

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Jennifer A. Maguire

SUBJECT: OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY
DATE: May 28, 2015

Approved

Date 5/28/2015

RECOMMENDATION

Amend City Council Policy 1-18, Operating Budget and Capital Improvement Program Policy, to incorporate changes to Operating Budget, Section 3 (Contingency Funds or Accounts) and Section 4 (Fund Balance) to clarify General Purpose Reserves, to add specifics regarding the Contingency Reserve and Budget Stabilization Reserve, and to set a funding goal of 10 percent for General Purpose Reserves.

BACKGROUND

On April 14, 2015, the City Council accepted the Audit on Fund Balance and Reserves report dated March 12, 2015 from the City Auditor's Office and presented to the Public Safety, Finance, and Strategic Support Committee on March 19, 2015. As part of the City Auditor's Office report, two findings were recommended. Finding 1 stated that "*San José Should Aim to Have Higher Safety Net Reserves Within the General Fund.*" Finding Two suggested that "*San José's Written Reserve Policies Should Be More Comprehensive in Scope.*" This Manager's Budget Addendum recommends amendments to City Council Policy 1-18, Operating Budget and Capital Improvement Program Policy, in order to address the two findings issued in the City Auditor's report.

ANALYSIS

Changes to City Council Policy 1-18, Section 3 on Contingency Funds or Accounts are recommended to address both audit findings.

The City Auditor's Office report recommends establishing a safety net reserve target in the range of 10 percent (the minimum of benchmarked California cities) to 16.6 percent of expenditures (the GFOA-recommended best practice). Based on an evaluation of existing reserves, the Contingency Reserve, Budget Stabilization Reserve, and Workers' Compensation/General

Liability Catastrophic Reserve would be considered general purpose safety net reserves. The Contingency Reserve, currently set at a minimum of 3 percent of General Fund expenditures, serves to meet unexpected circumstances arising from financial and/or public emergencies that require immediate funding that cannot be met by any other means. The Budget Stabilization Reserve does not currently have a stated funding level, and is set aside to provide budget stability when there are fluctuations that result in lower than projected revenues and/or higher than projected expenditures that cannot be re-balanced within existing budget resources in any given year. The current balance of \$10 million is equivalent to approximately 1 percent of expenditures. The Workers' Compensation/General Liability Catastrophic Reserve does not currently have a stated funding level, and, as the City is self-insured, is set aside to provide funding for potential workers' compensation or general liability claims that are higher than budgeted if they cannot be rebalanced within existing budget resources in any given year. The current balance of \$15 million is equivalent to approximately 1.5 percent of expenditures. As part of this memorandum, it is recommended that the funding goal be established at 10 percent for these three safety net reserves combined. Currently, these three safety net reserves would equate to approximately 5.5 percent of General Fund expenditures, meeting slightly over half of the funding goal. While this level is below the 10 percent funding goal, it would take many years to be able to build up to this level without significantly impacting service levels.

The City Auditor's Office report also cites the GFOA recommendation that written policies include certain key elements. For example, the City's reserve policies should include the following essential and important policy elements: 1) reserve target levels that state reserve target ranges; 2) define the conditions under which a reserve can be used; 3) specify who has authority to use the reserve; 4) define reserves and present reason for maintaining them; 5) establish a plan for funding the reserve if it is below the target; and 6) provide guidance on how reserves will be replenished once used. Recommended changes contained in this memorandum address each of these issues. In the chart below, a summary of policy elements for each of the general purpose safety net reserves is included.

Policy Element	Contingency Reserve	Budget Stabilization Reserve	Workers' Compensation/ General Liability Catastrophic Reserve
<i>Reserve target level</i>	3 percent minimum; General Purpose Reserve total funding goal of 10 percent	Not defined; General Purpose Reserve total funding goal of 10 percent	Not defined, General Purpose Reserve total funding goal of 10 percent
<i>Conditions for use of reserves</i>	2/3 City Council approval	Majority City Council approval	Majority City Council approval
<i>Authority over reserves</i>	City Council	City Council	City Council

Policy Element	Contingency Reserve	Budget Stabilization Reserve	Workers' Compensation/ General Liability Catastrophic Reserve
Definitions and purpose of reserves	Meet unexpected financial or public emergencies	Provide budget stability when there are fluctuations in revenue or expenditure projections	Provides funding for potential workers' compensation or general liability claims as the City is self-insured
Funding the Target amount	Should maintain funding at a minimum of 3%	Funded at an adequate level determined by the City Council	Funded at an adequate level determined by the City Council
Replenishment of reserves	Funds set aside annually in Adopted Operating Budget; funds replenished in Adopted Budget	Budget set annually in Adopted Operating Budget; funds replenished or used in annual budget based on funding needs and funding availability	Budget set annually in Adopted Operating Budget; funds replenished or used in annual budget based on funding needs and funding availability

The amendments, as detailed in Attachment A are designed to address all essential and important policy element provided by GFOA and described in the City Auditor's Office report. Two discretionary policy elements were stated in the City Auditor's Office report as optional. They were not part of the Auditor's recommendations and are not addressed as part of this memorandum. These elements include 1) providing guidance on how reserves in excess of their targets can be used; and 2) direct staff to periodically review the reserve target level. Given that the recommended funding goal of 10 percent for general purpose reserves will be difficult to achieve without significant service level reductions, it is recommended that these elements be incorporated after the funding goal has been reached. In addition, an amendment to City Council Policy 1-18, Section 4 is included to clarify the potential allocation of remaining fund balance to the Budget Stabilization Reserve and/or Contingency Reserve, among other uses.

FOLLOW-UP

If this MBA is approved, the amendments to City Council Policy 1-18 will need to be cross-referenced on the City Council agenda with the approval of the 2015-2016 Budgets as separate City Council action is necessary to adopt the resolutions approving the amendments to the Operating Budget and Capital Improvement Program Policy.

HONORABLE MAYOR AND CITY COUNCIL

Attachment A – Operating Budget and Capital Improvement Program Policy, Council Policy 1-18

COUNCIL POLICY

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 1 of 1412	POLICY NUMBER 1-18
EFFECTIVE DATE October 24, 2004	REVISED DATE December 16, 2014	
APPROVED BY COUNCIL ACTION Revised 3/20/2007; 10/21/2008, Item 3.4(c), Res. No. 74627; 10/20/2009, Item 3.4(c), Res. No. 75134; 12/15/2009, Item 2.15(a), Res. No. 75229; 6/17/2010, Item 3.13(f), Res. No. 75444; 06/11/13, Item 3.9(c), Res. No. 76664, 6/10/14, Item 3.6(e), Res. No. 77021; 12/16/14, Item 2.21, Resolution No. 77252		

PURPOSE

It is the purpose of this policy to set forth the guiding principles for the preparation and administration of the Operating Budget and Capital Improvement Program. This policy also includes the guiding principles on General Fund budget reserves and the ending fund balance in order to maintain our current level of budget performance, subject to the requirements of the San José City Charter and the San José Municipal Code. This Policy provides for general guiding principles and is not intended to supersede specific policies and procedures adopted by the City Council.

POLICY

The Operating and Capital Budgets and the Capital Improvement Program are prepared and administered in accordance with several sources of policy direction.

1. The City Charter requires that the budgets be balanced, include a complete financial plan for all City funds, and meet certain legal deadlines for submittal.
2. The City Council has established budget policies. These policies include guidelines, standards, and requirements for preparation and monitoring of both the Operating and Capital Budgets. The complete text of the adopted budget policies follows.
3. The budgets are developed in accordance with the Mayor's budget priorities and direction as approved by the City Council in March and June of each year.
4. Recommendations of special studies by Council-appointed task forces, boards, commissions, and committees may be considered upon the direction of the City Council.
5. Public input is considered throughout the process, with scheduled public hearings at key Council decision points.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 2 of 4214	POLICY NUMBER 1-18
---	-------------------	-----------------------

OPERATING BUDGET

1. General

The budget should be a performance, financing, and spending plan agreed to by the Mayor, City Council, City Manager, and other Council Appointees. It should contain information and data regarding expected revenues and resources (inputs), expected expenditures, and expected performance (outcomes). During the fiscal year, actual experience (revenues, expenditures, and performance) will be periodically measured against the plan.

The City will prepare and annually refine written goals and policies to guide the preparation of financing, spending, and performance plans for the City budget. Proposed budgets will comply with the adopted budget polices and Council priorities.

The City uses a performance-based budget. The core service is the lowest level in the organization for which budgets are prepared. Each core service budget will include financing and spending plans. Each core service will also propose an annual performance plan. The plan must identify ongoing performance targets and corresponding indicators, which measure performance. The plan should also include specific performance targets, which will have results during the budget year. All performance at the core service level must be consistent with the mission statements at the department level and the outcomes of the City Service Area at the City level, meeting the performance as well as budget goals and policies established by the Mayor and City Council.

Department and program managers will not exceed the Council-approved appropriations in any fund. Appropriations for departmental operations are approved by the City Council in two categories: Personal Services and Non-Personal/Equipment. These appropriations are shown in the departmental budgets. In addition, appropriations are approved for Capital Projects, Citywide projects, and other targeted functions with special and capital funds. The City Council may approve modifications to these appropriations throughout the year as warranted by revenue collections and activity demands.

2. Fiscal Integrity

The City will maintain the fiscal integrity of its operating, debt service, and capital improvement budgets, which provide services and maintain public facilities, streets, and utilities.

Ongoing operating program costs will not exceed the amount of ongoing revenue to finance those costs. Interfund loans will not be used as a funding mechanism to address ongoing gaps between revenues and costs. If a new program is added on an ongoing basis, an ongoing revenue source will be identified to fund the program costs. Any available carryover balance will only be used to offset one-time costs.

3. Contingency Funds or Accounts

Four ~~Several~~ different contingency funds or accounts are established:

a) General Purpose Reserves

Within the General Fund, unrestricted reserves shall be set aside as a safety net for general city operations. Currently, the Contingency Reserve and, -Budget Stabilization Reserve, and Workers' Compensation/General Liability Catastrophic Reserve are available for general purposes. The combined funding goal for these reserves in the aggregate shall be 10 percent of General Fund Operating Budget expenditures. Within capital and special funds, reserves may be set aside as a safety net for city operations pertaining to the respective fund or to provide stability for customer rates when there are fluctuations to revenue and expenditures.

—Contingency Reserve —

- 1) For the-Within the General Fund, a contingency reserve, which is a minimum of 3% of the General Fund operating budget, is established. The purpose of this reserve is to meet unexpected circumstances arising from financial and/or public emergencies that require immediate funding that cannot be met by any other means. Any use of the General Fund Contingency Reserve shall require two-thirds vote of approval by the City Council. The Contingency Reserve shall be budgeted at a minimum of 3 percent of the General Fund operating budget in the annual Adopted Budget. This allocation will include replenishment of any reserves-amounts expended or appropriated to another fund used-during the previous year.

Appropriate levels of contingency funds will be determined and maintained in the capital and special funds as part of the City Council's adoption of the annual Capital Budget or the Operating Budget, as applicable.

- 2) Budget Stabilization Reserve - For the-Within the General Fund, a Budget Stabilization Reserve may be maintained at an-adequate-a level as determined by the City Council to be adequate. The purpose of this reserve is to provide budget stability when there are fluctuations that result in lower than projected revenues and/or higher than projected expenditures that cannot be re-balanced within existing budget resources in any given year. This reserve would provide-is intended to provide a buffer, or bridge funding, to protect against reducing service levels when these fluctuations occur. Any use -of the General Fund Budget Stabilization reserve shall require majority vote by the City Council through the adoption of the Operating Budget or by appropriation action during the fiscal year. The City Council will set the -The reserve amount shall be set annually as part of the the-City Council's adoption of the Adopted-Operating Budget. The replenishment or use of reserves-this reserve shall be incorporated into the annual Adopted Operating Budget as resources are available to replenish and/or increase the this reserve, or as funds are needed to address a budget shortfall.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 4 of 4214	POLICY NUMBER 1-18
---	-------------------	-----------------------

Appropriate levels of Budget Stabilization Reserve funds will be determined and maintained in the capital and special funds, as applicable.

- 3) Workers' Compensation/General Liability Catastrophic Reserve – For-Within the General Fund, a Workers' Compensation/General Liability Catastrophic Reserve may be maintained at a level as determined by the City Council to be adequate. The purpose of this reserve is to provide funding for potential workers' compensation or general liability claims that are higher-exceed the budgeted amounts than budgeted as the City, for the most part, is self-insured. Any use of the General Fund Workers' Compensation/General Liability Catastrophic Reserve shall require majority vote by the City Council through the adoption of the Operating Budget or by appropriation action during the fiscal year. The City Council will set the reserve amount annually as part of the City Council's adoption of the Operating Budget. The replenishment or use of reserves this reserve shall be incorporated into the annual Adopted Operating Budget as resources are available to replenish and/or increase the this reserve. or as funds are needed to address a budget shortfall.

Appropriate levels of Workers' Compensation and/or General Liability Catastrophic Reserves will be determined and maintained in the capital and special funds, as applicable.

a)b) Cash Reserve Fund

An adequate revolving fund (Cash Reserve Fund 002), as mandated by the City Charter, shall be determined and maintained at an adequate level as determined by the City Council. The purpose of this reserve fund is for the payment of any authorized expenditures of the City for any fiscal year in anticipation of and before the collection of taxes and other revenues of the City for such fiscal year.

b)c) Emergency Reserve Fund

An adequate emergency reserve fund (Emergency Reserve Fund 406), as mandated by the City Charter, shall be determined and maintained at an adequate level as determined by the City Council. The purpose of this reserve fund is to meet any public emergency involving or threatening the lives, property, or welfare of the people of the City or property of the City.

d) Budget Stabilization Reserve

~~For the General Fund, a Budget Stabilization Reserve may be maintained at an adequate level as determined by the City Council. The purpose of this reserve is to provide budget stability when there are fluctuations that result in lower than projected revenues and/or higher than projected expenditures that cannot be re-balanced within existing budget resources in any given year. This reserve would provide a buffer, or bridge funding, to protect against reducing service levels when these fluctuations occur.~~

4. Fund Balance

The appropriation of carryover fund balances must be approved judiciously. This should ensure that ongoing expenditures will be budgeted only to the extent that proven revenue streams exist.

In the annual budget, and in subsequent reports, there will be a presentation on fund balances and their anticipated uses.

- a) The first increment of any General Fund "Ending Fund Balance" identified in the City Manager's Annual Report shall be split 50% for unmet / deferred infrastructure and maintenance needs in the areas of: 1) transportation; 2) technology infrastructure and software upgrades; 3) fleet replacement; and 4) building facilities at the recommendation of the City Manager and approval by the City Council, and 50% to offset any projected deficit for the following fiscal year, after necessary appropriation adjustment actions to re-budget funds, correct errors, or reflect updated cost information have been accounted for in the fund balance reconciliation.
- b) If the projected deficit is less than the amount allocated for this purpose, the remaining funds shall be allocated for the following uses:
 - 1) Budget Stabilization Reserve and/or Contingency Reserve.
 - 2) Unmet/deferred infrastructure and maintenance needs.
 - 3) Other one-time urgent funding needs.
- c) Annual surplus funds shall not be used for ongoing expenditures, unless those expenditures can be accommodated in Year Two and possibly Year Three of the five-year financial forecast. Any available carryover balance should only be used to offset one-time costs or to increase revenues.

5. Mid-Year Adjustments

Mid-year budget adjustments recommended by Council committees, task forces, or the full Council, should be referred to the Mid-Year Budget Review or the annual budget process for consideration along with other competing budgets needs and priorities. In general, ongoing budget changes should be dealt with during the annual budget process while one-time budget changes may be considered during either the Mid-Year Budget Review or during the annual budget process.

The authority to make expenditures in accordance with a City Council-approved spending plan is only valid as long as revenue for the budgets is equal to or greater than estimated expenditures.

All appropriation amendments and revenue estimate changes will be reported in the monthly financial report.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 6 of 1214	POLICY NUMBER 1-18
---	-------------------	-----------------------

6. Overhead Cost Allocation

All overhead costs shall be allocated to the appropriate program within the limits of local, State and federal laws. The City utilizes a two step method (double step down method) where costs are first allocated among the central service support programs to arrive at the total cost of the central service programs. These total costs are then allocated down in priority order to the departments and funds that are benefiting from their services. The allocating support program costs are charged to the associated departmental funding source and corresponding revenue is received by the General Fund.

7. Budget System

The City will maintain a budget control system to adhere to the budget.

There will be delivery of a Proposed Budget, in accordance with the Adopted Budget schedule, that accurately depicts the financial condition and goals of the City. This budget should be in a form that enables decision makers to set the direction and policy of the City.

The Proposed Budget will illustrate the General Fund, special funds, and capital funds so that the entire resources of the City may be viewed comprehensively for decision-making. Decision-making for capital improvements will be coordinated with the operating budget to make effective use of the City's overall resources for operating and maintaining facilities.

The adoption of the annual appropriations ordinance will coincide with the adoption of the resolution setting forth the annual revenue estimates.

Budget detail shall contain line-item detail for the core service spending plan, a personnel summary report listing the types of positions for each department, and a corresponding core service performance plan. It shall also contain department and fund summaries for spending and personnel as well as a detailed financing plan for the core service.

8. Debt

The City Council adopted a Debt Management Policy (Council Policy 1-15) that establishes the following equally important objectives:

- a) Minimize debt service and issuance costs.
- b) Maintain access to cost-effective borrowing.
- c) Achieve the highest practical credit rating.
- d) Full and timely repayment of debt.
- e) Maintain full and complete financial disclosure and reporting.
- f) Ensure compliance with applicable State and Federal laws.

As described in Council Policy 1-15, prior to bringing forward a lease financing (financing the acquisition, construction, or improvement by the City of real property or equipment) to

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 7 of 4214	POLICY NUMBER 1-18
---	-------------------	-----------------------

the City Council for approval, the Finance Department shall perform initial due diligence on the project to be financed. The due diligence will include identifying the revenue source for repayment, and performing a feasibility study to determine the volatility of the revenue and provide a sensitivity analysis on project revenue projections, including worst/best case scenarios and the impact on any repayment source identified as the backstop to the project revenues. In order to proceed with the preparation of the documents necessary for the lease financing, two-thirds majority approval by the City Council of the proposed plan of finance is required. When the lease financing is brought forward for City Council approval, the Finance Department will provide the City Council with an update to the due diligence report and any feasibility study. Approval of the lease financing will require two-thirds majority approval by the City Council. These provisions do not apply to a refunding of a lease financing transaction.

In order to reduce the principal on outstanding debt and minimize debt service costs, one-time savings generated from debt restructurings and refundings should be used to pay down the outstanding principal of other existing City debt, whenever possible, taking into consideration any fund restrictions.

9. Self Insurance

The budget will provide for the adequate funding for the City's self-insurance programs.

10. Capital and Equipment Maintenance

The budget will provide for the adequate maintenance and orderly replacement of capital, plant, and equipment.

11. Retirement

The budget will provide for the adequate funding of all retirement systems.

12. Monthly Report

The Administration will prepare regular monthly reports comparing actual revenues and expenditures to budgeted amounts.

The budget will be produced so that it can be directly compared to the actual results of the fiscal year and presented in a timely monthly report.

All budget amendments, both for revenues and expenditures, will be noted in the monthly report.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 8 of 4214	POLICY NUMBER 1-18
---	-------------------	-----------------------

13. Multi-Year Estimates

Each year the City will update expenditure and revenue projections for the next five years. Projections will include estimated maintenance and operating costs of future capital improvements that are included in the capital budget.

This budget data will be presented to elected officials in a form that will facilitate annual budget decisions, based on a multi-year strategic planning perspective.

14. Performance and Productivity

The City will integrate performance measurement and productivity indicators within the budget. Prior to implementation, performance objectives and service levels will be submitted for all new and existing programs established during the budget process. The selection of performance standards should be made on the basis of information reliability, relevance to current year budget change proposals, value to Mayor/Council decision making, and utility for program management

The City will promote the understanding that City employees are the most valuable resource of the City and that their understanding and involvement in the budget process is crucial to the City's continuing success on behalf of the community.

The City will employ good management practices when planning for service delivery by including money in budget requests to pursue activities such as:

- a) office automation and computer applications that increase productivity;
- b) equipment modernization;
- c) work-flow simplification;
- d) risk management, exposure reduction, and employee safety;
- e) preventive maintenance;
- f) energy conservation;
- g) life-cycle costing in purchasing of equipment;
- h) lease-purchase options for high-cost equipment and purchases that reduce operating expenses;
- i) performance planning, reporting, and evaluation; and
- j) employee training.

The City will prepare and evaluate program performance plans that relate to financing and spending plans in the annual City budget.

15. Public Involvement

Public involvement shall be encouraged in the annual budget decision-making process through public hearings, public outreach and information, and informal meetings.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 9 of 1214	POLICY NUMBER 1-18
---	-------------------	-----------------------

16. "Distinguished Budget" Presentation

The approved budget shall be submitted to the Government Finance Officers Association and the California State Municipal Finance Officers for consideration for professional awards and recognition for Distinguished Budget Presentation.

17. Fees

Fees shall be set to cover 100% of the cost of service delivery, unless such amount prevents residents from obtaining an essential service. Fees or service charges should not be established to generate money in excess of the costs of providing services.

Fees may be less than 100% if Council determines that other factors (e.g. market forces, competitive position, etc.) need to be recognized.

18. Non-profit Organizations

Future funding decisions regarding non-profit organizations will be based on guidelines, policies and priorities determined by the Mayor/City Council and availability of funding based on spending priorities.

The City shall execute performance contracts with those agencies that receive City funding.

19. Master Plans

Master plans for specific service areas brought forward for Council consideration shall include options for capital and operating financing. Master plans shall be required to propose funding mechanisms for all recommendations.

20. Office of the Mayor and City Council District Office Budgets in Transition Years

For fiscal years in which the term of office of the Mayor or Councilmember(s) will expire and, as a result, the official may leave office due to election results or term limits (a "Transition Year"), two separate appropriations to maintain separate budget allocations for the outgoing and incoming elected officials shall be established. The total budget allocation will include: (a) office general budget; (b) constituent outreach budget; and (c) any carryover available from the prior fiscal year, from both office general and constituent outreach budgets. The first appropriation shall be for the July through December period for the Mayor and Councilmember(s) whose terms expire in December of that year, representing 50% of the total allocation. The second appropriation shall be for the January through June period for the newly elected Mayor and Councilmember(s), representing the remaining 50% of the total allocation. Outgoing Mayor and Councilmember(s) shall take into account the costs associated with any contracts entered into and all of their office's personnel costs, including leave balance payouts for their staff so as not to reduce the amount budgeted for the incoming official. Any remaining budget allocation at the conclusion of the first appropriation shall be reappropriated to the second appropriation for that specific office as part of the annual Mid-Year Budget Review process. Should an election result in no change

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 10 of 1214	POLICY NUMBER 1-18
--	---------------------------	------------------------------

in the office holder, as part of the Mid-Year Budget Review process, the second appropriation shall be combined into the first for continuity of operations.

21. Interfund Loans

Interfund loans are loans from one City fund to another City fund for a designated purpose. To ensure that all interfund loans are appropriate, properly documented, and not established to the detriment of the fund issuing the loan, the following interfund loan eligibility and documentation requirements are established.

- a) Interfund Loan Eligibility Requirements—Interfund loans may not be used to solve ongoing structural budget problems. Interfund loans must have an identified repayment source and date; include an interest component that equals the investment earnings the fund would have received had the loan not occurred; and be immediately due and payable if needed by the fund that provided the loan.
- b) Interfund Loan Documentation Requirements- Loan amount, term, and repayment source will be identified any time a loan is recommended. Loans will be coordinated with the City Attorney’s Office to ensure compliance with the Municipal Code and will be approved by the City Council. Payments made on outstanding loans shall be reflected in the Proposed and Adopted Budget and Annual Report, as applicable. A summary of all outstanding loans will also be included in the annual Proposed and Adopted Operating Budget and the Comprehensive Annual Financial Report (CAFR). The CAFR will also consistently include the loan term, rate of interest, and the interest amount due in its calculation of the total liability associated with the loan.

CAPITAL IMPROVEMENT PROGRAM

1. Fiscal Policies

- a) Capital project proposals should include complete, reliable, and attainable cost estimates. Based upon a thorough analysis of the project, project cost estimates for the Five-Year Capital Improvement Plan will vary in reliability depending upon whether they are to be undertaken in the first or fifth year of the Plan. Project estimates for the Five-Year Capital Improvement Plan should include the basis on which the project costs were prepared (conceptual design, master plan, etc.), and the relative reliability of those estimated costs.
- b) Capital project proposals should include a comprehensive resource plan. This plan should include the amount and type of resources required, and the funding and financing strategies to be employed. The specific fund and timing should be outlined. The plan should indicate resources needed to complete any given phase of a project in addition to the total project. The City Manager’s Office is responsible and accountable for providing Council with an accurate, comprehensive resource plan.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 11 of <u>1214</u>	POLICY NUMBER 1-18
--	-------------------------------------	------------------------------

- c) Changes in project estimates for the comprehensive resource plan shall be fully reported to the City Council for review and approval.
- d) Project proposals should indicate the project impact on the operating budget. Each project that is proposed in any year of the 5-year Capital Improvement Program shall have an estimate of the costs for furniture, fixtures, equipment, and technology and the annual operations and maintenance costs in the appropriate year of the Operating Budget or in the Five Year Forecast and Revenue Projections.
- e) During the Annual Capital Budget process for multi-year budgeted projects, the City Manager will provide the Council with more information regarding the project including the original budget, budget addendums, and the projected schedule in spreadsheet format.
- f) At the time of award of the construction contract, each project shall include reasonable provision for contingencies.
- g) At the time of award of the construction contract, each project shall include reasonable provisions for furniture, fixtures, equipment, and technology that are separately identified in a line item or items in the construction budget and those costs shall be noted in the staff report to the Council.
- h) At the time of award of the construction contract, each project's estimated annual operating and maintenance costs shall be identified in the staff report to the Council and shall be included in the Operating Budget or in the Five Year Forecast and Revenue Projections for projects expected to be completed after the end of the budget year.
- i) The contingency amounts to be used for various types of projects were approved by the City Council on December 3, 2002 and amended on December 15, 2009, and are as follows:
- 5% of the total contract for street, sidewalk, and park projects;
 - 10% of the total contract amount for trails, utilities and building projects;
 - 15% of the total contract amount for building renovation projects; or
 - Such other amounts as approved by the Mayor/City Council for a particular project.
- j) Project contingencies may, unless otherwise determined by the City Council, be used only to compensate for unforeseen circumstances requiring additional funds to complete the project within the original project scope and identified needs.
- k) For budgeting purposes, project contingencies are a reasonable estimating tool. At the time of contract award, the project's budgeted appropriation, including contingency, will be replaced with a new appropriation equal to the approved project contract contingency developed in the manner described above.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 12 of <u>1214</u>	POLICY NUMBER 1-18
---	------------------------------	-----------------------

- l) The City Administration shall seek ways of ensuring that administrative costs of carrying out the Capital Improvement Program are kept at appropriate levels.
- m) The Annual Capital Budget shall include only those projects that can reasonably be accomplished in the indicated timeframe. Multi-year budgeting of projects shall be used to ensure a reasonable timeframe for projecting costs. The detail sheet for each budgeted capital project should include a projected schedule.
- n) The status of all capital projects, and the entire Capital Budget, will be monitored by the Mayor/Council as part of the Mid-Year Budget Review. Large projects of crucial importance may be monitored on a more frequent basis as determined by the City Council.
- o) Capital projects that are not encumbered or completed during the fiscal year will be re-budgeted to the next fiscal year except as reported to and subsequently approved by the City Council. All re-budgeted capital projects should be so noted in the Proposed Capital Budget.

2. Capital Improvement Plan Policies

Public participation in the Capital Improvement Program is a priority concern for the City. Among the activities conducted to address this need are the following:

- a) The Capital Improvement Plan shall be provided to the City Council in a timely manner as required by the City Charter to allow for Council members to review the proposal with constituents before it is considered for adoption.
- b) Council budget review study sessions on the Capital Improvement Plan shall be open to the public and advertised sufficiently in advance of the meetings to allow for public attendance.
- c) Prior to the adoption of the Capital Improvement Plan, the City Council shall hold noticed public hearings to provide an opportunity for residents to express their opinions on the proposed plan.
- d) The City Planning Commission shall review the proposed Capital Improvement Plan and provide their comments on its contents before the City Council considers the plan for final adoption.
- e) All projects included in the Capital Improvement Program shall be consistent with the City's General Plan and the City's Energy and Water Policies. The goals and policies within the General Plan relating to community development, housing, services and facilities, transportation, solid waste, aesthetic, cultural and recreational resources, natural resources, and hazards should be followed in the development of the Capital Improvement Plan. The General Plan service-level goals will be clearly stated in the Capital Improvement Program.

TITLE OPERATING BUDGET AND CAPITAL IMPROVEMENT PROGRAM POLICY	PAGE 13 of 12 14	POLICY NUMBER 1-18
---	-----------------------------------	-----------------------

- f) Capital projects shall be financed to the greatest extent possible through user fees and benefit districts where the construction of the project results in direct benefit to users.
- g) The Council will annually review and establish criteria for measuring proposed capital improvement projects. Among the factors that will be considered for priority ranking are the following:
 - Projects that have a positive impact on the operating budget, such as reduced expenditures or increased revenues.
 - Projects that are programmed in the Five-Year Operating Budget Forecast.
 - Projects that can be completed or significantly advanced during the Five-Year Capital Improvement Plan.
 - Projects that can realistically be accomplished during the year they are scheduled.
 - Projects that implement prior Council-adopted reports and strategies.
- h) Projects that involve inter-governmental cooperation in planning and funding should be established by an agreement that sets forth the basic responsibilities of the parties involved.

3. *Debt*

The City Council has adopted a Debt Management Policy (Council Policy 1-15) that establishes the following equally important objectives:

- a) Minimize debt service and issuance costs.
- b) Maintain access to cost-effective borrowing.
- c) Achieve the highest practical credit rating.
- d) Full and timely repayment of debt.
- e) Maintain full and complete financial disclosure and reporting.
- f) Ensure compliance with applicable state and federal laws.

As described in Council Policy 1-15, prior to bringing forward a lease financing (financing the acquisition, construction, or improvement by the City of real property or equipment) to the City Council for approval, the Finance Department shall perform initial due diligence on the project to be financed. The due diligence will include identifying the revenue source for repayment, and performing a feasibility study to determine the volatility of the revenue and provide a sensitivity analysis on project revenue projections, including worst/best case scenarios and the impact on any repayment source identified as the backstop to the project revenues. In order to proceed with the preparation of the documents necessary for the lease financing, two-thirds majority approval by the City Council of the proposed plan of finance is required. When the lease financing is brought forward for City Council approval, the Finance Department will provide the City Council with an update to the due diligence report and any feasibility study. Approval of the lease financing will require two-thirds

majority approval by the City Council. These provisions do not apply to a refunding of a lease financing transaction.

In order to reduce the principal on outstanding debt and minimize debt service costs, one-time savings generated from debt restructurings and refundings should be used to pay down the outstanding principal of other existing City debt, whenever possible, taking into consideration any fund restrictions.
