McLaughlin Quick Build
Project

En Movimiento Quick Strike-
Project

En Movimiento Community
Advisory Group Meeting #6

San Antonio Project
Evaluation

GOOD AFTERNOON

This is the third edition of the En Movimiento newsletter. The purpose of this newsletter is to keep the community up to date as we design and build the projects envisioned in our [East San José transportation plan](#).

MCLAUGHLIN QUICK BUILD PROJECT

Since our last newsletter, DOT has been working with the community on designs for our McLaughlin Quick Build project. The first phase of this project will leverage the City's annual pavement maintenance program. This spring, the city will repave and restripe McLaughlin and use paint and plastic posts to redesign the street to make it safer for people who walk and bike. Later this year, the City will install transit boarding islands to enhance transit operations along the corridor.

Once the new treatments are in place, the City will evaluate the project. If we succeed in reducing speeds along McLaughlin, we can then move to the next phase of this project. The next phase will include the installation of new crossings at Sunny Ct and Appian Ln.

For more information about this project and to view the latest designs, please visit the project page at: <https://www.movesanjose.org/efforts/mclaughlin-avenue-quick-build-project/>

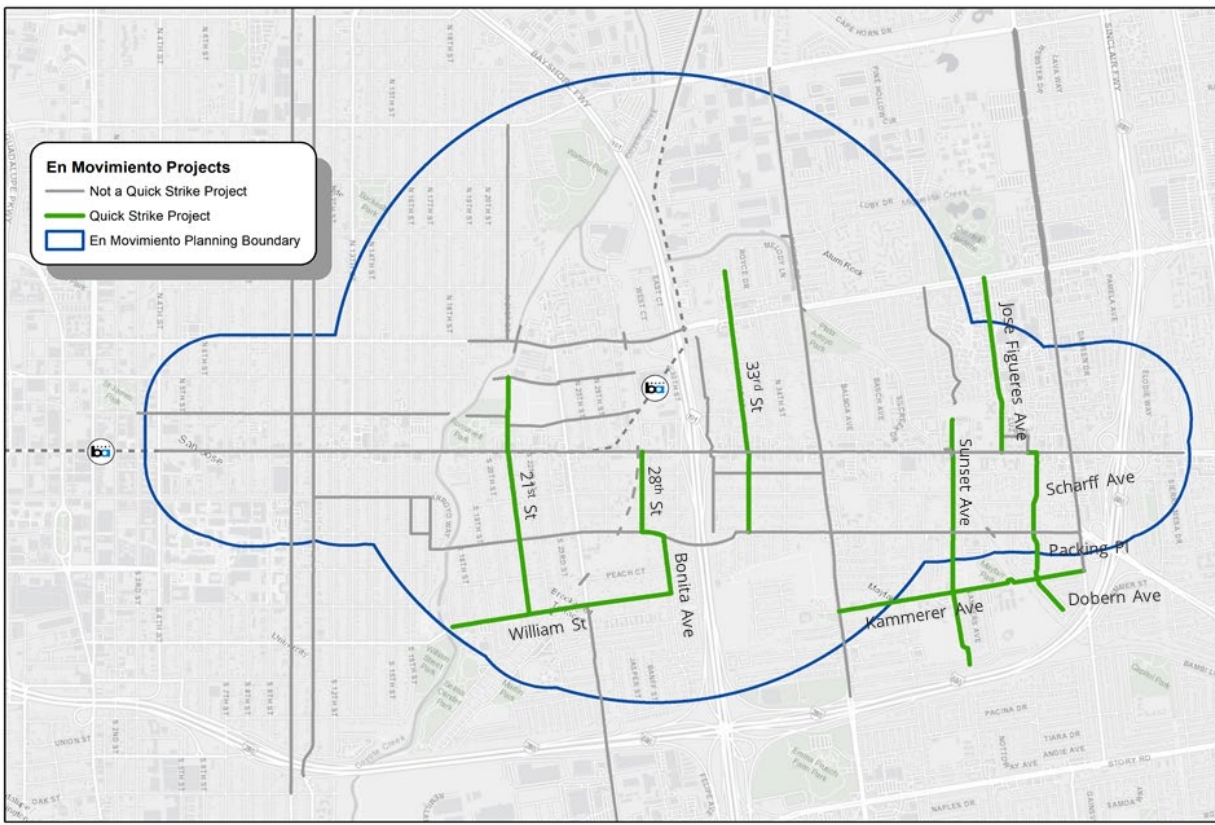

Protected Bike Lanes on E San Antonio St

EN MOVIMIENTO QUICK-STRIKE PROJECT

In early 2021, the Metropolitan Transportation Commission (MTC) awarded the City of San José DOT \$1.4 million to design and build seven bike boulevard projects originally envisioned in En Movimiento. The grant requires that projects be implemented quickly. The seven project corridors included in this effort are:

1. 21st St (Santa Clara St to William St)
2. William St/Ct (Brookwood Ave to Bonita Ave)
3. 28th St/Bonita Ave (Santa Clara St to William Ct)
4. 33rd St (Melody Ln to San Antonio St)
5. Kammerer Ave (King Rd to Jackson Ave)
6. Sunset Ave (Alum Rock Ave to Lavonne Ave)
7. Jose Figueres/Scharff/Packing/Dobern (McKee Rd to Dobern Ave)

En Movimiento Quick Strike Network - Project Map

In November, DOT hosted two community meetings to discuss initial project ideas with residents. Since then, we have been working on designs of treatments that will provide the desired traffic calming and fit within the constraints of our budget and timeline. Once again, we would like to invite all interested community members to discuss the latest designs. See page 3 for meeting details. To learn more about this project and to see the latest designs please visit our [En Movimiento Quick-Strike project page](#).

En Movimiento Quick-Strike Design Review #3

When: Mar 24, 2022 05:30 PM Pacific Time (US and Canada)

Register in advance for this meeting:

<https://zoom.us/meeting/register/tjYlfuuoqTMsHtUQcdpX7KGaHMGiSePPxqDh>

After registering, you will receive a confirmation email containing information about joining the meeting.

JOIN OUR NEXT EN MOVIMIENTO CAG MEETING

Our next En Movimiento CAG meeting will be **Wednesday, March 30th from 5:30 – 7:00 pm**. We will discuss the latest on our San Antonio evaluation, the McLaughlin Quick Build Project, the En Movimiento Quick-Strike Project, and the next phase of En Movimiento. We will post the full agenda two weeks before the meeting.

How to Join:

En Movimiento CAG Meeting #6

When: Mar 30, 2022 05:30 PM Pacific Time (US and Canada)

Register in advance for this meeting:

https://zoom.us/meeting/register/tjMqf-irqjktGdxcHD_ujkPn7PrCllsXok77

After registering, you will receive a confirmation email containing information about joining the meeting.

SAN ANTONIO PROJECT EVALUATION

Since the completion of the San Antonio project last year, DOT has been collecting and analyzing data to determine whether we are moving in the right direction on San Antonio. We are nearing the end of the evaluation process and expect to produce an evaluation report prior to the next Community Advisory Group meeting on March 30th.
