Using This Template

All Sections are required to be addressed, however if a section or subsection is not needed mark as N/A. If content exceeds two pages for any section, consider creating an external document as reference.

To create a deliverable from this template:

1. Replace [bracketed text] on the cover, footer, and in sections as appropriate.
2. Modify stakeholders and sign off list as appropriate.
3. Adjust or Delete Watermark as appropriate.
4. Delete this page.

Template Revision History

Version	Date	Name	Description
1.0	10/26/2017	Rob Lloyd	Initial Version

NOTE: Please remove this page when creating this deliverable

DRAFT

Example WBS Framework (Agile)

No.	Item	Staff	Start Date	Due Date
1	Initiation—Charter accepted and approved by sponsor [Department Name] and Information Technology Department. Staff time and resources dedicated per charter for project work.			
2	Planning and Analysis—Business process defined by sponsor [Department Name] and the project team. Pilot testing and demonstrations as required.			
3	Design—New process and requirements of business system(s) defined and accepted by project team. Requirements list and functional testing script.			
4	Development—System, database, network, and programming work to meet requirements. Define by “sprint” to develop each function.			
4.1	Sprint 1—			
4.1.1	Function/Deliverable 1—			
4.1.2	F/D 1 Testing—			
4.1.3	Function/Deliverable 2—			
4.1.4	F/D 2 Testing—			
4.2	Sprint 2—			
4.2.1	Function/Deliverable 3—			
4.2.2	F/D 3 Testing—			
4.2.3	Function/Deliverable 4—			
4.2.4	F/D 4 Testing—			
4.3	Sprint 3—			
5	Backlog Check—Review features and functions not complete. Re/Prioritize.			
6	Communications and Training—Communicate changes before and during transitions. Education outreach for user and stakeholder transitions.			
7	Deployment—Distribute system for use. Implement heightened support model for transition period. Document, communicate, and resolve issues that arise.			
8	Transition to Support—Educate IT Help Desk staff and power users to handle Tier 1 issues and escalate. Publish clean knowledgebase and documentation to central repositories for access.			
9	Lessons Learned—Debrief on project successes and needed improvements. Archive project documents and materials.
