

City Service Area Public Safety

**Major Repairs at
Fire Stations 18 and 23**

**Fire Emergency Fleet
Apparatus Replacement
Program**

**Portable Emergency Mass
Warning System**

Mission: Provide prevention and emergency response services for crime, fire, medical, hazardous, and disaster-related situations.

The Public Safety Capital Improvement Program included in the Public Safety City Service Area supports infrastructure improvements necessary to provide effective emergency response services. On March 5, 2002, 71.7% of the voters in San José approved Measure O, the “9-1-1, Fire, Police, Paramedic and Neighborhood Security Act” (Neighborhood Security Act Bond Measure). This bond measure, which authorized the City to issue General Obligation Bonds in an amount not to exceed \$159 million to fund both Police and Fire Department capital improvements, significantly increased the resources available to add, relocate, and renovate public safety facilities.

With the exception of the Fire Station 37 project, all of the Public Safety Bond projects have been completed. The Fire Station 37 project has been deferred pending the identification of a funding source(s) to close the budget gap to build and operate the station. Because Fire Station 37 is not moving forward at this time, a funding shift is approved to reallocate the Bond funds to eligible fire station remediation projects that would otherwise be budgeted in the Fire Construction and Conveyance (C&C) Fund and allocate the C&C funds to a Fire Station 37 reserve. This would allow the use of the remaining bond funds while preserving funding for Fire Station 37.

In addition, a portion of C&C Tax receipts (8.4% annually) is allocated to the Fire Department for ongoing fire safety equipment, facilities, and some emergency fleet apparatus needs. The Communications Capital Program, which is part of the Strategic Support City Service Area, also supports public safety efforts with the replacement of Police and Fire communications equipment.

CSA CAPITAL PROGRAM

- Public Safety

Recent Accomplishments

- Completion of repairs at Fire Station 18 (Monterey Highway) and Fire Station 23 (Via Cinco de Mayo).
- Purchased three new fire engines delivered summer 2017.
- Executed contract for Phase 1 of the Emergency Vehicle Preemption Service.
- Completed purchase of a Portable Emergency Mass Warning System

Program Highlights

Public Safety Capital Program

2018-2022 Adopted CIP: \$55.4 million

- Emergency Vehicle Preemption Service
- Facilities Improvements
- Fire Apparatus Replacement
- Fire Department Information Technology: Computer Replacement Program; Mobile Data Computer Replacements; and Emergency Response Data Analysis
- Fire Facilities Remediation
- Fire Station 29 Generator
- Fire Station Alert System
- Fire Training Center Repair
- Hose Replacement
- Tools and Equipment
- Turnout Cleaning

CSA OUTCOME (Supported by the Capital Program)

- ✓ The Public Feels Safe Anywhere, Anytime in San José

Performance Measures

A set of consistent and comprehensive performance measurements, along with targets and goals, have been established for the entire capital program and adopted for each individual CSA. Measures focus on schedule (cycle time) and project delivery cost. Please see the Budget Guide section narrative for additional information on capital performance measurements.

Outcome: The Public Feels Safe Anywhere, Anytime in San José

Strategic Goals	CSA Performance Measures	2015-2016 Actual ¹	2016-2017 Target	2016-2017 Estimate	2017-2018 Target	5-Year Goal
Public Safety CSA delivers quality Capital Improvement Program (CIP) projects on-time and on-budget	1. % of CIP projects delivered within 2 months of approved baseline schedule ²	100% (2/2)	85%	N/A (0/0)	85%	85%
	2. % of CIP projects that are completed within the approved baseline budget ³	N/A (0/0)	90%	100% (1/1)	90%	90%

- 1 The 2015-2016 Actual number of projects may vary from the 2015-2016 Estimate as documented in the 2016-2017 Adopted Budget as a result of the date of the estimated beneficial use of the project being revised and the project expected to be delivered in the following fiscal year. Also, the number of projects may change with the inclusion of projects in the 2015-2016 Actual not originally included in the 2015-2016 Adopted Budget Estimate due to incomplete project information at that time.
- 2 Projects are considered to be "delivered" when they are available for their intended use and are considered "on schedule" if delivered within two months of the baseline schedule.
- 3 Projects are considered "completed" when final cost accounting has occurred and the project has been accepted; projects are considered "on budget" when the total expenditures do not exceed 101% of the baseline budget.

Due to the completion of the projects funded by the Public Safety Bond Measure, there were no projects delivered in 2016-2017.

The new Fire Station No. 21 on White Road was delivered in 2015-2016. The project was accepted and completed in 2016-2017 and the cost was within the baseline budget.

Capital Program Summary by City Service Area
