RECOMMENDATION

That the following recommendation be enacted.

Proposal

Program/Project Title: **New LED Lights Along The Gold St. Connector**

Amount of City Funding Required: **\$3,700**

Fund Type: **General Fund**

This change is:

One-time Ongoing

The Gold St. Connector is an important artery used to enter Alviso by cars, pedestrians, and bicyclists. However, lighting there is poor and residents have requested upgrades. While the City expects to upgrade all 27,000 non-LED streetlights eventually, for a nominal cost, the 16 existing low-pressure sodium streetlights along the Gold St. Connector can be upgraded sooner. This proposal seeks to do this for the residents of Alviso.
