Service Delivery Framework

PROGRAM	DESCRIPTION
	Citywide Land Use Planning Core Service
Citywide Planning	Guides the physical design and development of San José by maintaining and updating the Envision San José 2040 General Plan; preparing and updating Urban Village Plans, Area Development Policies, and Specific Plans; conducting long range planning studies and participating with local partners on regional planning; updating City ordinances and policies as they relate to land use and development; and conducting data analysis.
Planning Environmental Review and Historic Preservation	Ensures environmental protection is included in San José's land use planning decision-making process. The Historic Preservation Program seeks to preserve buildings of historical significance in San José.
Planning Administration	Provides administrative support to Planning Development Services for preparation of public hearings and land use entitlement documents.
Development Pla	nn Review and Building Construction Inspection Core Service
Building Development Services	Ensures building projects in San José are built to meet City and State standards by providing customer information, supporting small businesses, issuing building permits, conducting plan reviews, and inspecting building projects to ensure compliance with applicable codes and policies.
Planning Development Services	Ensures development within the City is consistent with the City's General Plan by processing land use entitlement applications for consistency with the City's General Plan, regulations and policies; reviewing building permit applications for consistency with the City's requirements and permit approvals; and providing land use and permitting information to the public.
Development Services Administration	Supports the Shared Resources Programs by providing oversight of information technology system development and maintenance support for the department and AMANDA integrated permit and electronic content management systems, imaging documents and processing customer document requests, scheduling building inspections, and assisting customers in person and by phone for appointments.
	Code Enforcement Core Service
Community Code Enforcement	Ensures the health and safety and quality of life for San José residents and businesses by enforcing the municipal code and land use requirements.
Multiple Housing Code Enforcement	Ensures multi-family buildings are maintained in safe, decent, and sanitary conditions by conducting proactive, routine, and complaint-based inspections under the Multiple Housing Residential Occupancy Permit Program.
Solid Waste Code Enforcement	Regulates and inspects solid waste facilities to ensure that each permitted facility is in full compliance with federal, state, and local regulations governing health and operational standards.
Code Enforcement Administration	Provides management and oversight to the Code Enforcement Division along with administrative and analytical support, budget preparation, billing, and monitoring.

Development Plan Review and Building Construction Inspection Core Service

Building Development Services Program

As directed in the Mayor's March Budget Message for Fiscal Year 2021-2022, as approved by the City Council, this action adds 2.0 Associate Engineer and 1.0 Principal Permit Specialist positions, funded by the Building Development Fee Program Fund, to support expedited review of Accessory Dwelling Unit (ADU) permit applications. The City processed 26 times the number of ADU applications in 2020 as it did in 2015, and ADU's represented 38% of all the housing permits pulled in 2020. This action will enable the Department to meet the growing demand for ADU permits and further support the City's objective to provide more inclusive and affordable housing. In addition, this action continues 1.0 Analyst II position in the General Fund, through June 30, 2022, to serve as the ADU Ally, which will be the City's main point of contact for potential ADU applicants and facilitate the promotion of ADU's. Specifically, the position will conduct outreach, informative workshops, and improve customer service in answering all questions regarding ADU application process and requirements. The position will also streamline review processes for ADU applications and conduct data tracking and analysis to ensure the successful continuity of the program. (Ongoing costs: \$499,570)

Citywide Planning and Planning Environmental Review and Historic Preservation Programs

This action adds 3.0 Planner I/II/III positions through June 30, 2022, 1.0 Planner III position permanently, and non-personal/equipment funding of \$10,000 to provide environmental review for special and capital programs. The Planner positions, funded by Housing Funds and Environmental Services Funds, will be responsible for reviewing and preparing federal and state environmental documents on all Housing projects and conducting environmental reviews for the Regional Wastewater Facility and other Environmental Services capital projects. Per the California Environmental Quality Act (CEQA), the City is required to disclose the environmental impacts of all its actions, including all Council approvals and many staff-level actions involving development and construction. Furthermore, the City projects that require federal funding or approval by a federal agency require review under the National Environmental Policy Act. In addition, these positions will coordinate with consultants on the preparation of environmental documents and standard review timelines to complete the clearances, review CEQA references for City Council memos, and/or provide direction on project design to comply with CEQA. This action continues 1.0 Planner II and 1.0 Planner III positions, limit-dated through June 30, 2022, to continue processing Google's Downtown West mixed-use development project. These positions were approved as part of the 2018-2019 Mid-Year Budget Review, with funding from the Funding and Service Reimbursement Agreement with Google to pay for certain planning and development services in the Diridon Station Area. This continuation allows for further project planning and civic engagement in the Diridon Station Area, including updating the Diridon Station Area Plan, assessing the Google mixed-use development project, reviewing all relevant environmental documents, and negotiating the Development Agreement. These positions will be fully funded by the Diridon Station Area Development Planning City-Wide Expenses allocation as described elsewhere in this document. (Ongoing costs: \$0)

This action eliminates 11.0 positions (1.0 Principal Office Specialist and 10.0 Senior Office Specialist), of which six are vacant and five are filled, and realigns funding for 3.0 positions (1.0 Program Manager, 1.0 Staff Specialist, and 1.0 Principal Office Specialist) to reflect the appropriate amount of staff resources needed to support the Development Services Imaging, Call Center, and Electronic Content Management System (ECMS) function. As part of the Integrated Permit System upgrade and Development Services Transformation program, extensive progress was made to transition the Development Services record management process from all records being manually scanned and organized to a majority of records created via electronic processes such as Electronic Plan Review and digital inspections. These position eliminations and funding reallocations will more accurately reflect the resources needed to support the decreased workload due to technology improvements. As part of the Development Services Transformation effort, the Development Services Shared Resources partnership received ongoing non-personal/equipment funding as part of the 2019-2020 Adopted Operating Budget to fund the annual software licensing costs of Open Counter. Although Open Counter had the potential to provide a more modern and accessible method of providing permitting information to the public, other software system upgrades like the Geographic Information System and Public Portal have provided similar benefits. This action decreases non-personal/equipment funding by \$190,000 as a General Fund reduction strategy. The identified reductions will impact the Department's Citywide Planning, Code Enforcement, and Management and Administration programs primarily in professional services, supplies and materials, and computer data processing. These reductions could potentially limit the programs' ability to contract third-party services when workload exceeds budgeted staffing and acquire new or upgraded equipment. This action reduces Planning, Building and Code Enforcement Department's non-personal/equipment budget by \$48,309 on an ongoing basis to reflect savings in the reprographics (printing) contract. The Finance and Information Technology Departments jointly worked to re-procure the City's reprographics contract for copier, scanner, fax devices support, and administration software and tools. Savings in the amount of \$363,000 will be generated in the General Fund, \$462,000 in all funds, across all departments from lower rental costs for the multi-function devices and significantly lower cost per copy and consumption rates. Savings can be realized with new green-print options and central administration of devices. (Ongoing savings: \$48,309)

This action rebudgets unexpended 2020-2021 non-personal/equipment funding of \$208,000 for policy development coordination to advance the City Council's policy goals. The funding is for temporary staffing assistance for the Planning Division's Policy and Ordinance Team to help research and draft proposed changes to land use regulations in the San Jose Municipal Code and land use policy documents, in order to facilitate the implementation of action items identified in the Envision San Jose 2040 General Plan and economic development. In addition, the funds will be used to draft proposed code and policy changes, such as those identified in the work program of the General Plan's Housing Element (as certified by the State), the phases of the Sign Code Update strategy adopted by City Council in 2010 as part of the Comprehensive Sign Code Update, and various City Council directed policy priorities; simplify the application process for legal, nonconforming uses; and Urban Village financing. This action rebudgets unexpended 2020-2021 non-personal/equipment funding of \$73,000 for consultant services to update the Greenhouse Gas (GHG) Reduction Strategy. The City of San Jose adopted a GHG Reduction Strategy in conjunction with the Envision San Jose 2040 General Plan Update consistent with the implementation requirements of Assembly Bill 32 (AB32), the Global Warming Solutions Act of 2006. AB32 requires State of California to reduce GHG emissions to 1990 levels, and this funding will ensure the City follows this mandate. The GHG Reduction Strategy was adopted by the City Council as an appendix to the Envision San Jose 2040 General Plan on November 1, 2011. (Ongoing costs: \$0)

Data for this measure is collected through the biennial City-Wide Community Survey. The 2021 survey was not available to be issued in time to report data in the 2021-2022 Adopted Budget; however, results of the survey will be reported as part of the City Auditor's Annual Report on City Services for 2020-2021. The next community survey will be conducted in 2023.

² The figures reflect the continuation of service suspensions due to the impact of the COVID-19 pandemic, as well as forecasted staffing levels (vacancies).

The 2020-2021 Estimated costs per violation exceeded the 2020-2021 Target due to the impact of the COVID-19 pandemic and suspension of Code Enforcement services, which resulted in a lower than normal level of cases processed.

A Request for Proposal for a consultant for the Development Survey is currently in progress. It is anticipated that the performance measure data will be available for inclusion in the 2022-2023 Proposed Budget.

While additional positions have been added in the past several years and some positions have been filled, vacancies remain in the Senior Engineer and Associate Engineer classifications. In addition, due to an increased volume of plan check due to higher demands for Accessory Dwelling Units and smaller projects, plan check processing time has experienced an increase. The Administration continues to recruit for a wide range of development services positions.

The 2020-2021 Estimated met its target because there were smaller projects which resulted in faster completion time. This level and type of projects is abnormal and is likely due to the COVID-19 pandemic impact on development activity. In 2021-2022, it is anticipated that the workload will return to pre-pandemic levels and the targeted completion time will be lower than 2020-2021.
