Dear Friends,

We are happy to present you with this coloring book of landmarks and treasured spots in San Jose! We love San Jose and enjoy living here so much. We decided to celebrate our city by creating this all-ages coloring book! After gathering ideas from San Jose residents on their favorite places around town, we submitted photos to an artist to create these coloring book pages. We think they turned out great and we hope you and your family enjoy them!

From my family to yours,
