

COMMUNITY MEETING AGENDA

Proposed demolition of existing approximately 110,143-square foot industrial building, the construction of an approximately 126,700-square foot industrial building, and the removal of 20 ordinance sized trees on an approximately 7.0-gross acre site on the north side of Concourse Drive, approximately 600 feet easterly of Ringwood Avenue (1953 Concourse Drive).

Site Development Permit File No. H21-003

Thursday, June 24, 2021

6:00 p.m. – 7:00 p.m.

Zoom Webinar

Zoom meeting link: <https://sanjoseca.zoom.us/j/92256912983>

Zoom meeting phone number: +1 408 638 0968 or +1 213 338 8477 or 888 475 4499 (Toll Free) or 877 853 5257 (Toll Free)

Meeting ID: 922 5691 2983

Meeting Purpose: To present information and to receive comments and feedback about the proposed project.

Agenda:

- I. Welcome, Introductions, Agenda Overview, and Background (6:00 – 6:10)**
The Project Manager for the City Planning Division will welcome participants, provide an overview of the agenda, and introduce presenters.
- II. Summary of the City of San Jose Planning Permit Process (6:10 – 6:15)**
The Project Manager will summarize the city's development review process.
- III. Project Presentation and Open Forum (6:15 – 6:50)**
The Development Project Applicant will present the proposed project and Project Manager will facilitate questions and comments.
- IV. Summary of Next Steps (6:50 – 7:00)**

If you have questions about the project or this meeting, please contact one of the following

City of San José Planning Division:

Phone: (310) 707-3327

Steps in the Planning Development Review Process

Project review is an essential part of the land use and development process. The flow chart below is a general overview of the steps involved.

Environmental Review California Environmental Quality Act (CEQA)

CEQA requires developers to disclose the potential environmental impacts resulting from the construction of a project. When the City reviews a project for CEQA compliance, it is determining if the project will or will not have significant environmental effects in the following subject areas: aesthetics, agricultural resources, air quality, biological resources, cultural resources, geology/soils, hazards and hazardous materials, hydrology/water quality, population/housing, public services, recreation, transportation/traffic, and utilities/service systems. This knowledge helps local officials to make informed decisions about whether to permit discretionary projects and, if so, with what conditions and or mitigation measures. A project can take one of three tracks:

- (1) Exempt – no possibility of impacts; or
- (2) An environmental initial study is conducted, and a negative declaration or mitigated negative declaration is adopted. This indicates that the initial study found no significant environmental impacts, or that the impacts can be reduced with mitigation measures, or
- (3) An initial study is prepared and determines that the project may have a significant effect on the environment, and preparation of an environmental impact report (EIR) is required (This is the least common outcome, but is typically required for large-scale projects).
