Residential Water Use in CA

Source: California Single Family Water Use Efficiency Study

Outdoors:

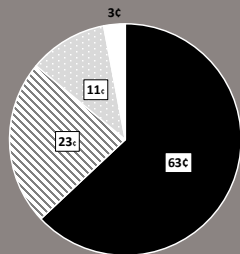

- Replace your lawn with a sustainable landscape (Valley Water offers rebates)
- Turn off or reduce your irrigation during the rainy season and check for leaks
- Install a graywater irrigation system (Valley Water offers rebates)

Indoors:

- Upgrade to a new water-efficient washing machine or dishwasher
- Take shorter showers (five minutes or less)
- Fix leaky faucets and toilets
- Learn about your water use: Sign up for WaterSmart at sanjose.watersmart.com

Where Your Dollar Goes

Most ratepayer money goes to purchasing high-quality drinking water from the San Francisco Public Utilities Commission and Valley Water. SJMWS water costs less than a penny per gallon for residential customers. State-certified staff ensure the utility's efficient operation.

Wholesale Water Purchases (Potable water bought from SFPUC and Valley Water)

Operation Costs (Administration; operation and maintenance of water system and equipment; water system maintenance; daily monitoring and testing of drinking water quality)

System Improvements (Regular upgrades to vital pipes, tanks and other equipment)

Energy Costs (Electricity, gas and solar power to run the water system)
