valued using prices determined by the use of matrix pricing techniques maintained by the various pricing vendors for these securities. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices for similar securities that are observable in the market place. Debt and equity securities classified in Level 3 are securities whose inputs to valuation techniques are unobservable by the market place. Many of these securities are priced by the issuers or industry groups for these securities. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by the custodian bank for PFDRP or FCERS as applicable.

Alternative Investments

Alternative investments include global equity, private equity, global fixed income, private debt, real assets, global tactical asset allocation, and absolute return investments. These are investments for which exchange quotations are not readily available and are valued at estimated fair value, as determined in good faith by the General Partner (GP) of each investment firm retained by the Retirement Systems. These investments are initially valued at cost with subsequent adjustments that reflect third party transactions, financial operating results and other factors deemed relevant by the GP. The assets in the Retirement Systems' alternative investment programs are classified as Level 3 assets or at the NAV Level. A more detailed explanation of the Level 3 and NAV valuation methodologies follows.

Investments in non-public equity securities are valued by the GP using one or more valuation methodologies outlined in GASB Statement No.72, *Fair Value Measurements*, depending upon the availability of data required by each methodology. In some cases, the GP may use multiple approaches to estimate a valuation range. For the immediate time period following a transaction, the determination of the fair value for equity securities, in which no liquid trading market exists, can generally be approximated based on the transaction price (absent any significant developments). Thereafter, or in the interim, if significant developments relating to such portfolio company or industry occur which may suggest a material change in value, the GP should value each investment by applying generally accepted valuation methods including: (1) the market approach (such as market transaction and comparable public company multiples, which are based on a measurement of the company's historical and projected financial performance with typical metrics including enterprise value/latest 12 months earnings before interest, taxes, depreciation and amortization ("EBITDA") or projected fiscal year EBITDA) or (2) the income or discounted cash flow approach.

The determination of fair value using these methodologies should take into consideration a range of factors, including but not limited to, the price at which the investment was acquired, the nature of the investment, local market conditions, trading values on public exchanges for comparable securities, current and projected operating performance and financing transactions subsequent to the acquisition of the investment. Because of the subjective nature of estimated fair value of the private investments, such value may differ significantly from the values that would have been used had a ready market existed for these investments. These financial instruments have been classified as Level 3 or NAV in the fair value hierarchy.

B. Receivables, Net of Allowances

At June 30, 2018, receivables of the City's major individual funds and nonmajor funds taken in aggregate, including the applicable allowance for uncollectible accounts, are as follows (dollars in thousands):

Receivables – Governmental Activities:	General Fund	Housing Activities	Low and Moderate Income Housing Asset	Special Assessment Districts	Nonmajor Funds	Internal Service Funds	Total Governmental Activities
Taxes	\$ 54,281	\$ -	\$ -	\$ -	\$ 10,187	\$ -	\$ 64,468
Accrued interest	1,986	303	1,869	113	4,009	98	8,378

Total receivables, net	<u>\$ 72,915</u>	<u>\$ 2,875</u>	<u>\$ 1,894</u>	<u>\$ 33,265</u>	<u>\$ 35,755</u>	<u>\$ 340</u>	<u>\$ 147,044</u>

Receivables – Business-Type Activities:	Norman Y. Mineta San José International Airport	Wastewater Treatment System	Municipal Water System	Parking System	Total Business-Type Activities
Accounts	\$ 19,029	\$ 4,223	\$ 10,429	\$ 181	\$ 33,862
Accrued interest	1,398	2,128	146	190	3,862
Grants	3,783	-	-	-	3,783
Less: allowance for uncollectibles	(426)	(587)	(1,164)	(63)	(2,240)
Total receivables, net	<u>\$ 23,784</u>	<u>\$ 5,764</u>	<u>\$ 9,411</u>	<u>\$ 308</u>	<u>\$ 39,267</u>

Special assessment receivables in the amount of \$30,950,000 are not expected to be collected within the subsequent year.

C. Loans Receivable, Net of Allowances

The composition of the City's loans receivable balance for governmental funds, net of the allowance for uncollectible accounts, as of June 30, 2018 is as follows (dollars in thousands):

Type of Loan	General Fund	Housing Activities	Low and Moderate Income Housing Asset	Nonmajor Governmental Funds	Total Governmental Activities
Housing Program Developer, rehabilitation, second mortgage and relocation loans	\$ -	\$ 52,397	\$ 493,542	\$ -	\$ 545,939
Loans funded by federal grants	-	74,745	-	5,430	80,175
Economic development, real estate developer and other loans	1,241	-	-	-	1,241
Less: allowance for uncollectibles	-	(58,145)	(269,950)	(2,347)	(330,442)
Total loans, net	<u>\$ 1,241</u>	<u>\$ 68,997</u>	<u>\$ 223,592</u>	<u>\$ 3,083</u>	<u>\$ 296,913</u>

The City uses funds generated from the loan repayment program income as well as other state and federal funding sources to offer financial assistance to qualified developers, individuals, and families by providing loans at "below market" interest rates.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Typical loans and related terms are summarized as follows:

<u>Loan Type</u>	<u>Interest Rates</u>	<u>Due</u>
New construction and permanent	0 - 4%	up to 55 years
Multi-unit rental rehabilitation	3%	5 or more years
First time home buyer	4%	7 to 40 years
Home improvement	3 - 6%	1 to 30 years

Loans are secured by first, second, third or lower in lien-property deeds of trust except for first time homebuyer loans, which are all secured by second deeds of trust. Interest and principal are typically due in installments, except for first time homebuyer loans, which do not require payments until their maturity dates.

The City has also invested in multi-family rental housing projects serving very low to moderate income individuals through subordinate loans with terms of up to 55 years. Generally, these loans are to be repaid through fixed payments or net cash flow payments from project operations and the term and potential risk of each loan varies. Because of the net cash flow feature of these subordinate loans, there is greater risk of variability in the timing of payments and, potentially, a lower probability of eventual repayment on these subordinate loans than on other loan types.

The City maintains a valuation allowance against loans receivable comprised of an allowance for risk and an allowance for present value discount. The allowance for risk is maintained to provide for losses that can be reasonably anticipated. The allowance is based upon continuing consideration of changes in the character of the portfolio, evaluation of current economic conditions, and such other factors that, in the City's judgment, deserve recognition in estimating potential loan losses. The allowance for risk takes into consideration maturity dates, interest rates, and other relevant factors.

In accordance with City policy, loans are funded at below market rates of interest and include amortized net cash flow deferred repayment terms. This policy exists to enhance the well-being of the recipients or beneficiaries of the financial assistance, who, as described above, are very low, low, or moderate-income individuals or families, or developers of housing for such individuals or families. Accordingly, for financial statement purposes, the City has established an allowance account against the loans receivable balance containing a present value discount. The present value discount gives recognition to the economic cost of providing loans at interest rates below market, and represents an estimate of the present value of projected net cash flows to the City from the loan portfolio. The present value discount attributable to the loans will be recognized as interest income only as such loans are repaid in full because of the deferred nature of the loan portfolio and the high level of uncertainty relating to the likelihood that cash flows will occur as projected. The difference between the individual outstanding loan balances and the calculated net present value of the loans results in the allowance for present value discount. Losses are recognized as an addition to the allowance and any subsequent recoveries are deducted from the allowance.

The City's management believes the combined amount of the aforementioned risk and present value discount allowances is adequate to reflect the net realizable value of the Community Development Block Grant ("CDBG") loans, Home Investment Partnership Program ("HOME") loans, and Low and Moderate Income Housing Asset Fund loans receivable as of June 30, 2018.

In the normal course of operations for housing programs, the City has outstanding commitments to extend credit, which have been encumbered as of June 30, 2018. These commitments involve elements of credit and interest rate risk similar to those described above for outstanding loans receivable. As of June 30, 2018, amounts committed to extend credit under normal lending agreements totaled approximately \$6,303,000.

City of San José
Notes to Basic Financial Statements

City of San José
Notes to Basic Financial Statements
June 30, 2018

2. Depreciation

Depreciation expense charged to various governmental and business-type activities of the City for the fiscal year ended June 30, 2018 is as follows (dollars in thousands):

Governmental activities:	
General government	\$ 9,357
Public safety	8,186
Capital maintenance	166,945
Community services	34,809
Capital assets held by City's internal service funds	2,631
Total depreciation expense - governmental activities	<u>\$ 221,928</u>
 Business-type activities:	
Norman Y. Mineta San José International Airport	\$ 47,486
Wastewater Treatment System	29,227
Municipal Water System	2,823
Parking System	1,679
Total depreciation expense - business-type activities	<u>\$ 81,215</u>

3. Capitalized Interest

Interest costs that are related to the acquisition of buildings and improvements and equipment acquired with tax-exempt and taxable debt are capitalized for business-type activities. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project, with interest earned on invested taxable and tax-exempt debt proceeds over the same period. Capitalized interest cost is prorated to completed projects based on the completion date of each project. In FY 2018, the City incurred a total of \$845,000 of interest costs related to the acquisition of Plant assets under the Wastewater Treatment business-type activities previously accounted for in accordance with GASB Statement No. 62. The City has updated the Capitalized Interest policy to no longer capitalize interest for Wastewater Treatment System Fund.

4. Construction Commitments

Commitments outstanding as of June 30, 2018, related to governmental and business-type activities construction in progress totaled approximately \$32,370,000 and \$233,051,000, respectively.

E. Leases

1. Operating Leases as Lessee

The City has commitments under various operating lease agreements requiring annual rental payments, which are described as follows:

Governmental Activities

The City has ongoing commitments under operating lease agreements for business equipment, office facilities and land necessary for City operations, which expire at various dates through 2022. Each governmental fund includes the expenditures related to such lease agreements. There are both cancelable and non-cancelable lease agreements. Rental expenditures reported by the General Fund and the Nonmajor Governmental Funds under these operating lease agreements for the year ended June 30, 2018 amounted to approximately \$2,041,000 and \$73,000, respectively.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The future minimum lease payments anticipated under the existing lease commitments, as of June 30, 2018, are as follows (dollars in thousands):

Fiscal Year Ending June 30,	General Fund	Nonmajor Governmental Funds	Total Governmental Activities
2019	\$ 1,838	\$ 44	\$ 1,882
2020	583	-	583
2021	275	-	275
2022	85	-	85
Totals	<u>\$ 2,781</u>	<u>\$ 44</u>	<u>\$ 2,825</u>

Business-Type Activities

Airport Gas-Powered Buses. In September 2009, the City entered into a restated operating lease and maintenance agreement for ten compressed natural gas (“CNG”) powered buses for the Airport. The term of the agreement is from December 2007 to May 2017. In May 2017, the restated agreement was amended to extend through May 2019, with a one year option to extend. Rental and maintenance expense for the Airport buses for the year ended June 30, 2018 was \$1,399,000.

Future Minimum Payments. The future minimum lease and maintenance payments required under the existing agreement for the ten CNG powered buses, as of June 30, 2018, are as follows (dollars in thousands):

Fiscal Year Ending June 30,	Operating Leases
2019	\$ 774
Total minimum lease payments	<u>\$ 774</u>

2. Operating Leases as Lessor

Governmental Activities

The City also leases building space, facilities, and/or the privilege of operating a concession to tenants and concessionaries resulting in the receipt of annual rents that are not specifically described.

Business-Type Activities - Airport

Airline-Airport Lease and Operating Agreements. The City has entered into an Airline-Airport Lease and Operating Agreement with the various passenger and cargo airlines serving the Airport. The airline lease agreement, which took effect on December 1, 2007, was originally set to expire on June 30, 2012. In August 2011, the City Council authorized the Director of Aviation to extend the term for five years through June 30, 2017. On May 23, 2017, the City Council authorized the Director of Aviation, or Interim Director of Aviation, as applicable, to extend the term for two years through June 30, 2019, which allows the airlines to continue to conduct operations and occupy leased space through the extended term. Pursuant to the City Council authorization, the Agreement was extended for two years until June 30, 2019, with Article 11 amended to remove the Municipally-Funded Air Service Incentive Program, and other provisions were added as required under federal law and regulations. The existing rates and charges structure remained unchanged through the extended term. Negotiations for a new agreement with the airlines are currently

City of San José
Notes to Basic Financial Statements
June 30, 2018

underway. The current agreement shall terminate upon execution of a new Airline Lease and Operating Agreement between City and the airlines.

The key provisions in the airline lease agreement include compensatory rate making for the terminal cost center and residual rate making for the airfield cost center. The terminal rate per square foot is calculated based on expenses allocable to the Terminal for each fiscal year divided by the total amount of rentable terminal space. Should there be any net remaining revenues after all other obligations are satisfied, the airlines share of the net remaining revenues shall be applied as a credit to the airline terminal rate for the following fiscal year, thus reducing the rates. The landing fee rate is calculated by dividing the expenses allocable to the airfield, offset by airfield revenues, other than landing fees, by the projected aggregated maximum gross landed weight for all aircraft carrying passengers or cargo in commercial service at the Airport during the fiscal year.

For the year ended June 30, 2018, the Airport's revenues as defined in its lease agreement exceeded its expenditures and reserve requirements by approximately \$25,530,000. The surplus for year ended June 30, 2018 will be distributed in accordance with the revenue sharing provisions of the lease agreement and/or used in the budget balancing actions for FY 2019.

Other Airport Leases. In December 2013, the City entered into a ground lease and operating agreement with Signature Flight Support Corporation (Signature), which constructed a full-service, fixed based facility on 29-acres of the Airport's west side. The term of the agreement is for 50 years from December 12, 2013 to December 11, 2063. The base ground rental is subject to a consumer price index adjustment annually and by appraisal every five years. The base ground rental rate effective December 12, 2017 is \$2.36 per square foot per year. Rental revenues from the ground lease with Signature were \$3,009,000 for the year ended June 30, 2018.

The City also enters into leases with concessionaires, cargo carriers, and other business entities for building space and/or the privilege of operating a concession at the Airport. As of June 30, 2018, the remaining terms of these operating leases range from one month to 20 years. The leases with concessionaires are generally based on the greater of a percentage of their sales or a minimum annual guaranteed amount. Rental revenues from the aforementioned operating leases were \$93,172,000 for the year ended June 30, 2018.

The future minimum rentals to be received from the Airport operating leases, as of June 30, 2018, are as follows (dollars in thousands):

Fiscal Year Ending June 30,	Amount
2019	\$ 89,056
2020	38,257
2021	18,100
2022	17,528
2023	16,620
2024 - 2028	69,522
2029 - 2033	50,050
2034 - 2038	51,787
2039 - 2043	30,807
2044 - 2048	34,412
2049 - 2053	39,582
2054 - 2058	45,530
2059 - 2063	52,371
2064 - 2065	5,458
Total	<u>\$ 559,080</u>

City of San José
Notes to Basic Financial Statements
June 30, 2018

These future minimum rentals are based upon annual rates and charges currently agreed to by the airlines and other tenants. As of June 30, 2018, leased assets to tenants had historical costs of \$1,046,516,000 and accumulated depreciation of \$252,262,000.

Pursuant to the terms of individual agreements entered into with the City, every airline, operator, tenant or any other entity or person, which is party to an agreement with the City authorizing them to conduct business at the Airport, is required to maintain a security deposit on file with the City. The deposit shall be in a form and amount acceptable to the Director of Aviation, often in the form of irrevocable letter of credit, surety bond, cashier's check or other form acceptable to the Director of Aviation. The Director of Aviation has the authority to revise the amount of security deposit at any time to protect the interests of the City. Each deposit must be maintained in full force and effect during the entire term of the agreement to ensure faithful performance by the other party of all the covenants, terms and conditions of the agreement. Security deposits in the form of cashier's checks are recorded as advances and deposits payable on the accompanying statements of net position. The Airport maintains on file copies of all security deposits, in the form of letter of credit or surety bond, which are not recorded in the financial statements. The amount on file as of June 30, 2018 totaled \$34,906,000.

Potential Claim. The passenger airlines that currently operate at the Airport have a potential unasserted claim against the City for overpayment of terminal rents by the airlines. The overpayment of terminal rents by the passenger airlines has resulted from the City's annual calculation of terminal rents in a manner that is not consistent with the terms of the current Lease and Operating Agreement between the passenger airlines and the City. Specifically, from fiscal year 2008 to the year ended June 30, 2017, the City had not included the City office and administrative space at the terminals that should be counted as "Rentable Terminal Space" under the terms of the Airline Lease Agreement for the purpose of calculating terminal rents to be charged to the passenger airlines.

The statute of limitations for claims against a government entity such as the City is one (1) year pursuant to California Government Code Section 911.2. If the airlines file a claim, the City will raise the limitation period as a defense.

At this time it is impossible to predict the outcome of this potential unasserted claim, the possible loss or range of loss, or whether the unasserted claim will be made and if made, when it would be resolved.

City of San José
Notes to Basic Financial Statements

City of San José
Notes to Basic Financial Statements
June 30, 2018

2. Debt Compliance

There are a number of limitations and restrictions contained in the various bond indentures. The City believes it is in compliance with all significant limitations and restrictions for which non-compliance would adversely affect its ability to pay debt service.

3. Legal Debt Limit and Margin

The City Charter limits bonded indebtedness for General Obligation bonds to 15 percent of the total assessed valuation of all real and personal property within the City. The total assessed value of taxable property on the City's 2017-2018 tax roll was \$177.0 billion, which results in a total debt limit of \$26.6 billion. As of June 30, 2018, the City had \$347,530,000 of General Obligation bonds outstanding which represents approximately 1.3% of the General Obligation bonds' debt limit.

4. Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebate liabilities are not reported and paid to the Internal Revenue Service ("IRS") at least every five years. During the current year, the City performed calculations to determine the rebate liabilities for the City's tax-exempt bond issues listed above. However, as no bond issue with a positive rebate liability was due for a fifth-year payment, there was no rebate liability outstanding as of June 30, 2018.

5. Special Assessment and Special Tax Bonds with Limited City Commitment

All obligations of the City under the Special Assessment and Special Tax Bonds are not considered general obligations of the City, but are considered limited obligations, payable solely from the assessments/special taxes and from the certain funds pledged therefore under the Paying Agent Agreement or Fiscal Agent Agreement. Neither the faith and credit nor the taxing power of the City, or any political subdivision thereof, is pledged to the payment of the bonds. The City is not obligated to advance available surplus funds from the City Treasury to cure any deficiency in the Redemption Fund for these bonds; provided, however, the City is not prevented, in its sole discretion, from so advancing funds.

As of June 30, 2018, the City has recorded approximately \$30,950,000 of deferred inflows of resources and related special assessments receivables in the Special Assessment Districts Fund. These balances consist primarily of property tax assessments and/or special taxes to be collected in the future by the County of Santa Clara for future debt service of the special assessment districts and the community facilities districts.

The City issued Special Hotel Tax Revenue Bonds, Series 2011 (Convention Center Expansion and Renovation Project), which are secured by a first lien on the Convention Center Facilities District No. 2008-1 special tax revenues and any of the Available Transient Occupancy Tax (Available TOT as defined in the bond documents) that is appropriated by City Council as part of the City's annual budget process to pay debt service. The Base Special Tax and Additional Special Tax (as defined in the bond documents) are property-based taxes levied on hotel properties within the Convention Center Financing District and remitted to the City on a monthly or quarterly basis in the same manner as the City's Transient Occupancy Tax. The amount of deferred inflows and related receivables noted above does not include special taxes associated with the Special Hotel Tax Revenue Bonds because these special taxes are calculated based on occupancy and a percentage of room rent and therefore the amount is undeterminable.

City of San José
Notes to Basic Financial Statements
June 30, 2018

6. Conduit Debt

The City has issued multi-family housing revenue bonds to provide funds for secured loans to builders of multi-family housing projects. The purpose of the program is to provide needed rental housing for low to moderate-income households. To comply with IRS requirements in order to meet the tax-exempt status, the owner is required to set aside a certain percentage of all units built for very low to moderate-income households. The bonds are payable solely from payments made on the related secured loans. These tax-exempt housing bonds have maturity dates that are due at various dates through March 1, 2052. As of June 30, 2018, the outstanding conduit multi-family housing revenue bonds issued by the City aggregated approximately \$479,267,000.

In the opinion of the City's officials, these bonds are not payable from any revenues or assets of the City. Neither the faith and credit nor the taxing power of the City, the State, or any political subdivision thereof are pledged for the payment of the principal or interest on these bonds.

7. City of San José Financing Authority Variable-Rate Lease Revenue Bonds

Included in long-term debt is \$43,370,000 of variable-rate bonds, comprised of three series (Series 2008C, Series 2008D and Series 2008E) issued by the Financing Authority. The Financing Authority issued these bonds to provide variable-rate exposure to the debt portfolio and to provide additional flexibility with respect to restructuring or redeeming the debt issued for certain projects. The source of repayment for each of these series is from lease payments from the City to the Financing Authority for the City's lease of the Dolce Hayes Mansion (Series 2008C and Series 2008D) and the Ice Centre (Series 2008E).

Effective December 18, 2013, the Financing Authority directly placed the Series 2008C/D/E Bonds with U.S. Bank National Association ("U.S. Bank") and in connection with the direct placement, the City, the Financing Authority and U.S. Bank entered into separate continuing covenant agreements for the private placement of the Series 2008C/D Bonds and the Series 2008E Bonds. The scheduled redemption of these bonds is incorporated in the Annual Requirements to Maturity schedules (see Note III.F.9.).

The principal balances of the Financing Authority's variable-rate bonds as of June 30, 2018 are as follows (dollars in thousands):

	Privately-Placed Bonds				
	Balance June 30, 2018	Purchaser	Agreement Expiration	Fixed Fee/ Spread	Interest Index Rate
City of San José Financing Authority:					
Lease Revenue Bonds:					
Series 2008C (Hayes Mansion)	\$ 10,915	U.S. Bank	12/3/2018	0.430%	SIFMA (Weekly)
Series 2008D (Taxable) (Hayes Mansion)	17,545	U.S. Bank	12/3/2018	0.470%	1-Month LIBOR
Series 2008E (Taxable) (Ice Centre)	14,910	U.S. Bank	12/13/2019	0.530%	1-Month LIBOR
Total variable-rate lease revenue bonds	<u>\$ 43,370</u>				

Prior to the execution of the continuing covenant agreements on December 18, 2013 (for the Series 2008C, 2008D, and 2008E bonds) the variable-rate lease revenue bonds were publicly-marketed "demand" bonds supported by credit facilities and payable upon demand of the bondholder at a purchase price equal to principal plus accrued interest. Subsequently, the credit facilities were cancelled and the bonds were sold directly to U.S. Bank and are no longer remarketed on the open market.

The Financing Authority is required to pay a fixed fee, or spread, ranging from 0.43% to 0.53% (as noted above) based on the terms of the applicable governing document. Per the terms of the

City of San José
Notes to Basic Financial Statements
June 30, 2018

applicable governing document, the spread is subject to increase in the event that the long-term unenhanced ratings of the Financing Authority's lease revenue bonds are downgraded. The applicable interest rate index plus the fixed fee comprise the combined interest rate that is applied to outstanding principal and billed to the Financing Authority monthly. As of June 30, 2018, the private placements of each series expire as set forth in the table above.

In June 2018, the extension date of the private placements of the Series 2008C/D bonds was successfully extended to December 3, 2018, in anticipation of the sale of the underlying leased asset, the Dolce Hayes Mansion. In connection with the extensions of the private placements for the Series 2008C/D bonds, minor amendments were made to the transaction documents to clarify some terms and to reflect amended pricing. The fixed fee component of the interest associated with the outstanding bonds increased from 39 basis points ("bps") (or 0.39%) to 43 bps (or 0.43%) for the tax-exempt 2008C Bonds. The spread for the taxable 2008D bonds remains at 47 bps. The variable interest rate on the bonds will continue to be determined by the SIFMA index for the Series 2008C bonds and 1-month LIBOR index rate for the Series 2008D. The City Council approved the sale of Dolce Hayes Mansion in June 18 and the City signed a Purchase and Sale Agreement (PSA) with JMA Ventures, LLC, for its sale on August 7, 2018. On November 6, 2018, the City Council authorized staff to negotiate certain amendments to the terms of the PSA. The parties intend to complete the transfer at closing that is scheduled to occur in January 2019. The Purchaser shall have the right to extend the date of closing for a period up to 60 days until February 28, 2019 in the event they are unable to obtain the ABC License and collective bargaining agreement. Because the tentative closing date for the Dolce Hayes Mansion exceeds the extension date of December 3, 2018 for the private placement of the Series 2008C/D bonds, the City has requested U.S. Bank to extend the December 3, 2018 initial purchase date for 179 days. As part of that June 2018 extension, the City Council and Financing Authority Board also approved the ability to enter into subsequent 179 day extensions and allow minor changes to the terms of the existing agreements. The sale proceeds of the Dolce Hayes Mansion will redeem the Series 2008C/D bonds in full.

Pursuant to the respective continuing covenant agreement, the Series 2008C/D/E Bonds will be subject to mandatory tender upon expiration of the respective agreement, at which time the Financing Authority has the obligation to purchase the bonds unless the City negotiates an extension with the applicable bank or remarkets the bonds with a different purchaser or credit facility provider. If the City fails to remarket the bonds, and assuming no events of default have occurred, the unremarketed bonds will function similar to a term loan, and will be amortized over a three-year period and will bear interest per a formula with a minimum rate of 8% per annum for the Series 2008C/D/E Bonds. Lease payments may not exceed the fair market rental value of the leased properties under State law, so the principal may be amortized over multiple years in such case.

For the Series 2008C/D/E Bonds, the continuing covenant agreements applicable to the Bonds specify that the City would be obligated to make lease payments during an amortization period to repay U.S. Bank to the extent of the fair rental value of the applicable leased property and, to the extent the amount due remains unpaid, it shall continue the obligation of the City, pursuant to the applicable lease, to be paid on or before the expiration of the three-year amortization period. Additionally, each of the continuing covenant agreements specifies other terms in order to promote prompt repayment to the applicable bank.

In April 2018, the City sold the 19 acres of the Airport West (FMC) property for \$37.5 million following the purchaser's exercise of its option to purchase. The purchaser had previously purchased 40.8 of acres of the Airport West property. The Airport West property was initially purchased in two phases starting in 2005, with a combination of proceeds from lease revenue bonds issued by the Financing Authority and HUD Section 108 loan as part of a 75-acre acquisition to facilitate airport expansion and economic development projects. During the financial crisis of 2008, the Authority refunded the 2005 Bonds with the Series 2008F Lease Revenue Bonds (the "2008F Bonds"). The sale proceeds

City of San José
Notes to Basic Financial Statements
June 30, 2018

were applied to redeem the outstanding balance of the Financing Authority's 2008F Bonds (\$37 million) and outstanding balance of the HUD Section 108 Loan (\$0.5 million).

8. Summary of Changes in Long-term Obligations

Governmental Activities - The changes in long-term obligations for the year ended June 30, 2018 are as follows (dollars in thousands):

	July 1, 2017	(a) Prior Period Adjustment	Restated Beginning Balance July 1, 2017	Additional Obligations, Interest Accretion and Net Increases	Current Maturities, Retirements, and Net Decreases	June 30, 2018	Amounts Due Within One Year

(a) Removed out from the list due to the implementation of GASB Statement No.75. It is now shown as a separate line item on the Statement of Net Position

General Obligation Bonds are issued pursuant to a two-thirds majority voter authorization. In 2000 and 2002, San José voters approved three ballot measures (Measures O and P in 2000 and Measure O in 2002) that authorized the total issuance of \$598,820,000 of general obligation ("GO") bonds for library, parks and public safety projects. GO bonds are secured by a pledge of the City to levy ad valorem property taxes without limitation of rate or amount. The ad valorem property tax levy is calculated for each fiscal year to generate sufficient revenue to pay 100% of annual debt service net of other available funding sources. As of June 30, 2018, the City of San José had issued \$589,590,000 of GO bonds with proceeds split for three purposes: library projects (\$205,885,000), parks and recreation projects (\$228,030,000), and public safety projects (\$155,675,000). Total principal and interest remaining on the bonds as of June 30, 2018 is approximately \$490,744,000, with the final payment due on September 1, 2039.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The City did not issue any GO bonds in FY 2018. A total of \$9,230,000 of the authorization remains un-issued for the library (\$5,905,000) and public safety programs (\$3,325,000). The proceeds of those bonds would be used to fund a portion of the library and public safety projects approved by voters in November 2000 and March 2002. The timing, size, and purpose of the issuance of this final series will depend upon the expenditure and encumbrance needs of the various projects to be financed.

Lease Revenue/Revenue Bonds are issued by the Financing Authority primarily to finance various capital improvements, which are leased to the City and are secured by lease revenue from "lessee" departments in the General Fund and Nonmajor Governmental Funds. The lease revenue for each fiscal year is generally equal to 100% of annual debt service net of other available funding sources. Total principal and interest remaining on these bonds as of June 30, 2018 are approximately \$734,045,000, with the final payment due on May 1, 2042.

In December 2017, SARA issued \$1.67 billion in Tax Allocation Refunding Bonds, consisting one taxable series (Series 2017A-T) and two tax-exempt series (Series 2017A and 2017B). The Series 2017 A-T, refunded two series of the bonds issued by the Financing Authority that were obligations of the Successor Agency: the Financing Authority's Revenue Bonds, Series 2001A (4th & San Fernando Parking Facility Project) (the "2001A Bonds") and the Financing Authority's Lease Revenue Bonds, Series 2001F (Convention Center Refunding Project) (the "2001F Bonds").

Special Assessment and Special Tax Bonds are issued by the City to finance public improvements in special assessment or tax districts established by the City and are secured by assessments or special taxes levied on properties located within the special districts. The assessments and special taxes, as applicable, are calculated for each fiscal year to generate sufficient revenue to pay 100% of annual debt service net of other available funding sources. Total principal and interest remaining on the bonds as of June 30, 2018 is approximately \$237,230,000, with the final payment due on May 1, 2042.

Lease-Purchase Agreement (Energy Conservation Equipment) On May 20, 2014, the City Council authorized the execution of a master equipment lease-purchase agreement (the "Agreement") with Banc of America Public Capital Corp ("Bank") under which the City could enter into separate schedules for the acquisition, purchase, financing, and leasing of energy conservation equipment to be installed at City-owned facilities in a principal amount not to exceed \$30,000,000 with the Bank or one of its affiliates, collectively the "Lessor". The schedules are referred to as "Leases". The financing was secured as a result of the Energy Services Agreement that the City entered into with Chevron Energy Solutions to design the projects and procure the equipment to be acquired and installed. In August 2014, Chevron Energy Solutions was acquired by Oaktree Capital Management, and the organization began operation as OpTerra Energy Services (OpTerra) on September 1, 2014. A Consent to Assignment agreement among the City, Chevron, and OpTerra was executed to allow the assignment of the Energy Services Agreement from Chevron to OpTerra.

The City entered into a \$19,300,000 taxable Lease with the Lessor on May 29, 2014 to finance the acquisition and installation of energy conservation equipment at City-owned facilities including community centers, pools, joint community centers/libraries, the South Service Yard, the Museum of Art, and, most significantly, for the replacement of streetlights. Due to unanticipated cost increases of the streetlight replacement project, most of the Lease proceeds were expended on the streetlight replacement project that was accepted by the City in June 2017. The unexpended Lease proceeds in the approximate amount of \$2,852,000 that remained at the completion of the streetlight replacement project were used to pay debt service on the Lease through calendar year 2018.

The other projects anticipated to be funded under the Lease will be financed through the Finance Authority's Lease Revenue Commercial Paper Program described in Note III.F.10. The total blended interest rate for the 20-year taxable Lease is 5.01%, and interest rates ranged from 3.21% for

City of San José
Notes to Basic Financial Statements
June 30, 2018

improvements with 5-year useful lives to 6.01% for improvements with 20-year useful lives. Total principal and interest outstanding on the Lease as of June 30, 2018 is approximately \$19,419,000, with the final payment due on June 1, 2034.

The future lease payments anticipate to be paid under the lease agreement, as of June 30, 2018, are as follows (in thousands):

Fiscal Year Ending June 30,	Principal	Interest
2019	\$ 1,420	\$ 750
2020	1,460	678
2021	1,500	605
2022	1,576	529
2023	1,656	449
2024 - 2028	6,792	963
2029 - 2033	767	130
2034 - 2038	140	5
Total	\$ 15,311	\$ 4,109

Other Long-Term Obligation payments are primarily made from general revenues recorded in the General Fund, except for payments related to the City's New Market Tax Credit financing obligation, which will be paid from the Integrated Waste Management fund and the Hayes Mansion Construction loan, which will be paid from the non-major special revenue fund, Community Facility Revenue.

Business-Type Activities - The changes in long-term obligations for the year ended June 30, 2017 are as follows (dollars in thousands):

	July 1, 2017	(a) Prior Period Adjustment	Restated Beginning Balance July 1, 2017	Additional Obligations and Net Increases	Current Maturities, Retirements, and Net Decreases	June 30, 2018	Amounts Due Within One Year

Airport Revenue Bonds are issued primarily to finance the construction of capital improvements at the Norman Y. Mineta San José International Airport. Pursuant to the Airport's Master Trust Agreement, the City has irrevocably pledged the general airport revenues and certain other funds

City of San José
Notes to Basic Financial Statements
June 30, 2018

held or made available under the Airport's Master Trust Agreement, first to the payment of maintenance and operation costs of the Airport, and second to the payment of principal and premium, if any, and interest on the bonds. General airport revenues generally include all revenues, income, receipts, and monies derived by the City from the operation of the Airport with the exception of certain expressly excluded revenues.

The net revenues available to pay debt service (as defined in the Master Trust Agreement) for the year ended June 30, 2018 totaled \$166,435,000, which is composed of \$88,278,000 of net general airport revenues and \$78,157,000 of other available funds. Other available funds included surplus carryover of \$34,043,000, rolling debt service coverage of \$18,339,000, Customer Facility Charges ("CFC") revenues of \$18,364,000, and \$7,411,000 released from the 2007 Reserve Account upon the repayment of the final maturity of the Series 2007 Bonds on March 1, 2018. The bond debt service paid from the general airport revenues and other available funds amounted to \$78,974,000, which is net of \$24,792,000 of bond debt service paid from the accumulated passenger facility charges ("PFC") funds.

The City has covenanted in the Master Trust Agreement that net revenues available to pay debt service for each fiscal year plus certain other available funds held or made available under the Master Trust Agreement will be at least 125% of annual debt service for such fiscal year. Under the Master Trust Agreement, "debt service" means for any specified period the sum of (a) the interest falling due on any then outstanding current interest bonds, assuming that all principal installments are paid when due, but excluding any interest funded from the proceeds of any series of bonds and applied toward payment of interest on such bonds, and (b) the principal installments payable on any then outstanding bonds. Under the Master Trust Agreement, annual debt service excludes Available PFC Revenues for such fiscal year. Total principal and interest remaining on the bonds is \$2,227,585,000, with the final payment due on March 1, 2047.

As of June 30, 2018, the Required Reserve in the General Account of the Bond Reserve Fund secures the Series 2011A-1, 2011A-2, 2014A, 2014B, 2014C, 2017A, and 2017B Bonds. No additional deposit into the General Account of the Bond Reserve Fund was required upon expiration on March 1, 2018 of the surety bond issued by Ambac Indemnity Corporation (currently known as Ambac Assurance Corporation, the principal operating subsidiary of Ambac Financial Group Inc., "Ambac") in the approximate amount of \$4,300,000. A separate reserve account in the Bond Reserve Fund secures the Series 2011B Bonds.

San José-Santa Clara Clean Water Financing Authority Sewer Revenue Bonds are issued primarily to finance the construction of capital improvements at the Plant and the City has pledged its net system revenues as security for its obligations under the Improvement Agreement to make base payments and additional payments with respect to the Clean Water Financing Authority sewer revenue bonds. The net system revenues available to pay debt service in the year ended June 30, 2018 totaled approximately \$60,432,000. Bond debt service, plus debt service on the State Revolving Fund Loans (subordinate to the outstanding Clean Water Financing Authority sewer revenue bonds), payable from net system revenues in the fiscal year totaled approximately \$10,344,000. The City has covenanted in the Improvement Agreement that net system revenues will be at least 115% of its allocable percentage of annual debt service on the outstanding parity obligations under the Improvement Agreement. The City's allocable percentage of annual debt service is currently 100%. Total principal and interest remaining on (1) the bonds as of June 30, 2018 is approximately \$16,577,000, with the final payment due on November 15, 2020 and (2) the loans as of June 30, 2018 is approximately \$1,804,000 with the final payment due on May 1, 2019.

City of San José
Notes to Basic Financial Statements
June 30, 2018

- [1] Projected interest payments for variable rate debt are based on the following rates in effect on June 30, 2018:
- Financing Authority Lease Revenue Bonds: Series 2008C (1.940%), Series 2008D (2.453%) and Series 2008E (2.513%)
- [2] Includes fixed spread/fee in addition to index rate in effect on June 30, 2018. Does not include projection of future spreads/fees or expenses.
- [3] Does not include commercial paper notes.

For governmental and business-type activities, the specific year for payment of estimated liabilities for the Hayes Mansion construction loan, accrued vacation, sick leave and compensatory time, accrued landfill post closure costs, estimated liability for self-insurance, and the pollution remediation obligation are not practicable to determine.

10. New Debt Issuances and Short-Term Debt Activities

Governmental Activities

City of San José Financing Authority Lease Revenue Commercial Paper Notes Payable

The City's Commercial Paper ("CP") Program utilizes a lease revenue financing structure. Under this program, the Financing Authority is able to issue commercial paper notes ("CP Notes") at prevailing interest rates for periods of maturity not to exceed 270 days. The CP Notes are secured by a pledge of lease revenues from various City assets and supported by two direct-pay letters of credit ("LOCs")

City of San José
Notes to Basic Financial Statements
June 30, 2018

provided by State Street Bank and Trust Company (“State Street”) and U.S. Bank National Association (“U.S. Bank”) (together, the “Banks”) pursuant to Letter of Credit and Reimbursement Agreements by and among the Financing Authority, the City, and each Bank, as amended (“together, the Reimbursement Agreements”). Per the terms of the respective Reimbursement Agreements, each Bank’s LOC was scheduled to expire on November 30, 2018 (the “Letter of Credit Expiration Date”). See Note IV.D.5 for discussion of the extension of the expiration date of each Bank’s LOC and the increase to the stated amount of each Bank’s LOC that occurred in August 2018.

This program was initially established on January 13, 2004, whereby the City Council and the Financing Authority each adopted a resolution authorizing the issuance of the Financing Authority tax-exempt lease revenue commercial paper notes in an amount not to exceed \$98,000,000. Since 2004, the City Council and the Financing Authority have taken actions to modify the program, including increasing the program’s capacity and authorizing the issuance of taxable lease revenue commercial paper notes. As of June 30, 2018, the maximum principal amount of commercial paper notes authorized to be issued is \$85 million.

The Financing Authority issues the CP Notes under State law pursuant to an Amended and Restated Trust Agreement, as amended and supplemented between the Financing Authority and Wells Fargo Bank, National Association (as amended and supplemented, the “Trust Agreement”) and an Amended and Restated Issuing and Paying Agent Agreement between the Financing Authority and Wells Fargo Bank, National Association. Barclays Capital Inc. currently serves as the dealer for the CP Notes pursuant to an Amended and Restated Commercial Paper Dealer Agreement. The City has leased to the Financing Authority various City-owned facilities pursuant to a Site Lease, as amended (the “Site Lease”). The Financing Authority subleased these same facilities back to the City pursuant to a Sublease, as amended (the “Sublease”) in exchange for the rental payments, which support repayment of the CP Notes. The facilities subject to the Site and Sublease (pursuant to the Sixth Amendments to the Site Lease and to the Sublease, both dated as of September 1, 2018, are: the Animal Care Center, Fire Station No. 1, Fire Station No. 3, the Police Communications Center, the South San José Police Substation, and the Tech Museum (the “Pledged Properties”).

The annual commitment fee payable to each Bank equals 0.42% per annum of the daily average Stated Amount of the Letter of Credit; provided, however, that in the event that the long-term unenhanced lease revenue debt ratings of the City are downgraded as specified in the agreements with the Banks, the annual commitment fee shall increase from a range of 0.52% to a maximum of 2.37%, depending on the level of rating downgrade.

Interest on any Principal Advances (draws under the Letter of Credit that are not reimbursed by the City on the same day) are calculated at various increasing interest rates depending on the number of days the Principal Advance remains outstanding.

Interest on any Term Loan (draws that are not reimbursed by the City one hundred eighty-one days after a Principal Advance or the Letter of Credit Expiration Date, whichever comes first) are payable at the Term Loan Rate from the date of such Term Loan Conversion Date, payable monthly in arrears on the first day of each calendar month and on the date on which the final installment of the principal of the Term Loan is payable. The principal amount of each Term Loan is amortized over such a three-year period; provided, however, that the unpaid amount of each Term Loan shall be paid by the City in each year only to the extent of the then fair rental value with respect to the Pledged Property subject to the Sublease for such Base Rental Period, and to the extent not so repaid, such Term Loan shall be paid by the City during each subsequent Base Rental Period, to the extent owed, to the extent of the then fair rental value with respect to the Components subject to the Sublease for each such Base Rental Period, and such Term Loan shall continue to be an obligation of the City pursuant to the Sublease to be paid on or before the expiration of the three-year amortization period. Per the terms of the Letter of Credit and Reimbursement Agreements, the Banks have the right to require that the rent payable for any of the Pledged Properties be redetermined in order to increase

City of San José
Notes to Basic Financial Statements
June 30, 2018

the amount of the rent payable. Additionally, each of the Letter of Credit and Reimbursement Agreements specifies other terms in order to promote prompt repayment to the Banks.

As of June 30, 2018, \$7,190,000 of tax-exempt commercial paper notes was outstanding at an interest rate of 1.50% and \$32,460,000 of taxable commercial paper notes was outstanding at an interest rate of 2.38%. The changes in commercial paper notes during the fiscal year ended June 30, 2018 are as follows (dollars in thousands):

July 1, 2017	Additions	Deletions	June 30, 2018
\$22,302	\$27,538	\$10,190	\$39,650

2017 Tax and Revenue Anticipation Note

The City issued a short-term note (the “2017 Note”) to facilitate the prefunding of employer retirement contributions in FY 2018. The \$150,000,000 note was purchased by Bank of America, N.A. on July 3, 2017 at a variable interest rate. Security for repayment of the 2017 Note was a pledge of the City’s 2017-2018 secured property tax plus all other legally available General Fund revenues available to the City, if required. The City fully repaid the 2017 Note on May 14, 2018.

Business-Type Activities

Airport Commercial Paper Notes Payable

In November 1999, the City authorized the issuance from time to time of Subordinated Commercial Paper Notes (the Subordinated Commercial Paper Notes) that are secured by a lien on Surplus Revenues (which are General Airport Revenues remaining after the payment of maintenance and operation costs of the Airport and the payment of debt service on the Airport Revenue Bonds and the funding of any reserve funds established for the Airport Revenue Bonds). In 2008, the City authorized the Subordinated Commercial Paper Notes to be issued in an aggregate principal amount of up to \$600,000,000 outstanding at any one time. The Subordinated Commercial Paper Notes may be issued at prevailing interest rates for periods of maturity not to exceed 270 days.

In February 2014, the City entered into a letter of credit (“LOC”) and reimbursement agreement (the Reimbursement Agreement) with Barclays Bank PLC (“Barclays”). Pursuant to the Reimbursement Agreement, Barclays issued a \$65,000,000 LOC supporting the Subordinated Commercial Paper Notes, effective on February 11, 2014. On September 16, 2015, the City reduced the LOC stated amount from \$65,000,000 to approximately \$41,000,000. The LOC provided by Barclays was extended to February 8, 2019, and can be extended or terminated earlier pursuant to its terms. See Note IV.D.7 for discussion of the termination and substitution of the LOC issued by Barclays in September 2018.

The terms of the Barclays LOC are specified in the Reimbursement Agreement. In general, Barclays agrees to advance funds to the issuing and paying agent for the Subordinated Commercial Paper Notes to pay the principal and interest on maturing Subordinated Commercial Paper Notes in an amount not to exceed the stated amount of the LOC. In the event that the commercial paper dealer is unable to find investors to purchase Subordinated Commercial Paper Notes to repay the advance from Barclays, the City is obligated to pay interest to Barclays based on a formula specified in the Reimbursement Agreement and repay principal in accordance with the schedule and the terms also specified in the Reimbursement Agreement.

An event of default under the Reimbursement Agreement would entitle Barclays to demand that no additional Subordinated Commercial Paper Notes be issued, that the City reimburse Barclays immediately for draws under the LOC and that all other amounts owed by the City to Barclays be accelerated and become due immediately. Events of default under the Reimbursement Agreement

City of San José
Notes to Basic Financial Statements
June 30, 2018

include, among others: a default under the Master Trust Agreement or the issuing and paying agent agreement for the Subordinated Commercial Paper Notes; non-payment; a breach of a covenant; bankruptcy; and ratings events including a suspension or withdrawal of the long-term, unenhanced debt rating assigned to the Airport Revenue Bonds (other than where the Airport Revenue Bonds shall continue to be rated by any two of Moody's, Fitch, or S&P), or downgrades by any of Moody's, Fitch or S&P of its ratings on the Airport Revenue Bonds below "Baa2," "BBB" and "BBB," respectively for a period of 120 consecutive calendar days. All amounts payable by the City to Barclays under the Reimbursement Agreement are secured by a lien on the Surplus Revenues held in the Subordinated Debt Account of the Surplus Revenue Fund, including the earnings on such Surplus Revenues, which lien is subordinate to the lien of the Airport Revenue Bonds.

In connection with the LOC issued by Barclays, the City entered into a separate fee letter to specify the facility fee rate and other charges payable by the Airport. The facility fee rate under the fee letter was established based on the underlying credit rating of the Airport Revenue Bonds and is applied to the stated amount of the LOC. The facility fee rate is subject to increase in the event that the underlying credit rating of the Airport Revenue Bonds is withdrawn, suspended, or downgraded or upon an event of default under the Reimbursement Agreement. The facility fee rate in effect is 0.425% as of June 30, 2018.

The change in Airport commercial paper notes payable during fiscal year 2018 was as follows (dollars in thousands):

<u>July 1, 2017</u>	<u>Deletions</u>	<u>June 30, 2018</u>	<u>Interest Rate</u>
\$25,461	\$17,952	\$7,509	1.40%

City of San José Financing Authority Subordinate Wastewater Revenue Notes

On October 19, 2017, pursuant to a Credit Agreement dated as of October 1, 2017 ("Credit Agreement") by and among the City, the Financing Authority, and Wells Fargo Bank, National Association (the "Bank"), the Financing Authority issued to the Bank (i) a subordinate tax-exempt wastewater revenue note in an amount not to exceed \$300 million and (ii) a subordinate taxable wastewater revenue note in an amount not to exceed \$300 million outstanding at any one time. The Credit Agreement effectively established an interim financing program under a three-year contract that enables the issuance of subordinate wastewater revenue notes that can be outstanding at any one time in an amount not to exceed \$300 million to finance capital improvements at the RWF. Advances on the notes will be made on a regular basis to reimburse the City for capital costs incurred at the RWF. Upon issuance of the notes, \$174,500 was advanced under the tax-exempt note to pay for transactional closing costs. Additional periodic advances were made during FY 2018 in the amount of \$18,316,000. The balances of the notes payable will be repaid or refinanced during fiscal year 2020.

The source of repayment of the notes, including associated fee and interest costs, are installment payments made to the Financing Authority from pledged net system revenues received by the City related to the wastewater treatment system, pursuant to a Subordinate Installment Purchase Contract, dated as of October 1, 2017, by and between the City and the Financing Authority, and City Resolution No. 78382, which provides for the allocation and pledge of net system revenues to secure the payment of wastewater revenue obligations. Payments on the notes are subordinate to payments on previously issued, currently outstanding obligations payable from net system revenues (the San José- Santa Clara Clean Water Financing Authority, Sewer Revenue Refunding Bonds, Series 2009A (the "CWFA 2009A Bonds") and the State Revolving Fund loan) and will be subordinate to payments on long-term bonds issued in the future. Based on the current ratings of the CWFA 2009A Bonds, the current fee rate for undrawn amounts under the notes is 0.25%. In June 2018, the City Council and the Financing Authority Board authorized amendments to the Credit Agreement, specifically the

City of San José
Notes to Basic Financial Statements
June 30, 2018

margin rate factor, as result of reduction in the federal corporate tax rate from 35% to 21% enacted by The Tax Cuts and Jobs Act in December, 2017. The Financing Authority Board also authorized the amendment and restatement of the fee letter agreement between the Financing Authority and the Bank. The margin rate factor is a common provision in bank credit facility agreements where tax-exempt notes are in direct placement or ownership by a bank. The margin rate factor serves to adjust the rate of a tax-exempt note upon changes in the federal corporate tax rate, thereby preserving the economic benefit of the bank owning a tax-exempt note. The Credit Agreement had a margin rate factor based on the 35% federal corporate tax, which left unchanged would increase interest costs to the City by 22%. The amendment to the Credit Agreement authorized in June 2018 changed the formula for calculating the interest rate on amounts advanced under the tax-exempt note from (i) 0.35% plus 70% of 1-month LIBOR to (i) 0.39% plus 80% of 1-month LIBOR, effectively reducing the increase in interest cost from 22% to 14%. The provisions in the Credit Agreement related to the calculation of interest on amounts advanced under the taxable note were not changed by amendment to the Credit Agreement (0.45% plus 100% of 1-month LIBOR) since the margin rate factor only applies to the tax-exempt note. The fee rate for undrawn amounts under the notes remains at 0.25%.

11. Landfill Postclosure Costs

The City has five closed landfills for which postclosure and monitoring services may be required for approximately a 30 year period, which began in fiscal year 1996, coinciding with the closure of the last landfill. An estimated liability of \$4,650,000 related to the closed landfills is recorded in the government-wide Statement of Net Position as of June 30, 2018. The City's Environmental Compliance staff performs an annual evaluation of the aforementioned liability. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The City does not own or operate any open landfills at this time.

12. Estimated Liability for Self-Insurance

The City is exposed to various risks of losses related to torts, errors and omissions, general liability, injuries to employees, unemployment claims, and employee health and dental insurance. During fiscal year 2017-2018, the City maintained an all-risk property policy including boiler and machinery exposures, coverage for loss due to business interruption and flood. The City did not carry earthquake insurance as it was not available at reasonable rates. A summary of insurable coverage for the policy period October 1, 2017 to October 1, 2018 is provided below:

<u>Coverages</u>	<u>Limit per Occurrence</u>	<u>Deductible Per Occurrence</u>
Property, including Business Interruption	\$1 billion	\$100,000
Flood Zone, Special Flood Hazard Area as defined by the Federal Emergency Management Agency (FEMA)	\$25 million per occurrence and annual aggregate	5% of values at risk (\$1 million minimum deductible)
Flood, Other Locations	\$100 million per occurrence and annual aggregate	\$100,000

For the policy period of October 1, 2017 to October 1, 2018, the City maintained an Airport Liability policy covering the Airport including Control Tower Operators, which provides a \$200,000,000 combined single limit for bodily injury and property damage subject to a deductible of \$0 each occurrence and annual aggregate, with a sublimit of \$50,000,000 each occurrence and in the annual aggregate for personal injury, and a limit of \$200,000,000 each occurrence and in the annual aggregate as respects to war liability.

City of San José
Notes to Basic Financial Statements
June 30, 2018

In addition, the Airport Liability policy also provides excess liability coverage with a limit of \$50,000,000 in excess of the underlying limit of \$1,000,000, which is provided by a separate automobile policy issued to provide coverage for the off-premise operations of scheduled Airport vehicles including shuttle bus fleets with a limit of \$1,000,000 per occurrence, combined single limit for bodily injury and property damage, and no deductible. Physical damage coverage was available for the Airport Shuttle Bus Fleet and is subject to a \$10,000 comprehensive and \$25,000 collision deductible. As part of general support services, the City charges the Airport for the cost of liability and property insurance coverage. Settled claims have not exceeded the City's commercial insurance coverage in any of the past 3 years.

For the policy period of October 1, 2017 to October 1, 2018, the City purchased government fidelity/crime coverage for City losses arising from employee bad acts. Coverage is for financial or property losses and provides a \$5,000,000 per occurrence limit for losses resulting from employee theft, forgery or alteration and inside the premises- theft of money and securities, and provides for a \$1,000,000 per occurrence limit for computer fraud, funds transfer fraud, money orders, and counterfeit money. All claims have a \$100,000 deductible per occurrence.

Claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, newly discovered information and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claims settlement trends (including frequency and amount of pay-outs), economic and social factors, newly discovered information and changes in the law. The estimate of the claims liability also includes increases or decreases to previously reported unsettled claims. The workers' compensation estimate includes allocated loss adjustment expenses, which represent the direct cost associated with the defense of individual claims, which may be years into the future and have been discounted to their present value using a rate of 3.1% for the amounts recorded.

With respect to the general liability accrual, the City has numerous unsettled lawsuits filed or claims asserted against it as of June 30, 2018. The City Attorney and, with respect to workers' compensation claims, the City's Department of Human Resources have reviewed these claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the City and to arrive at an estimate of the amount or range of potential loss to the City. The City has included a provision for losses in its claims liability for loss contingencies that are both probable and can be reasonably estimated.

Changes in the reported liability during the past two years are as follows (dollars in thousands):

Liability as of June 30, 2016	\$	149,434
Claims and changes in estimates during 2017		23,899
Claims payments		<u>(21,564)</u>
Liability as of June 30, 2017		151,769
Claims and changes in estimates during 2018		16,427
Claims payments and other adjustments		<u>(25,808)</u>
Liability as of June 30, 2018	\$	<u><u>142,388</u></u>

Owner Controlled Insurance Programs - On March 31, 2004, the City bound certain liability insurance coverage for the major components of the Airport's North Concourse Project through an owner-controlled insurance program ("OCIP") with Chartis, formerly American International Group ("AIG"), AIU Holdings, Inc. and AIU LLC ("AIU"). The OCIP is a single insurance program that provides commercial general liability, excess liability and worker's compensation insurance coverage

City of San José
Notes to Basic Financial Statements
June 30, 2018

for construction jobsite risks of the project owner, general contractors and all subcontractors associated with construction at the designated project site.

The City was also required to establish a claims loss reserve for the North Concourse Project in the aggregate amount of \$3,900,000 available in a cash working fund. The full amount of the claims loss reserve had been deposited with the insurance carrier and was recorded as advances and deposits in the accompanying Airport enterprise fund statements of net position. The claims loss reserve funds are available to Chartis to pay claims within the City’s deductible of up to \$250,000 per occurrence to an aggregate maximum loss exposure within coverage limits to the City of \$3,900,000. The City was able to negotiate the return of a large portion of the unused claims reserve in advance of the 10-year coverage term. Since March 2010, Chartis has returned \$2,627,000 to the Airport. The balance of the North Concourse reserve fund as of June 30, 2018 is \$835,000.

The North Concourse Project has been completed and the policies expired December 31, 2008. Closeout procedures on the North Concourse Project are in process. Chartis will continue to hold the remaining funds in the claims loss reserve fund until such time as the exposure to risk of claims ceases or the City opts to cash out the remaining funds in exchange for accepting responsibility for potential future claims.

On March 15, 2007, the City obtained additional liability insurance through Chartis for major components of the Airport’s Terminal Airport Improvement Program (“TAIP”) through another OCIP (the TAIP OCIP). The coverage for this program is as follows:

<u>Coverages</u>	<u>Terminal Area Improvement Projects</u>	
	<u>Limits</u>	<u>Deductible Per Occurrence</u>
General Liability	\$2 million per occurrence/ \$4 million aggregate	\$250,000
Workers' Compensation	Statutory	\$250,000
Employers' Liability	\$1 million per accident	\$250,000
Excess Liability	\$200 million	None

The liability under the TAIP OCIP is based upon an estimated payroll of \$92,500,000 for the covered projects and a construction period of 45 months, commencing on March 15, 2007 through December 31, 2010. The terms of the TAIP OCIP require the City to fund a claims loss reserve fund with Chartis in the amount of \$8,900,000. The claims loss reserve fund is available to Chartis to pay claims within the City’s deductible subject to an aggregate maximum loss exposure within coverage limits to the City of \$8,900,000. The City was able to negotiate to fund 74% of the claims loss reserve and interest generated remains in the fund. The full amount of \$6,500,000 was deposited with Chartis in fiscal year 2009 and was recorded as advances and deposits in the accompanying Airport enterprise fund statement of net position. Since August 2013, as part of the annual loss reserve analysis by Chartis, a total amount of \$1,636,000 has been returned to the Airport. The balance of the TAIP reserve fund as of June 30, 2018 is \$1,981,000.

The TAIP Project has been completed and the policies expired on June 30, 2011. Chartis will continue to hold the remaining funds in the claims loss reserve until such time as the exposure to risk of claims ceases or the City opts to cash out the remaining funds in exchange for accepting responsibility for potential future claims.

On June 30, 2017, the City bound certain liability insurance coverage for the major components of the San José-Santa Clara Regional Wastewater Facility Capital Improvement Program through an owner-controlled insurance program (“RWF OCIP”) with the primary carrier Old Republic General

City of San José
Notes to Basic Financial Statements
June 30, 2018

Insurance Corporation (“Old Republic”). The RWF OCIP is a single insurance program that the City sponsors and provides commercial general liability, excess liability and worker’s compensation insurance coverage for construction jobsite risks of the project owner, general contractors and all subcontractors associated with construction at the designated project site. In addition, the City procured builder’s risk, contractor’s pollution liability, and owners protective indemnity insurance to cover liabilities associated with the work.

The City was also required to establish and post a cash collateral fund of \$2,657,000, to be paid in five annual installments and subject to the Old Republic’s quarterly requests to adjust based on expenditure of funds up to the maximum aggregate loss of \$4,385,000. The cash collateral fund is available to Old Republic to pay claims within the City’s deductible of up to \$250,000 per occurrence to an aggregate maximum loss exposure within coverage limits to the City of \$4,385,000.

<u>Coverages</u>	<u>RWF Capital Improvement Projects</u>	
	<u>Limits</u>	<u>Deductible Per Occurrence</u>
General Liability	\$2 million per occurrence/ \$4 million aggregate	\$250,000
Workers' Compensation	Statutory	\$250,000
Employers' Liability	\$1 million per accident	\$250,000
Excess Liability	\$100 million	None

The premiums of the RWF OCIP are calculated based on the estimated hard cost of construction valued at \$535,000,000 for the covered capital improvement projects to be enrolled and for work to be performed up to March 30, 2023.

13. Pollution Remediation Obligations

The City is currently responsible for the management and cleanup of pollution remediation activities at several City sites including three active leaking petroleum storage tank sites: Fire Station #5, Las Plumas Warehouse, Family Shelter. Although the City has significant experience in estimating these types of cleanups, the calculation of the expected outlays related to this pollution remediation is based on estimates provided by both City engineers and consultants hired by the City. The amount of the estimated pollution remediation liability assumes that there will be no major increases in the cost of providing these cleanup services. As of June 30, 2018, the government-wide statement of net position reported a net pollution remediation obligation in the amount of \$279,000 in governmental activities.

14. New Market Tax Credit (“NMTC”) Financing Obligation

In connection with the City’s NMTC financing transaction to construct the San José Environmental Innovation Center (“EIC”), the City has a long-term lease obligation for its possession and beneficial use of the EIC facility. This master lease agreement commenced on November 8, 2011 has a 35-year term with a one-time renewal option of 10 years. Rental payment made by the City for the use of the EIC facility for the year ended June 30, 2018 was \$439,000.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The future minimum lease payments anticipated under the master lease agreement, as of June 30, 2018, are as follows (in thousands):

Fiscal Year Ending June 30,	Amount
2019	\$ 449
2020	461
2021	472
2022	484
2023	496
2024 - 2028	2,674
2029 - 2033	3,029
2034 - 2038	3,429
2039 - 2043	3,880
2044 - 2047	3,020
Total	<u>\$ 18,394</u>

G. Interfund Transactions

The composition of interfund balances as of June 30, 2018, with explanations of transactions, is as follows (dollars in thousands):

1. Due from/Due to other funds

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Nonmajor Governmental Funds	\$ 1,797 (1)
Nonmajor Governmental Funds	Nonmajor Governmental Funds	2,300 (2)
		<u>\$ 4,097</u>

(1) \$1,251 represents accrual of gas tax transfers and \$546 represents accrual of construction and conveyance tax transfer.

(2) Represents short-term borrowing for working capital.

2. Advances to/Advances from other funds

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	San José Financing Authority Debt Service	\$ 3,297 (1)
		<u>\$ 3,297</u>

(1) Represents a \$3,297 loan to support the Rancho Del Pueblo golf course

3. Long-term Receivables from SARA

On July 24, 2009, the State Legislature passed AB 26X4, which required redevelopment agencies statewide to deposit a total of \$2,050,000,000 of property tax increment in county Supplemental Educational Revenue Augmentation Funds ("SERAF") to be distributed to meet the State's Proposition 98 obligations to schools. The Agency's SERAF obligation was \$62,248,000 in FY 2010 ("2010 SERAF Obligation") and \$12,816,000 in FY 2011 ("2011 SERAF Obligation"). Payments were made by May 10 of each respective fiscal year.

On May 4, 2010, the Agency and the City entered into a loan agreement where the City agreed to loan the Agency through two separate payments (May 2010 and May 2011) a combined amount of \$75,063,000 to pay the 2010 SERAF Obligation and the 2011 SERAF Obligation ("SERAF Loan").

City of San José
Notes to Basic Financial Statements
June 30, 2018

The sources of the SERAF Loan to pay the 2010 SERAF Obligation (\$62,248,000) were \$40 million from the City's Low and Moderate Income Housing Fund that had been made available following the issuance of the 2010 Housing Series C Bonds, which was specifically authorized by the legislation, and idle moneys from City special funds (\$10,000,000) and \$12,000,000 from the Financing Authority's Commercial Paper Program. The source of the SERAF Loan to pay the 2011 SERAF Obligation was \$12,816,000 from the City's Low and Moderate Income Housing Fund. The Low and Moderate Income Housing Fund was subsequently renamed as the Low and Moderate Income Housing Asset Fund.

The Redevelopment Dissolution Law provides that all prior loans made between the City and the Agency, except for loans made from the Low and Moderate Income Housing Asset Fund for payment of SERAF, were invalidated as of February 1, 2012, but may be reinstated once certain conditions related to dissolution are met by the SARA as more particularly discussed below in Note IV.C.4. As such, the \$10,000,000 used to pay a portion of the 2010 SERAF Obligation and its related accumulated interest in the amount \$160,000 from the City made by funds other than the Low and Moderate Income Housing Asset Fund was invalidated under this provision and was recorded as part of the SARA's extraordinary items in 2012. In addition, interest accrued in excess of the LAIF rates pursuant to the Redevelopment Dissolution Law in the amount of \$2,940,000 was also invalidated in 2012.

The remaining source of the SERAF Loan used to pay the 2010 SERAF Obligation (\$40 million of 2010 Series C Housing Bonds and \$12 million from the Financing Authority's Commercial Paper program, (See Note IV.C.4) were assumed by the SARA and were listed in the ROPS as enforceable obligations. The source of funds used to pay the 2011 SERAF Obligation was determined to be a housing asset and was transferred to the City as the Successor Housing Agency and was also listed on the ROPS as an enforceable obligation.

On February 15, 2013, the DOF determined that a significant portion of the SERAF Loan used to pay a portion of the 2010 SERAF Obligation (\$40 million of 2010 Housing Series C Bonds and \$12 million from the Financing Authority's Commercial Paper program) should not be reported in the ROPS as an enforceable obligation since the sources of the SERAF Loan were already listed on the ROPS.

On May 26, 2016, the Oversight Board approved a partial reinstatement of the SERAF Loan used to pay the 2010 SERAF Obligation to restore the moneys from the City's special funds in the amount of \$10,000,000 and also approved the repayment schedule for the source of funds used to pay the 2011 SERAF Obligation in the amount of \$12,816,000 plus accrued interest. The Oversight Board determined that the remaining portion of the SERAF Loan used to pay the 2010 SERAF Obligation in the amount of \$52,000,000 plus accrued interest in the amount of \$905,000 is not an enforceable obligation and directed the SARA to remove that portion of the loan from its financial statements. These actions were subsequently approved by the Successor Agency Board on June 28, 2016.

On May 17, 2017, the DOF approved the ROPS 17-18, which included the SERAF loans from the City in the principal amount of \$22,816,000.

As of June 30, 2018, the remaining portion of the SERAF Loan has an outstanding principal and accumulated accrued interest balance of \$22,816,000 and \$5,187,000, respectively, and bears a simple interest rate of 3%.

City of San José
Notes to Basic Financial Statements
June 30, 2018

As of June 30, 2018, total long-term receivables from SARA are as follows (dollars in thousands):

<u>Description</u>	
Advances receivable from SARA:	
SERAF Loan	\$ 28,003 (1)
Other long-term receivables from SARA:	
Parking Fund Loans	17,925 (2)
Reimbursement advance	1,421 (3)
Total long-term receivables from SARA	<u>\$ 47,349</u>

- (1) The amount includes \$15,561,000 from Low and Moderate Income Housing Asset Fund and \$12,442,000 from the General Fund.
- (2) The Parking Fund Loans were reinstated in FY 16-17. See note IV.C.4
- (3) The long-term receivables relate to advances to SARA under the Reimbursement Advance are as follows: \$1,421,000 for direct and indirect administrative and support costs are subordinated to all SARA enforceable obligations. All other enforceable obligations under the Reimbursement Advance were repaid in FY17-18.

4. Long-term Advances from SARA

The City has a payable and SARA has a receivable related to an Agency advance of a portion of a loan made by the City's Housing Department to a third party for a transitional housing project. The SARA is entitled to 24.5% of the total loan repayment and therefore has a long-term receivable in the amount of \$739,000 due from the City as of June 30, 2018.

5. Transfers in/Transfers out

Transfers are indicative of funding for capital projects, lease payments or debt service and subsidies of various City operations. The following schedules summarize the City's transfer activity for the year ended June 30, 2018 with explanations of transactions (dollars in thousands):

Between governmental and business-type activities:

<u>Transfer from</u>	<u>Transfer to</u>	<u>Amount</u>
Housing Activities	Parking System	\$ 31 (1)

City Reserves Policy. The City Council-approved Operating Budget and Capital Improvement Program Policy (Policy Number 1-18) incorporates direction on contingency funding, including general purpose reserves, the Cash Reserve Fund and the Emergency Reserve Fund. Within the General Fund, general purpose reserves are to be set aside as a safety net for general city operations. Currently, the General Fund Contingency Reserve, the General Fund Budget

City of San José
Notes to Basic Financial Statements
June 30, 2018

Stabilization Reserve, and the General Fund Workers' Compensation/General Liability Catastrophic Reserve are available for general purposes. Each of these reserves is described below. With the exception of the General Fund Contingency Reserve Fund, use of these reserves requires a majority vote of the City Council.

Within capital project and special revenue funds, general purpose reserves may be set aside as a safety net for city operations pertaining to the respective fund or to provide stability for customer rates when there are fluctuations to revenues and expenditures.

The Policy also identifies the Cash Reserve Fund and the Emergency Reserve Fund, which are mandated by the City Charter described below.

The section of Council Policy 1-18 addressing contingency funds was amended in June 2015.

The **General Fund Contingency Reserve Fund** was created to meet unexpected circumstances arising from financial and/or public emergencies that require immediate funding that cannot be met by any other means. The policy established a minimum of three percent of the General Fund operating budget as the reserve balance. Any use of the General Fund Contingency Reserve shall require a two-third vote of approval by the City Council. As of June 30, 2018, the contingency amount accounts for \$36,500,000 of the unassigned fund balance.

The **General Fund Budget Stabilization Reserve** may be maintained at a level as determined by the City Council to be adequate. The purpose of this reserve is to provide budget stability when there are fluctuations that result in lower than projected revenues and/or higher than projected expenditures that cannot be re-balanced within existing budget resources in any given year. This reserve is intended to provide a buffer, or bridge funding, to protect against reducing service levels when these fluctuations occur. As of June 30, 2018, the budget stabilization reserve accounts for \$16,300,000 of the unassigned fund balance.

The **General Fund Workers' Compensation/General Liability Catastrophic Reserve** may be maintained at a level as determined by the City Council to be adequate. The purpose of this reserve is to provide funding for potential workers' compensation or general liability claims that exceed the budgeted amounts as the City, for the most part, is self-insured. As of June 30, 2018, the workers' compensation and general liability catastrophic reserve accounts for \$15,000,000 of the unassigned fund balance.

The **Cash Reserve Fund** was created for the payment of any authorized expenditures of the City for any fiscal year in anticipation of and before the collection of taxes and other revenues of the City for such fiscal year, and for the payment of authorized expenses of the City for any fiscal year, which became due and payable and must be paid prior to the receipt of tax payments and other revenues for such fiscal year. A reserve shall be built up in said fund from any available sources other than restricted sources in an amount which the Council deems sufficient for said purposes. As of June 30, 2018, the cash reserve amount accounts for \$6,000 of the unassigned fund balance.

The **Emergency Reserve Fund** was created for the purpose of meeting any public emergency involving or threatening the lives, property or welfare of the people of the City or property of the City. A reserve shall be built up in said fund from any available sources, other than restricted sources, in an amount which the Council deems desirable. As of June 30, 2018, the emergency reserve amount accounts for \$1,335,000 of the unassigned fund balance.

IV. Other Information

A. Defined Benefit Retirement Plans

A. 1. City Sponsored Defined Benefit Pension Plan

1. General Information about the Pension Plans

The City sponsors and administers two single employer defined benefit retirement systems, the Police and Fire Department Retirement Plan (the "PFDRP") and the Federated City Employees' Retirement System (the "FCERS"), and collectively, "the Retirement Systems", which with the exception of certain unrepresented employees together cover all full-time and certain part-time employees of the City. The Retirement Systems provide general retirement benefits under single employer Defined Benefit Pension Plans, as well as the Postemployment Healthcare Plans. The Retirement Systems are accounted for in the Pension Trust Funds.

The Retirement Systems are administered by the Chief Executive Officer of the Office of Retirement Services, an employee of the City, who serves at the pleasure of the Boards of Administration for the Retirement Systems. The compensation paid to the Chief Executive Officer and the investment professional staff within the Office of Retirement Services is set by the City Council. The Boards of Administration in recommending to the City Council the compensation amounts for these positions are required under the City Charter to consider compensation of equivalent positions in comparable United States public pension plans.

The separately issued annual reports of PFDRP and FCERS, together with various chapters in Title 3 of the City's Municipal Code, provide more detailed information about the Retirement Systems. Those reports may be obtained from the City of San José Office of Retirement Services, 1737 North First Street, Suite 600, San José, California 95112.

Benefits

The Defined Benefit Pension Plans provide general retirement benefits including pension, death, and disability benefits to members. The contribution and benefit provisions and all other requirements are established by the City Charter and the City's Municipal Code. Benefits are based on average final compensation, years of service, and cost-of-living increases as specified by the City's Municipal Code.

On June 5, 2012, San José voters adopted Measure B, which enacted the Sustainable Retirement Benefits and Compensation Act ("Measure B"). Measure B amended the City Charter to, among other changes, (1) increase pension contribution requirements for current employees effective June 23, 2013; (2) require the City to establish an alternative voluntary plan with reduced benefits for current employees (the "Voluntary Election Plan" or "VEP") subject to Internal Revenue Service (IRS) approval; (3) place limitations on disability retirements; (4) authorize the City Council to temporarily suspend the cost of living adjustments if the City Council adopts a resolution declaring a fiscal and service level emergency; (5) require the elimination of the Supplemental Retirement Reserve within the Retirement Systems; (6) codify in the City Charter contribution requirements for current employees for the retiree health and dental benefits and provide for a reservation of rights for the City Council to terminate or modify any retiree healthcare plan; (7) require the establishment of Tier 2 plans for new employees within the Retirement Systems; and (8) reserve to the voters the right to approve future changes to retirement benefits. Measure B has subsequently been the subject of various forms of litigation and the City Council directed the City Administration to settle the litigation with the City's eleven (11) bargaining units. The legal challenges to Measure B are resolved. The

City of San José
Notes to Basic Financial Statements
June 30, 2018

settlement of the legal challenges brought by or on behalf of the City's active employees is discussed below.

On August 25, 2015, the City Council approved the terms of the Alternative Pension Reform Settlement Framework (Public Safety Framework) for the two sworn bargaining units, the San Jose Police Officers' Association (SJPOA) and the San Jose Fire Fighters, International Association of Fire Fighters, Local 230 (IAFF).

On December 15, 2015 and January 12, 2016, the City and the bargaining units representing employees in FCERS reached a settlement agreement on the Federated Alternative Pension Reform Settlement Framework (Federated Framework). The terms of the Federated Framework also applied to unrepresented employees, including unrepresented management and executive employees in Unit 99.

The Public Safety and Federated Frameworks (the "Frameworks") include, among other things, revised Tier 2 pension benefits that include increased pension benefits for Tier 2 employees while preserving the 50/50 cost sharing between the City and Tier 2 employees; closing the defined benefit retiree healthcare benefit to new employees, as well as agreement on a new lowest cost medical plan associated with retiree healthcare; allowing Tier 1 and some Tier 2 employees to opt out of the applicable Postemployment Healthcare Plan to a Voluntary Employee Benefit Association for retiree healthcare subject to legal and Internal Revenue Service approval (which has since been received); allowing Tier 1 employees who terminated employment with the City and either subsequently returned or who return in the future to return as Tier 1 employees; and continuing the elimination of the Supplemental Retiree Benefit Reserve (SRBR). The Frameworks also included an agreement that a ballot measure would be placed on November 8, 2016, election for the voters to replace Measure B as described below. On November 8, 2016, the voters approved the Alternative Pension Reform Act known as Measure F. Measure F included, among other things, prohibiting any enhancements to defined retirement benefits without voter approval; codifying the Tier 2 pension benefit; closing the defined benefit retiree healthcare plan; and prohibiting retroactive defined retirement benefit enhancements.

The specific terms of PFDRP and FCERS are set forth in the Municipal Code. Both have different benefit tiers.

Prior to June 18, 2017, FCERS had Tier 1, Tier 2, Tier 2B, and Tier 2C. Tier 2, Tier 2B and Tier 2C had the same reduced pension benefits as compared to Tier 1. Tier 2 had the same retiree healthcare (medical and dental) benefits as Tier 1. Tier 2B originally consisted of employees who were newly hired or rehired on or after September 27, 2013, and they were not eligible for the defined benefit retiree health care benefits; however, the City was responsible for the contributions that both the City and the Tier 2B members would have otherwise paid for retiree health care had those employees been eligible. Tier 2C had retiree dental benefits but no retiree medical benefits. Prior to June 18, 2017, the PFDRP had Tier 1 and Tier 2 for both police and fire members with reduced pension benefits for the Tier 2 police and fire members as compared to the Tier 1 members, and until July 30, 2017, Tier 1 and Tier 2 members of PFDRP had the same retiree healthcare (medical and dental benefits). The City Manager on August 2, 2017 exercised his discretion under the Municipal Code to terminate the PFDRP Postemployment Healthcare Plan for Police and Fire Tier 2 employees. On August 3, 2017, the PFDRP Board took action to terminate the PFDRP Postemployment Healthcare Plan for Tier 2 Police and Fire employees effective July 30, 2017. As of July 30, 2017, the City's contribution rate to the PFDRP Postemployment Healthcare Plan for Police and Fire Tier 2 employees did not change; however, the contribution rates made by the Police and Fire Tier 2 employees were reduced to 0%.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Subsequent ordinances amending the Municipal Code implementing the terms of Measure F and the Frameworks have since been adopted by the City Council and the changes described below became effective on June 18, 2017, which was the commencement date of the first pay period of Fiscal Year 2017-2018. As implementation issues arise, minor modifications to the provisions of PFDRP and FCERS in the Municipal Code have been made to address these issues.

Effective June 18, 2017, the FCERS has several Tiers as follows:

Tier	Hire Date	Pension	Defined Benefit Retiree Healthcare (Medical/Dental)
Tier 1	<ul style="list-style-type: none"> ▪ On or before September 29, 2012 ▪ Former Tier 1 rehired on or after June 18, 2017 who did not take a return of contributions⁽¹⁾ 	Tier 1	Medical/Dental ⁽²⁾⁽⁴⁾
Tier 1 Rehire	<ul style="list-style-type: none"> ▪ Former Tier 1 rehired on or after September 30, 2012 through June 17, 2018⁽¹⁾ 	Tier 1	Medical/Dental ⁽²⁾⁽⁴⁾⁽⁵⁾

Police Tier 2

Death Before Retirement

Nonservice-connected death - not eligible for retirement and less than two years of service Greater of:
(1) Return of contributions, plus interest, to surviving spouse/domestic partner; where there is no surviving spouse/domestic partner to member's surviving children, or where there are no surviving children either, to the member's estate or

(2) \$1,000, whichever is greater

Nonservice-connected death - not eligible for retirement and two or more years of service To surviving spouse/domestic partner:
24.0% of final compensation + 0.75% of final compensation for each year in excess of 2 compensation (37.5% maximum)

There is an 80.0% cap on final compensation that can be paid to survivors.

And to surviving children:

If 1 Child: Final compensation x 25.0%

If 2 Children : Final compensation x 37.5%

If 3 or more Children: Final compensation x 50.0%

If no surviving spouse/domestic partner nor surviving children, to the estate:
Return of contributions, plus interest, or \$1,000 whichever is greater

Death before retirement, but while eligible for service retirement - Non-service connected death To surviving spouse/domestic partner:
37.5% to 42.5% of member's final compensation depending on the years of service

For example:

Member's benefit = 76.0% survivorship benefit = 38.0% of final compensation

Member's benefit = 80.0% survivorship benefit = 40.0% of final compensation

Member's benefit = 82.0% survivorship benefit = 41.0% of final compensation

Member's benefit = 85.0% survivorship benefit = 42.5% of final compensation

and to surviving children:

If 1 Child: Final compensation x 25.0%

If 2 Children: Final Compensation x 37.5%

If 3 or more Children: Final Compensation x 50.0%

If no surviving spouse/domestic partner nor surviving children, to the estate:
Return of contributions, plus interest, or \$1,000, whichever is greater

Service- Connected Death

Service-connected death To surviving spouse/domestic partner:
37.5% to 42.5% of member's final Compensation depending on years of service

There is an 80.0% cap on final compensation that can be paid to survivors

and the children:

If 1 Child: Final compensation x 25.0%

If 2 Children: Final Compensation x 50.0%

If 3 or more Children: Final compensation x 75.0%

If no surviving spouse/domestic partner nor surviving children, to the estate:
Return contributions, plus interest, or \$1,000 whichever is greater

FCERS

	Tier 1 & 1A*	Tier 1B or Tier 1 Classic**	Tier 1C***	Tier 2	Tier 2B
Disability Retirement (Non- Service Connected)					
Minimum Service	5 years			5 Years Federated City Service	
Allowance	40% of Final Compensation plus 2.5% x Years of Service in excess of 16 years x Final Compensation (Maximum 75.0% of Final Compensation) If under 55 years old, subtract 0.5% for every year under age 55.			2% x Years of Federated City Service x Final Compensation. (Minimum of 20% and maximum of 70.0% of Final Compensation)	
	For those entering the System 9/1/98 or later, the calculation is as follows: 20% of Final Compensation for up to 6 years of service. Add 2% for each year of service in excess of 6 years but less than 16 years. Add 2.5% for each year of service in excess of 16 years of service. (Maximum 75% of Final Compensation)				

Reciprocity

Reciprocity As of December 9, 1994, the City of San José Federated City Employees' Retirement System adopted a reciprocal agreement with CalPERS. This may result in improved benefits for members who transfer between this retirement system and CalPERS or certain other public agency retirement systems that also have reciprocal agreements with CalPERS. Please call the Retirement Department or CalPERS for more information.

Cost-of-Living Adjustments(COLA)

Cost-of-living adjustments	Retirees are eligible for a 3% annual cost of living adjustment (COLA). Regular COLA's are compounded and paid each April. There is no prorating of COLA.	Retirees are eligible for annual cost of living adjustment (COLA) limited to the lesser of the increase in the Consumer Price Index (San Jose- San Francisco- Oakland, U.S. Bureau of Labor Statistics index, CPIU, December to December), or a back loaded 2.0% COLA per fiscal year. The back loaded COLA shall be calculated as follows:
		<ul style="list-style-type: none"> i. Service at retirement of 1- 10 years: 1.25% per year ii. Service at retirement of 1- 10 years and hired before June 16, 2017: 1.5% iii. Service at retirement of 11- 20 years: 1.5% per year iv. Service at retirement of 21- 25 years: 1.75% per year v. Service at retirement of 26 years and above: 2.0% per year The first COLA will be prorated based on the number of months retired.

* Tier 1 applies to employees hired on or before September 29, 2012, or former Tier 1 members who were rehired on or after June 18, 2017, who did not take a return of contributions. Tier 1A applies to employees rehired on or after September 30, 2012 through September 27, 2013, and employees rehired after September 27, 2013 with 15 or more years of service, but before June 18, 2017.

** Tier 1B applies to employees rehired after September 27, 2013 with less than 5 years of service, but before June 18, 2017. Tier 1B employees are not eligible for the defined benefit retiree healthcare plan. Employees with "Classic" membership from a CalPERS or reciprocal agency hired by the City of San Jose on or after June 18, 2017. Employees in Tier 1 Classic are not eligible for the defined benefit retiree healthcare plan.

*** Tier 1C applies to employees rehired after September 27, 2013 with between 5 and 15 years of service, but before June 18, 2017. Tier 1C employees are not eligible for the defined benefit retiree medical plan.

Federated Tier 1, 1A, 1B, and 1C

Death Before Retirement

Nonservice- Connected Death with less than 5 years of service	Return of employee contributions, plus death benefit: 1/12 of compensation in year prior to death x years of service (benefit may not exceed 50.0% of the salary earned in year prior to death.)
Greater than 5 years of service or Service-Connected Death	<p>To surviving spouse/domestic partner: Years of Service x 2.5% x Final Compensation (40.0% minimum, 75.0% maximum, except that "deferred vested" members not eligible for 40.0% minimum)</p> <p>If no surviving spouse/domestic partner, to surviving children: 1 Child: 25.0% of spousal/domestic partnership allowance 2 Children: 50.0% of spousal/domestic partnership allowance 3 Children: 75.0% of spousal/domestic partnership allowance</p> <p>If no surviving spouse/domestic partner or surviving children: Return of employee contributions, plus death benefit: 1/12 of compensation in year prior to death x years of service (benefit may not exceed 50.0% of the salary earned in year prior to death.)</p>

Death After Retirement

Standard allowance to surviving spouse/domestic partner or children (Minimum 5 years of service)	<p>To surviving spouse/domestic partner: 50.0% of Retiree's Allowance</p> <p>If no surviving spouse/domestic partner, to surviving children: 1 Child: 25.0% of spousal/domestic partnership allowance 2 Children: 50.0% of spousal/domestic partnership allowance 3 Children: 75.0% of spousal/domestic partnership allowance</p> <p>If no surviving spouse/domestic partner or surviving children: estate or beneficiary will receive the difference between employee contributions (including interest) and the total paid to member by the retirement system at the time of death.</p>
Optional Settlements	Retiree may choose an optional settlement at retirement that reduces the allowance to provide a survivorship allowance to a designated beneficiary or a higher survivorship allowance to their spouse/domestic partner.
Special Death Benefit	\$500 death benefit paid to estate or designated beneficiary in addition to benefits above.

Note: For death before retirement, the survivorship allowance to surviving spouse/domestic partner lasts until death or remarriage. For members who were at least 55 and had at least 20 years of service at the time of death, or 30 years of service regardless of age, the survivorship allowance to surviving spouse/domestic partner lasts until death.

Note: If there is an allowance payable to a surviving spouse/domestic partner, no allowance will be paid to surviving children. Surviving children receive a monthly survivorship allowance only when there is no surviving spouse/domestic partner.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Federated Tier 2 and 2B

Death Before Retirement

Nonservice- Connected Death Not Eligible for Retirement Return of employee contributions, plus interest.

Eligible for Retirement To surviving spouse/domestic partner:
2.0% x Years of Federated Service x Final Compensation (70.0% max)

If no surviving spouse/domestic partner, to surviving children until age 18:
1 Child: 25.0% of spousal/domestic partnership allowance
2 Children: 50.0% of spousal/domestic partnership allowance
3 Children: 75.0% of spousal/domestic partnership allowance

If no surviving spouse/domestic partner or surviving children: Return of employee contributions, plus death benefit: 1/12 of compensation in year prior to death x years of service (benefit may not exceed 50.0% of the salary earned in year prior to death.)

Employees killed in the line of duty –
To surviving spouse/domestic partner:
Monthly benefit equivalent to 50.0% of Final Compensation.

Death After Retirement

Survivorship allowance to surviving spouse/domestic partner or children that was elected by the member at retirement.
(Minimum 5 years of service) To surviving spouse/domestic partner:
50.0% of Retiree's Allowance
If no surviving spouse/domestic partner, to surviving children until age 18:
1 Child: 25.0% of spousal/domestic partnership allowance
2 Children: 50.0% of spousal/domestic partnership allowance
3 Children: 75.0% of spousal/domestic partnership allowance

If no surviving spouse/domestic partner or surviving children: estate or beneficiary will receive the difference between employee contributions (including interest) and the total paid to member by the retirement system at the time of death.

Optional Settlements Retiree may choose an optional settlement at retirement that reduces the allowance to provide a survivorship allowance to a designated beneficiary or a higher survivorship allowance to their spouse/domestic partner.

Note: For death before retirement, the survivorship allowance to surviving spouse/domestic partner lasts until death, remarriage, or establishment of a domestic partnership if member was at least 65 with at least 20 years of service (or 55 with a reduction factor of 5.0%) at the time of death. For death after retirement, the survivorship allowance to surviving spouse/domestic partner lasts until death.

- (1) Retiree counts do not include combined DROs.
(2) Members are eligible for full retiree medical benefits.
(3) Includes VEBA participants who are eligible for the catastrophic disability medical benefits only from the Postemployment Healthcare Plan.

The Retirement Systems are not subject to the provisions of the Employee Retirement Income Security Act of 1974, a federal law that sets minimum standards for most voluntarily established pension and health plans in private industry to provide protection for individuals in these plans.

2. Contributions

Under GASB Statement No. 68, the City's and the participating employees' contributions to the Defined Benefit Pension Plans are based upon an actuarially determined percentage of each employee's pensionable and earnable salary to arrive at an actuarially determined contribution ("ADC") sufficient to provide adequate assets to pay benefits when due.

On June 24, 2008, the City Council adopted Ordinance No. 28332 amending Title 3 of the San José Municipal Code to provide the City with the option to make lump sum prepayments of City required contributions for pension to PFDRP and FCERS. Subsequently, in October 2014, the Boards of Administration for PFDRP and FCERS approved implementing an incremental reduction approach to determining the "actuarial equivalence" for the City's prefunding of its contribution when the economic expansion has exceeded 58 months in duration and/or the S&P 500 has returns in excess

City of San José
Notes to Basic Financial Statements
June 30, 2018

of 130%. This approach was undertaken to ensure that as business expansions and/or market valuations mature and exceed historic norms, the Retirement Systems reduce the City's incentive to prefund its contributions when market valuations and/or economic expansions are beyond historic norms. The incremental reduction to be applied to the discount rate to the City's prefunding of its contribution is 15% per year, up to a maximum of 45%, which was the reduction to the discount rate that was applied to calculate the actuarially determined prepayment amount for the Tier 1 members to be paid by the City at the beginning of the fiscal year ended June 30, 2018.

As noted above, the San José Municipal Code has been amended to set forth the terms of Measure F and the Frameworks regarding, among other issues, Tier 2 pension benefits for members in PFDRP and FCERS. The contribution rates for PFDRP and FCERS Tier 2 members are calculated based on a 50/50 split of all costs, including unfunded actuarial accrued liability (UAAL). Currently, PFDRP and FCERS Tier 1 members split normal cost with approximately 72.7% paid by the City and approximately 27.3% paid by Tier 1 members. The responsibility for funding the UAAL is generally not shared with the Tier 1 employees.

The contribution rates for the Tier 1 Defined Benefit Pension Plans for the City and the participating employees for the fiscal year ended June 30, 2018 were based on the actuarial valuations performed as of June 30, 2016. Both valuations were performed before the implementation of the Measure F and the Frameworks. The Boards' actuary completed two separate actuarial reports for the implementation of the Tier 2 changes under Measure F for fiscal year ending on June 30, 2018. The PFDRP Tier 2 actuarial report was completed on May 4, 2017 and the FCERS Tier 2 actuarial report was completed on May 18, 2017.

In FY 2011, the Retirement Systems' Boards approved the establishment of a "floor funding method", commencing with FY 2012, setting the City's funding policy contribution amount to be the greater of the dollar amount reported in the actuarial valuation or the dollar amount determined by applying the percentage of payroll reported in the valuation to the actual payroll, if actual payroll exceeds the actuarial payroll, for the fiscal year. The "floor funding method" applies to both PFDRP and FCERS except PFDRP Police Tier 2 and Fire Tier 2 or FCERS Tier 2, Tier 2B, and Tier 2C members.

In January and February 2016, the Retirement Systems' Boards approved the City's request that the floor methodology for Tier 1 pension contributions be used only for the annual employer Normal Cost contribution (which includes administrative expenses) and that the annual employer Unfunded Accrued Liability (UAL) contribution be set at the dollar amount recommended by the actuary and adopted by the Board in the annual actuarial valuation report beginning FY 2017. The "floor funding method" applies to both PFDRP and FCERS except PFDRP Police Tier 2 and Fire Tier 2 or FCERS Tier 2, Tier 2B, and Tier 2C members.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The contribution rates in effect and the amounts contributed to the pension plans for the fiscal year ended June 30, 2018 are as follows (dollars in thousands):

Defined Benefit Pension Plan	PFDRP							
	City ⁽¹⁾				Participants			
	Police Tier 1	Police Tier 2	Fire Tier 1	Fire Tier 2	Police Tier 1	Police Tier 2	Fire Tier 1	Fire Tier 2
Actuarial Rate:								
07/01/17-06/30/18	95.31%	15.17%	96.06%	16.26%	10.88%	15.17%	11.38%	16.26%

Defined Benefit Pension Plan	FCERS			
	City ⁽¹⁾		Participants	
	Tier 1 ⁽¹⁾	Tier 2	Tier 1	Tier 2
Actuarial Rate:				
07/01/17-06/30/18	94.04%	7.72%	6.60%	7.72%

(1) The actual contribution rates paid by the City for the fiscal year ended June 30, 2018 differed from what is above for Tier 1 due to the City funding the actuarially determined contribution amount based on the greater of the dollar amount reported in the actuarial valuation or the dollar amount determined by applying the percentage of payroll reported in the valuation to the actual payroll, if actual payroll exceeds the actuarial payroll, for the fiscal year.

Defined Benefit Pension Plan	Annual Pension Contribution		
	City	Participants	Total
PFDRP	\$ 157,712	\$ 23,841	\$ 181,553
FCERS	\$ 156,770	\$ 20,501	\$ 177,271

3. Net Pension Liability

The City's net pension liability for each Defined Pension Plan is measured as the total pension liability, less the pension plans' fiduciary net position as of the measurement date of June 30, 2017. The City's net pension liability as of June 30, 2018 of each of the Defined Pension Plan is measured as of June 30, 2017, using an annual actuarial valuation as of June 30, 2016 and rolled forward to June 30, 2017 using standard update procedures by the actuary for the respective plans. In summary, the City's net pension liability at June 30, 2018 is as follows (dollars in thousands):

PFDRP	\$ 1,240,519
FCERS	1,950,418
CalPERS	1,419
Total net pension liability	<u>\$ 3,192,356</u>

Changes in Net Pension Liabilities - The components of the net pension liabilities of the PFDRP and FCERS plans (i.e., the PFDRP's and FCERS's liabilities determined in accordance with GASB Statement No. 68 less the plans' fiduciary net positions) as of the measurement date, June 30, 2017, were as follows¹ (dollars in thousands):

¹ The schedules of changes in the net pension liability as of June 30, 2018 are presented in the Required Supplementary Information.

Sensitivity of the Net Pension Liabilities to Changes in Discount Rates - The discount rates used to measure the total pension liabilities were 6.875%, for both the PFDRP and FCERS plans for the valuations dated June 30, 2016. It is assumed that PFDRP and FCERS members' contributions and City's contributions will be made based on the actuarially determined rates based on the funding

City of San José
Notes to Basic Financial Statements
June 30, 2018

policy of each board. Based on those assumptions, the PFDRP's and FCERS's fiduciary net positions are expected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liabilities.

The following presents the net pension liabilities, calculated using the discount rates of 6.875% in effect as of the measurement date, as well as what the net pension liabilities would be if they were calculated using discount rates that are one percentage point lower (5.875%) or one percentage point higher (7.875%) than the rates used, for the PFDRP and FCERS plans, respectively (dollars in thousands):

<u>PFDRP - Sensitivity Analysis</u>	1% Decrease (5.875%)	Measurement Date Rate (6.875%)	1% Increase (7.875%)
Total pension liability	\$ 5,213,524	\$ 4,533,776	\$ 3,986,598
PFDRP fiduciary net position	3,293,257	3,293,257	3,293,257
Net pension liability	<u>\$ 1,920,267</u>	<u>\$ 1,240,519</u>	<u>\$ 693,341</u>

PFDRP fiduciary net position as a percentage of the total pension liability	63.2%	72.6%	82.6%
---	-------	-------	-------

<u>FCERS - Sensitivity Analysis</u>	1% Decrease (5.875%)	Measurement Date Rate (6.875%)	1% Increase (7.875%)
Total pension liability	\$ 4,480,433	\$ 3,923,210	\$ 3,470,615
FCERS fiduciary net position	1,972,792	1,972,792	1,972,792
Net pension liability	<u>\$ 2,507,641</u>	<u>\$ 1,950,418</u>	<u>\$ 1,497,823</u>

FCERS fiduciary net position as a percentage of the total pension liability	44.0%	50.3%	56.8%
---	-------	-------	-------

Pension Expense – For the year ended June 30, 2018, the City recognized pension expense as follows (dollars in thousands):

	FCERS	PFDRP	Total
Service costs	\$ 51,886	\$ 72,760	\$ 124,646
Interest	249,388	290,961	540,349
Benefit changes	12,132	5,752	17,884
Difference between expected and actual experience	30,109	19,012	49,121
Changes of assumptions	115,873	51,977	167,850
Contributions-employee	(17,227)	(20,580)	(37,807)
Expected return on assets	(126,714)	(207,793)	(334,507)
Current year amortization of net difference between projected and actual investment earnings	33,326	40,392	73,718
Administrative expenses	4,380	4,632	9,012
Total pension expense	<u>\$ 353,153</u>	<u>\$ 257,113</u>	<u>\$ 610,266</u>

City of San José
Notes to Basic Financial Statements
June 30, 2018

Deferred outflows/inflows of resources – As of June 30, 2018, the City reported deferred outflows of resources related to pensions from the following sources (dollars in thousands):

Schedule of Deferred Inflows and Outflows of Resources - PFDRP		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Contributions subsequent to measurement date	\$ 157,712	\$ -
Differences between expected and actual experience	59,251	4,338
Changes in assumptions	122,123	-
Net difference between projected and actual earnings on pension plan investments	137,363	-
Total	\$ 476,449	\$ 4,338

Amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense as follows:

Measurement year ended June 30:	
2018	\$ 111,382
2019	152,811
2020	67,198
2021	(16,992)
Total	\$ 314,399

Schedule of Deferred Inflows and Outflows of Resources - FCERS		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Contributions subsequent to measurement date	\$ 156,770	\$ -
Differences between expected and actual experience	43,727	-
Changes in assumptions	135,947	-
Net difference between projected and actual earnings on pension plan investments	120,176	-
Total	\$ 456,620	\$ -

Amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense as follows:

Measurement year ended June 30:	
2018	\$ 179,306
2019	94,487
2020	29,918
2021	(3,861)
Total	\$ 299,850

As of June 30, 2018, \$157,712,000 and \$156,770,000 reported as deferred outflows of resources related to contributions subsequent to the measurement date for the PFDRP and FCERS, respectively, will be recognized as a reduction of the net pension liability in the year ending June 30,

City of San José
Notes to Basic Financial Statements
June 30, 2018

2019. Other amounts reported as deferred outflows of resources related to pensions will be recognized as pension expense shown in the tables above (dollars in thousands).

Long-term Expected Rate of Return on Plan Investments - The assumption for the long-term expected rates of return on PFDRP and FCERS investments of 6.875% for the valuations dated June 30, 2016 was selected by estimating the median nominal rates of return based on long-term capital market assumptions provided by the PFDRP's and FCERS's investment consultants, including nominal expected rates of return for each of the asset classes, and reducing the estimated median by a margin so that there is estimated to be a greater than 50 percent probability of achieving the returns.

Best estimates of geometric real rates of return for each major asset class included in the target asset allocation for each plan as of the measurement date of June 30, 2017, are summarized in the following tables:

	PFDRP	
	Target Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	31%	5.0%
Private equity	8%	7.0%
Global fixed income	16%	1.0%
Private debt	11%	4.0%
Real assets	17%	3.0%
Absolute return	6%	3.0%
Global tactical asset allocation/ Opportunistic	10%	2.0%
Cash	1%	0.0%
Total	100%	

	FCERS	
	Target Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	28%	4.6%
Private equity	9%	7.0%
Global fixed income	19%	1.0%
Private debt	5%	4.3%
Real assets	23%	3.7%
Absolute return	11%	3.0%
Global tactical asset allocation/ Opportunistic	5%	2.1%
Cash	0%	0.2%
Total	100%	

The separately issued annual reports of PFDRP and FCERS provide more information about the most recent long-term expected rates of return on plan investments.

4. Actuarial Methods and Assumptions

The significant actuarial methods and assumptions used to compute the total pension liability as of June 30, 2018 are from the actuarial valuation report with a valuation date of June 30, 2016.

<u>Description</u>	<u>PFDRP</u>	<u>FCERS</u>
<u>Description</u>	<u>Method/Assumption</u>	<u>Method/Assumption</u>
Measurement date	June 30, 2017	June 30, 2017
Valuation date	June 30, 2016	June 30, 2016
Inflation rate	2.75%	2.50%
Discount rate	6.875% per annum (net of investment expenses)	6.875% per annum
Post-retirement mortality (a) Service:	CalPERS 2009 Healthy Annuitant Mortality Table multiplied by 0.948 for males and 1.048 for females and projected using Scale MP-2015 on a generational basis from base year of 2009.	Healthy annuitants: 0.952 for males and 0.921 for females, times the CalPERS 2009 Healthy Annuitant Mortality Table. Healthy non-annuitants: 0.919 for males and 0.918 for females, times the CalPERS 2009 Employee Mortality Table. Disabled annuitants: 1.051 for males and 1.002 for females, times the CalPERS 2009 Ordinary Disability Mortality Table. Mortality is projected from 2009 on a generational base using the MP-2015 scale.
(b) Disability:	CalPERS 2009 Industrial Disability Mortality Table for males multiplied by 0.903 and projected using SOA MP-2015 on a generational basis from base year of 2009.	
Rates of service retirement, withdrawal, death, disability retirements	Based upon the June 30, 2015, actuarial experience analysis	Tables based on current experience
Salary increases Wage Inflation	3.25% for all years	The base wage inflation assumption of 2.85% plus a merit / longevity increase based on years of service ranging from 4.50% at hire to 0.25% for members with 14 or more years of service.
Merit Increase	Merit component added based on an individual year's of service ranging from 6.75% to 1.00%	For the amortization schedule, payroll is assumed to grow 2.85% per year.
Cost of Living Adjustment	Tier 1 – 3% per year Tier 2 – 2% per year	Tier 1 – 3% per year Tier 2 – 1.5% per year

A. 2. California Public Employees' Retirement System (CalPERS)

Plan Description. The Mayor and members of the City Council are eligible to participate in the the State of California's Public Employees' Retirement System ("CalPERS") Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the "Plan"). CalPERS acts as a common investment and administrative agent for various local and state governmental agencies within the State of California. The Plan provides retirement, disability and death benefits based on the employee's years of service, age and final compensation. Benefit provisions and other requirements are established by the California Public Employees' Retirement Law, employer contract with CalPERS and by City resolution. Retiree health benefits are not provided to Mayor/Councilmembers. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information. Reports can be found on CalPERS' website at <https://www.calpers.ca.gov/page/home>.

Benefits Provided. CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees, and beneficiaries. Benefits are based on a final average compensation period of 36 months. Members with five years

City of San José
Notes to Basic Financial Statements
June 30, 2018

of total service are eligible to retire at age 50 for Classic members and at age 52 for the Public Employees' Pension Reform Act of 2013 plan ("PEPRA") members with statutorily reduced benefits. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the plan are applied as specified by the Public Employees' Retirement Law, California Government Code Sections 20000-21703.

The CalPERS Plan's provisions and benefits in effect at June 30, 2018, are summarized as follows:

	<u>Classic Rate Plan</u>	<u>PEPRA Rate Plan</u>
Hire date	Prior to January 1, 2013	On or after January 1, 2013
Benefit formula	2% @ 55	2% @ 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	50-63	52-67
Monthly benefits, as a % of eligible compensation	1.426% to 2.418%	1.0% to 2.5%
Required employee contribution rates	7.00%	6.25%
Required employer contribution rates	8.418% + \$118,978 for unfunded liability	6.533%

As of June 30, 2018, there were three current San José City Council members enrolled in the Classic rate plan and five current members in PEPRA rate plan.

Contributions. Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by public employees during the year, with an additional amount to finance any unfunded accrued liability.

For the year ended June 30, 2018, the amount contributed to the CalPERS plan was as follows (dollars in thousands):

	Classic Rate Plan	PEPRA Rate Plan	Total
Contributions - employer	\$ 152	\$ 32	\$ 184
Contributions - employee	23	30	53
Total	<u>\$ 175</u>	<u>\$ 62</u>	<u>\$ 237</u>

Pension Liabilities, Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

Information in this section is derived from the GASB Statement No. 68 Accounting Valuation Report for the miscellaneous risk pool at the measurement date of June 30, 2017 prepared by CalPERS. As of June 30, 2018, the City reported a net pension liability of \$1,418,000 for its proportionate share of the net pension liability of the Plan. The proportion was determined based on the City's shares of actuarial accrued liability and market value of assets as of June 30, 2016.

The City's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2017, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation

City of San José
Notes to Basic Financial Statements
June 30, 2018

as of June 30, 2016 rolled forward to June 30, 2017 using standard update procedures by CalPERS' actuary. The City's proportion of the net pension liability was actuarially determined at the valuation date. The City's proportionate share and proportionate percentage of the net pension liability as of June 30, 2016 and 2017 was as follows (dollars in thousands):

	Plan	
Proportion - June 30, 2016	\$ 1,262	0.03634%
Proportion - June 30, 2017	1,419	0.03597%
Change - Increase (Decrease)	\$ 157	(0.00037%)

For the year ended June 30, 2018, the City recognized pension expense of \$196,000. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 184	\$ -
Differences between actual and expected experience	2	(27)
Changes in assumptions	234	(17)
Change in employer's proportion and differences between the employer's contributions and the employer's proportionate share of contributions	-	(111)
Net differences between projected and actual earnings on plan investments	102	-
Total	\$ 522	\$ (155)

\$184,000 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows (in thousands):

Amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense as follows:

Measurement year ended June 30:

2019 \$	1
2020	118
2021	95
2022	(31)
\$	183

Actuarial Assumptions – The total pension liability in the June 30, 2016 actuarial valuation was determined for the Plan using the following actuarial assumptions:

Information in this section is derived from the GASB 68 Accounting Valuation Report for miscellaneous risk pool at the measurement date of June 30, 2017 prepared by CalPERS.

City of San José
Notes to Basic Financial Statements
June 30, 2018

	Plan
Valuation Date	June 30, 2016
Measurement Date	June 30, 2017
Actuarial Cost Method	Entry-Age Normal Method
Actuarial Assumptions	
Discount Rate	7.15%
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table (1)	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power Applies, 2.75% thereafter

(1) The mortality table used was developed based on CalPERS-specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the April 2014 CalPERS Experience Study and Review of Actuarial Assumptions report (based on CalPERS demographic data from 1997 to 2011) available online at <https://www.calpers.ca.gov/docs/forms-publications/calpers-experience-study-2014.pdf>

Other significant actuarial assumptions used in the June 30, 2016, valuation were based on the results of the actuarial experience study for the period from 1997 to 2011.

Change of Assumption – In FY 2017, the financial reporting discount rate for the Plan was lowered from 7.65 percent to 7.15 percent. Deferred outflows of resources for changes of assumptions presented in the Schedule of Collective Pension Amounts represent the unamortized portion of this assumption change.

Discount Rate – The discount rate used to measure the total pension liability was 7.15 percent and reflects the long-term expected rate of return for the Plan net of investment expenses and without reduction for administrative expenses. To determine whether the municipal bond rate should be used in the calculation of the discount rate for public agency plans, the amortization and smoothing periods recently adopted by the CalPERS Board in 2013 were used. For the Plan, the crossover test was performed for a miscellaneous agent rate plan and a safety agent rate plan selected as being more at risk of failing the crossover test and resulting in a discount rate that would be different from the long-term expected rate of return on pension investments. Based on the testing of the plans, the tests revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The crossover test results can be found on CalPERS' website at <https://www.calpers.ca.gov/page/employers/actuarial-services/gasb>

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return

City of San José
Notes to Basic Financial Statements
June 30, 2018

was then set to equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	Current Target Allocation	Real Return Years 1 - 10(1)	Real Return Years 11+(2)
Global Equity	47%	4.90%	5.38%
Global Debt Securities	19%	0.80%	2.27%
Inflation Sensitive	6%	0.60%	1.39%
Private Equity	12%	6.60%	6.63%
Real Estate	11%	2.80%	5.21%
Infrastructure and Forestland	3%	3.90%	5.36%
Liquidity	2%	-0.40%	-0.90%
Total	100%		

(a) An expected inflation of 2.5% used for this period.

(b) An expected inflation of 3.0% used for this period.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the City’s proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate (in thousands):

<u>Sensitivity Analysis</u>	1% Decrease (6.15%)	Measurement Date Discount Rate (7.15%)	1% Increase (8.15%)
Net pension liability	\$ 2,210	\$ 1,418	\$ 762

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued CalPERS financial reports. Reports can be found on CalPERS’ website at <http://www.calpers.ca.gov/page/home>.

A. 3. Defined Contribution Retirement Plan

In December 2012, the City adopted Ordinance No. 29184 amending Title 3 of the San José Municipal Code to amend various Sections of Chapter 3.28 and to add a new Chapter 3.49 for the purpose of establishing an option between the Tier 2 defined benefit plan and a defined contribution 401(a) plan that excludes participation in retiree healthcare, for Unclassified Executive Management and Professional Employees (Unit 99) who are hired on or after January 20, 2013. An employee is eligible to participate in the 401(a) plan if the employee is hired directly into Unit 99 on or after January 20, 2013 and must not have previously been a member of either of the City’s defined benefit plans. An eligible employee must sign an irrevocable election form on his or her first day of employment with the City electing to participate in the 401(a) plan. If no irrevocable election form is signed, the employee will be automatically placed into the Tier 2 defined benefit plan.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Both eligible employees and the City are required to contribute 3.75% of participants' annual compensation. The City's contributions for each employee (and interest allocated to the employee's account) are fully vested upon the employee entering the 401(a) plan. The City contracts with an advisor to manage the 401(a) plan with all assets being held in trust by a third party custodian in the name of each of the Plan's participants. Each of the 401(a) plan's participants directs the investments of their separate account. The City must authorize changes to the 401(a) plan.

There were 94 participants in the 401(a) plan as of June 30, 2018. In FY 2018, the City and the participating employees contributed \$139,000 to the 401(a) plan. As of June 30, 2018, the balance of the 401(a) plan was \$1,247,000.

A. 4. Postemployment Benefit Plans Other than Pension Plans

1. General Information about the Postemployment Healthcare Plans

In addition to the Defined Benefit Pension Plans, the City also sponsors and administers two single employer defined benefit postemployment healthcare plans, the Police and Fire Department Postemployment Healthcare Plans (PFDRP), which includes a Postemployment Healthcare 401(h) Plan, the Police Department Postemployment Healthcare Plan (Section 115 Trust) and the Fire Department Postemployment Healthcare Plan (Section 115 Trust) and the Federated City Employees' Postemployment Healthcare Plan (FCERS), which includes 401(h) Plan and a Section 115 Trust, together the Postemployment Healthcare Plans. These Postemployment Healthcare Plans cover eligible full-time and certain part-time employees of the City, and are accounted in the Pension Trust Funds.

Generally, the defined benefit Postemployment Healthcare Plans provide medical and dental benefits to eligible retirees and their beneficiaries. Benefits are 100% of the premium cost for the lowest priced medical insurance plan available to an active City employee, and 100% of the premium cost for a dental insurance plan available to an active City employee.

Per the terms of the Frameworks discussed in Note IV A.1, the City established two separate Voluntary Employee Beneficiary Associations (VEBA) for retiree healthcare for the members of the PFDRP and FCERS in fiscal year 2017-2018. The City does not make contributions into the VEBAs and the VEBAs are not subject to the jurisdiction of the Retirement Boards.

In November 2017, the Internal Revenue Service and City entered into a Closing Agreement whereby Tier 1 members of both PFDRP and FCERS and some Tier 2 members of FCERS were eligible for an irrevocable opt-out of the applicable Postemployment Healthcare Plan into a VEBA. The transfer of their retiree healthcare contributions (medical and dental) from the applicable Postemployment Healthcare Plan to their individual VEBA accounts remained subject to Internal Revenue Service approval. The VEBA opt-in election period was October 18, 2017 through December 15, 2017. In February 2018, the Internal Revenue Service issued favorable private letter rulings with respect to the transfer of retiree healthcare contributions from both the PFDRP and FCERS Postemployment Healthcare Plans for those employees opting into a VEBA and in March 2018, the retiree healthcare contributions of members who opted in to a VEBA were transferred from the applicable Postemployment Healthcare Plan into their individual VEBA accounts. The Internal Revenue Service also approved allowing eligible employees who are rehired by the City during calendar years 2018 through 2022 to opt into the applicable VEBA and transfer the retiree healthcare contributions from the applicable Postemployment Healthcare Plan to their individual VEBA accounts.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The amounts transferred from the Postemployment Healthcare Plans to the individual VEBA accounts at June 30, 2018 are as follows (dollars in thousands):

PFDRP	\$	7,897
FCERS		13,497
Total VEBA transfer	<u>\$</u>	<u>21,394</u>

The current membership in the Postemployment Healthcare Plans as of June 30, 2018, is as follows:

PFDRP	Retirees and Beneficiaries ⁽¹⁾		Terminated Vested Members not yet Receiving Benefits		Active Members		Totals
	Tier 1 ⁽²⁾	VEBA ⁽³⁾	Tier 1	VEBA ⁽³⁾	Tier 1	VEBA ⁽³⁾	
Police	1,272	-	16	-	684	291	2,263
Fire	830	-	-	-	534	130	1,494
Total	<u>2,102</u>	<u>-</u>	<u>16</u>	<u>-</u>	<u>1,218</u>	<u>421</u>	<u>3,757</u>

(1) The combined domestic relations orders are not included in the count above as their benefit payment is included in the retiree member count.

(2) Payees that have health and/or dental coverage.

(3) Eligible for catastrophic disability benefits only

FCERS	Tier 1 ⁽¹⁾	Tier 2A ⁽¹⁾	Totals
Retirees and beneficiaries currently receiving benefits ⁽²⁾	3,627	-	3,627
Terminated vested members not yet receiving benefits	164	-	164
Active members	<u>1,662</u>	<u>89</u>	<u>1,751</u>
Total	<u>5,453</u>	<u>89</u>	<u>5,542</u>

(1) Eligible for full retiree medical benefits.

(2) Payees that have health and/or dental coverage.

The separately issued annual reports of PFDRP and FCERS, together with the City's Municipal Code, provide more detailed information about the Postemployment Healthcare Plans. As stated in Section IV.A.1 of this note, those reports may be obtained from the City of San Jose Office of Retirement Services.

2. Contributions

Contribution amounts to the Postemployment Healthcare Plans for both the City and the participating members are based upon agreements between the City and the bargaining units. With the implementation of Measure F, Actuarially Determined Contributions ("ADC") will be calculated beginning with the fiscal year ending June 30, 2019. The Retirement Systems transitioned to annual valuations beginning June 30, 2010, from biennial actuarial valuations.

On June 24, 2008, the City Council adopted Ordinance No. 28332 amending Title 3 of the San Jose Municipal Code to provide the City with the option to make lump sum prepayments of City required contributions for postemployment healthcare benefits to PFDRP and FCERS.

Subsequently, in October 2014, the Boards of Administration for PFDRP and FCERS approved implementing an incremental reduction approach to determining the "actuarial equivalence" for the City's prefunding of its contribution when the economic expansion has exceeded 58 months in

City of San José
Notes to Basic Financial Statements
June 30, 2018

duration and/or the S&P 500 has returns in excess of 130%. This approach was undertaken to ensure that as business expansions and/or market valuations mature and exceed historic norms, the Retirement Systems reduce the City's incentive to prefund its contributions when market valuations and/or economic expansions are beyond historic norms. The incremental reduction to be applied to the discount rate to the City's prefunding of its contribution is 15% per year, up to a maximum of 45%, which was the reduction to the discount rate that was applied to calculate the actuarially determined prepayment amount for the Tier 1 members to be paid by the City at the beginning of the fiscal year ended June 30, 2018.

In FY 2011, the Retirement Systems' Boards approved the establishment of a "floor funding method", commencing with fiscal year 2011-2012, setting the City's funding policy contribution amount to be the greater of the dollar amount reported in the actuarial valuation or the dollar amount determined by applying the percentage of payroll reported in the valuation to the actual payroll, if actual payroll exceeds the actuarial payroll, for the fiscal year. The "floor funding method" applies to both PFDRP and FCERS except PFDRP Police Tier 2 and Fire Tier 2 or FCERS Tier 2, Tier 2B, and Tier 2C members.

Funding Policy for PFDRP

The City and the unions representing employees in the PFDRP had negotiated a phase in of contribution rates to the full Annual Required Contribution as defined under GASB 45, up to the caps shown below.

Effective June 28, 2009, the Police members of the PFDRP entered into an agreement with the City to increase the contribution rates for retiree health and dental in order to phase-in to full funding of the ARC over the five-year period ending at the end of FY 2014.

Effective June 26, 2011, the Fire members entered into an agreement with the City to phase-in to fully contribute the ARC over a five-year period that expired at the conclusion of FY 2016.

In both agreements, the City and members of the PFDRP agreed that the member and City cash contribution rate shall not have an incremental increase of more than 1.25% and 1.35%, of pensionable pay in each year for the members and City, respectively.

On February 24, 2015, the City and the Police bargaining unit agreed to roll back the Police employee contributions rates from a total of 10.0% to 9.51% and the employer contribution rates from a total of 11.0% to 10.31%, effective March 15, 2015, and through FY 2017. These were the rates in effect for the year ended June 30, 2014, which shall remain frozen until implementation of the terms of the Public Safety Framework.

For the Fire members, the contribution rates for the year ended June 30, 2016, the last year of the phase in, were to remain frozen until implementation of the terms of the Public Safety Framework.

As noted elsewhere, on August 25, 2015, the City Council approved the terms of the Public Safety Framework, which included closing the defined benefit retiree healthcare benefit to new employees, agreement on a new lowest cost medical plan associated with retiree healthcare, and an agreement that a ballot measure would be placed on the November 8, 2016, ballot.

The Public Safety Framework allowed Tier 1 members in the PFDRP a one-time irrevocable election to remain in the defined benefit Postemployment Healthcare Plan or opt in to the defined contribution Voluntary Employee Beneficiary Association (VEBA). Under the terms of the Public Safety Framework, the Tier 1 members in PFDRP who opted to remain in the defined benefit Postemployment Healthcare Plan will contribute eight percent (8%) of pay and the City will continue

City of San José
Notes to Basic Financial Statements
June 30, 2018

to pay the phased-in contribution rate until the beginning of FY2019, subject to a cap of eleven percent (11%) of payroll of all active members of PFDRP.

On November 8, 2016, the Alternative Pension Reform Act, or Measure F, was passed. Measure F significantly changed the benefits and contribution agreement between the City and its employees, including amending the City Charter to prohibit enhancements to defined retirement benefits without voter approval and closing the defined benefit retiree healthcare plan to new employees.

Effective March 25, 2018, pursuant to the Public Safety Framework, the Tier 1 members in the PFDRP who opted to remain in the defined benefit Postemployment Healthcare Plan began to contribute eight percent (8.0%) of pay while the City continued to pay the phased-in contribution rate until the beginning of FY 2019; at that time, City will pay a contribution determined by the Board, subject to a cap of 11% of payroll of all active members of PFDRP.

The contribution rates in effect in fiscal year 2017-2018 are shown below:

PFDRP	City - Board Adopted		Member			
	Police	Fire	Police	Police	Fire	Fire
	Tier 1 / Tier 2	Tier 1 / Tier 2	Tier 1	Tier 2	Tier 1	Tier 2
Actuarial Rate:						
Postemployment Healthcare Plan:						
03/25/2018 - 06/30/2018	10.31%	10.62%	8.00%	-	8.00%	-
07/30/2017 - 03/24/2018	10.31%	10.62%	9.51%	-	9.74%	-
07/01/2017 - 07/29/2017	10.31%	10.62%	9.51%	9.51%	9.74%	9.74%

Funding Policy for FCERS

The City and unions had negotiated a phase in of contribution rates to the full Annual Required Contribution as defined under GASB 45. However, as the rates became higher, the bargaining parties agreed to freeze the rates at the level shown below.

Effective June 28, 2009, the bargaining units representing the FCERS members entered into agreements (“Retiree Healthcare Agreements”) with the City to increase contribution rates for retiree health and dental benefits in order to phase-in full funding of the GASB Statement No. 45 annual required contributions (“ARC”) over a five-year period ending in FY 2013. The Retiree Healthcare Agreements also provide that the five-year phase-in of the ARC will not have an incremental increase of more than 0.75% of pensionable pay in each fiscal year for the employee or City contributions. Notwithstanding these limitations on incremental increases, the Retiree Healthcare Agreements further provided that, by the end of the five-year phase-in, the City and the employees shall be contributing the full ARC in the ratio currently provided in the relevant sections of the San José Municipal Code.

Effective June 18, 2013, the bargaining units representing the FCERS members entered into an amendment to the Retiree Healthcare Agreements that extended the incremental increase limitation of not more than 0.75% of pensionable pay for the fiscal year ended June 30, 2014. The 0.75% limitation was initially extended to December 20, 2014, and then to December 2015. In December 2015, the FCERS Board approved extension of the FY 2015 healthcare rates until the implementation of the Federated Framework. Pursuant to subsequent agreements with the Federated bargaining units, the City did not implement the full ARC rates and instead opted to extend the rates in effect for FY 2015 until the implementation of the Federated Framework. The FCERS Board approved the extension of the phase-in rates in March 2016.

City of San José
Notes to Basic Financial Statements
June 30, 2018

On August 27, 2013, San Jose City Council adopted Ordinance No. 29283 to exclude FCERS Tier 2 members hired on and after September 27, 2013, from retiree medical and dental benefits (referred to as Tier 2B members) but the City shall bear and pay an amount equal to the additional costs incurred by the FCERS for that portion of the unfunded liability as determined by the actuary for the FCERS that the City and Tier 2B members would have otherwise paid as contributions had those employees been eligible for the retiree healthcare defined benefit.

On December 15, 2015 and January 12, 2016, the City and the bargaining units representing employees in FCERS reached a settlement agreement on the Federated Alternative Pension Reform Settlement Framework (Federated Framework). The terms of the Federated Framework also applied to unrepresented employees, including unrepresented management and executive employees in Unit 99. The Federated Framework included, an agreement on a new lowest cost medical plan associated with retiree healthcare, and an agreement that a ballot measure would be placed on the November 8, 2016, ballot. The defined benefit retiree healthcare plan was already closed to new Federated employees based on the action taken by City Council in 2013.

The Federated Framework allowed Tier 1 and Tier 2 members in FCERS a one-time irrevocable election to remain in the defined benefit Postemployment Healthcare Plan or opt in to the defined contribution VEBA. Under the terms of the Federated Framework, the Tier 1 and Tier 2 members in FCERS who opted to remain in the defined benefit Postemployment Healthcare Plan will contribute seven and one-half percent (7.5%) of pay and the City will continue to pay the phased-in contribution rate until the beginning of FY 2019, subject to a cap of fourteen percent (14%) of payroll of all active members of FCERS.

On November 8, 2016, the Alternative Pension Reform Act, or Measure F, was passed. Measure F significantly changed the benefits and contribution agreement between the City and its employees, including amending the City Charter to prohibit enhancements to defined retirement benefits without voter approval and closing the defined benefit retiree healthcare plan to new employees. Effective March 25, 2018, and under the terms of the Federated Framework, the Tier 1 and Tier 2 members in FCERS who opted to remain in the defined benefit Postemployment Healthcare Plan began to contribute seven and one-half percent (7.5%) of pay, and the City continued to pay the phased-in contribution rate until the beginning of FY 2019. At that time, the City will pay a contribution determined by the Federated Board, subject to a cap of fourteen (14%) of payroll of all active members of FCERS.

The contribution rates in effect in FY 2018 are shown below:

	Tier 1 and Tier 2	Tier 1B	Tier 2B	Tier 1C	Tier 1 and Tier 2	Tier 1B	Tier 1C
Actuarial Rate:							
Postemployment Healthcare Plan:							
03/25/2018 - 06/30/2018	9.41%	8.91%	12.66%	12.86%	7.50%	7.50%	N/A
07/01/2017 - 03/24/2018	9.41%	8.91%	12.66%	12.86%	8.76%	N/A	0.39%

** Rates of Pre-Retirement Turnover. Sample rates of termination are shown in the following table.

Service	Rate of Termination	
	Police	Fire
0	16.00%	25.00%
1	11.75	7.00
2	9.85	3.50
3	8.35	1.75
4	7.00	1.25
5	5.75	1.00
6	4.75	0.90
7	4.00	0.80
8	3.50	0.70
9	3.50	0.60
10	3.50	0.50
11	3.50	0.50
12	3.00	0.50
13	2.50	0.50
14	2.00	0.50
15+	2.00	0.50

Termination rates do not apply once a member is eligible for unreduced retirement.

The assumption for the long-term expected rate of return on OPEB plan investments of 6.875% for the valuation year ended June 30, 2016 was selected by estimating the median nominal rate of return based on long-term capital market assumptions adopted by the Boards, including nominal expected rates of return for each asset class, and reducing the estimated median by a margin so that there is estimated to be a greater than 50 percent probability of achieving the return.

Best estimates of geometric real rates of return for each major asset class included in the PFDRP's target asset allocation as of valuation date as June 30, 2016, are summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	43.0%	5.3%
Fixed income	15.0%	1.0%
Real assets	22.0%	2.8%
GTAA/Opportunistic	20.0%	2.1%
Cash	-	0.2%

The assumption for the long-term expected rate of return on pension plan investments of 6.875% for the valuation year ended June 30, 2016, was selected by estimating the median nominal rate of return based on long-term capital market assumptions adopted by the FCERS Board, including nominal expected rates of return for each asset class, and reducing the estimated median by a margin so that there is estimated to be a greater than 50 percent probability of achieving the return.

Best estimates of geometric real rates of return for each major asset class included in FCERS's target asset allocation as of valuation date as June 30, 2016, (see the discussion of the FCERS's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	46.0%	5.3%
Fixed income	30.0%	0.8%
Real assets	23.0%	3.4%
Cash	-	0.2%

Discount Rate for PFDRP and FCERS

The discount rate used to measure the total OPEB liability was 6.875% for the measurement year ending June 30, 2017 and is based on the long-term expected rate of return on investments. It is assumed that PFDRP/FCERS member contributions and City contributions will continue at the current contribution rates and that the City will contribute the implicit subsidy. Based on those assumptions, the PFDRP's and FCERS's fiduciary net positions are expected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 6.875% on OPEB plan investments for PFDRP and FCERS was applied to all periods of projected benefit payments to determine the total OPEB liability.

OPEB Fiduciary Net Position

The City issues the publicly available financial reports that may be obtained from the Office of Retirement Services, 1737 North First Street, Suite 600, San Jose, CA 95112-4505.

Recognition of Deferred Outflows and Deferred Inflows of Resources for PFDRP and FCERS

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time.

One fifth of the net earnings is recognized in the first year when the gain or loss occurred. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on OPEB plan investments	5 Years
All other amounts	Expected average remaining service lifetime (EARSL) (6.0 Years at June 30, 2017)

PFDRP

For the year ended June 30, 2018, the City recognized OPEB expense of \$9,918,000. As of June 30, 2018, the City reported deferred outflows and inflows of resources related to OPEB from the following sources (dollar amounts in thousands):

PFDRP	Deferred Outflows of Resources	Deferred Inflows of Resources
OPEB contributions subsequent to measurement date	\$ 25,382	\$ -
Net difference between projected and actual earnings on OPEB plan investments	-	2,802
Total	\$ 25,382	\$ 2,802

The \$25,382,000 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2017 measurement date will be recognized as a reduction of the net OPEB liability during the year ending June 30, 2019.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The City's contribution for the Postemployment Healthcare Plan during the year ended June 30, 2018 was as follows (dollar amounts in thousands). The Tier 1 contribution amount was calculated using the Board's approved funding policy (referred as the "floor methodology" in Note IV. A.4.2).

Fiscal year	2018				
Actuarial valuation year	2016				
	Police Tier 1	Fire Tier 1	Police Tier 2	Fire Tier 2	Total
Actual payroll	\$ 100,590	\$ 73,092	\$ 19,736	\$ 7,533	\$ 200,951
Actuarial payroll	91,421	75,647	-	-	167,068
Actual payroll in excess of actuarial payroll	9,169	-	-	-	9,169
Normal cost rate for healthcare portion of total City rate	4.09%	-	-	-	-
Additional contributions due to the Floor Methodology	375	-	-	-	375
Prefunded contribution amount (BOY)	9,252	7,886	-	-	17,138
Regular contributions paid throughout the year	-	-	2,004	804	2,808
Implicit Subsidy	3,699	2,017	-	-	5,716
Adjustments and accruals	(412)	(307)	46	18	(655)
Total Contributions for the fiscal year	\$ 12,914	\$ 9,596	\$ 2,050	\$ 822	\$ 25,382

Other amounts reported as deferred outflows/(inflows) of resources related to OPEB will be recognized as expense as follows (dollar amounts in thousands):

Year Ending June 30:	Deferred Inflows of Resources
2019	\$ (700)
2020	(700)
2021	(700)
2022	(702)
	<u>\$ (2,802)</u>

FCERS

For the fiscal year ended June 30, 2018, the City recognized a negative OPEB expense of \$4,199,000. As of year ended June 30, 2018, the City reported deferred outflows of resources related to OPEB from the following sources (dollar amounts in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
OPEB contributions subsequent to measurement date	\$ 32,397	\$ -
Net difference between projected and actual earnings on OPEB plan investments	-	738
Total	<u>\$ 32,397</u>	<u>\$ 738</u>

The \$32,397,000 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2017 measurement date will be recognized as a reduction of the net OPEB liability during the year ending June 30, 2019.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The City's contributions for the Postemployment Healthcare Plan during the year ended June 30, 2018 was as follows (dollar amounts in thousands). The Tier 1 contribution amount was calculated using the Board's approved funding policy (referred as the "floor methodology" in Note IV. A.4.2).

Fiscal year	2018

June 30, 2018

B. Commitments and Contingencies

1. Norman Y. Mineta San José International Airport

Purchase Commitments. As of June 30, 2018, the Airport was obligated for purchase commitments of approximately \$22,900,000 primarily for the zero emission buses, Terminal B expansion ramp, perimeter security technology infrastructure, and various operating and maintenance agreements. The Airport has projected that it will expend or encumber approximately \$263,100,000 on capital projects during the next five fiscal years. It is anticipated that funding for such capital projects will be provided primarily by proceeds from federal grants, commercial paper proceeds, and other Airport revenues.

Master Plan. In 1997, after extensive planning and environmental studies and reports, the City Council approved the new Master Plan. In a Record of Decision issued on December 6, 1999, the FAA conditionally approved a new Airport Layout Plan (“ALP”) for the Airport displaying the Master Plan projects and unconditionally approved all of the near-term projects. Both the Master Plan and the ALP have been amended several times since 1997 and currently are intended to provide facility improvements needed to accommodate forecast demand in the year 2027 for commercial passenger service, air cargo, and general aviation. Implementation of the Master Plan has been ongoing, collectively comprising improvements to the Airport’s terminal facilities, roadways, parking facilities, and airfield facilities, and includes 1.075 million square feet of passenger terminal facilities comprised of up to 49 gates; parking and garage facilities comprised of up to 16,200 public parking spaces, 2,600 employee parking spaces, and 10,000 rental-car parking spaces (including 2,000 ready-return spaces); air cargo facilities; ground transportation, roadway, and other access improvements; and airfield improvements. In the fall of 2005, and in recognition of how current market conditions were impacting passenger growth, the Airport and its airline tenants reexamined the Master Plan and developed the Terminal Area Improvement Program (“TAIP”), a program for implementing the Master Plan by aligning ongoing and planned construction activities with available fiscal resources, taking into account revised passenger growth projections. In June 2006, the City Council approved an amendment to the Master Plan to incorporate the TAIP and other Airport Development Program (“ADP”) revisions. Funding for Master Plan projects is from several sources, including grants, PFC, airline rates and charges, airport revenue bonds, and subordinated commercial paper proceeds.

In June 2010, the City Council approved the most recent amendment to the Master Plan that updated projected aviation demand and facility requirements. This amendment to the Master Plan modified specific components of the ADP. Pursuant to the amended Master Plan, the former interim long-term public parking and employee parking lots on the northwest side of the Airport (which have been relocated to the east side terminal area) are designated for development of facilities to accommodate projected growth in general aviation demand. The 29-acre Signature fixed based operations facility is located in this portion of the Airport, and an additional 15 acres north of the FAA air traffic control tower remains available for future general aviation development opportunities.

FAA Audit of Use of Revenue. Federal law requires all airport owners that receive federal assistance, such as the City, to use airport revenues for the capital or operating costs of the Airport. As a general rule, any use of airport revenues by an airport owner for costs that cannot properly be considered airport capital or operating costs is deemed to be improper revenue diversion. On June 2, 2010, auditors from the FAA provided the City with a draft of its audit findings alleging improper use of Airport revenues by the City in three areas of expenditure. On August 14, 2015, as the result of discussions and correspondence with City staff, the FAA notified the City that it has closed two of the three audit issues. The remaining audit issue is described below.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Cost Allocations - The City uses both direct and indirect methodologies to allocate costs to the Airport. The FAA auditors found the direct cost allocations to be acceptable. The FAA contends that the City's indirect methodology does not correlate to the cost of services actually provided by the City to the Airport. Consequently, the auditors have recommended that the City re-allocate its costs charged to the Airport for fiscal years 2005 through 2010 using an allocation methodology that reflects services actually provided to the Airport and repay any overcharges to the Airport, with interest. The City believes the allocation methodology used to allocate costs to the Airport is in compliance with federal cost allocation guidance. In an effort to resolve the issue, the City proposed and implemented a cap on the indirect cost allocations for certain City departments at 10%, which was the approximate rate charged to the Airport in pre-capital intensive years. This resulted in a total credit of \$5,600,000 that would be applied equally to the Airport cost allocation plan over a seven year period beginning in FY 2013 and ending in FY 2019. The City also has adjusted its indirect cost allocation methodology in an effort to address FAA concerns, including removal of debt expenditures from the relative expenditures base started in FY 2016, continuing with the 10% cap, and monitoring a rolling five-year average of the relative expenditure base to smooth out expenditure fluctuations.

On August 14, 2015, the FAA accepted the corrective actions that the City has already taken, however, the FAA, disagrees with the City's inclusion of capital expenditures in the allocation of indirect costs. The City will continue discussions with the FAA, but cannot predict the final outcome of the audit.

On May 3, 2018, the City received a letter from the FAA in which the FAA requested a copy of the City's FY 2017 indirect cost allocation plan to substantiate indirect charges to the Airport in order to finalize the FAA's financial compliance review. The City responded to the FAA on July 20, 2018 with copies of the requested information and clarified actions taken by the City to date to implement the FAA's recommendations. The City will continue discussions with the FAA, but cannot predict the final outcome of the audit.

Potential Claim from FAA Regarding Reuse of Guadalupe Gardens - In early 2002, the City Council approved a Master Plan for Guadalupe Gardens, consisting of approximately 120 acres of mostly vacant, City-owned property located south of the Airport, much of which falls within an FAA-established safety zone. The City acquired the Guadalupe Gardens properties using FAA grants for airport approach protection and noise compatibility, and the FAA grant agreements consequently required FAA approval of any planned City-use of the properties acquired with grant proceeds. By letter dated August 9, 2002, addressed to the City's Director of Aviation, the FAA San Francisco Airport District Office ("ADO") approved the City's Master Plan for reuse of Guadalupe Gardens for runway and approach protection, and the City finalized the Master Plan in reliance upon the FAA approval.

During discussions regarding proposals to develop certain portions of the Guadalupe Gardens, the FAA has taken the position that the City must dispose of any portion of the Guadalupe Gardens that is no longer needed for noise compatibility purposes. Citing provisions of federal law that require recipients of FAA grants for acquisition of land for noise compatibility purposes to dispose of any such acquired land when no longer needed by the airport owner for noise compatibility purposes, the FAA contends that the FAA ADO erred in its 2002 approval of the Guadalupe Gardens Master Plan and that the City is obligated to prepare an inventory of the Guadalupe Gardens to identify those parcels that were acquired by the City with noise compatibility grant proceeds. This inventory would then be used to prepare for FAA review and approval of a disposition plan for those parcels no longer needed by the City for noise compatibility. Proceeds of the sale of the parcels proportionate to the FAA grant share of the original purchase price would be required to be used for other approved noise compatibility projects at the Airport or returned to the FAA.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The City believes that it has viable defenses to any potential claim by the FAA with regard to Guadalupe Gardens. The FAA ADO's 2002 approval of the Guadalupe Gardens Master Plan constituted an official FAA approval of the City's reuse of the parcels acquired with proceeds from FAA noise compatibility grants, and the approval expressly provides that the entire Guadalupe Gardens is necessary for the continuing aeronautical purpose of runway and approach protection. Having received official FAA approval of its reuse of the parcels, the City believes it is under no obligation to take any further action to secure further FAA approval of its continuing use of the Guadalupe Gardens. However, the City cannot predict the final outcome of any such potential claim by the FAA.

2. San José – Santa Clara Regional Wastewater Facility

Plant Master Plan. In November 2013, the City Council approved the Plant Master Plan ("PMP"), a 30-year planning-level document focused on long-term rehabilitation and modernization of the Plant. The PMP recommends more than 114 capital improvement projects to be implemented over a 30-year planning period at an estimated investment level of approximately \$2 billion. On September 24, 2013, the City Council approved a consultant agreement with MWH Americas, Inc. to assist and support the City in developing and implementing this Capital Improvement Program ("CIP"). On June 2, 2015, a funding strategy was recommended to and approved by the City Council. An update to the strategy was approved by the City Council on January 12, 2016. For the next five years, the City's portion of the funding for the San Jose-Santa Clara Regional Wastewater Facility ("Plant") Adopted CIP is programmed into the City's 2019-2023 CIP budget. The City's 2018-2019 approved operating budget includes a 3% increase in the Sewer Service and Use Charge rate for FY2019.

Revenues for the 2019-2023 Adopted CIP are derived from several sources: utilization of available resources in the City of San José Sewer Service and Use Charge sub-fund and Sewage Treatment Plant Connection Fee sub-fund; contributions from the City of Santa Clara and other tributary agencies for the treatment of sewage from their respective jurisdictions by the Plant; interest earnings; Calpine Metcalf Energy Center Facilities repayments; federal grants from the U.S. Bureau of Reclamation; and bond and commercial paper proceeds.

Pursuant to an agreement executed between San José and Santa Clara in 1959 (the "1959 Agreement"), San José is co-owner and administering agency of the Plant. The Plant also provides wastewater treatment services to other neighboring agencies through five outside user agreements ("Master Agreements") with City of Milpitas, West Valley Sanitation District, Cupertino Sanitary District, Burbank Sanitary District, and CSD 2-3 (the "Tributary Agencies"). Contributions from the City of Santa Clara and the Tributary Agencies are made pursuant to agreements with each agency based on the anticipated operation and maintenance, and capital budget. The Tributary Agencies' proportional contribution for the operation and maintenance cost is based on the amount and characteristics of the sewage discharged into the Plant. Each Tributary Agency's capital contribution is based on each agency's reserved capacity in the Plant. The balance of the Plant budget is shared between the cities of San José and Santa Clara based on the respective City's assessed property value relative to the total assessed property value in both jurisdictions. In the 2018-2022 Adopted CIP, contributions from the City of Santa Clara and other agencies are approximately \$317,300,000.

Currently, a short-term financing has been put into place (see Note III.F.10) and staff has developed a long-term bond financing plan for San José's share of the CIP's cost. The City plans to gradually build required operating reserves in anticipation of securing long-term bonds independently. The 2019-2023 Adopted CIP assumes the need to issue bonds in 2021-2022.

On January 22, 2016 and September 7, 2016, San José, as the administering agency, received claims from the Tributary Agencies alleging a breach of contract and inequity under the Master Agreements. The administrative claims primarily arise out of disagreements regarding the

City of San José
Notes to Basic Financial Statements
June 30, 2018

interpretation of how the capital cost to rehabilitate the Plant as generally described in the Plant Master Plan should be apportioned, and whether the Master Agreements must be amended to require the Tributary Agencies to pay for their respective portions of the capital cost.

The Master Agreements require that any allegation of breach of contract or inequity ("Claim") be filed with the legislative bodies of the agencies that committed the alleged breach, and with the Treatment Plant Advisory Committee ("TPAC"). TPAC is an advisory body, comprised of representatives of San José, Santa Clara and three of the Tributary Agencies that was established by the Master Agreements to provide policy and budget guidance to San José, as the Plant's administering agency.

The Master Agreements specify the procedures for consideration of the Claims. TPAC is required to conduct a hearing regarding a claim within two (2) months. TPAC is then required to prepare a full report of its findings and recommendations to the San José and Santa Clara City Councils. The report is advisory. If any of the parties to the claim disagree with the report, the legislative bodies of the agencies that are parties to the claim are required to meet jointly within two (2) months of receiving the report. If the joint meeting fails to resolve the claim, the agency alleging the claim can file a lawsuit in court after giving the other party or parties to the claim three (3) months to cure the breach or alleged breach.

TPAC conducted a hearing on March 24, 2016, and issued its report on June 9, 2016 to deny the January 22, 2016 Claim. The Tributary Agencies disagreed with the report, and requested a joint meeting of the legislative agencies of the City, Santa Clara and all the Tributary Agencies. San José, Santa Clara, and the Tributary Agencies agreed to mediate the Claims and potential amendments to the Master Agreements but were unable to reach a resolution. On May 19, 2017, TPAC conducted a hearing on the Tributary Agencies' September 7, 2016 Claim, and issued its report on September 14, 2017 to deny the September 7, 2016 Claim. On June 13, 2017, the City, Santa Clara and the Tributary Agencies agreed to waive the hearings before the joint legislative bodies for both Claims.

The Tributary Agencies filed a complaint against the City and Santa Clara on March 23, 2018, and served both cities on May 18, 2018. The allegations in the complaint are substantially similar to the claims raised and heard through the administrative hearing process. The Tributary Agencies allege the City breached their respective contracts, which set the terms for treating the Agencies' wastewater by, among other allegations, charging them for expenditures they allege the contracts do not authorize and concealing how the funds are used. They also allege the City breached the implied covenant of good faith and fair dealing and violated certain California Constitutional provisions limiting local agencies' imposition of property related fees, charges and taxes. The Tributary Agencies further allege their payments resulted in unjust enrichment to the City and Santa Clara, and that the court should provide declaratory relief in support of their allegations.

The City and Santa Clara filed a demurrer to the complaint on August 9, 2018. The most recent case management conference was on August 10, 2018. The hearing on the demurrer is scheduled for December 17, 2018. The Tributary Agencies have fully paid their portion of the capital cost for the projects to rehabilitate the Plant to date. The City cannot predict the outcome or the timeline for resolution of the complaint.

South Bay Water Recycling Program. The South Bay Water Recycling ("SBWR") project is a regional water reclamation program to recycle highly treated wastewater for irrigation and industrial uses in the cities of San José, Santa Clara, and Milpitas, California. This program is part of an action plan, developed by the City and other agencies tributary to the Plant and adopted by the Regional Water Quality Control Board ("RWQCB"), to control the amount of effluent discharged by the Plant into San Francisco Bay.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The SBWR distribution system includes approximately 60 miles of pipe, a four million-gallon reservoir, a transmission pump station, and two booster pump stations. These facilities were constructed between 1996 and 1998 at a capital cost of approximately \$140,000,000 funded by the tributary agencies, grants, and bond proceeds.

In June 1997, the RWQCB and the City approved the Proposed Revision to the South Bay Action Plan, which described the projects necessary to reduce average dry weather effluent flow from the Plant to below 120 million gallons per day and protect salt marsh habitat for endangered species in the South Bay as required by RWQCB Order 94-117. These projects include expanding the Phase I non-potable reuse system by extending additional piping, placing greater emphasis on water conservation programs, reducing infiltration inflow, augmenting stream flow, and creating wetlands. The estimated cost for implementing these projects was \$127,500,000. As of June 30, 2018, \$116,711,000 has been expended or encumbered on the expansion of Phase I of the SBWR. These costs were funded by the City, Santa Clara, and the tributary agencies using the Plant through a combination of State Revolving Fund Loans, Sewage Treatment Plant Connection Fees, federal grants, and cash contributions.

In FY 2016, the City and the Santa Clara Valley Water District (“SCVWD”) accepted a report that had been commissioned by both the City and the SCVWD related to SBWR, entitled: “South Bay Water Recycling Strategic and Master Planning (“Strategic Report”). The Strategic Report contemplates near term projects (fiscal years 2017 to 2021) at an estimated cost of \$49 million and long-term improvements and expansion of the existing system (fiscal years 2020 to 2035) at an estimated cost of \$243.2 million for long-term nonpotable reuse projects and an additional \$522 million for long-term potable use projects. No specific plan for the development or source of financing of the other near term improvements, nor the long-term improvements identified in the Strategic Report has been developed to date. Further, the responsibility for the development of the long-term improvements has not been established and may involve the formation of a separate entity responsible for the oversight and funding of these improvements.

Recycled Water Facilities and Programs Integration Agreement between the City of San José and the Santa Clara Valley Water District (“SCVWD”). The City and the SCVWD entered into an agreement on March 2, 2010 (“Integration Agreement”) to collaborate on design, construction and operation of an advanced treated recycled water facility and related facilities now called the Silicon Valley Water Treatment Facility (“SVWTF”). In 2003, the City and SCVWD began collaborating on design, construction and operation of an advanced treated recycled water facility and related facilities, to be located on lands owned by the Plant, in order to demonstrate the treatment capability of a local facility to produce highly purified water that could be blended with existing recycled water to expand irrigation and industrial uses. The City, as the administering agency for the Plant, and the SCVWD desired to financially support the production and use of recycled water in Santa Clara County consistent with each party’s separate and distinct interests: for wastewater treatment and disposal for the City, and water quality and supply for the SCVWD, as well as to coordinate and cooperate to achieve the most cost effective, environmentally beneficial utilization of recycled water to meet both agencies’ needs. The term of the Integration Agreement is from July 1, 2010 through June 30, 2050, and co-terminus with the Ground Lease and Property Use Agreement between the City and SCVWD for construction and operation of the SVWTF on Plant lands.

SCVWD and the City agreed to capital investment towards the construction of the SVWTF in the amount of \$70,000,000 and \$11,000,000, respectively, as of the date of the signed agreement on March 2, 2010. SCVWD determines the operational and maintenance budget for the SVWTF, and operates the facility. Separate formulas were established to determine each party’s respective share of the annual operation and maintenance cost for the SVWTF following the first full fiscal year the SVWTF becomes operational, which was FY 2015. The formula provides that for each fiscal year

City of San José
Notes to Basic Financial Statements
June 30, 2018

when the SBWR is operating at a net loss, the City would pay to the SCVWD an amount to support SCVWD's operational cost up to \$2,000,000. In the event that the SBWR operates at net revenue, the City would share its revenue with the District with the first 50% towards the District's costs and the second 50% divided between the two agencies based on their respective capital investment in the recycled water infrastructure. In 2010, the City's estimated investment in SBWR system and SVWTF was \$250,000,000; and the SCVWD's estimated investment in SVWTF is \$70,000,000.

Under the Integration Agreement, commencing in January 2016, the City and SCVWD are to provide the other agency with audited financial statements for the prior fiscal years for the operation of the SBWR and the SVWTF. Since the definition of net operating cost and revenue under the Integration Agreement excludes certain costs and revenues that might otherwise be considered in either party's overall budget, each party must prepare a separate statement following the publication of each party's annual audited financial statements, to establish each party's respective cost share for the operation of the SVWTF. The City and SCVWD have each provided the other with its audited financial statements for the operations of the SBWR and the SVWTF, respectively, for the FY 2016 and FY 2017 with no adjustment to share cost. In January 2019, the audit report for the third year of full operations or year ended June 30, 2018 will be completed and issued as per the terms of the Integration Agreement.

3. Bay Area Water Supply and Conservation Agency

The City belongs to the Bay Area Water Supply and Conservation Agency ("BAWSCA"), which represents the interests of 24 cities and water districts, and two private utilities that purchase water wholesale from the San Francisco regional water system. On January 31, 2013, BAWSCA issued bonds in the amount of \$335,800,000 to raise the funds necessary to prepay capital commitments owed to the City and County of San Francisco by BAWSCA member agencies thereby realizing a present value savings of approximately \$62,300,000 over all member agencies. For the City, this translates into an annual net savings of purchased water cost of approximately \$107,000.

Prior to the bond issuance, there were \$356,000,000 in capital cost recovery payments that were outstanding and being repaid as a part of San Francisco's wholesale commodity charge. The capital cost recovery payments were being repaid at a fixed interest rate of 5.13% and were part of the Wholesale Revenue Requirement to the Water Supply Agreement negotiated with San Francisco in 2009. The bonds refinanced this debt at an average interest rate of 3.14%.

The BAWSCA issued revenue bonds that are secured by a surcharge on BAWSCA member agencies. San Francisco will collect the surcharge and send the amount to BAWSCA for payment to bond holders. The surcharge will be in place for the term of the bonds, which ends in 2034. The surcharge is on the San Francisco wholesale water bill and is accounted for by the City as operational costs.

BAWSCA's annual debt service amount for FY 2018 is \$24,675,000. The City's annual bond surcharge for FY 2018 was estimated to be \$1,047,000 based the City's actual wholesale water use in the year ended June 30, 2016. The annual surcharge for each agency is based upon the actual wholesale water purchase percentage from the last full year for which date is available with an annual reconciliation based upon the actual water purchased. A true-up adjustment based on the actual year ended June 30, 2016 water use is included in the FY 2018 bond surcharge. The current best projection on the City's annual surcharge for the future is \$902,000.

4. New Market Tax Credit

In November 2011, the City participated in the federal New Markets Tax Credit program ("NMTC") to secure additional funds to finance the construction of the Environmental Innovation Center ("EIC") on City owned property. The NMTC program allocates community development entities ("CDEs") tax

City of San José
Notes to Basic Financial Statements
June 30, 2018

credits to be claimed by investors when the investment is made available for community development in the form of a loan. The following describes the City's participation in the financing transaction.

The City caused the formation of an independent nonprofit entity called the EIC QALICB, Inc. to be the recipient of the loan for the construction of the EIC. The City and EIC QALICB, Inc. entered into a ground lease of the EIC for a term of 99 years and the City then leased back the EIC from the EIC QALICB, Inc. for a term of 35 years, beginning November 8, 2011. JP Morgan Chase Bank, N.A. formed Chase Community Equity, LLP, to be a 99.9% member of the Chase NMTC SJEIC Investment Fund, LLC, and provided the Chase NMTC SJEIC Investment Fund, LLC with an initial investment of \$7,705,000. Chase NMTC SJEIC Investment Fund, LLC then borrowed \$19,610,000 from the City, and invested the total amount of \$26,699,000 in three CDEs. The CDEs loaned the EIC QALICB, Inc. \$25,945,000 to construct the EIC. In exchange for JP Morgan Chase Bank's participation in the NMTC transaction, JP Morgan Chase Bank can claim a tax credit of \$10,412,000 against federal income taxes over a seven year compliance period through November 2018.

The City's loan to Chase NMTC SJEIC Investment Fund, LLC (\$19,610,000) was comprised of a one-day loan (\$8,022,000) to the City, and funds originally set aside by the City for construction of the EIC (\$11,588,000). The City was able to repay the one-day loan once the EIC QALICB, Inc. paid the City for the ground lease (\$8,022,000). The EIC QALICB, Inc. paid for the ground lease from its loan proceeds (\$25,945,000). The remainder of the loan proceeds (\$16,078,000) paid for the construction of the EIC, and to fund reserves to pay the CDEs and JP Morgan Chase Bank for costs to comply with NMTC requirements during the seven year compliance period.

The EIC QALICB relies on the City's master lease rent to meet the loan repayments. The loan is secured by the EIC QALICB's ground lease. In the event of a loan default, the lenders may foreclose on the loan and assume the ground lease subject to the master lease with the City. Under the master lease, the City did not have an obligation to remit rent payments until it had beneficial use of the property. The master lease does not provide for an automatic extension of the lease term in the event that the City fails to make rent payments to the EIC QALICB. In order to be able to make the payments on the loan in the absence of rent payments from the City, the EIC QALICB had set aside sufficient funds in reserve to meet its loan repayment obligations during construction.

Pursuant to the New Markets Tax Credit financing, the EIC QALICB, Inc. agreed to indemnify the JP Morgan Chase Bank, and the CDEs against a recapture of the tax credits by the Internal Revenue Service in the amount of \$10,412,000 and for any other fees or penalties and costs that may be incurred. The events that would trigger a recapture of the tax credits are limited to: (1) the EIC QALICB, Inc. failing to qualify as an entity eligible for the NMTC program, (2) redemption by the City or JP Morgan Chase of any portion of its investment, (3) changes in the NMTC program resulting in less tax credits to JP Morgan Chase, (4) City engaging in prohibited use of the EIC, (5) failure to invest the funds in the construction of the project, and (6) any willful misconduct or gross negligence or fraud causing a recapture or disallowance. The risk of a tax credit recapture event is remote because the EIC QALICB, Inc. has used all the proceeds from the financing into the construction of the EIC, and all parties to the financing have a vested interest in meeting the NMTC program requirements.

Chase Community Equity, LLP and Community Development Properties New Markets MM, Inc. put their collective 100% membership interest in the Chase NMTC SJEIC Investment Fund, LLC for sale to the City for \$1,010 as a conclusion of the compliance period on November 8, 2018. The City Council approved the purchase and the Investment Fund's redemption of its interest in the CDEs. The initial actions to unwind the NMTC closed on November 9, 2018. In connection with the closing, the following occurred. The City became the sole member of the Investment Fund, and holder the notes on the loan to the EIC QALICB, Inc. secured by a leasehold deed of trust to the EIC. The Investment Fund assigned the notes and leasehold deed of trust to the City as satisfaction of the leverage loan. It is anticipated that prior to February 1, 2019, in exchange for the EIC QALICB's

City of San José
Notes to Basic Financial Statements
June 30, 2018

agreement to terminate the Ground Lease and Master leases, the Investment Fund will forgive the loan to the EIC QALICB. Once the City has possession of the EIC, the Investment Fund can be dissolved, and the EIC QALICB may file the necessary forms to unincorporate. If the leases and loan are maintained, the EIC QALICB and the City, in turn as the master tenant, will be required to begin paying principal on the loan estimated to be \$599,000 annually in 2019 through 2053. The potential principal payment exceeds the rental revenue to the EIC QALICB from the Master Lease with the City.

5. Retirement Systems – Unfunded Commitments

As of June 30, 2018, PFDRP had unfunded commitments to contribute capital for private debt investments in the amount of \$156,854,000, private equity investments in the amount of \$245,295,000 and real assets investments in the amount of \$126,108,000. FCERS had unfunded commitments to contribute capital for private market fund investments in the amount of \$367,301,000.

6. Federal Financial Assistance Programs

The City participates in a number of federally assisted grant programs, primarily with the U.S. Department of Housing and Urban Development (HUD), the Federal Aviation Administration (FAA), the US Department of Transportation, and the US Department of Labor. These programs are subject to program compliance audits by the grantors or their representatives.

Although the City's grant programs are audited in accordance with the provisions of the Single Audit Act Amendments of 1996 for the year ended June 30, 2018, these programs are still subject to financial and compliance audits by Federal auditors, and to resolution of identified findings and questioned costs. At this time, the amount of expenditures, if any, which may be disallowed by the granting agencies cannot be determined.

7. Encumbrances

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to contracts not yet performed and purchase orders not yet filled (executory contracts; and open purchase orders). Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at year-end are not accounted for as expenditures and liabilities but, rather, as restricted or committed governmental fund balance.

As of June 30, 2018, total governmental fund encumbrance balances for the City are as follows (dollars in thousands):

General Fund	\$	38,575
Housing Activities		4,890
Low and Moderate Income Housing Asset		5,337
Special Assessment Districts		1,193
San José Financing Authority Debt Service		1
Nonmajor governmental funds		99,906
		<hr/>
Total governmental funds	\$	<u>149,902</u>

City of San José
Notes to Basic Financial Statements
June 30, 2018

8. Overpayment of Pensions

On November 30, 2016, twenty-one individuals who are retired members of FCERS and their spouses, a surviving spouse of a FCERS retiree and an association representing FCERS retired members or to-be-retired FCERS members, their qualified spouses, domestic partners, dependents and beneficiaries (the "Claimants") filed a claim against the City and the FCERS Board and have since filed a lawsuit against the City. The lawsuit arises from the limitations on pension payments payable by tax-qualified retirement plans imposed by Internal Revenue Code Section 415 ("Section 415"). The lawsuit alleges that the City has failed to provide the Claimants with their fully-earned vested retirement pension benefits as a result of the application of Section 415 limitations. The lawsuit further alleges that the City should have established a separate plan as allowed under Section 415 or should have taken other lawful action as appropriate to pay Claimants the amount of the compensation that would exceed the Section 415 limitations. The lawsuit sets forth a number of theories on which Claimants base their claim for relief, including but not limited to, impairment of vested rights, breach of fiduciary duty, equitable and promissory estoppel, fraud, misrepresentation, conspiracy to defraud or misrepresentation and abuse of discretion.

PFDRP's Board has also been discussing on-going benefit adjustments and recoupment of overpayments related to the Fair Labor Standards Act ("FLSA") and other pensionable pay corrections at their monthly meetings since December 1, 2016. These include non-pensionable FLSA pay issues related to the incorrect inclusion of non-pensionable earnings as pensionable for Fire members from 1998 to 2008 due to the City's payroll system programming; and non-FLSA pay issues such as Holiday-in-Lieu corrections, Higher Class Pay being erroneously counted as pensionable pay, disability pays which should have been pensionable, and lump sum retroactive pay not being spread to the correct pay periods.

With regard to the FLSA issues, the PFDRP Board approved correcting the ongoing benefit payments in the February 2017 benefit payment. In June 2017, the PFDRP Board approved the process to collect past over-payments to begin with the August 2017 benefit payments. In September 2017, the PFDRP Board voted to send the City a letter seeking the balance of the monies owed but not recovered from the retirees for overpayments related to the FLSA. In November 2017, the PFDRP Board voted to send a single letter to the City seeking the balance of monies owed but not recovered from the retirees arising from the FLSA issue and the other issues. In a letter sent to the City Manager, dated November 30, 2017, the Office of Retirement Services demanded that the City make payment to the PFDRP prior to December 31, 2017 in the amount of \$2,215,000 (including interest calculated at the rate of 7% per annum through December 31, 2017) for the overpayments related to the FLSA issue (\$1,214,000) and the other pensionable pay issues (\$1,000,000). This matter has not been resolved.

The Office of Retirement Services has also been working on pensionable pay corrections involving members of FCERS Tier 1 plan. According to a Memorandum dated August 8, 2018 to the FCERS Board there has been overpayment of retirement benefits paid to certain retirees, due to errors in the City's reporting of pensionable pay that was then used in the members' benefit calculation. The total number of overpaid beneficiaries and members is 351.

At the August 16, 2018 FCERS Board meeting, the Board members voted, to the extent possible, to stop the overpayments made to members immediately and also voted to not seek repayment from the impacted retirees, but to instead have the overpayment added to the unfunded liability of FCERS Tier 1 plan, which is repaid from the City's contributions. Office of Retirement Services staff projected that overpayment amount would total approximately \$1,783,000 as of August 31, 2018.

City of San José
Notes to Basic Financial Statements
June 30, 2018

With respect to each of the matters described in this Note IV.B.8, the City is unable to predict the final resolution.

9. Consent Decree with San Francisco Baykeeper

San Francisco Baykeeper (“Baykeeper”) filed a lawsuit in federal district court against the City in February, 2015, and served its complaint on the City in April, 2015. Baykeeper’s complaint alleged violations of the federal Clean Water Act. Specifically, the complaint alleged that the City was not in compliance with trash reduction requirements under its Municipal Separate Storm Sewer System (MS4) Stormwater Permit (“Stormwater Permit”), and that there were discharge violations of sewage from the City’s Sanitary Sewer System that infiltrated into the MS4.

In order to settle the lawsuit, the City and Baykeeper agreed to a consent decree that was approved by the court in August, 2016 (“Consent Decree”). The Consent Decree’s terms will require the City to:

- Comply with trash provisions of the current Stormwater Permit including installing full trash capture devices, supporting additional creek cleanup efforts, and monitoring of trash in receiving waters;
- Rehabilitate, replace, or repair 65 miles of high risk sanitary sewer system pipes at an average of 6.5 miles per year, based on the City’s existing program with some changes in the priority of segments of this work;
- Monitor and report fecal indicator bacteria (“FIB”) in receiving waters for a five-year period;
- Comply with green infrastructure planning as required in the Stormwater Permit, adding FIB as a pollutant for planning purposes;
- Bring forward new revenue measure options for Council consideration by December 2017;
- Appropriate, contingent upon the receipt of sufficient new revenues, \$100,000,000 over a ten-year period for various green infrastructure projects with the goal of reducing pollutants and/or flows from the City’s urban areas into receiving waters, with expenditures anticipated to occur as follows:
 - Identify and design \$25,000,000 in total projects by September 2024;
 - Award \$25,000,000 in total projects by September 2025;
 - Identify and design an additional \$10,000,000 (\$35,000,000 in the aggregate) in total projects by September 2025;
 - Award an additional \$10,000,000 (\$35,000,000 in the aggregate) in total projects by the termination date of the consent decree;
 - Identify and design an additional \$15,000,000 (\$50,000,000 aggregate) in total projects by the termination date of the consent decree.

The Consent Decree also provides for ongoing oversight by Baykeeper and a dispute resolution process. The Consent Decree specifies limits on Baykeeper’s ability to pursue additional litigation against the City during the Consent Decree’s term and litigation fees that can be claimed by Baykeeper for dispute resolution are capped at \$200,000.

City of San José
Notes to Basic Financial Statements
June 30, 2018

In addition to the expenditures outlined above, the City has or will incur the following expenditures during the Consent Decree's term: (1) lump sum payment of attorney's fees and costs to Baykeeper in the amount of \$425,000, which payment has been made; (2) ongoing oversight costs payable to Baykeeper in the amount of \$10,000 per year for a total of \$100,000; and (3) \$200,000 per year for five years (a total of \$1,000,000) for supplemental environmental mitigation to be administered by the San José Parks Foundation for trash clean up grants, habitat restoration, or projects that generally improve the water quality in the Guadalupe and Coyote creeks and associated watershed areas.

In May 2017, Baykeeper and the City entered into a First Amendment to the Consent Decree that was subsequently approved by the U.S. District Court in August 2017 ("First Amendment"). The First Amendment extends the deadline for one of the City's obligations under the Consent Decree and specifies that the City will make payments of the annual funding of \$200,000 during years two through five for the supplemental mitigation projects directly to two organizations instead of to the San José Parks Foundation.

On December 19, 2017, the City Council considered a report from City staff concerning potential new revenue sources to fund the green infrastructure requirements specified in the Baykeeper Consent Decree described above. The potential revenues sources identified by City staff include general obligation bonds and a parcel tax, both of which would require voter approval by a two-thirds margin.

On August 10, 2018, the City Council approved placement of a measure on the November 2018 ballot, designated as Measure T, seeking voter authorization of up to \$650 million of general obligation bonds for various public improvements, including those that would prevent flooding and water contamination. Some of the green infrastructure improvements required by the Baykeeper Consent Decree would be eligible for funding if the voters approve Measure T by the required two-thirds margin. However, there are a number of different types of improvements that would be eligible for funding if Measure T were to pass, including an allocation of at least \$300 million for street improvements. The City is unable to predict whether the voters will approve Measure T and the amount of general obligation bonds that the City would issue. Additionally, if Measure T were to pass, it is unknown the amount of funding that would be allocated to the green infrastructure improvements required by the Baykeeper Consent Decree. In any event, there are obligations under the Baykeeper Consent Decree that would be ineligible for funding from general obligation bond proceeds and staff continues to assess additional funding mechanisms.

Under State Law, the Santa Clara County Registrar of Voters must complete the canvass of the vote and certify and submit the electron results to the County Board of Supervisors by December 6, 2018. As of the date of this document, the Santa Clara County Registrar of Voters has not completed the ballot counting for Measure T. From the ballots counted to date, the votes cast in favor of Measure T exceed the two-thirds margin for approval.

10. San José Retired Employees Association Settlement Agreement

In July 2014, the San José Retired Employees Association (the "Retirees' Association"), along with four individually named retirees, filed, and subsequently served, a verified complaint against the City in the Santa Clara County Superior Court. The complaint alleges that the City changed the basic retiree healthcare benefit to a new plan that "fundamentally alters" the nature and quality of the benefit provided to retirees, because the plan has increased co-pays and deductibles. The complaint further alleged that the affected retirees had a vested right to the plan in existence when they were employed by the City, and to the premium amount paid by the City for their healthcare benefit. The action seeks monetary damages for the increase in co-pays, deductibles and premium payments made by the affected retirees, as well as injunctive and writ relief prohibiting the City from continuing to provide the new health benefit to retirees.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The City filed a demurrer to the complaint, however, this litigation is currently stayed, by stipulation of the parties, to allow for settlement negotiations. On November 7, 2017, the City Council approved a settlement agreement with the Retirees' Association and the individual plaintiffs. The settlement agreement provides for the dismissal of the respective appeals in the Measure B litigation under the SJPOA caption by the Retirees' Association and the City, the dismissal by the Retirees' Association of its stayed lawsuit with prejudice and the dismissal of the stayed lawsuit by the individual plaintiffs without prejudice. The settlement agreement includes the following terms among others:

- continues the elimination of the SRBR, and, in lieu of the SRBR, establishes a "Guaranteed Purchasing Power" provision, to apply prospectively, in order to maintain the monthly allowance for current and future Tier 1 retirees at 75% of the purchasing power in effect as of the date of retirement;
- provides for the implementation of a new lowest cost healthcare plan for retirees who are members of the FCERS or PFDRP defined benefit retiree healthcare plan and additionally provides that the lowest cost plan for current and future retirees will be permanently set such that it is neither higher nor lower than the "Silver" level as specified in the Affordable Care Act ("ACA") in effect as of July 2015. The settlement agreement further specifies that the healthcare plan must provide at least 70% (the "floor") but no more than 79% (the "ceiling") of the current ACA "Silver" definition;
- allows retirees who are members of the FCERS or PFDRP defined benefit retiree healthcare plan to be eligible for in-lieu premium credit of 25% for the monthly premium of the lowest cost healthcare plan and dental plan;
- provides for the City's payment of partial cost reimbursement, not to exceed \$1.25 million for all reimbursements, for healthcare premium costs for those retirees or their surviving beneficiaries who receive a pension of \$54,000 or less and who were enrolled in a pre-Medicare healthcare plan between January 2013 and December 2016; and
- specifies that the Retirees' Association will have the right to tender to the City defense of any lawsuit brought by a retiree member against the Retirees' Association challenging the settlement agreement; and
- provides that the City will pay the attorneys' fees of the Retirees' Association related to Measure B in the amount of \$500,000.

11. Workers' Compensation Program Audit

In 2016, the City's Workers' Compensation Program underwent two audits by the State's Department of Industrial Relations (DIR): a routine three-tier Profile Audit Review (PAR) of randomly selected claims conducted every five years and a Target Utilization Review audit triggered by workers' complaints regarding the City's utilization review and procedures for requests for authorization of medical treatment of work-related injuries and illnesses. At the time of the audits the program was administered as a hybrid – a combination of the City team and Third Party Administrator (TPA). The hybrid program was the result of a series of Council directed actions. In October 2012, the City Council approved the staff recommendation that the City begin the Pilot Program for a TPA to handle a portion of claims administration, as well as bill review, utilization review and medical case management for all claims, and for in-house staff to handle the remaining claims administration. In June 2015, the City Council approved an extension of the hybrid Pilot Program to allow additional time to evaluate the performance of the hybrid Pilot Program. An extension to June 30, 2018, was granted in November 2016, given the change in TPA from Athens to Intercare.

City of San José
Notes to Basic Financial Statements
June 30, 2018

The PAR audit, consisting of three tiers, proceeded to a more comprehensive Full Compliance Audit with an additional and expanded selection of files, including denied claims. The City failed each of the three tiers of the Full Compliance Audit, resulting in the State DIR assessing the following amounts, which arise from the City's delay in processing claims: (1) a penalty in the amount of \$142,000; (2) additional disability payments in the amount of \$16,000; and (3) additional medical and medical legal payments owed to providers in the approximate amount of \$16,000, on which interest at the rate of 7% per annum continues to accrue until the date of payment. The City made the payment of the assessed amounts in December 2016. The DIR will be monitoring the City's claim review process through calendar year 2018.

The City is subject to a re-audit in December 2018 and must pass the re-audit or its ability to retain its status as a self-insured employer may be in jeopardy. Additionally, failure to pass two (2) consecutive Full Compliance Audits would expose the City to the risk of assessment of a civil penalty, currently a one-time payment in an amount not to exceed \$100,000. In the event that the City were unable to retain its status as a self-insured employer, the City would be required to procure workers' compensation insurance coverage for its employees. All research suggests that the purchase of workers' compensation insurance coverage will be significantly more expensive than a self-insured program.

The Target Utilization Review audit reviewed files from the first phase of the routine audit with a focus on the City's utilization review process and procedure. This audit commenced in late October 2016 and concluded in January 2017. Only the portion of the City's Workers' Compensation Program administered by the in-house City staff was subject to the Full Compliance Audit. Both the in-house staff and the TPA were subject to the Target Utilization Review. The in-house program was assessed penalties of \$3,000 for three (3) failures to respond to requests for medical treatment. The City received the final Audit report on January 5, 2017 and payment was issued by January 31, 2017.

In addition to these audits, the State DIR's Administrative Director of the Division of Workers' Compensation issued an Order to Show Cause, assessing \$120,000 in administrative penalties for the City's failure to properly address independent medical review appeals of utilization review non-certifications of medical treatment requests in 24 claims. The penalties have been assessed, primarily, for failure to timely provide responsive documents to the company under contract with the State that performs independent medical review. The penalties are assessed at the rate of \$500 per day for each day the response is untimely, up to a maximum of \$5,000 per claim. The City paid the penalties in November 2016. The City failed this audit due in part to staffing challenges. It should be noted that the City's TPA at the time passed the same routine audit in 2016.

In June 2018, the City Council approved the staff recommendation to provide all Worker's Compensation claims administration through a TPA and that the transition on July 1, 2018. It is worth noting that the State may proceed with the re-audit regardless of the City Council's decision about service delivery. Therefore, the City's recommendation at the time was not related to the State re-audit scheduled for 2018.

The City's Workers' Compensation Program is one component of the City's overall health and safety efforts for employees, and the City's first goal is to prevent injuries and accidents. The ultimate goal and policy objective is to provide the most effective service to the City's injured workers and to acknowledge that there are ongoing limitations and challenges with the City's ability to provide the necessary services.

The City began the process of transferring the entire Workers' Compensation Program administration to its current TPA, Intercare, effective July 1, 2018, and has completed the transition. The City will

City of San José
Notes to Basic Financial Statements
June 30, 2018

conduct a request for proposals (RFP) for the Workers' Compensation program in the current fiscal year to ensure a contract with a TPA is in place by July 1, 2019.

12. Tax Abatement Disclosure

As of June 30, 2018, the City provides tax abatements through four programs - the Business Cooperation Program, Storefronts Assistance Grant Program, Incentive Grant Agreements, and the Downtown High-rise Incentive Program:

- 1. Business Cooperation Program (BCP)** is designed to provide incentives for anyone conducting business in the City to obtain a Use Tax Direct Payment Permit from the State of California Board of Equalization pursuant to the State Sales and Use Tax Regulation 1699.6; or establish a point of sale in the City by changing their business operations for business-to-business transaction. The BCP is also designed to provide incentives for anyone constructing or building in the City to obtain a Sub Seller's Permit for their job site in San Jose from the State of California Department of Tax and Fee Administration (previously the Board of Equalization) pursuant to State regulations and procedures.

Pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law (California Revenue and Taxation Code Section 7200 et.seq.), the City receives 1% of all sales taxes collected from transactions occurring in the City. However, unless a taxpayer obtains certain permits from the State Board of Equalization specifying the location of the first use of a taxed purchase or final sale, the local use tax collected on a transaction will be allocated to a County-wide pool or another jurisdiction. Based on the City's Ordinances No. 28640 and No. 29408, the City in partnership with participating companies, and Municipal Revenue Advisors (Consultant) work together to ensure that the City receives the full 1% local share of tax.

The benefit derived by the City from having businesses obtain Use Tax Direct Pay Permit, Sub Seller's Permit, or Seller's Permit (Permits) for point of sales transaction in San Jose is that the business reports the local use tax component to the jurisdiction in which the property is located at the time the State use tax is reported, thus ensuring that the City receives the entire local component of the use tax. The City rebates participating companies a rebate in the amount of 20% - 30% of the net new revenue received. The City also compensates the Consultant 20% of the net new revenue received.

Abatements are obtained through a rebate claim form filed by a tax payer, including proof that the City is properly identified in the permit as the jurisdiction in which the property acquired under the permit is first functionally used, stored or consumed, or sold from the City in business to business transaction, and evidence of the amount of use tax paid to the State.

- 2. Storefronts Assistance Grant Program** is an incentive program designed to fill ground-floor vacant parcels in City-designated Neighborhood Business Districts (NBD's), Strong Neighborhood Initiative (SNI) areas, and the Downtown area. The program also supports existing retail businesses in these areas with permit costs related to adding outdoor seating. To address vacant storefronts, the City implemented an incentive package to lower barriers to entry for small business. The City Council approved the implementation of the Program in 2013, and through the budget process, City Council allocated up to \$250,000 to reimburse eligible businesses for City permit fees and taxes in FY 2018.

This program is structured as assistant grants at a maximum amount of up to \$15,000 for vacant storefronts, and a maximum amount of \$5,000 for existing businesses to offset the cost of City permit fees and business taxes on a reimbursement basis. The grant agreements include a three-

City of San José
Notes to Basic Financial Statements
June 30, 2018

year occupancy requirement for recapturing abated taxes and fees. If the business vacates any portion of the premises prior to the third anniversary of the permit issuance date, the business is required to reimburse the City a prorated portion of the grant assistance received.

3. **Incentive Grant Agreements** provide assistance to companies developing new technologies that create economic opportunities for future generations. By facilitating business retention and expansion, the City fosters an environment in which driving industry companies can grow and create jobs with good pay for residents. Through the Incentive Grant Agreements, the City assists companies with expedited permitting process, reimbursement of capital equipment acquisition, reimbursement of 50% of net new utility users tax revenue, or payment of City permit fees and taxes. Eligible projects are either companies relocating their global headquarters to the City or upgrading their manufacturing and research and development facilities. For agreements providing manufacturing permitting incentive, the grant agreements include a three-year occupancy requirement for recapturing abated taxes and fees. If the business vacates any portion of the premises within the third anniversary of the permit issuance date, the business is required to reimburse the City a prorated portion of the grant assistance received.

4. **Downtown High-Rise Residential Incentive Program** On December 13, 2016, the City Council extended the Downtown High-Rise Incentive Program for new construction of residential buildings of at least twelve (12) stories in height in the Downtown Planned Growth Area by passing the Ordinance No. 29847, entitled: *“A Ordinance of the Council of the City of San Jose Amending Section 4.46.036 of Chapter 4.46 and Section 4.47.089 of Chapter 4.47 of Title 4 of the San Jose Municipal Code to Expand the Suspension Program for the Collection Of A Portion of Construction Taxes on Downtown High Rise Developments”*. The Program suspends 50% of construction taxes on high-rise developments in the Downtown Area and allows for payment of the taxes to be delayed until the issuance of the Certificate of Occupancy. The Program also sets the park impact in-lieu fees charged for residential downtown high-rise developments at 50% of the applicable park impact in-lieu fees for multi-family 5+ units in the Downtown Area and allows for payment of park impact in-lieu fees to be delayed until issuance of the Certificate of Occupancy.

To qualify for this incentive, a high-rise residential development must meet each of the following:

- a) A completed application for a Development Permit has been filed with the City on or before December 31, 2017; and
- b) A building permit has been issued on or before July 31, 2018; and
- c) The developer shall retain contractors licensed by the State of California; and
- d) The developer shall employ only construction workers who possess necessary licenses and certifications required by the State; and
- e) The developer enters into a Project Completion Agreement with the City in a form approved by the City Attorney.

In the event that a residential development that was eligible for the tax suspension has not received final inspection for eighty percent of the residential units within the Downtown High Rise Structure on or before December 31, 2020, then the full amount of the tax shall be paid to the City prior to scheduling additional inspections.

1. Cash and Investments Held by SARA

The SARA's cash and investments consist of the following at June 30, 2018 (dollars in thousands):

Cash and investments	\$ 14,540
Restricted cash and investments	<u>138,278</u>
Total cash and investments	<u><u>\$ 152,818</u></u>

A summary of SARA's cash and investments at June 30, 2018 is as follows:

	Credit Rating	Maturity (in Days)			Balance at June 30
		Under 30	31-180	181-365	
Investments:					
LAIF	Not Rated	\$ -	\$ -	\$ 14,005	\$ 14,005
Money Market Mutual Funds	Aaa	138,255	-	-	138,255
Subtotal investments		<u>\$ 138,255</u>	<u>\$ -</u>	<u>\$ 14,005</u>	<u>152,260</u>
Certificates of Deposit					23
Bank Deposits					535
Total Cash and Investments					<u><u>\$ 152,818</u></u>

The SARA categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Money Market Mutual Funds and LAIF are valued by net asset value. The inputs and techniques used for securities are not necessarily an indication of risk associated with investing in these securities. The SARA's investments in Money Market Mutual Funds and LAIF are not subject to fair value hierarchy.

The LAIF is part of the State's Pooled Money Investment Account that allows cities, counties and special districts to place money into the fund. LAIF operating accounts allow a maximum of 15 transactions per account in a calendar month. The transaction amount shall be no less than \$5,000 and in increments of a thousand dollars. LAIF allocates interest earnings once every quarter. The interest earnings can be withdrawn in exact amount at any time. LAIF bond accounts have no restrictions on the amounts allowed on deposit, but are limited to one withdrawal every 30 days.

2. Property Held for Resale by SARA

Property held for resale is recorded as an asset at the lower of cost or net realizable value. The SARA recorded certain capital assets originally received from the Agency as property held for resale. On September 8, 2014, the State Department of Finance (“DOF”) approved the Long-Range Property Management Plan (“LRPMP”), which specifies the disposition of SARA properties. The SARA properties designated for sale under the LRPMP are to be sold in accordance with the Asset Disposition Schedule and the Disposition Process For Sale of Properties, both of which are subject to the approval of the Countywide Oversight Board.

A summary of changes of the property held for resale during the year ended June 30, 2018 is as follows:

Property Description	July 1, 2017	Addition	Disposal	Reclassification	June 30, 2018
N. San Pedro Housing site ⁽¹⁾	\$ 32,392	\$ 4,731	\$ (4,643)	\$ 977	\$ 33,457

⁽¹⁾The valuation is based on the construction costs incurred. The asset is currently under construction.

In November 2017, the SARA sold property commonly known as Blocks A & C to TM San Jose 78, LLC for \$6,545,000. The property had the net book value of \$4,643,000 and the SARA recognized a gain of \$1,882,000, after closing costs of \$20,000. The net sale proceeds were paid to the County under the 2011 Settlement Agreement (Note IV.C.4), which amount was applied against accrued interest.

Julian Street Realignment Construction Project has been reclassified from Construction in Progress.

3. Capital Assets Held by SARA

City of San José
Notes to Basic Financial Statements
June 30, 2018

Various Agency-owned real estate assets with an aggregate book value of \$13,377,000 were used to secure Letters of Credit obtained from JPMorgan Chase Bank (“JPMorgan”) supporting the Agency’s 1996 and 2003 variable rate revenue bonds. The 1996 and 2003 bonds were paid in full from the SARA refunding bonds proceeds in December 2017 and all of the real-estate assets used as collateral for those bonds either have been or are being sold.

In addition, the Convention Center – South Hall, José Theatre, and Arena Lot 5A were used as collateral to secure HUD Section 108 loans obtained from the U.S. Department of Housing and Urban Development. Convention Center - South Hall was sold to the City of San José on October 10, 2018 and the HUD loans were paid in full from a portion of the sales proceeds. The other properties used as collateral are projected to be sold in FY 2019 as well.

On August 27, 2015, the Oversight Board approved a revised Asset Disposition Schedule for the non-governmental purpose properties listed on the LRPMP, and approved the Disposition Process For Sale of Properties, which requires the sale of assets either through an open and competitive solicitation process or through a direct sale to the affected taxing entities or a non-profit organization. Additional amendments to the Asset Disposition Schedule were approved by the Oversight Board on January 14, 2016, April 28, 2016, October 27, 2016, and April 13, 2017.

In FY 2018, the SARA disposed the following properties:

- In July 2017, the SARA sold one property (520 North 6th Street) to AFE Urban, Inc. for \$2,800,000. The property had the book value of \$5,350,000 and the SARA recognized a loss of \$2,560,000 after transaction costs of \$10,000. The SARA received net proceeds of \$2,790,000, of which were used to partially call bonds associated with the development of the Miraido project. The bonds involved were the Series 1996A/B, 1997, 1999, 2004A, 2005A, and 2006C/D.
- In May 2016, pursuant to a Compensation Agreement, the SARA transferred to the City properties necessary for the construction of the Autumn Street extension with a book value of \$316,000, with a condition which required the property to be reverted to SARA and sold if the property was no longer needed for public right of way. In May 2017, after construction of the Autumn Street extension, a portion of the property (Bulb parcel, Old W. Julian Street) was not required for the Autumn Street extension and was considered surplus to the needs of the City. Pursuant to the Compensation Agreement, the surplus parcel was to revert to the SARA and be sold. In August 2017, the City, SARA, and the buyer (Akatiff Revocable Trust) entered into a Purchase and Sale Agreement (PSA) to sell the surplus parcel to the buyer for the amount of \$34,000. In September 2017, the property was transferred (Bulb parcel, Old Julian St) directly to the Akatiff Revocable Trust for \$34,000. The SARA recognized a loss of \$282,000. The net sale proceeds were delivered to SARA and used to pay enforceable obligations.
- In December 2017, the SARA sold one property (551 West Julian Street) to TC Agoge Associates, LLC for \$650,000. The property had the book value of \$976,000 and the SARA recognized a loss of \$329,000 after transaction costs of \$3,000. The net sale proceeds of \$647,000 were used to pay the accrued interest owed to the County under the 2011 Settlement Agreement.
- In December 2017, the SARA sold one property (201 South 2nd Street) to 201 S. 2nd Ground Only LLC for \$726,000. The property had the book value of \$563,000 and the SARA recognized a gain of \$160,000 after transaction costs of \$3,000. The net sale proceeds of \$723,000 were used to pay the accrued interest owed to the County under the 2011 Settlement Agreement.

City of San José
Notes to Basic Financial Statements
June 30, 2018

- In December 2017, the SARA sold one property (1343 The Alameda) to Investment Property Exchange Services as Qualified Intermediary for Grizzly Hachett, LLC for \$363,000. The property had the book value of \$427,000 and the SARA recognized a loss of \$66,000 after transaction costs of \$2,000. The net sale proceeds were paid to the County under the 2011 Settlement Agreement, which amount was applied against accrued interest.
- In January 2018, the SARA sold one property (366 South 1st Street) to Two Fish Design for \$1,050,000. The property had the book value of \$1,076,000 and the SARA recognized a loss of \$26,000. The net sale proceeds were delivered to SARA and used to pay enforceable obligations.
- In January 2018, the SARA sold one property (292 Stockton Avenue) to Diridon Hospitality LLC for \$4,000,000. The property had the book value of \$83,000 and the SARA recognized a gain of \$3,904,000 after transaction costs of \$13,000. The net sale proceeds were delivered to SARA and used to pay enforceable obligations.
- In May 2018, the SARA sold one property (1770 Alum Rock Ave) to the City for \$221,000. The property had the book value of \$369,000 and the SARA recognized a loss of \$149,000 after transaction costs of \$1,000. At the close of escrow, the net sale proceeds of \$220,000 were remitted to the County Auditor Controller and were subsequently distributed to the appropriate local taxing entities per the Health and Safety Code.
- In June 2018, the SARA sold one property Market Gateway (525 South Market Street) to the County (the buyer) for \$2,635,000. The property had the net book value of \$3,254,000 and the SARA recognized a net loss of \$621,000 after transaction costs of \$2,000. At the close of escrow, the net sale proceeds of \$2,633,000 were remitted to the County Auditor Controller and were subsequently distributed to the appropriate local taxing entities per the Health and Safety Code.

4. Summary of SARA's Long-Term Debt

The following is a summary of long-term debt of the SARA as of June 30, 2018 (dollars in thousands, unless otherwise noted):

* Bonds redeemed, defeased or prepaid with proceeds from the 2017 Refunding Bonds.

Total Redevelopment Property Tax Trust Fund (“RPTTF”) revenue distributed by the County to the SARA in the FY 2018 was \$155,705,000, which was used to pay debt service and debt related expenses on the Successor Agency Senior and Subordinate Tax Allocation Bonds and enforceable obligations. During the year ended June 30, 2018, the County withheld \$44,652,000 in RPTTF for payments of its prior and current year’s pass-through payments. During FY 2018, the outstanding principal and interest of County Settlement were paid in full.

Notes to Basic Financial Statements
June 30, 2018

2017 Tax Allocation Refunding Bonds

On December 21, 2017, the SARA issued the 2017 Refunding Bonds pursuant to an Indenture of Trust dated as of December 1, 2017 (the “2017 Indenture”), by and between the SARA and Wilmington Trust, National Association, as trustee (“Wilmington Trust”). The 2017 Refunding Bonds were issued in the aggregate principal amount of \$1,677,540,000, in two senior series and one subordinate series: (i) \$79,825,000 of the tax-exempt senior lien 2017 Series A Bonds (the “2017A Bonds”); (ii) \$1,333,325,000 of taxable senior lien 2017 Series A-T Bonds (the “2017A-T Bonds”) and collectively (the “2017 Senior Tax Allocation Refunding Bonds”); and (iii) \$264,390,000 of tax-exempt subordinate lien 2017 Series B Bonds (the “2017 Subordinate Tax Allocation Refunding Bonds” or “2017B Bonds”).

Proceeds of the 2017 Refunding Bonds were used to (i) redeem and defease or prepay 23 series of Successor Agency Senior and Subordinate Tax Allocation Bonds, the 4th and San Fernando Parking Facility Pledge Agreement entered into in connection with the Financing Authority’s Series 2001A Bonds and the Second Amended and Restated Reimbursement Agreement entered into in connection with the Financing Authority’s Series 2001F and 2001G Bonds (paid in full in September 2018), all as listed in the previous table (“Refunded Obligations”) and (ii) pay the costs of issuing the 2017 Refunding Bonds, including the cost of debt service reserve insurance policies. The refunding resulted in a difference between the reacquisition price (the amount required to repay previously issued debt in a refunding transaction) and the net carrying amount of the Refunded Obligations of \$22,882,000. This difference is reported as deferred outflows of resources in the Statement of Fiduciary Net Position. The 2017 Refunding Bonds generated total debt service savings of \$253,856,000 over the next eighteen years and net present value savings of \$185,600,000 (discounted at the all-in true interest cost) or 10.82% of the Refunded Obligations.

The 2017 Refunding Bonds are secured and payable from Tax Revenues and certain funds and accounts held by Wilmington Trust. Tax Revenues is generally defined in the 2017 Indenture as the portion of property tax revenues collected in the Merged Project Area derived from incremental growth in assessed property values over the initial base year values in each of 17 component areas, less certain County administrative fees and the AB1290 statutory pass-through payment to the San José Unified School District and excluding the amounts collected pursuant to the pension override or State Water Project override provisions of the Redevelopment Dissolution Law. All other AB1290 statutory pass through payments and the negotiated pass-through payments to Santa Clara County are subordinate to the payment of debt service on the 2017 Refunding Bonds and other payment under the 2017 Indenture. Under the distribution provisions of the Redevelopment Dissolution Law, AB1290 statutory pass-through payments and negotiated pass-through payments are made from funds on deposit in the RPTTF before funds are transferred to the SARA for the payment of enforceable obligations (including payment debt service on the 2017 Refunding Bonds) unless there are insufficient funds to pay such debt service and other payment obligations under the 2017 Indenture and certain other conditions are satisfied. Such condition include the timely filing of a Notice of Insufficiency by the SARA in accordance with the Redevelopment Dissolution Law and the concurrence by the State Controller that there are insufficient funds for such purpose. The SARA has covenanted in the 2017 Indenture to comply with the provisions of the Redevelopment Dissolution Law related to placing its obligations under the 2017 Indenture on the recognized obligation payment schedules throughout the term of the 2017 Refunding Bonds and, if applicable, file a Notice of Insufficiency in the event that are insufficient Tax Revenues to make payment of debt service or other payment obligations under the 2017 Indenture.

The SARA has covenanted in the 2017 Indenture to take such actions as required under the Redevelopment Dissolution Law to include in each annual Recognized Obligation Payment Schedule the amount of debt service on the 2017 Refunding Bonds so as to enable the County Auditor-

City of San José

Controller to distribute from the RPTTF to SARA on each January 2 and June 1 the amounts required for the SARA to pay principal of, and interest on, the 2017 Refunding Bonds coming due in the respective six-month period. These actions will include, without limitation, placing on the periodic Recognized Obligation Payment Schedule for approval by the Oversight Board and DOF the amounts to be held by the SARA as a reserve until the next six-month period, as contemplated by the Redevelopment Dissolution Law, that are necessary to comply with the 2017 Indenture.

A separate municipal bond debt service reserve policy issued by Build America Mutual Assurance Company ("BAM") was deposited in the Senior Bonds Reserve Account of the Bond Reserve Fund for the 2017 Senior Tax Allocation Refunding Bonds (the "2017 Senior Bonds Reserve Policy") and in the Subordinate Bonds Reserve account of the Bond Reserve Fund for the 2017 Subordinate Tax Allocation Bonds (the "2017 Subordinate Bonds Reserve Policy"). The 2017 Senior Bonds Reserve Policy is in the amount of \$112,102,000, which is equal to the Senior Bonds Reserve Requirement under the 2017 Indenture. The 2017 Subordinate Bonds Reserve Policy is in the amount of \$30,978,000, which is equal to the Subordinate Bonds Reserve Requirement under the 2017 Indenture.

The 2017 Senior Bonds Reserve Policy will terminate the earlier to occur of (i) the date on which the 2017 Senior Tax Allocation Refunding Bonds are no longer outstanding under the 2017 Indenture and (ii) August 1, 2035. The 2017 Subordinate Bonds Reserve Policy will terminate the earlier to occur of (i) the date on which the 2017 Subordinate Tax Allocation Refunding Bonds are no longer outstanding under the Indenture and (ii) August 1, 2029. Per the terms of the 2017 Indenture, the SARA is not obligated to replace either reserve policy or to fund either reserve account with cash if, at any time that the 2017 Senior Tax Allocation Refunding Bonds or 2017 Subordinate Tax Allocation Refunding Bonds are outstanding, amounts are not available under such policy or if the rating of the claims-paying ability of BAM is downgraded, suspended or withdrawn.

The 2017 Senior Tax Allocation Refunding Bonds were rated "AA" by Standard & Poor's and Fitch and the 2017 Subordinate Tax Allocation Refunding Bonds were rated "AA-" by Standard & Poor's and Fitch.

2017 Senior Tax Allocation Refunding Bonds - The 2017 Senior Tax Allocation Refunding Bonds were issued in two series – the tax-exempt 2017A Bonds and the taxable 2017A-T Bonds, with a parity senior lien on Tax Revenues. The 2017A Bonds are structured as two serial maturities in 2034 and 2035; both maturities bear interest at 5% per annum. The 2017A-T Bonds are structured as serial maturities in 2018 through and including 2029 and a term bond of \$361,845,000 maturing in 2034 with mandatory payment of principal beginning on August 1, 2030 through final maturity on August 1, 2034. The 2017A-T Bonds bear interest at rates ranging from 1.898% to 3.375% per annum. The 2017A-T Bonds have nearly \$183 million in par subject to call on or after August 1, 2027. The total debt service payments (interest only) on the 2017 Senior Tax Allocation Refunding Bonds was \$4,795,000 for the year ended June 30, 2018. The principal and interest remaining on the 2017 Senior Tax Allocation Refunding Bonds as of June 30, 2018 is \$1,836,507,000.

2017 Subordinate Tax Allocation Refunding Bonds - The 2017 Subordinate Tax Allocation Refunding Bonds are structured as serial tax-exempt bonds with maturities in 2018 through 2029; and bear interest at rates ranging from 2% to 5% per annum. The 2017 Subordinate Tax Allocation Refunding Bonds are callable on or after August 1, 2027 at par. In total, nearly \$97 million in par is subject to this ten-year par call. The 2017 Subordinate Tax Allocation Refunding Bonds are payable from Tax Revenues on a subordinate basis to the 2017 Senior Tax Allocation Refunding Bonds. The debt service payment (interest only) on the 2017 Subordinate Tax Allocation Refunding Bonds was \$1,449,000 for the year ended June 30, 2018. The principal and interest remaining on the 2017 Subordinate Tax Allocation Refunding Bonds as of June 30, 2018 is \$339,415,000.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Senior Merged Area Tax Allocation – Bonds Redeemed in FY 2018 by the 2017 Refunding Bonds

Senior Merged Area Tax Allocation Bonds Series 1997, Series 1999, Series 2003, Series 2004A, Series 2005A, Series 2006A-T, Series 2006B, Series 2006C, Series 2006D, Series 2007B were redeemed on January 8, 2018. The proceeds of the 2017 Refunding Bonds in the amount of \$1,248,677,000 paid the outstanding principal of \$1,223,365,000 and the interest of \$25,312,000 through an escrow account held by Union Bank. Prior to the issuance of the 2017 Refunding Bonds, the total principal and interest paid on the Senior TABs was \$101,617,000 in FY 2018.

Senior Housing Set-Aside Tax Allocation – Bonds Redeemed in FY 2018 by the 2017 Refunding Bonds

Senior Housing Set-Aside Tax Allocation Bonds Series 2003J, 2003K, 2005A, and 2005B were redeemed January 8, 2018. The proceeds of the 2017A-T Bonds in the amount of \$126,046,000 paid the outstanding principal of \$123,230,000 and the interest of \$2,816,000 through an escrow account held by Wells Fargo Bank. The Senior Housing Set-Aside Tax Allocation Bonds Series 1997E were redeemed on January 22, 2018. The proceeds of the 2017A-T Bonds in the amount of \$15,016,000 paid the outstanding principal of \$14,625,000 and the interest of \$391,000 through an escrow account held by Wells Fargo Bank. Prior to the issuance of the 2017 Refunding Bonds, the total principal and interest paid on the Senior Housing TABs was \$14,532,000 in FY 2018.

Subordinate Tax Allocation Bonds – Variable-Rate Redeemed in FY 2018 by 2017 Refunding Bonds

Subordinate Merged Area Revenue Bonds Series 1996A/B and Series 2003 A/B were redeemed on December 21, 2017. The proceeds of the 2017 Refunding Bonds in the amount of \$54,543,000 paid the outstanding principal of \$54,490,000 and the interest of \$53,000 through an escrow account held by Union Bank. Prior to the issuance of the 2017 Refunding Bonds, the total principal and interest paid on the Subordinate TABs was \$5,375,000 in the FY 2018.

Subordinate Housing Set-Aside Tax Allocation Variable Rate Bonds Series 2010C were redeemed on December 21, 2017. The proceeds of the 2017 Refunding Bonds in the amount of \$71,841,000 paid the outstanding principal of \$71,625,000 and the interest of \$216,000. Prior to the issuance of the 2017 Refunding Bonds, the total principal and interest paid on the 2010C Bonds was \$4,058,000 in FY 2018.

4th and San Fernando Parking Facility Project Pledge Agreement - In March 2001, the City of San José Financing Authority (the “Financing Authority”), issued Revenue Bonds, Series 2001A (“Authority Series 2001A Bonds”) in the amount of \$48,675,000 to finance the construction of the Fourth Street and San Fernando Parking Facility Project. The Agency entered into an Agency Pledge Agreement with the Financing Authority, which was assumed by the SARA, whereby the payments are payable from and secured by surplus “Agency Revenues”.

The Authority Series 2001A bonds were redeemed on January 8, 2018. The 2017A-T Bonds proceeds of \$24,352,000 paid the outstanding principal of \$23,930,000 and the interest of \$422,000 through an escrow account held by Wells Fargo Bank.

Convention Center Refunding Reimbursement Agreement - In July 2001, the Financing Authority issued the Convention Center Lease Revenue Refunding Bonds, Series 2001F (tax-exempt (“Authority 2001F Bonds”) and Series 2001G (taxable) in the amounts of \$186,150,000 and \$4,580,000, respectively, to refund the Authority’s 1993 Revenue Bonds, Series C. The Series 2001G Bonds were paid off prior to FY 2018.

City of San José
Notes to Basic Financial Statements
June 30, 2018

In connection with the issuance of the 2001 Convention Center Refunding Bonds, the Agency and the City entered into the Second Amended and Restated Reimbursement Agreement under which the Agency is obligated to use redevelopment property tax revenues or other revenues to reimburse the City for lease payments made to the Financing Authority for the project. The Second Amended and Restated Reimbursement Agreement was assumed by the SARA.

The Financing Authority Series 2001F bonds were redeemed on January 8, 2018. The proceeds of the 2017A-T Bonds in the amount of \$68,268,000 paid the outstanding principal of \$67,085,000 and the interest of \$1,183,000 from an escrow account held by U.S. Bank. Prior to the issuance of the 2017 Refunding Bonds, the total principal and interest paid on the 2001F Bonds was \$13,562,000 in FY 2018.

As of June 30, 2018, the amounts to be paid from the escrow funds established for the Refunded Obligations are as follows (in thousands):

Redevelopment Agency Bonds Refunded in 2017 Escrow Accounts (December 31, 2017)	Amount	Redemption Date
RDA Tax Allocation Bonds Series 2008A	\$ 4,600	8/1/2018
RDA Tax Allocation Bonds Series 2008B	80,145	8/1/2018
RDA Housing Set-Aside Tax Allocation Bonds Series 2010A-1	52,820	8/1/2020
Total	\$ 137,565	

HUD Section 108 Loans – In 2006, the Agency received loan proceeds totaling \$31,000,000 under the provisions of HUD Section 108 program. The proceeds were used to finance the CIM Mix-used Project (Central Place/ Tower 88) (\$13,000,000) and for reimbursement of costs incurred on the Story/King Retail Project (\$18,000,000).

As of June 30, 2018, the outstanding loans due to HUD total \$18,200,000. The notes payable to HUD mature annually through August 2025 and bear interest at 20 basis points above the monthly LIBOR index. The average rate for the FY 2018 was 1.72%. The HUD loans were secured by several SARA owned capital assets (Convention Center – South Hall, José Theatre, and Arena Lot 5A) and Community Development Block Grant (CDBG) funds that are awarded to the City. For the year ended June 30, 2018, the loans were repaid through CDBG funds due to insufficiency of redevelopment property tax revenues. During the year ended June 30, 2018, the SARA received \$2,024,000 from the City’s CDBG fund to fund debt service of the HUD 108 loans.

On October 10, 2018, the HUD 108 loans were repaid in full (see Note IV.D.4).

Supplemental Educational Revenue Augmentation Funds (SERAF) Loan – On July 24, 2009, the State Legislature passed AB 26 X4, which required redevelopment agencies statewide to deposit a total of \$2,050,000,000 of property tax increment in a Supplemental Educational Revenue Augmentation Funds (“SERAF”) to be distributed to meet the State’s Proposition 98 obligations to schools. The Agency’s SERAF obligation was \$62,248,000 in FY 2010 (“2010 SERAF Obligation”) and \$12,816,000 in FY 2011 (“2011 SERAF Obligation”). Payments were made by May 10 of each respective fiscal year.

On May 4, 2010, the Agency and the City entered into a loan agreement where the City agreed to loan the Agency through two separate payments (May 2010 and May 2011) a combined amount of \$75,063,000 to pay the 2010 SERAF Obligation and the 2011 SERAF Obligation (“SERAF Loan”). The sources of the SERAF Loan to pay the 2010 SERAF Obligation (\$62,248,000) were \$40 million from the City’s Low and Moderate Income Housing Fund that had been made available following the issuance of the 2010 Housing Series C Bonds, which was specifically authorized by the legislation, and idle moneys from the City special funds (\$10,000,000) and \$12 million from the Financial

City of San José
Notes to Basic Financial Statements
June 30, 2018

Authority's Commercial Paper Program. The source of the SERAF Loan to pay the 2011 SERAF Obligation was \$12,816,000 from the City's Low and Moderate Income Housing Fund. The Low and Moderate Income Housing Fund was subsequently renamed as the Low and Moderate Income Housing Asset Fund.

The Redevelopment Dissolution Law provides that all prior loans made between the City and the Agency, except for loans made from the Low and Moderate Income Housing Asset Fund for payment of SERAF, were invalidated as of February 1, 2012, but may be reinstated once certain conditions related to dissolution are met by the SARA as more particularly discussed below in the Parking Fund Loans section. As such, the \$10,000,000 used to pay a portion of the 2010 SERAF Obligation and its related accumulated interest in the amount \$160,000 from the City special funds other than the Low and Moderate Income Housing Asset Fund was invalidated under this provision and was recorded as part of the SARA's extraordinary items in 2012. In addition, interest accrued in excess of the LAIF rates pursuant to the Redevelopment Dissolution Law in the amount of \$2,940,000 were also invalidated in 2012.

The remaining source of the SERAF Loan used to pay the 2010 SERAF Obligation (\$40 million of 2010 Series C Housing Bonds and \$12 million from the Financing Authority's Commercial Paper program (See Commercial Paper Section below) were assumed by the SARA and were listed in the ROPS as enforceable obligations. The source of funds used to pay the 2011 SERAF Obligation was determined to be a housing asset and was transferred to the City as the Successor Housing Agency and was also listed on the ROPS as an enforceable obligation.

On February 15, 2013, the DOF determined that a significant portion of the SERAF Loan used to pay a portion of the 2010 SERAF Obligation (\$40 million of 2010 Housing Series C Bonds and \$12 million from the Financing Authority's Commercial Paper program) should not be reported in the ROPS as an enforceable obligation since the sources of the SERAF Loan were already listed on the ROPS.

On May 26, 2016, the Oversight Board approved a partial reinstatement of the SERAF Loan used to pay the 2010 SERAF Obligation to restore the moneys originally loaned from the City's special funds in the amount of \$10,000,000 and also approved the repayment schedule for the source of funds used to pay the 2011 SERAF Obligation in the amount of \$12,816,000 plus accrued interest. The Oversight Board determined that the remaining portion of the SERAF Loan used to pay the 2010 SERAF Obligation in the amount of \$52,000,000 plus accrued interest in the amount of \$905,000 is not an enforceable obligation and directed the SARA to remove that portion of the loan from its financial statements. These actions were subsequently approved by the Successor Agency Board on June 28, 2016.

On May 17, 2017, the DOF approved the ROPS 17-18, which included the SERAF loans from the City of San José in the principal amount of \$22,816,000.

As of June 30, 2018, the remaining portion of the SERAF Loan has an outstanding principal and accumulated accrued interest balance of \$22,816,000 and \$5,187,000, respectively, and bears a simple interest rate of 3%.

Commercial Paper Obligation – As discussed above, the City and the Agency entered into a SERAF Loan, a portion of which was funded by the Financing Authority's issuance of \$12,000,000 of commercial paper notes through the Financing Authority's Commercial Paper Program and deposited the funds in the Low and Moderate Income Housing Asset Fund. The Countywide Oversight Board and the SARA Board approved the inclusion of this obligation along with accrued interest and fees totaling \$14,227,000 as an enforceable obligation on ROPS 15-16B of the SARA, on September 24, 2015. The final payment of \$4,727,000 was made by the SARA in June 2018 and the obligation is paid in full.

City of San José
Notes to Basic Financial Statements
June 30, 2018

Parking Fund Loans – Effective February 1, 2012, all redevelopment agencies in the State of California were dissolved pursuant to AB XI 26, and with narrow exceptions, loans between cities and their redevelopment agencies were invalidated by AB XI 26, which was subsequently amended by AB 1484 and SB 107 (collectively, "Dissolution Legislation"). However, with the approval of AB 1484 in June 2012, certain loans may be reinstated as enforceable obligations of the Successor Agency contingent upon the following: 1) a finding by the California Department of Finance (DOF) that certain specified audits of the Successor Agency have been completed (evidenced by a Finding of Completion), and 2) a finding by the Countywide Oversight Board of the Successor Agency that these loans were for legitimate redevelopment purposes. If a loan is reinstated pursuant to these provisions of AB 1484, the loan terms need to be revised to conform to statutory criteria for interest calculations and repayment priorities.

The Parking Fund Loans were reinstated as enforceable obligations on ROPS 17-18 in accordance with Health and Safety Code Section 34191.4 (b) with Countywide Oversight Board approval on January 12, 2017. The DOF approved the Parking Fund Loans on March 28, 2017. Because the loans are reinstated City loans, the principal outstanding will accrue 3% simple interest and be paid on ROPS 19-20. As of June 30, 2018, the Parking Fund Loans have outstanding principal and accumulated accrued interest balance of \$13,528,000 and \$4,397,000, respectively.

Tax Sharing Agreement with the County of Santa Clara – Prior to 1994, the Redevelopment Law authorized redevelopment agencies to enter into tax sharing agreements with school districts and other taxing agencies to alleviate any financial burden or detriments to such taxing agencies caused by a redevelopment project. In 1983, the Agency and County entered into a tax sharing agreement ("Original Agreement") under which the Agency would pay a portion of tax increment revenue generated in the Merged Area (the "County Pass-Through Payment"). On December 16, 1993, the Agency, the County and the City entered into a settlement agreement, which continued the County Pass-Through Payment.

On May 22, 2001, the County, the City and the Agency approved an Amended and Restated Agreement (the "Amended Agreement"), which amended and restated the Original Agreement in its entirety. In addition to the continued Pass-Through Payment, the Amended Agreement delegated to the County the authority to undertake redevelopment projects in or of benefit to the Merged Area, and requires SARA to transfer funds to the County to pay for such projects (the "Delegated Payment"). Until June 30, 2004, the Delegated Payment was equal to the County Pass-Through Payment. After January 1, 2004, 20% of the proceeds of any debt secured by the Agency's Tax Increment Revenues (excluding bonds payable from Housing Set-Aside and refunding bonds) was required to be paid to the County as the Delegated Payment.

The Amended Agreement provides that the payments due to the County from the Agency are subordinate to all the SARA's debt. The County and SARA settled litigation related to the Amended Agreement in August 2017.

As of August 1, 2017, the outstanding past due pass-through owed to the County was \$2,627,000. For FY 2018, the pass-through amount owed plus the past due pass-through amount owed were paid in full from the January and June 2018 RPTTF distributions.

2011 Settlement Agreement – On March 16, 2011 the County, the Agency, and the City, along with the Diridon Authority, entered into a Settlement Agreement of a lawsuit filed by the County in which the County alleged, among other things, that the Agency had failed to make timely payment of the County Pass-Through Payment for FYS 2009, 2010, and 2011 in an aggregate amount, as of June 30, 2011, of \$58,270,000 ("2011 Settlement Agreement").

Pursuant to the 2011 Settlement Agreement, the Agency agreed to pay the County \$21,500,000 of tax-exempt bond proceeds by March 30, 2011, pay an additional \$5,000,000 of unrestricted funds,

City of San José
Notes to Basic Financial Statements
June 30, 2018

and transfer title to certain property to the County, resulting in a remaining amount of \$23,560,000 owed to the County. The Agency agreed to make payment in five installments no later than June 30 of 2014, 2015, 2016, 2017 and 2018.

As security for payments due to the County under the 2011 Settlement Agreement, the Agency also (i) executed and recorded for the benefit of the County, a subordinated Deed of Trust on various Agency-owned real estate assets, (ii) assigned to the County one-half (1/2) of the Agency sales proceeds from the sale of the North San Pedro properties under two separate Disposition and Development Agreements with private developers, and (iii) executed and recorded for the benefit of the County a Deed of Trust against the North San Pedro properties.

The SARA paid the outstanding balances of the 2017 and 2018 pass-through settlement obligations with proceeds from the sale of the North San Pedro Properties and the January 2018 RPTTF distribution. The principal and interest of \$9,424,000 and \$4,313,000, respectively, was paid in FY 2018 and the SARA has no further obligations under the 2011 Settlement Agreement.

Debt Service Requirements – The debt service requirements for all debt are based upon a fixed rate of interest, except HUD Section 108 Loans, which bear interest at variable rates. For purposes of calculating the annual debt service requirements for variable rate debt at June 30, 2018, the following assumed effective rate has been used:

Debt	Effective Interest Rate
HUD Section 108 Loans	2.53%

The annual requirements to amortize outstanding tax allocation bonds and other long-term debt outstanding at June 30, 2018, including mandatory sinking fund payments, are as follows (in thousands):

Year Ending June 30	Merged Tax Allocation		Obligations with 3rd Parties *		Obligations with the City		Total	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
2019	\$ 109,960	\$ 54,866	\$ 1,890	\$ 77	\$ 1,421	\$ -	\$ 113,271	\$ 54,943

*Paid in full in October 2018

Long-Term Reimbursement Agreement – When redevelopment property tax revenues are not sufficient to cover the SARA’s enforceable obligations, the City Council has committed other sources of funding to cover costs related to the following obligations: Education Revenue Augmentation Fund (“ERAF”) payments; and the SARA annual administrative budget and City support service expenses. On September 26, 2013 (as amended on August 27, 2015), the City and the SARA entered into an Amended and Restated Long-Term Reimbursement Agreement in order to establish an obligation for the SARA to repay the City for these advances.

Effective September 22, 2015, with the passage of SB 107, a city may loan funds to a successor agency that receives an insufficient distribution from the RPTTF and an enforceable obligation shall

City of San José
Notes to Basic Financial Statements
June 30, 2018

be deemed to be created for such loans. The receipt and use of such funds shall be reflected on the ROPS and subject to the approval of the Oversight Board. The interest payable on any such loan shall be calculated on a fixed annual simple basis at a rate not to exceed the most recently published interest rate for funds deposited into the Local Agency Investment Fund during the previous fiscal quarter. The repayment of such loan shall be subordinate to other approved enforceable obligations. Given the relevant provisions of SB 107, a reimbursement agreement is no longer necessary to establish the obligation to repay such loan.

5. Commitments and Contingencies Related to SARA

Risk Management

The SARA is exposed to various risks of loss related to torts, theft, damage to and destruction of assets, errors and omissions, general liabilities, workers' compensation, and unemployment claims for which the SARA carries a worker's compensation insurance policy, a property and casualty insurance policy, or is self-insured. Claim expenses and liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated using actuarial methods or other estimating techniques. The technique to estimate claims is based on many complex factors, such as inflation, changes in legal doctrines, past settlements, and damages awarded. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimated claims liability will include amounts of incremental claims adjustment expense related to specific claims.

The SARA does not have any claims liabilities outstanding at June 30, 2018.

Environmental Land Remediation Obligation

During the year ended June 30, 2010, a review of the property currently held by SARA, revealed that there was no current pollution remediation required based on their current uses (i.e. surface parking and other uses), except the Miraido property and Convention Center South Hall Site as discussed below. In the unlikely possibility, given dissolution, a land remediation obligation occurs on a property due to a change in the purpose (i.e., convert to housing or retail project), the SARA will prepare estimates and comply with the provisions of GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*.

Miraido Property - On December 2, 2010, the Agency received a Notice of Responsibility from the County for soil remediation at the Miraido Village Site located at 520 North 6th Street in San José. The Agency, as owner of the underlying land, leased the site under a ground lease (the "Ground Lease") to the Japantown Development Limited Partnership ("Miraido"). Miraido constructed an apartment complex on the Ground Lease site. The Agency received a Notice of Responsibility as an additional responsible party. The cleanup process is currently underway with Miraido's consultant working with the Santa Clara County Department of Environmental Health on finalizing the details of the cleanup process.

Miraido was responsible for all cleanup activities under its Ground Lease with the Agency. Miraido's consultant has estimated that the cost to achieve case closure is approximately \$450,000 at Miraido's cost, with which the SARA's consultant concurs. Under the Ground Lease, Miraido was required to indemnify the SARA if the SARA incurs any costs as a result of the condition of the property.

The Miraido Property was sold in "as-is" condition in July 2017.

Convention Center South Hall Site – The South Hall Site is contaminated with gasoline and diesel products. The San Francisco Regional Water Quality Control Board ("Regional Board") has requested a Site Management Plan be prepared for the site. The Regional Board also requested a residential deed restriction be placed on the South Hall Site. A Phase I and Phase II study of the South Hall Site was prepared for the Agency indicating site contamination. There are no immediate

City of San José
Notes to Basic Financial Statements
June 30, 2018

plans to prepare a Site Management Plan. The extent and cost of mitigating the contamination is unknown.

The South Hall Site was sold in “as-is” condition on October 10, 2018.

Arbitrage Obligation

The SARA paid positive arbitrage owed to the Internal Revenue Service from the SARA Refunding Bonds Series 2017 A-T proceeds from the cost of issuance account in December 2017. The total amount paid was \$3,889,000. Positive arbitrage was earned from RDA 1999 Tax Allocation Bonds (\$3,879,000) and RDA 1996 Subordinate Tax Allocation Bonds Series AB (\$10,000).

Contractual Commitments

At June 30, 2018, the SARA had \$750,000 for contracted obligations and commitments. In addition, the SARA has unpaid contractual obligations in the amount of \$1,375,000.

Litigation Against County Auditor-Controller SARA

The City, on its own behalf, and the SARA filed a lawsuit on June 26, 2012, entitled *City of San Jose as Successor Agency to the San Jose Redevelopment Agency v. Vinod Sharma, County of Santa Clara, et al.*, Case No. 34-2012-8000190, in the Superior Court for Sacramento County (“PERS Levy Lawsuit”). The suit sought to compel the County Auditor-Controller to disburse funds to the SARA, which the Agency previously received as tax increment. In June 2012, the County began withholding a portion of defined tax increment claiming the withheld amounts were special levies, including a contribution to the County’s employees’ retirement program (the “PERS Levy”) and a levy for the benefit of the Santa Clara Valley Water District (the “Water District Levy”). The County asserted that, although it previously disbursed these funds to the Agency as tax increment, the Agency was never entitled to receive funds attributable to these levies. The lawsuit also sought to determine the priority of the County’s pass-through payments under the Amended Agreement.

The Sacramento Superior Court ruled that the County Auditor-Controller could not withhold funds attributable to the PERS Levy from the SARA and the Redevelopment Dissolution Law did not require the County to subordinate its pass-through payments to any Agency debt other than secured bond debt. The Superior Court did not rule on the Water District Levy.

In August 2017, the SARA, the City, and the County entered into a settlement Agreement resolving the PERS Levy Lawsuit (“2017 Settlement Agreement”). At the time the 2017 Settlement Agreement was entered into by the parties, the County was holding \$31,866,000 attributable to the PERS Levy and the Water District Levy. Pursuant to the 2017 Settlement Agreement, the City was reimbursed \$12,898,000 for the debt-related SARA expenses paid in FY 2012-2015, the Santa Clara Valley Water District was paid \$312,000 for the AB1290 portion, and the remaining \$18,656,000 was used to pay down the County pass-through obligations as of June 30, 2017.

City of San José
Notes to Basic Financial Statements
June 30, 2018

D. Subsequent Events

1. Tax and Revenue Anticipation Note

On July 2, 2018, the City entered into a Note Purchase Agreement with Bank of America, N.A. (the “Bank”) under which the Bank agreed to purchase the City’s short-term note in the full principal amount of \$150,000,000 (the “2018 Note”) in accordance with the terms of the Note Purchase Agreement. The transaction was needed for cash flow borrowing purposes to facilitate the prefunding of the City’s retirement contributions. Pursuant to the Note Purchase Agreement, the City issued and the Bank purchased the 2018 Note bearing interest at a variable interest rate based on a LIBOR index, plus a margin of 0.32% for Bank fees. Under the Note Purchase Agreement, at the City’s option on any interest payment date, the City may prepay the 2018 Note in whole or in part, with partial prepayment of principal of not less than \$5,000,000 and in \$1,000,000 increments in excess thereof. Security for repayment of the 2018 Note is a pledge of the City’s FY 2019 secured property tax revenues (excluding property taxes levied for general obligation bonds) and all other legally available General Fund revenues of the City, if required. The 2018 Note has a stated maturity of June 28, 2019.

2. City of San José Ballot Measures T and V

On August 10, 2018, the City Council approved resolutions which called for the submission to the electors of the City of San Jose in the next general election to be held on November 6, 2018, consideration of two ballot measures authorizing the issuance of general obligation bonds.

MEASURE T. Disaster Preparedness, Public Safety, and Infrastructure Bond – A ballot measure proposal calling for the issuance of \$650 million General Obligation Bonds for the acquisition, construction, and completion of certain municipal improvements.

MEASURE V. Affordable Housing Bond – A ballot measure proposal calling for the issuance of \$450 million General Obligation Bonds for the acquisition, construction, and completion of affordable housing in the City of San Jose.

Under State law, the Santa Clara County Registrar of Voters must complete the canvass of the vote and certify and submit the election results to the County Board of Supervisors by December 6, 2018. As of the date of this document, the Santa Clara County Registrar of Voters has not completed the ballot counting for Measures T and V. From the ballots counted to date, the votes cast in favor of Measure T exceed the two-thirds margin for approval and the votes cast in favor of Measure V are less than the required two-thirds margin.

3. Proposed Sale of Hayes Mansion

On August 7, 2018, the Financing Authority signed a Purchase and Sale Agreement (PSA) with JMA Venures, LLC, a Delaware limited liability company, to sell and transfer certain improved real property commonly known as the Hayes Mansion, and related rights, personal property, and intangible property. Concurrent with the closing of the sale of the Hayes Mansion to the Purchaser, the Financing Authority intends to transfer the property to the City and the City will consummate the sale of the Hayes Mansion to the Purchaser for a purchase price of \$30,000,000 plus amounts to be determined in accordance with the PSA for the accounts receivable and food and beverage inventory and less the amount of the closing costs allocated to City under the PSA. On November 6, 2018, the City Council adopted a resolution authorizing staff to negotiate certain amendments to the terms of the PSA to facilitate Purchaser’s property approval and continue toward the close of escrow and completion of the Hayes Mansion sale.

City of San José
Notes to Basic Financial Statements
June 30, 2018

There are various milestones which the Purchaser must meet including: reviewing and approving all information related to the property, to conduct and approve various property inspections, obtain an Alcoholic Beverage License (ABC License), and fully execute collective bargaining agreements with the labor unions before the escrow close. Since executing the PSA, the Purchaser has worked diligently in good faith toward the purchase of the property, achieving several milestones, and investing considerable amount of time and funds into vetting the property and its investment suitability. Per PSA, the parties intend to complete the transfer at closing that is scheduled to occur in January 2019. The Purchaser shall have the right to extend the date of closing for a period up to 60 days until February 28, 2019 in the event they are unable to obtain the ABC License and collective bargaining agreement.

Ultimately, completing the proposed sale of Hayes Mansion will allow the City to eliminate all outstanding long-term bond debt against the property and eliminate the ongoing General Fund subsidy for debt service, which ranged from \$2,000,000 to \$6,000,000 per year since 2003.

4. Successor Agency to the Redevelopment Agency of the City of San José

On August 28, 2018, the SARA sold property commonly known as Block D to TM San Jose 78, LLC for \$1,585,000. At the close of escrow, the net sale proceeds of \$1,576,000 were remitted to the County Auditor-Controller and were subsequently distributed to the appropriate local taxing entities per the Health and Safety Code.

On September 19, 2018, the SARA sold property commonly known as Block E to First American Exchange Company, LLC as Qualified Intermediary for San Pedro Life I, LLC for \$4,705,000. At the close of escrow, the net sale proceeds of \$4,690,000 were remitted to the County Auditor-Controller and were subsequently distributed to the appropriate local taxing entities per the Health and Safety Code.

On September 27, 2018, the SARA sold property commonly known as Blocks B/F to 171 W. Julian Street Apartments Investors LLC for \$10,289,000. At the close of escrow, the net sale proceeds of \$10,259,000 were remitted to the County Auditor-Controller and were subsequently distributed to the appropriate local taxing entities per the Health and Safety Code.

On October 9, 2018, the SARA sold one property (490 South 1st Street) to San Jose Stage Company for \$2,300,000. At the close of escrow, the net sale proceeds of \$2,292,000 were remitted to the County Auditor-Controller and were subsequently distributed to the appropriate local taxing entities per the Health and Safety Code.

On October 10, 2018, the SARA sold one property (Convention Center South Hall Site) to the City for \$47,000,000. The property was used as collateral for several HUD loans associated with the former Agency and the HUD loans (\$16,310,000 principal plus \$82,000 accrued interest) were paid in full at closing. The net sale proceeds of \$30,594,000 were remitted to the County Auditor-Controller and were subsequently distributed to the appropriate local taxing entities per the Health and Safety Code.

5. City of San José Financing Authority Lease Revenue Commercial Paper Notes

On August 28, 2018, State Street Bank and Trust Company (“State Street”) and U.S. Bank National Association (“U.S. Bank” and together the “Banks”) each issued its direct-pay letter of credit (“LOC”) in the maximum available amount of \$67,123,000 (the “Stated Amount”) (to cover principal of \$62,500,000 and interest on the Financing Authority’s Lease Revenue Commercial Paper Notes at a rate of 10% for 270 days based on a 365 day year) with a term expiring on February 23, 2022, unless sooner terminated or extended pursuant to the terms of each LOC. Each Bank issued its

City of San José
Notes to Basic Financial Statements
June 30, 2018

respective LOC pursuant to an amendment to the Letter of Credit and Reimbursement Agreement, as previously amended, by and among the City, the Financing Authority and each Bank. In connection with each Bank's issuance of its LOC, other agreements governing the Financing Authority's Lease Revenue Commercial Paper Notes were amended, including the Amended and Restated Trust Agreement between the Financing Authority and Wells Fargo Bank, N.A. as previously amended and supplemented and the sublease between the Financing Authority and the City, as previously amended and the City, the Financing Authority and each Bank entered into a Fee Letter agreement. The increase to the stated amount of each LOC was for the purpose of increasing the principal amount of the Financing Authority's Lease Revenue Commercial Paper Notes from \$85 million to \$125 million in order to finance the City's acquisition of the Convention Center - South Hall property described in Note IV.D.4.

6. Clean Energy Revolving Credit Agreement

On September 25, 2018, the City Council authorized the City Manager, the Director of Finance, the Assistant Director of Finance or their authorized designees to negotiate, execute, and deliver a Revolving Credit Agreement ("Credit Agreement") by and between the City and Barclays Bank PLC (the "Bank"), and a promissory note, evidencing the City's obligations thereunder. The Credit Agreement provided for a credit facility (the "Credit Facility") consisting of a revolving line of credit facility (the "Revolving Line of Credit") and a standby letter of credit facility (the "Standby Letter of Credit Facility"). Under the terms of the Credit Agreement, the Bank committed to (i) make loans on a revolving basis under the Revolving Line of Credit in an aggregate principal amount not to exceed \$20 million at any time outstanding for a period of three (3) years from the date of the Credit Agreement is executed and delivered by the City (or November 27, 2021, assuming an effective date of November 27, 2018), and (ii) issue standby letters of credit under the Standby Letters of Credit Facility in an aggregate principal amount not to exceed \$35 million for a period of five (5) years from the date the Credit Agreement is executed and delivered by the City (or November 27, 2023, assuming an effective date of November 27, 2018), provided that the aggregate principal amount outstanding under the Revolving Line of Credit and amounts available to be drawn under Standby Letters of Credit issued by the Bank do not exceed \$50,000,000 at any one time outstanding.

Advances under the Revolving Line of Credit and Standby Letters of Credit issued by the Bank under the Credit Agreement will permit City of San José's Clean Energy program ("SJCE") to enter into power contracts and provide collateral for power purchase agreements during the ramp-up phases of the SJCE. Advances under the Revolving Line of Credit would also be used to fund start-up and long-term costs for working capital associated with the operation of SJCE, including the purchase of electrical power. The City's obligation to repay the advances under the Revolving Line of Credit and Standby letters of Credit are secured solely from revenues of SJCE.

7. Norman Y. Mineta San José International Airport

In September 2018, the City substituted the letter of credit supporting the Norman Y. Mineta San José International Airport Subordinated Commercial Paper Notes issued by Barclays Bank PLC with a letter of credit issued by Bank of America, N.A. ("BofA"). (See Note III.F.3). Pursuant to a Letter of Credit and Reimbursement Agreement between the City and BofA, BofA issued its irrevocable transferrable letter of credit in the initial stated amount of \$81,658,000 (to cover principal of \$75,000,000 and interest on the Subordinated Commercial Paper Notes accruing calculated at a rate of 12% for 270 days based on a 365 day year) that is scheduled to expire on September 10, 2021 unless sooner terminated or extended pursuant to its terms. The \$75 million principal amount of the letter of credit issued by BofA is larger than the \$38 million principal amount of the letter of credit issued by Barclays and was secured in order to provide additional capacity for the issuance of the Subordinated Commercial Paper Notes to finance proposed terminal area projects. In connection

City of San José
Notes to Basic Financial Statements
June 30, 2018

with BofA's issuance of its LOC, other agreements governing the Norman Y. Mineta San José International Airport Subordinated Commercial Paper Notes were executed, including the First Amendment to the Third and Amended and Restated Issuing and Paying Agreement between the City and U.S. Bank National Association and the Fourth Amended and Restated Dealer Agreement between the City and each of the dealers of the notes and a Fee Letter between the City and BofA.

The ratings of the outstanding Airport Subordinated Commercial Paper Notes, are "A-1", "P-1", and "F1+" by S&P, Moody's, and Fitch, respectively, based on the credit support provided by BofA pursuant to its LOC.

After fiscal year end 2018, Air China, Lufthansa, and Aeromexico airlines discontinued service from the Airport. Air China stopped service to Shanghai effective September 25, 2018, Lufthansa will cancel service to Frankfurt effective October 27, 2018, and Aeromexico will discontinue service to Guadalajara effective January 8, 2019. In FY 2018, the passengers that took flights on Air China, Lufthansa and Aeromexico airlines represented 1.6% of the total passengers that travelled through the Airport during the fiscal year. The Airport does not believe that the departure of these carriers will have a material impact on the operations or financial results of the Airport.

Schedule of Employer Contributions – Postemployment Healthcare Plans

PFDRP Schedule of Employer Contributions
(Dollar Amounts in Thousands)
Last Ten Fiscal Years*

Fiscal Year Ended June 30	2018	2017
Actuarially Determined Contribution (ADC)	\$ 25,382	\$ 20,667
Contribution in relation to the ADC	(25,382)	(20,667)
Contribution deficiency (excess)	\$ -	\$ -
Covered payroll	\$ 203,164	\$ 188,177
Contribution as a percentage of covered payroll	12%	11%

**Actuarial methods and assumption used to set the actuarially determined contributions for Fiscal Year 2018 were from the June 30, 2016 actuarial valuation.*

Actuarial Cost Method	Entry Age normal, level of percent of pay
Amortization Method/Period	30 years, level percent of pay
Asset Valuation Method	5 year smoothed market with a 80% to 120% market value corridor Merit component added based on an individual's year of service ranging from 6.75% to 1.00%
Payroll Growth	3.25%
Investment Rate of Return	6.875% per annum
Health cost-trend rates	Future medical inflation assumed to be at a rate of 8.5% to 4.25% per annum graded down over a 14 year period for medical-pre age 65 and 6.5% to 4.25% per annum graded down over 14 year period for medical-post age 65. Dental inflation is assumed to be 4.00%
Retirement Age	<ol style="list-style-type: none"> 1. Employees who retire with at least 15 years of service with the City, or with a monthly pension equal to at least 37.5% of final compensation. 2. Tier 1 employees (hired before August 4, 2013) are eligible for unreduced service retirement at age 55 with 20 years of service, age 50 with 25 years of service, age 70 with no service requirement, or any age with 30 years of services. Reduced service retirement is available at age 50 with 20 years of service. 3. Tier 2 employees (hired on or after August 4, 2013) are eligible for unreduced service retirement at age 60 with 10 years of service or reduced service retirement at age 50 with 10 years of service. 4. Service credited through reciprocity agreements counts towards an employee's required service to retire, but only service with the City counts towards the required years of service to receive OPEB benefits. 5. Employees who become disabled with at least 15 years of service or have a monthly pension equal to at least 37.5% of final compensation are eligible to elect medical coverage upon retirement. 6. Spouses or domestic partners of retired members are allowed to participate if they were enrolled in the City's medical plan at the time of the member's retirement. Dependent children are eligible to receive coverage until the age of 26. 7. Employees who separate from service after July 5, 1992 with 20 years of service, leaving contributions in the retirement plan, are eligible to elect medical and/or dental coverage upon retirement.
Mortality	Mortality rates for actives, retirees, beneficiaries, terminated vested, and reciprocals are based on the sex-distinct employee and annuitant mortality tables. For male and female, it is based on 0.948 and 1.048 respectively times the CALPERS 2009 Healthy Annuitant Mortality Table under the category of Healthy Annuitant and Healthy Non-Annuitant. For Male and Female under Disabled Annuitant, it is 0.903 times the CALPERS 2009 Industrial Disability Mortality Table. Future mortality improvements are reflected by applying SOA MP-2015 projection scale on a generational basis from the base year of 2009.

FCERS Schedule of Employer Contributions
(Dollar Amounts in Thousands)
Last Ten Fiscal Years*

Fiscal Year Ended June 30	2018	2017
Actuarially Determined Contribution (ADC)	\$ 32,397	\$ 31,905
Contribution in relation to the ADC	(32,397)	(31,905)
Contribution deficiency (excess)	\$ -	\$ -
Covered payroll	\$ 290,504	\$ 271,153
Contribution as a percentage of covered payroll	11%	12%

*Actuarial methods and assumption used to set the actuarially determined contributions for Fiscal Year 2018 were from the June 30, 2016 actuarial valuation.

Methods and assumptions used to determine contributions:

Actuarial Cost Method	Entry Age normal cost method, level percent of pay
Amortization Method/Period	Level dollar
Asset Valuation Method	Market value
Merit increase	The assumption of 2.85% wage inflation plus a rate increase for merit/longevity increase based on years of service ranging from 4.50% at hire to 0.25% for members with 14 or more years of service.
Payroll Growth	2.85%
Investment Rate of Return	6.875% per annum
Health cost-trend rates	The valuation assumes that future medical inflation will be at a rate of 8.5% to 4.25% per annum graded down over a 15 year period for medical-pre age 65 and 6.5% to 4.25% per annum graded down over a 14 year period for medical-post age 65.
Retirement Age	Dental inflation is assumed to be 4.00% 1. Employees who retire with at least 15 years of service with the City, or with a monthly pension equal to at least 37.5% of final compensation, are eligible to elect medical coverage upon retirement. 2. Tier 1 employees (hired before September 30, 2012) are eligible for retirement at age 55 with five years of service or at any age with 30 years of service. 3. Tier 2 employees (hired on or after September 30, 2012) are eligible for unreduced service retirement at age 65 with five years of service or reduced service retirement at age 55 with five years of service. 4. Service credited through reciprocity agreements counts towards an employee's required service to retire, but only service with the City counts towards the required years of service to receive OPEB benefits. 5. Employees who retire with less than 15 years of service can elect coverage, but receive no explicit subsidy. 6. Spouses or domestic partners of retired members are allowed to participate if they were enrolled in the City's medical plan at the time of the member's retirement. Dependent children are eligible to receive coverage until the age of 26. 7. Employees who become disabled with at least 15 years of service or have a monthly pension equal to at least 37.5% of final compensation are eligible to elect medical coverage upon retirement.
Mortality	Mortality rates for actives, retirees, beneficiaries, terminated vested, and reciprocals are based on the sex-distinct employee and annuitant CalPERS tables. For male and female, it is 0.952 and 0.921 respectively times the CalPERS 2009 Healthy Annuitant, 0.919 and 0.918 respectively times the CalPERS 2009 Employee Mortality Table for Healthy Non-Annuitant, and 1.051 and 1.002 respectively times the CalPERS 2009 Ordinary Disability Mortality Table for Disabled Annuitant. The CalPERS tables are from their 2014 experience study with a central experience year of 2009 and prior to the 20 year projection of those rates using Scale BB. Future mortality improvements are reflected by applying SOA MP-2015 projection scale on a generational basis from the base year of 2009.

Schedule of Investment Returns – Postemployment Healthcare Plans

	PFDRP	
	2018	2017
Annual money-weighted rate of return, net of investment expense	3.56%	7.17%

	FCERS	
	2018	2017
Annual money-weighted rate of return, net of investment expense	4.55%	7.20%

The rate shown above is based on the 115 subtrusts only and does not include the 401(h). Schedules are intended to show information for 10 years. Additional years will be displayed as they become available.

City of San José
Notes to Required Supplementary Information (Unaudited)
June 30, 2018

I. Budgetary Information

The adopted budget represents the financial and organizational plan by which the policies and programs approved by the City Council will be implemented. It includes: (1) the programs, projects, services and activities to be provided during the fiscal year; (2) estimated revenues available to finance the operating plan; and (3) the estimated spending requirements of the operating plan. The City Charter requires that the City establish a budgetary system for general operations and prohibits expending funds for which there is no legal appropriation.

The annual appropriation ordinance adopts the budget at the appropriation level by expenditure category (personal services, nonpersonal) within departments. Accordingly, the lowest level of budgetary control exercised by the City Council is the appropriation level within a department. The City's legal level of budgetary control is so detailed that it is not practical to demonstrate compliance within the Comprehensive Annual Financial Report itself. As a result, the City prepares a separate report to demonstrate compliance with its legal level of budgetary control.

Annual budgets are prepared for the General Fund and all Special Revenue Funds. Capital project budgets are based on a project time frame rather than a fiscal year time frame. Debt Service Funds appropriations were adopted by the Council when the formal bond resolutions were approved. Therefore, Capital Project Funds and Debt Service Funds are not reported on budgetary basis.

II. Budgetary Results Reconciled to GAAP

The budgetary process is based upon accounting for certain transactions on a basis other than the accounting principles generally accepted in the United States ("GAAP") basis. The results of operations are presented in the accompanying budget and actual comparison schedules in accordance with the budgetary process ("budgetary basis") to provide a meaningful comparison with the budget.

The major differences between the budgetary basis actual and GAAP basis are as follows:

- Year-end encumbrances are recognized as the equivalent of expenditures in the budgetary basis financial schedules, while encumbered amounts are not recognized as expenditures on GAAP basis until the equipment, supplies or services are received.
- Certain loan transactions are recognized as expenditures for the budgetary basis but not for the GAAP basis. When these loans are made, they are recorded as receivables on a GAAP basis and as expenditures on a budgetary basis. When loan repayments are received, they are recorded as reductions to receivables on a GAAP basis, but are recognized as revenues on a budgetary basis.
- Net decreases were made to certain GAAP basis loans receivable to reflect carrying amounts at a discounted present value and allowances for bad debts. The discount is treated as an expenditure on a GAAP basis and is not included in the budgetary basis financial statements. In addition, the allowance for bad debts is not included in the budgetary basis financial schedules, but is an expenditure on a GAAP basis.
- Certain advances to the SARA are recognized as expenditures for the budgetary basis but not for the GAAP basis. When these advances are made, they are recorded as receivables on a GAAP basis and as expenditures on a budgetary basis. When repayments are received, they are recorded as reductions to advances to the SARA on a GAAP basis, but are recognized as revenues on a budgetary basis.

City of San José
Notes to Required Supplementary Information (Unaudited)
June 30, 2018

- Certain accounts such as the change in fair value of investments included in the City's GAAP basis amounts, for which no formal budgets are prepared, are excluded from the budgetary basis financial schedules.
- The Community Facility Revenue nonmajor special revenue fund has been blended to include the financial operations of the Dolce Hayes Mansion. Formal budgets are not prepared for this financial activity and is excluded from the budgetary basis financial schedules.
- Certain line of credit transactions are recognized as expenditures in the budgetary basis financial schedules but are recorded as an asset in the GAAP basis financial statements. When the outside agency draws down on the line of credit, the City records an asset, advances to other agencies, in the GAAP basis financial statements and an expenditure on the budgetary basis financial schedules. When the outside agency pays down the line of credit, the City records a reduction to its assets in the GAAP basis financial statements and revenues on the budgetary basis financial schedules.
- Certain grant revenues received in advance are recognized on the budgetary basis financial schedules, but are deferred and not recognized as revenue on the GAAP basis financial statements. This process normally creates a variance in recognized revenue from the prior year to the current year.

III. Budget Revisions

On October 16 2018, the City Council approved certain fiscal year 2018 budget revisions that increased appropriations for various expenditure categories. The budget amounts presented in the accompanying schedules of revenues, expenditures and changes in fund balances - budget and actual reflect such budget revisions.

Nonmajor Special Revenue Funds

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

The Special Revenue Funds of the City of San José include the following:

Prusch Memorial Park Fund – Established to account for the development, construction, and improvement of the Emma Prusch Memorial Park.

Gift Trust Fund – Established to receive gifts, donations, and bequests.

Workforce Investment Act Funds – Established to account for federal funds for training and placement of dislocated and economically disadvantaged workers.

Special Assessment Maintenance Districts Funds – Established to account for assessments involving Maintenance District activities.

Ng Shing Gung Capital Maintenance Fund – Established to account for capital maintenance needs of the Ng Shing Gung Exhibit and Museum.

Subdivision Park Trust Fund – Established to account for the payment of fees and/or the dedication of land for parks and recreational purposes in residential subdivisions.

Construction and Property Conveyance Tax Funds – Established to account for the collection of taxes from construction and property transfers for capital maintenance of libraries, parks, recreational, public works, and communication facilities.

1943 and 1964 Gas Tax Maintenance and Construction Funds – Established to account for gas taxes collected for capital maintenance of public streets subject to provisions of the Streets and Highway Code of the State of California under Sections 2105, 2106, and 2107.

Storm Drainage Fee Funds – Established to account for fees collected from developers as a result of connections to the storm drainage sewer system which may be used for capital maintenance of storm drainage systems and for land acquisition for such systems.

Supplemental Local Law Enforcement Fund – Established to account for revenues received from the State of California (AB 3229) to be used for front line municipal police service.

Underground Utility Fund – Established to account for fees collected from developers in lieu of the developers placing certain utility facilities underground to be used for minimizing the piecemeal undergrounding of utility facilities throughout the City.

State Drug Forfeiture Fund – Established to account for State drug forfeiture monies received pursuant to California Health and Safety Code Section 11489.

Library Parcel Tax Fund – Established to account for the annual parcel tax used for enhancing the City's library services and facilities.

Federal Drug Forfeiture Fund – Established to account for Federal drug forfeiture monies received pursuant to the drug abuse prevention and control provisions of Title 21, Chapter 13 of the United States Code.

Nonmajor Special Revenue Funds

Residential Construction Tax Contribution Fund – Established to account for the accumulation of residential construction tax monies for eligible street maintenance and improvements.

Arterial and Major Collectors Fund – Established to account for funds repaid by abutting landowners for the City's capital maintenance costs of existing and proposed arterial and major collector streets.

Community Facility Revenue Funds – Established to account for the rental revenues received from the Hayes Mansion and the Ice Centre operations, and to provide for the accumulation and transfer of base rental income to the appropriate debt service funds for repayment of the facilities-related debts.

Integrated Waste Management Fund – Established to account for activities related to the Integrated Waste Management Program which includes garbage collection, recycling services, and related billing operations.

Building and Structures Construction Tax Fund – Established to account for revenues received from the issuance of building permits and capital maintenance expenditures for existing and proposed City streets.

Development Enhancement Fund – Established to account for loans and loan guarantees to assist small business development.

Community Development Block Grant Fund – Established to account for Federal grant funds received from the U.S. Department of Housing and Urban Development under Title II of the Housing and Community Development Act of 1974.

Economic Development Administration Loans Fund – Established to account for Federal funds received for the Economic Development Administration Loan program for eligible administrative expenses and loans to small businesses.

Storm Drainage Service Use Charge Funds – Established to account for revenues collected from owners of properties benefited by the storm drainage service which may be used for capital maintenance and operation of the storm drainage system.

Transient Occupancy Tax Fund – Established to account for transient occupancy tax revenues and to provide for the funding of fine arts and cultural grant programs, the San José Convention and Visitors Bureau and the conventions and cultural facilities operation.

Lake Cunningham Fund – Established to account for the parking fees and lease payment revenues used for maintenance and operations at Lake Cunningham Park.

Edward Byrne Memorial Justice Funds – Established to account for Federal funding in support of the Edward G. Byrne Memorial Justice Assistance grant.

Municipal Golf Courses Fund – Established in 1969 to manage and operate the public golf courses.

Convention and Cultural Facilities Funds – Established to fund the costs of managing and operating the San José McEnery Convention Center, the Center for the Performing Arts, Civic Auditorium, California Theatre, Montgomery Theater, Parkside Hall, South Hall, and their related facilities and grounds.

Internal Service Funds

Internal Service Funds are used to account for the exchange of benefits within the City's funds or departments on a cost reimbursement basis.

Public Works Programs Support Fund – Established to account for Public Works Department administrative services provided to City-wide capital programs and certain other Public Works operating divisions.

Employee Benefits Funds – Established to account for the cost of funding the City's portion of employee fringe benefits.

Vehicle Maintenance and Operations Funds – Established to account for the purchase and maintenance of City vehicles and the cost of operating a maintenance facility for equipment used by other City departments for repairs, demolition, or other abatement of dangerous buildings.

Trust and Agency Funds

Trust and Agency Funds are used to account for assets held by a governmental unit in a trustee capacity and/or as an agent for individuals, private organizations, other governmental units, and/or other funds. These include pension trust funds, private purpose trust funds, and agency funds.

Federated City Employees' Retirement System Funds – Established to account for the accumulation of resources to be used for retirement annuity and postemployment healthcare payments to all full-time and some eligible part-time City of San José employees, except members of the Police and Fire Department Retirement Plan.

Police and Fire Plan Funds – Established to account for the accumulation of resources to be used for retirement annuity and postemployment healthcare payments to all sworn members of the City of San José's Police and Fire departments.

James Lick Private Purpose Trust Fund – Established to account for resources legally held in the trust for use towards the support of the Eastfield Ming Quong (EMQ) Families First Agency. All resources of the fund, including any earnings on invested resources, are used to support the organization's activities.

Successor Agency to the Redevelopment Agency Private Purpose Trust Fund – Established to make payments on the former Redevelopment Agency of the City of San José's "enforceable obligations" and to wind down the activities of the former Agency through the sale and disposition of assets and properties.

Arena Capital Reserve Fund – Established to account for Arena Facilities monies that will be used to budget and defray Arena Facilities expenditures relating to capital maintenance repairs and replacement for the San José Arena (SAP Center at San José).

Statistical Section

Statistical Section

Statistical Section

This section of the comprehensive annual financial report for the City of San José presents detailed information as a context to the information presented in the financial statements, note disclosures, and required supplementary information and to provide a framework to assess the economic condition affecting the City of San José.

GASB issued Statement No. 44, *Economic Condition Reporting; The Statistical Section – an amendment of NCGA Statement 1*. This statement amends the portions of NCGA Statement 1, *Governmental Accounting and Financial Reporting Principles*, that guide the preparation of the statistical section. The statistical section presents detailed information, typically in ten-year trends, that assists users in utilizing the basic financial statements, notes to basic financial statements, and required supplementary information to assess the economic condition affecting a government.

The dissolution of the former Agency on February 1, 2012 had a significant impact on the presentation of funds in the City's governmental fund financial statements and government-wide financial statements which affects the statistical data. Most notably, transfers of assets and long-term debt of the former Agency to SARA affected the ratios of outstanding debt for the governmental activities in Schedules IX and X.

Contents	Schedule
Financial Trends	I - IV
<i>These schedules present trend information to help the reader understand the City's financial performance and condition.</i>	
Revenue Capacity	V - VIII
<i>These schedules contain information regarding property tax, the City's most significant local revenue source.</i>	
Debt Capacity	IX - XIII
<i>These schedules present information regarding the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	XIV-XVI
<i>These schedules illustrate demographic and economic indicators to provide a context for understanding and assessing the City's financial activities.</i>	
Operating Information	XVII-XIX
<i>These schedules contain service and infrastructure data related to services the City provides and the activities it performs.</i>	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note: (1) For fiscal year ended June 30, 2009, the Airport reclassified certain components of net position from restricted to unrestricted to conform with the provisions of its Airline Lease Agreement and Master Trust Agreement. The reclassifications do not have an effect on the financial position or changes in financial position. As a result, this schedule was not adjusted to reflect these reclassifications for prior fiscal years.

(2) The increase in net investment in capital assets as of June 30, 2012, was primarily due to long-term obligations of the former Agency totaling \$2.313 billion that were transferred to SARA.

(3) Due to the GASB Statement No. 65 implementation during the year ended June 30, 2013, net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources as of June 30, 2013. Prior to July 1, 2012, net position represents the difference between assets and liabilities. The City did not retroactively restate the net position related to the implementation of GASB Statement No. 65.

(4) The decrease in net position as of June 30, 2015, was primarily due to the recording of the City's net pension liability in accordance with the GASB Statement Nos. 68 and 71.

Note: The City made some changes to this schedule effective fiscal year 2011.

(1) The City implemented GASB 54, "Fund Balance Reporting and Governmental Fund Type Definitions", beginning fiscal year 2011. Certain data required by GASB 54 was not readily available for years prior to 2010. The City of San José has elected to show two years of data prior to GASB 54 implementation, and nine years of data incorporating GASB 54 for this schedule.

(2) The retrospective 2010 information is provided to show comparable information as if GASB 54 were implemented in fiscal year 2010.

Note:

In 1978, the voters of the State of California passed Proposition 13 which limited property taxes to a maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only reassessed at the time that it is sold to a new owner. At that point, the value of the property is reassessed at the purchase price of the property sold. The assessed valuation data shown above represents the data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Note:

1. The above tax rates are applied per \$100 of assessed valuation.
2. In 1978, California voters passed Proposition 13 which sets the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within as broken down in the pie chart above. In addition to the 1.00% fixed amount, the property owners are charged taxes as a percentage of assessed property values for the payment of school district bonds.

Note: Total Outstanding General Debt excludes special assessment, special tax bonds, capital leases, and notes and loans payable.

- (1) Decrease in General Bonded Debt Per Capita primarily due to Tax Allocation and Revenue bonds issued by the former Agency being transferred to SARA at February 1, 2012.
- (2) Due to the dissolution of former Redevelopment Agency. Tax Allocation Bonds were transferred to SARA at February 1, 2012.
- (3) Prior to FY2016, the Total Outstanding General Debt was restated to exclude "Lease revenue bonds" and "Revenue bonds".
- (4) Effectively 2017, Net General Bonded Debt is used to calculate ratio. Prior to FY 2016, the ratio of Net General Bonded Debt to Net Assessed Value and Net General Bonded Debt per Capita were restated.

Total Direct and Overlapping Debt			\$ <u>4,211,797</u>

Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses in the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping government. The City direct debt in this schedule includes bonds, notes, certificate of participation, loans, and capital leases.

(1) Includes operating and other revenues and prior year's surplus, excludes Passenger Facility Charges and other items as defined in the Master Trust Agreement.

(2) Includes operating expenses less depreciation and expenses paid from sources other than General Airport Revenues.

(3) Debt coverage is calculated by dividing net revenue available for debt service by total debt service requirements.

(4) Under the Master Trust Agreement, the City may designate Passenger Facility Charges as "Available Passenger Facility Charges" for payment of eligible debt services. The amount of Debt Service is reduced by amount Available Passenger Facility Charges designated by the City and deposited with Trustee to pay Debt Service. Beginning 2009 - 2010, debt service requirements calculation excludes Passenger Facility CI

(5) The City has covenanted in the Master Trust Agreement that net revenues available to pay debt service will be at least 125% of annual debt service for each fiscal year.

(6) Fiscal year 2015 Operating Expenses were revised to exclude expenses related to GASB Statement No. 68.

(7) Other Available Funds includes Rolling Coverage Amount, uncommitted monies in the General Revenue Fund from the prior fiscal year, unspent bond proceeds in FY12 through FY17, and CFC Revenues, in an amount not to exceed the amount of eligible debt service and transportation costs.

(8) Other Available Funds was restated to include CFC revenues available for debt service not to exceed the amount of CFC eligible debt service and transportation costs.
