## RECOMMENDATION

That the following recommendation be enacted.

### Proposal

Program/Project Title: Road Humps for Eden Ave.

Amount of City Funding Required: \$64,000

Fund Type (i.e. General Fund, C&C funds, etc.): General Fund

This change is:

One-time (\$64,000)     Ongoing (\$2,400)

Proposal Description, including anticipated outcomes (Please describe how change would affect services for San José residents, businesses, community groups, etc.):

Residents who live along or within close proximity to Eden Ave have seen a significant increase in speeding and unsafe driving along this street. Road humps are an efficient and safe way to deflect speeding vehicles heading north and south bound on Eden Ave. Based on recently collected traffic data, portions of Eden Ave, between Moorpark Ave and Payne Ave, qualify for road humps. The requested funding would allow for the design, construction, and installation of 7-8 road humps along Eden Ave. between Moorpark Ave. and Payne Ave.

### Funding Source

Essential Services Reserve (\$4 million): General Fund
