

Directions for 2021 Bond Compliance Submissions

As an issuer of bonds that were awarded allocations from the California Debt Limit Allocation Committee, the City of San José must attest to the adherence with CDLAC requirements for each development that is still in its monitoring period. Bond compliance monitoring duties are defined under section 5220 of the CDLAC regulations. For the city to report, it must rely on information that owners and their representatives send each year.

Given CDLAC's March 1st due date – earlier than the City's deadlines for its loan and affordability restriction monitoring – bonds submissions are needed at a different time than other submissions.

For which properties are bond compliance submissions required?

- Properties with City-issued bonds that are before or during their 'qualified project period,' as defined in the Bond Regulatory Agreement
- Properties under construction or rehabilitation – just indicate that the property is under construction or rehabilitation on the Certification of Delivery of Public Benefits.

Please complete the following information, sign the forms listed below and send the following ***individually scanned forms for each property*** to AssetSubmissions@sanjoseca.gov, no later than 5 p.m. on Wednesday, February 10, 2020. Thank you so much for your cooperation.
