M I S S I O N

elivering world class utility services and programs to improve our health, environment, and economy

# City Service Areas

#### **Environmental and Utility Services**

#### Core Services

#### **Potable Water Delivery**

Develop, operate, and maintain the City's municipal potable water system

#### **Recycled Water Management**

Develop, operate, and maintain a recycled water system that reduces effluent to the Bay and provides a reliable and high quality alternative water supply

#### **Recycling and Garbage Services**

Collect, process, and dispose of solid waste to maximize diversion from landfills and protect public health, safety, and the environment

#### Stormwater Management

Protect the health of the South Bay watershed through regulatory programs that prevent pollution from entering the storm sewer system and waterways

#### Sustainability and Environmental Health

Promote enhanced air quality, environmentally responsible land use, sustainable energy practices, and conservation of water and energy resources

#### **Wastewater Management**

Manage wastewater for suitable discharge into the south San Francisco Bay and for beneficial reuse to protect the environment and public health

**Strategic Support:** Public Education, Long Range Planning, Human Resources, Facility Management, Financial Management, Information Technology Services, Clerical Support, and Materials Management

# **Service Delivery Framework**

PROGRAM	DESCRIPTION
	Potable Water Delivery Core Service
Municipal Water System Operations and Maintenance	Operates and maintains the Municipal Water System to ensure a reliable, safe potable water supply.
Municipal Water System Planning and Capital Project Delivery	Plans, coordinates, and executes capital projects within the Municipal Water System service area.
	cycled Water Management Core Service
South Bay Water Recycling Operations and Maintenance	Operates and maintains the South Bay Water Recycling system.
Recy	cling and Garbage Services Core Service
Civic / Other Solid Waste Collection Services	Provides management and oversight of all solid waste services generated from City facilities and right-of-way, and includes funding from non-rate-payer funds to provide waste diversion services to restrict or redirect waste from entering local landfills.
Commercial Solid Waste Collection Services	Provides management and oversight of all solid waste collections, sorting, recycling, outreach, program compliance, and disposal services related to commercial accounts within the City and includes inspection services, outreach and the maintenance of public litter cans within the right-of-way.
Recycling and Garbage Services Administration	Administers and manages all solid waste services.
Residential Solid Waste Collection Services	Provides management and oversight of all solid waste collections, sorting, recycling, outreach, customer service, program compliance, disposal services, and inspection activities related to single-family households and multi-family households within the City.
	Stormwater Management Core Service
Stormwater Administration	Facilitates City compliance with its Stormwater NPDES permit for the storm sewer system, including requirements for municipal operations, new development and redevelopment requirements, and control programs for specific pollutants such as trash, PCBs, and mercury.
Stormwater Enforcement	Educates and regulates approximately 10,000 businesses and construction sites in San José regarding stormwater practices to ensure compliance with federal and state requirements for the City's storm sewer system and also regulates approximately 4,000 food service establishments to ensure proper management of fats, oils, & grease to minimize sanitary sewer overflows.
Stormwater Policy and Compliance	Provides for stormwater education and regulatory compliance of approximately 10,000 businesses and construction sites in San José regarding operational practices to ensure compliance with federal and state regulatory requirements for the City's storm sewer system.

# **Service Delivery Framework**

PROGRAM	DESCRIPTION
Sustaina	ability and Environmental Health Core Service
Environmental Compliance and Safety	Provides oversight of ESD employee health and safety at all ESD facilities, as well as providing professional compliance services for City lands, including closed landfills, such that both aspects fully comply with all State and Federal laws.
Policy, Legislative Advocacy, and Education	Coordinates the City's efforts related to energy efficiency, renewable energy, and Green House Gas reductions, including administration of the Silicon Valley Energy Watch and other programs. Environmental legislation advocacy and policy development is led from this group as well as external partner relationships for sustainability, water, and wastewater policy and projects.
	Vastewater Management Core Service
Facility Land Use and Planning	Performs environmental permitting and review for CIP, and coordinates with state and federal agencies and external partners on capital and land use projects. Oversees habitat and bufferland improvements.
Laboratory Services	Performs analysis for monitoring operations and compliance at the SJ/SC Water Pollution Control Plant as well as monitoring industrial discharges to the Facility; supports various studies aimed at understanding and monitoring water quality issues in the Bay and urban tributaries.
Pretreatment	Permits, regulates, and monitors approximately 275 industrial wastewater dischargers and nearly 900 dental practices, across the SJ/SC Water Pollution Control Plant's service area to ensure compliance with local, state, and federal pretreatment requirements for the Facility.
Regulatory Compliance and Safety	Manages regulatory compliance for the SJ/SC Water Pollution Control Plant's two major permits: the National Pollutant Discharge Elimination Program (NPDES) permit for the Facility's treated wastewater effluent, and the Title V permit for all of the Facility's major air emissions sources.
San José-Santa Clara Treatment Plant Capital Project Delivery	Provides services for both capital project planning, design and construction of major projects as well as process engineering services within the SJ/SC Water Pollution Control Plant.
San José-Santa Clara Treatment Plant Operations and Maintenance	Treating an average wastewater influent of over 100 million gallons per day, this program is responsible for the management, and daily operations and maintenance of the SJ/SC Water Pollution Control Plant, with the primary objective of ensuring compliance with the National Pollution Discharge Elimination System (NPDES).

# **Service Delivery Framework**

PROGRAM	DESCRIPTION
	Strategic Support Core Service
Environmental Services Communications	Performs community outreach, marketing, and media relations to advance key environmental priorities including garbage and recycling services, watershed protection and pollution prevention, municipal drinking water and recycled water, community sustainability initiatives, and the SJ/SC Water Pollution Control Plant.
Environmental Services Financial Management	Manages the budget and all financial transactions for the department; assists in annual budget development.
Environmental Services Human Resources	Manages personnel-related functions for the department, including hiring (in coordination with the Human Resources Department), employee development, employee discipline (in coordination with the Office of Employee Relations), and personnel transactions.
Environmental Services Information Technology	Provides information technology services, planning, system development and maintenance for the department in coordination with the Information Technology Department.
Environmental Services Management and Administration	Provides executive-level, analytical and administrative support to the department.

#### **Department Budget Summary**

#### **Expected 2018-2019 Service Delivery** ☐ Build, operate, and maintain the City's wastewater, recycled water, and potable water utility infrastructure to ensure system reliability and public health and safety. Promote the health of the environment and South Bay watershed through collection, treatment, and management of wastewater and stormwater runoff. Oversee programs to collect, recycle, and dispose of solid waste to maximize diversion from landfills and protect public health, safety, and the environment. Reduce the City's environmental footprint through energy efficiency, waste reduction, and environmentally preferable purchases. ☐ Support sustainable infrastructure, equipment, and behaviors throughout the community through education, and public-private partnerships. ☐ Lead implementation of the Council-approved Climate Smart San José Plan; partner with other agencies to pursue grants to promote energy efficiency, building electrification, and clean, renewable energy in the community. 2018-2019 Key Budget Actions ☐ While the Sewer Service and Use Charge rate will increase by 3.0% in 2018-2019, the Storm Sewer Service Charge rate will not change in 2018-2019. Recycle Plus rates will increase by 3.0% for single-family households and 2.0% for multi-family households due to anticipated increases in program costs. ☐ The 2018-2019 Adopted Budget includes a 5.6% revenue adjustment to the Municipal Water System in order to offset increased operating costs. ☐ Adds an Environmental Services Program Manager to implement the recommendations outlined in the Biosolids Transition Strategy Report and lead the new Biosolids Management Program. Provides funding for the purchase of a Vacuum Trailer to assist with maintaining critical infrastructure and quickly responding to service emergencies within the Municipal Water System service area. Shifts funding for 0.5 of an Environmental Services Program Manager position and adds nonpersonal/equipment funding of \$100,000 to support city-wide efforts related to local and regional water supply planning and ensure compliance with the Consent Decree between the City and San Francisco Baykeeper. ☐ Continues one-time funding of \$298,000 to keep the Municipal Water System's old billing system software license active in 2018-2019. ☐ Rebudgets one-time funding of \$70,000 to continue the Climate Smart San José Plan designed to reduce greenhouse gas emissions related to energy and mobility and ensure a long-term water supply. **Operating Funds Managed** ☐ Integrated Waste Management Fund ■ Sewer Service and Use Charge Fund ☐ San José-Santa Clara Treatment Plant ☐ South Bay Water Recycling Operating Income Fund Fund ■ San José-Santa Clara Treatment Plant ■ Storm Sewer Operating Fund Operating Fund ■ Water Utility Fund

■ Sewage Treatment Plant Connection Fee

Municipal Water System Billing Licensing		298,000	0

# Environmental and Utility Services CSA Potable Water Delivery Core Service

Municipal Water System Operations and Maintenance Program

This action provides one-time funding of \$298,000 from the Water Utility Fund to keep the Municipal Water System's old billing system software license active throughout 2018-2019. Due to the transition to the new Customer Information System billing system, it was initially anticipated that the old billing system would no longer be necessary, and therefore, software licensing for the old system was not originally budgeted beyond 2015-2016. However, use of the old system has been necessary the past two years, and is likely to be needed beyond that timeframe to fully access past records, as necessary. (Ongoing costs: \$0)

2. Salary Program 0.00 260,707 0

Environmental and Utility Services CSA Potable Water Delivery Core Service Recycled Water Management Core Service Wastewater Management Core Service

Municipal Water System Operations and Maintenance, South Bay Water Recycling Operations and Maintenance, and San José-Santa Clara Treatment Plant Operations and Maintenance Programs

As described in Manager's Budget Addendum #29, this action increases various department Personal Services appropriations to fund a 3.0% pensionable salary increase that was negotiated and agreed to by the City and the International Brotherhood of Electrical Workers (IBEW) bargaining unit, effective June 17, 2018, and a 5.0% non-pensionable compensation increase that was negotiated and agreed to by the City and IBEW, effective July 1, 2018. This increase is offset by a decrease to the Ending Fund Balances or an alternative funding source in the Special Funds as reflected in the Source and Use of Funds Statements section of this document. (Ongoing costs: \$0)

#### 3. Biosolids Management Program Staffing 1.00 111,010 0

Environmental and Utility Services CSA Wastewater Management Core Service

San José-Santa Clara Treatment Plant Operations and Maintenance Program

This action adds 1.0 Environmental Services Program Manager (ESPM) to the Regional Wastewater Facility (RWF) Capital Improvement Program Division as a first step toward forming a Biosolids Management Team (BMT). This position will provide leadership and direct oversight of the RWF's transition from the current biosolids disposal method using 100% biosolids as Alternative Daily Cover ("ADC") on the Newby Island landfill to a diversified disposal program using biosolids for multiple beneficial purposes as part of the new Digested Sludge Dewatering Facility project, currently in the planning phase, anticipated to come online in 2022. The ESPM will research market options for biosolids beneficial use, including available treatment options local demand, pricing for end products made from the new dewatering facility; and procure, negotiate, and manage a broad portfolio of disposition contracts. Additional staff for the Biosolids Management Team will be determined by analysis of program needs and is anticipated to be brought forward in future years. (Ongoing costs: \$148,012)

#### **Budget Changes By Department**

2018-2019 Adopted Budget Changes	Positions	All Funds (\$)	General Fund (\$)
4. Baykeeper Consent Decree Compliance Progra	am	99,999	167,774

Environmental and Utility Services CSA Stormwater Management Core Service

Stormwater Policy and Compliance Program

This action continues to shift funding for 0.50 Environmental Services Program Manager position from the South Bay Water Recycling program in the Water Resources Division to the Watershed Protection Division (split equally between the Storm Sewer Operating Fund and the General Fund) through June 30, 2019, and adds one-time non-personal funding of \$100,000 to support compliance with the Consent Decree between the City and San Francisco Baykeeper. The position will continue to plan, track, and actively facilitate the implementation of the terms of the 10-year settlement; provide technical support on the assessment of stormwater revenue alternatives; and ensure continued alignment of relevant activities and compliance with the City's Stormwater Permit. The additional non-personal funding will provide continued contractual support with expertise in financing, rate modeling, and developing ballot measures for fee or tax initiatives to work with ESD and Finance to move forward once City Council direction is received. (Ongoing costs: \$0)

#### 5. Municipal Water Vacuum Trailer

25,000

0

Environmental and Utility Services CSA Potable Water Delivery Core Service

Municipal Water System Operations and Maintenance Program

This action provides provides one-time funding for a Vacuum Trailer from the Water Utility Fund, partially offset by ongoing non-personal savings of \$36,000 in contractual services. The vacuum trailer will vacuum all non-flammable, non-hazardous, and non-toxic wet or dry material. It will be used by the Municipal Water Program staff for activities including, but not limited to, manhole clean-out, meter box cleaning, mud removal, vacuuming smaller rocks and dry sand, exercising below grade valves and hydrants, and locating underground utilities. Currently, the City relies heavily on a contracted trailer with the San José Water Company for vacuuming, excavation, and valve maintenance. The purchase of a vacuum trailer will ensure that the City has access to one during emergencies as well as efficiently rendering services that contribute to a safer, cleaner, and more reliable water utility. (Ongoing savings: \$36,000)

#### **Budget Changes By Department**

2018-2019 Adopted Budget Changes	Positions	All Funds (\$)	General Fund (\$)	
6. Water Supply and Conservation Staffing	0.00	0	80.624	

# Environmental and Utility Services CSA Potable Water Delivery Core Service

Municipal Water System Operations and Maintenance Program

This action shifts ongoing funding for 0.15 Deputy Director and 0.10 Supervising Environmental Services Specialist positions in the Water Resources Division to the General Fund (previously shifted on a one-time basis) to support ongoing efforts to coordinate with regional agencies, such as the Santa Clara Valley Water District and San José Water Company, to explore alternate water supply concepts, such as potable reuse, groundwater recharge, and large-scale rainwater capture. Because the current funding is utility specific, the responsibility and level of participation for these positions can only be focused on Municipal Water System customers. With the shifts to the General Fund, these positions, in combination with other City General Fund staff, will be able to advance city-wide efforts related to the development of water supplies (e.g. direct and indirect potable reuse) and water conservation, which benefits all customers and residents within City boundaries. These efforts include local and regional water supply planning and coordination; outreach related to water supply and conservation programs; coordination with all water retailers and water wholesalers; and leading inter-departmental coordination on reducing City water use. (Ongoing costs: \$0)

#### 7. South Bay Water Recycling Program 0.00 0 0

Environmental and Utility Services CSA
Recycled Water Management Core Service
Strategic Support Core Service
Sustainability and Environmental Health Core Service
Wastewater Management Core Service

Environmental Compliance and Safety, Environmental Services Management and Administration, San José-Santa Clara Treatment Plant Operations and Maintenance, and South Bay Water Recycling Operations and Maintenance Programs

The Adopted Budget includes the establishment of the South Bay Water Recycling (SBWR) Operating Fund. This action shifts ongoing funding for 25.37 positions and \$3,160,943 in non-personal/equipment from the San José-Santa Clara Treatment Plant Operating Fund to support the activities within this new fund. The SBWR Operating Fund is the depository of revenues from the sale of wholesale water produced by the SBWR program. This fund provides monies for the operations and maintenance of the SBWR system. A portion of these monies may be transferred to the Sewer Service and Use Charge Fund and the San José-Santa Clara Treatment Plant Operating Fund to reflect the proportionate participation share of the operating revenue and costs for the City of San José and the tributary agencies. The tributary agencies include the City of Milpitas, City of Cupertino, Burbank Sanitary District, County Sanitation District No. 2-3, and West Valley Sanitation District. (Ongoing costs: \$0)

#### **Budget Changes By Department**

2018-2019 Adopted Budget Changes	Positions	All Funds (\$)	General Fund (\$)
8. Local Sales Tax Expenditure Allocation		0	0

#### Environmental and Utility Services CSA Recycling and Garbage Services Core Service

Civic/Other Solid Waste Collection Services Program

This action decreases the Environmental Services Department's Non-Personal/Equipment appropriation by \$180,000 and establishes the corresponding Local Sales Tax – Non-Personal/Equipment appropriation to the Environmental Services Department. As described in Manager's Budget Addendum #28 and approved by the City Council as part of the Mayor's June Budget Message for Fiscal Year 2018-2019, these actions will provide a breakdown of specific expenditures funded by the Local Sales Tax along with the accounting of the Local Sales Tax revenues received to facilitate the year end reconciliation, which will be provided to the Local Sales Tax Citizens Oversight Committee. (Ongoing costs: \$0)

9. Rebudget: San José Environmental Sustainability Plan 70,000 70,000

#### Environmental and Utility Services CSA Sustainability and Environmental Health Core Service

Policy, Legislative Advocacy and Education Program

This action rebudgets unexpended 2017-2018 non-personal/equipment funding to continue work on Climate Smart San José (CCSJ), the City Council-approved plan for reducing greenhouse gas emissions related to energy and mobility (transportation and land use) and ensuring a long-term water supply. The CSSJ Plan includes the advancement of partnerships with other agencies and pursuing grants to promote energy efficiency, building electrification, and clean, renewable energy in the community. (Ongoing costs: \$0)

#### 10. Rebudget: City Energy Project Grant 10,000 10,000

Environmental and Utility Services CSA Recycling and Garbage Services Core Service

Civic/Other Solid Waste Collection Services Program

This action rebudgets unexpended 2017-2018 personal services funding for research and data gathering; resource development and outreach to stakeholders for benchmarking of energy policy packages; launching training programs and piloting permitting services for zero net energy programs; and proposals of new ordinances or policies regarding energy programs. (Ongoing costs: \$0)
