

District 10 COI Testimony
City of San Jose

Hi. My name is Judy Lee and I have been a resident in San Jose for 8 years. Currently, I work at Korean American Community Services. At KACS, we are a non-profit organization that provides vital services to low-income families/individuals, seniors, and other individuals within the Korean American community as well as the surrounding neighborhoods. Although we are in District 1, I am here to represent the Korean American communities of interest within District 10.

I would like the Commission to acknowledge that there is a restaurant named SGD Tofu House, located on Blossom Hill Road and Santa Teresa Blvd. This place is where Korean Americans and other API community members go to eat within this district. And diagonally from SGD Tofu House is the Westfield Oakridge Mall. On behalf of the Asian American community, I would also like the commission to recognize that there will be a Ranch 99 Market located inside the mall. Right now it is in the process of being made, however later when it is fully built, there will probably be a lot more Asian Americans going for groceries, shopping, and eating.

We also share the same transportation concerns with the people who live in the Almaden/Santa Teresa area.

Thank you.
