Eval Notes: Cold start after ISD module install was performed in September 2016. Hand off from install to testing company was missed. A full monitoring system certification occurred on January 19th, 2017 and no issues were observed. See report on that date for details. This report constitutes final approval for this project.

Completed Date: 05/02/2008
Comments: The remedy (cap) continues to be protective of public health, safety and the environment. the next 5 year review is due March 2013.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 06/20/1991
Comments: Report of Completion of Interim Remedial Measure/Removal Action (IRM/RA). Polynuclear aromatic hydrocarbons (PAHs) contaminated soil (23,000 cubic yards(CY)) resulting from a former PG&E gas manufacturing site was excavated and encapsulated into the nearby parking lots. Gasoline contaminated soil (17,000 CY) was also excavated and stockpiled nearby for vapor extraction treatment. The excavated area was backfilled with clean fill.

Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 06/28/1991
Comments: Completion of Phase I Construction Documentation Report. Required a deed restriction to be filed. PNA contaminated soil from a former PG&E site was excavated and encapsulated into a nearby parking lot. Gasoline contaminated soil was also excavated and stockpiled on a nearby lot for vapor extraction treatment. The excavated areas were backfilled with clean soil. The volume of excavation for PNA contaminated soil was approximately 23,000 cubic yards. The volume of excavation for gasoline contaminated soil was approximately 17,000 cubic yards. Groundwater treatment was performed under San Francisco RWQCB's requirements. Current files at the RWQCB list the site closed on 06/20/97.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 05/01/2006
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction
Completed Date: 05/23/2003
Comments: A Deed Restriction limiting future use of property including the material encapsulation areas which requires no disturbance of the encapsulated areas and the slurry wall. If the areas are disturbed, DTSC is to be notified, a health and safety plan prepared, the material from the encapsulation area will be handled properly, and repairs to the area will be done as quickly as possible.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 04/27/2007
Comments: No problems noted during inspection.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Soils Management Plan
Completed Date: 07/21/2006
Comments: Comments on the report were: a soil management plan is required; asphalt removal, if needed and liquifaction issues for the SE corner will need to be addressed, and any other project ("Ball Park") that might involve a parking structure to be added to the parking lot at the HP pavilion.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 06/27/2003
Comments: Site Screening completed which recommended No Further Action. The soil remediation was completed in 1992 by a paved parking lot system, slurry wall around the Arena footprint, and soil cap at the Arena Green. The site was approved as closed by RWQCB in 1997. A deed restriction was recorded by DTSC in May 2003.

Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 05/30/2012
Comments: DTSC conducted its annual site visit to check the condition of the cap over contaminated soil and to verify compliance with the restrictions and requirements of the Land Use Covenant. During the inspection, numerous cracks were observed in the Hewlett Packard Pavilion parking lot. The cap consists of two feet of fill and clay and is overlaid with asphalt for use as a parking lot. The observed cracks appeared to only be in the asphalt, and the cap appears to remain protective of human health. There was no evidence of any activities prohibited by the Land Use Covenant.

deed restriction to be filed. PNA contaminated soil from a former PG&E site was excavated and encapsulated into a nearby parking lot. Gasoline contaminated soil was also excavated and stockpiled on a nearby lot for vapor extraction treatment. The excavated areas were backfilled with clean soil. The volume of excavation for PNA contaminated soil was approximately 23,000 cubic yards. The volume of excavation for gasoline contaminated soil was approximately 17,000 cubic yards. Groundwater treatment was performed under San Francisco RWQCB's requirements. Current files at the RWQCB list the site closed on 06/20/97.

Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 05/01/2006
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction
Completed Date: 05/23/2003
Comments: A Deed Restriction limiting future use of property including the material encapsulation areas which requires no disturbance of the encapsulated areas and the slurry wall. If the areas are disturbed, DTSC is to be notified, a health and safety plan prepared, the material from the encapsulation area will be handled properly, and repairs to the area will be done as quickly as possible.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 04/27/2007
Comments: No problems noted during inspection.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Soils Management Plan
Completed Date: 07/21/2006
Comments: Comments on the report were: a soil management plan is required; asphalt removal, if needed and liquifaction issues for the SE corner will need to be addressed, and any other project ("Ball Park") that might involve a parking structure to be added to the parking lot at the HP pavilion.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 06/27/2003
Comments: Site Screening completed which recommended No Further Action. The soil remediation was completed in 1992 by a paved parking lot system, slurry wall around the Arena footprint, and soil cap at the Arena Green. The site was approved as closed by RWQCB in 1997. A deed restriction was recorded by DTSC in May 2003.

Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 05/30/2012
Comments: DTSC conducted its annual site visit to check the condition of the cap over contaminated soil and to verify compliance with the restrictions and requirements of the Land Use Covenant. During the inspection, numerous cracks were observed in the Hewlett Packard Pavilion parking lot. The cap consists of two feet of fill and clay and is overlaid with asphalt for use as a parking lot. The observed cracks appeared to only be in the asphalt, and the cap appears to remain protective of human health. There was no evidence of any activities prohibited by the Land Use Covenant.

Background Info: The current address on the building is 525 West Santa Clara Street. The site is bounded by Autumn Street to the east; West Santa Clara Street to the south; Julian Street, Montgomery Street, and St. John Street to the north; and the Southern Pacific Railroad tracks to the west. In May 1987, a site screening identified contaminants in the soil as polycyclic aromatic hydrocarbons (PAH's) from a former Pacific Gas & Electric (PG&E) site with concentrations ranging from non-detect to above 3,000 ppm in localized areas. EPA completed screening site inspection in 1989. The City of San Jose Redevelopment Agency (SJRA) acquired 22 parcels in a former industrial area in downtown San Jose that had a former Pacific Gas & Electric (PG&E) coal gasification plant, various automobile repair and service businesses, underground storage tanks, oil/water clarifiers, and drums.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 10/28/2020	Source: EPA

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

	Data Release Frequency: Semi-Annually

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

CERS: CalEPA Regulated Site Portal Data

The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 08/10/2020
Date Data Arrived at EDR: 10/20/2020

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

UTM X (Meters): 598719.6
UTM Y (Meters): 4131963.2
Elevation: 97 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map: 5640416 SAN JOSE WEST, CA
Version Date: 2012

East Map: 5640414 SAN JOSE EAST, CA
Version Date: 2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

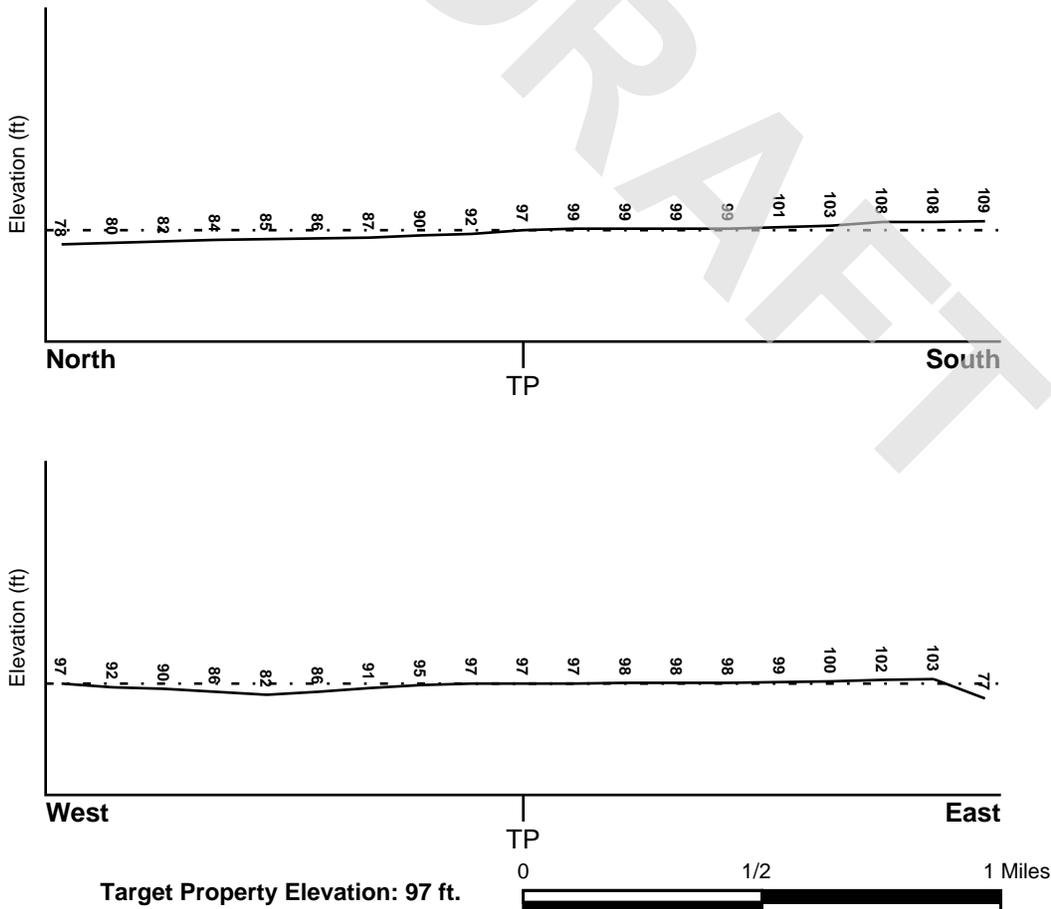

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
06085C0234H	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>

06085C0253H	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
SAN JOSE WEST	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/2 - 1 Mile WSW
Site Name:	River Park Development-Lincoln Props
Site EPA ID Number:	CAD981676430
Surficial Aquifer Flow Dir.:	SW. THIS FLOW APPLIES TO THE "A" AQUIFER.
Measured Depth to Water:	approximately 22 feet in the surficial "A" aquifer and approximately 95 feet in the underlying "B" aquifer.
Hydraulic Connection:	A silty clay layer separates the "A" and "B" aquifers.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Cenozoic
System: Quaternary
Series: Quaternary
Code: Q (*decoded above as Era, System & Series*)

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: BOTELLA
Soil Surface Texture: clay loam
Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.
Soil Drainage Class: Not reported
Hydric Status: Soil does not meet the requirements for a hydric soil.
Corrosion Potential - Uncoated Steel: MODERATE
Depth to Bedrock Min: > 60 inches
Depth to Bedrock Max: > 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	9 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay Soils.	Max: 0.60 Min: 0.20	Max: 7.30 Min: 5.60
2	9 inches	41 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay Soils.	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60
3	41 inches	76 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: No Other Soil Types

Surficial Soil Types: No Other Soil Types

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: No Other Soil Types

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish and Wildlife

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by AEI Consultants were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

Subject: Re: S. 1st and S. 2nd St. and San Fernando.

Hello Megan,
this is going to take some time. Our Sr. Hazmat Inspector who normally searches for hazmat records retired today. I will do my best to make sure it gets done, just not sur how long. I apologize for the inconvenience.

Best Regards,

Loretta Worthy | Sr. Office Specialist

[External Email]

Hi Loretta,

Unfortunately I need most of the addresses in those ranges searched. We are doing an assessment of two large downtown areas that have many addresses. Here are the individual addresses:

-300, 302, 304, 306, 310, 312, 314, 318, 324, 326, 328, 330, 332, 334, 336, 340, 342, 344, 346, 348, 350, 352, 356, 360, 362, 364 South 1st (aka First) Street, San Jose 95113

-301, 309, 317, 331, 341, 343, 345, 347, 349, 357, 359, 363, 365, 367, 369, 375, 377, 381, 383, 385, 387, 389, 391, 393, 395, 397, 399, 401, 403, 405, 411, 425, 435 South 2nd (aka Second) Street, San Jose 95113

-26, 30, 33, 85 E San Salvador Street, San Jose 95113

Hello Megan,
I am not able to do an address range, please give the address of each location on 1st and 2nd St. Thank you.
I will wait to receive a new request. Thank you.

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.
 Business License: 06257247 CA License: 452370 Class: C-10
 Termite Operator, No.: _____ Registered Company No.: _____
 Contractor's Signature: AK Freeman Date: 1/13/14

OWNER-BUILDER DECLARATION

Section 7031.5 I hereby affirm under penalty of perjury that I am exempt from the Contractors License Laws for the following reason (Sec. 7031.5). Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).
 Section 7044 I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he/she did not build or improve for the purpose of sale).
 Section 7044 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor License Law).

I am exempt under Sec. _____, Business and Professions Code for this reason:

Owner: _____ Date: _____

WORKER'S COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:
 I have and will maintain a Certificate of Consent to self-insure for Worker's Compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 I have and will maintain Worker's Compensation Insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My Worker's Compensation Insurance carrier and Policy number are: _____
 Carrier: _____ Policy No.: _____

(THIS SECTION NEED NOT BE COMPLETED IF THE PERMIT IS FOR ONE HUNDRED DOLLARS (\$100) OR LESS)

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California, and agree that if I should become subject to the Worker's Compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: 1/13/14 Applicant: AK Freeman

NOTE: WARNING: FAILURE TO SECURE WORKER'S COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's Name: _____

Lender's Address: _____

CERTIFICATION

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

AGREEMENT FOR PROFESSIONAL SERVICES

This is an Agreement between DAVID J. POWERS & ASSOCIATES, INC. (hereinafter “CONSULTANT”), and AEI CONSULTANTS, (hereinafter “SUBCONSULTANT”), for professional services in connection with the project described below:

I. Project:

20-123 Dot & Bar Mixed-Use, previously referred to as Valley Title

II. Scope of Services:

Subconsultant shall prepare a phase I environmental site assessment as described in the attached scope of work included as Exhibit A.

III. Compensation:

1. Basic Compensation:

Compensation will be paid in an amount not to exceed \$2,200, on a time and materials basis, based on work completed.

2. Additional Services:

None

3. Method of Payment:

CONSULTANT will reimburse SUBCONSULTANT upon receipt by CONSULTANT of payment from their client (Westbank).

IV. Insurance:

SUBCONSULTANT shall, throughout the duration of this Agreement, maintain insurance to cover SUBCONSULTANT (including its agents, representatives, subconsultants, and employees) in connection with the performance of services under this Agreement.

Concurrently with the execution of this Agreement by SUBCONSULTANT, and prior to the commencement of any services, SUBCONSULTANT shall furnish written proof of insurance (certificates and endorsements) to the CONSULTANT for the marked minimum insurance levels:

- Commercial General Liability coverage in an amount not less than one million dollars (\$1,000,000) per occurrence and two million dollars (\$2,000,000) general aggregate for general liability, bodily injury, personal injury, and property damage.
- Automobile Liability coverage in an amount not less than one million dollars (\$1,000,000) per accident for bodily injury and property damage.
- Workers' Compensation coverage as required by the State of California.
- Professional Liability coverage for damages that may be the result of errors, omissions, or negligent acts of SUBCONSULTANT in an amount not less than one million dollars (\$1,000,000) per claim and annual aggregate.

General Liability and owned Automobile Liability insurance under this contract shall be endorsed to contain the following clause:

"David J. Powers & Associates, Inc., its officials and employees are added as additional insured as respects the operations and activities of, and on behalf of, the named insured's performance under its contract with David J. Powers & Associates, Inc."

Please note our job number (#20-123) on the insurance certificate(s).

V. General:

1. SUBCONSULTANT is an independent contractor and all persons employed by SUBCONSULTANT in connection herewith shall be its employees and not employees of CONSULTANT in any respect.
2. SUBCONSULTANT shall comply with applicable local, state, and federal laws, rules and regulations and shall obtain all permits required for the work to be performed hereunder.
3. Should litigation occur between the two parties relating to the provisions of this Agreement, all litigation expenses, collection expenses, witness fees, court costs and reasonable attorney's fees shall be paid by the non-prevailing party to the prevailing party.
4. Time is of the essence in this agreement. Work shall commence immediately upon execution of this Agreement.
5. In the event any provision of this Agreement shall be held to be invalid and unenforceable, the remaining provisions shall be valid and binding upon the parties. One or more waivers by either party of any provision, term, condition or covenant shall not be construed by the other party as a waiver or a subsequent breach of the same by the other party.
6. SUBCONSULTANT shall be responsible for the same general terms, conditions and restrictions as are binding by reason of the Agreement between CONSULTANT and

Westbank (see Exhibit B of this Agreement), and as limited to that portion of the work covered by this Agreement.

7. SUBCONSULTANT shall indemnify and defend CONSULTANT (including its officers, agents and employees) against all suits, losses, damages, expenses (including reasonable attorney's fees), and liability for injury or harm to persons or property only to the extent caused by the negligent performance of this Agreement, excepting only such injury or harm as may be caused by the fault or negligence of the CONSULTANT.

VI. Additional Provisions:

None.

VII. Scope of Agreement:

This is the entire agreement between the parties and there are no conditions, agreements or representations between the parties except as expressed herein. It is not the intent of the parties to this Agreement to form a partnership or joint venture.

This above is mutually agreed to the 21st day of December, 2020.

Re: Proposal for Phase I ESA (2 Reports)

Property 1: 300 and 345 South 1st Street, San Jose, CA 95113

Property 2: 409 S. 2nd Street, 425 1/2 S. 2nd Street and S. 2nd Street, San Jose, CA 95113

Dear Ms. George:

In response to your request for technical reports for the above referenced site, AEI Consultants (AEI) is pleased to present this proposal with our attached Terms and Conditions to complete a Phase I ESA. AEI will follow the scopes of work as stated in the American Society for Testing and Materials (ASTM) to complete these technical requirements.

AEI understands the property consists of the following:

Property Description	
Property Type or Use	Office/Mixed use
Purpose of Assessment	Equity: New Construction
Date of Construction	1931
Lender Name	NA
Number of Buildings / Stories	TBD
Number of Units / Tenants	TBD
Gross Building Area / Land Area	TBD / 1.08 acres and .47 acres
Assessor Parcel Number's (APN)	Property 1: 467-46-081 and 082 Property 2: 467-47-97, 20, 19

Proposed Fees:

AEI will complete the below stated scopes of work for the following fees:

Requested	Service(s)	Fee per Service
<input type="checkbox"/>	Phase I Environmental Site Assessment - \$2200 per report	\$4,400.00

The total cost of the project will be adjusted based on the above selected services. If all services are selected, the total project will be \$4,400.00.

Schedule:

The project will be completed within 15 working days of receiving the signed Authorization to Proceed. Due to the number of days allotted to complete this investigation, responses from some regulatory agencies may not be received prior to the report due date. As such, the report may contain limitations pertaining to the lack of agency responses to the Freedom of Information Act requests and/or records review.

Client Initials: _____ Date: _____

Due to the ongoing cases of COVID-19, AEI is taking extra precautions during site visits to limit the interaction between our employees and occupants. For healthcare, senior living, medical office, assisted living and/or multifamily properties, AEI may not be able to view interior features or occupied areas of the subject property. Client should be aware that access limitations may apply. In addition, client should be aware that travel restrictions or lack of site access may affect our quoted turnaround time. Any delays will be communicated with our client as soon as possible.

If there have been any cases of COVID-19 reported at any of the properties we have scheduled site visits for, please be sure AEI is made aware. Our goal is the safety of our employees as well as the safety of your occupants. The turnaround time quoted is subject to staff availability and any access restrictions due to COVID-19.

Payment Terms and Deliverables:

An invoice for the full contract amount will be issued at the completion of the assessment. AEI will deliver one electronic final copy of each report. Hard copies of the reports are available upon request.

In the event that the client cancels the contract, then the client will be responsible for payment of incurred costs up to the cancellation notice date. If the project is placed on hold for longer than a 90-day period, AEI will cancel the project and the client will be responsible for incurred costs up to the hold date. Hold projects may be re-initiated at any time, and additional fees may apply.

Please review our proposal and if you have any questions, please do not hesitate to contact me. To initiate this contract, please sign the Authorization to Proceed, initial and date each page and return to AEI. Thank you for the opportunity to be of service.

Sincerely,

Tory Golino
Vice President

Enclosed: Scope of Work
 Terms and Conditions
 Authorization to Proceed
 Project Information Datasheet

Scope of Work

Phase I Environmental Site Assessment (ESA) ASTM E1527-13: The Phase I ESA will be performed in conformance with the scope and limitations of ASTM Standard Practice E1527-13 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (40 CFR Part 312). The Phase I ESA will be conducted under the charge of an Environmental Professional and will include the following:

- Site visit and walk-through of the property and structures, readily accessible interior common areas, and a representative sample of occupant spaces. Items such as current and past uses of the property and adjoining properties; property boundaries; observable topographic geologic, hydrogeologic conditions; structures or other improvements; roads; source and location of potable water; wells; surface water; potential hazardous substances and/or petroleum products; storage tanks; abnormal odors; pools of liquid; drums and containers; suspected fill materials; stain soil or pavement; stressed vegetation; solid waste; waste water discharges; floor drains, sumps or clarifiers; septic systems shall be noted as reasonably and visibly observed.
- Search of local, state, tribal and federal databases in accordance with current ASTM and AAI standard search distances.
- Contact local and state agencies, such as environmental health departments, fire prevention bureaus, and building and planning departments to identify any current or previous reports of hazardous materials use, storage, and/or unauthorized releases that may have impacted the subject property. In addition, information pertaining to Activity and Use Limitations (AULs), defined as legal or physical restrictions, or limitations on the use of, or access to, a site or facility, is requested.
- Site history and land use review, including reasonably ascertainable agency records, aerial photographs, historical city directories, fire insurance maps, and other applicable sources.
- Interviews with knowledgeable persons (i.e. past and present owners, property managers, tenants, neighbors), as available and open to interview, regarding the history, operations, waste management, and other environmental considerations for the property.
- Additional observations, though generally outside the scope of a Phase I ESA, but provided as a service to our clients unless otherwise instructed, include EPA-determined radon zone, visual inspection of asbestos-containing building materials, lead-based paint, and mold.
- AEI's limited radon screening, if included, is intended to provide a preliminary screening to evaluate the potential presence of elevated radon concentrations at the site. The proposed scope is not intended to define the full extent of the presence of radon at the subject property. As such, the results should be used for lending purposes only. The recommendations and conclusions presented as a result of the limited preliminary radon screening apply strictly to the property conditions existing at the time the sampling was performed. The sample analytical results are only valid for the time, place, and condition of the site at the time of collection and AEI does not warrant that the results will be repeatable or are representative of past or future conditions.
- Report includes findings, opinions and conclusions, photographs, site map, historical sources, and qualifications in a manner consistent with standard practices.

Environmental Liens Search is not included in the Phase I ESA scope of work unless it is specifically requested.

TERMS AND CONDITIONS

1. **Billings, Payment and Credit.** The Client shall pay All Environmental Inc. d/b/a AEI Consultants (AEI) for the services (the "Services") performed in accordance with the prices set forth in the proposal to which these terms and conditions are attached (the "Proposal", and together with these terms and conditions the "Agreement"). Invoices shall be submitted in accordance with the Proposal. Payment of the AEI invoices shall be the primary, absolute and non-contingent obligation of the Client, and shall not be conditioned upon the closing of a loan transaction or any other event. PAYMENT IS DUE UPON RECEIPT. If AEI does not receive payment in full within thirty (30) calendar days of the date of the invoice, the account shall be deemed delinquent. Unpaid delinquent balances shall bear interest from the invoice date at one and one-half percent (1.5%) per month, or at the maximum lawful interest rate (whichever rate is less). The Client shall be liable to AEI for all costs and expenses of collection of delinquent balances, including reasonable attorney and other fees, and court costs. Time is of the essence with respect to this provision. AEI's non-exercise of any rights or remedies, whether specified herein or as otherwise provided by law, shall not be deemed a waiver of any rights or remedies, nor preclude AEI from the future exercise of such rights or remedies. If a third party is accepting a Proposal as agent for the Client, such third party represents and warrants to AEI that it is legally authorized to bind the Client to the terms of the Agreement and guarantees payment for services.

2. **Right of Entry: Force Majeure.** The Client shall arrange for the right of entry to the subject property ("Site") by AEI, its agents, employees, consultants, contractors and subcontractors, for the purpose of performing all acts as may be reasonably necessary to complete the Services within the agreed scope of work. AEI may require that an authorized, knowledgeable representative of the Site owner be present at the Site as a condition of the performance of the Services and may require that Site personnel operate major building systems and equipment at the time the Services are performed. AEI's ability to comply with the schedule for performance described in the Proposal is contingent upon timely and complete Site access. AEI shall not be responsible for damages or delays in performance caused by force majeure, acts of God, events beyond the control of AEI, or events that could not have been reasonably foreseen and prevented.

3. **Documents/Samples.** All field notes, calculations, estimates and other documents, data or information prepared by or on behalf of AEI in connection with the performance of its Services (collectively, "Documents"), shall remain the sole property of AEI. All Documents prepared by AEI for the Client with respect to any Site shall be used solely for the intended purposes described in the Proposal, and solely with respect to the Site. Unless otherwise agreed, AEI shall retain all Documents for three (3) years following submission of AEI's report to the Client. In its sole discretion and without prior notice to the Client, AEI may dispose of all field samples within thirty (30) calendar days after submission of AEI's report to the Client.

4. **Matters Known to Client.** The Client, itself or through the Site owner, shall provide AEI with any and all information known to the Client, or suspected by the Client, which pertains to: (a) the existence or possible existence at, on, under or in the vicinity of the Site, any hazardous materials, pollutants, lead-based paint, radon or asbestos; (b) any conditions at, on, under or in the vicinity of the Site, which might represent a potential safety hazard or danger to human health or the environment; (c) any permit, manifest, title record, or other record of compliance or non-compliance with any federal, state or local laws, or court or administrative order or decrees; (d) any known or suspected deficiencies or adverse conditions associated with structures or other physical improvements on Site; or (e) any modifications or changes from the original plans and specifications of Site improvements which could affect the recommendations or conclusions reached by AEI in the performance of its Services.

5. **Preliminary Findings.** Preliminary findings (often referred to as "verbals") can be provided to the Client in order to quickly apprise them of preliminary data obtained as a result of AEI's visual observations at the project Site. They are not intended to be exhaustive or conclusive or to substitute for the final written report, as they do not include information obtained from a number of other important and necessary components of the overall assessment. AEI recommends against making any decisions based upon such limited, preliminary, verbal information.

6. **PERFORMANCE STANDARDS. IN PERFORMING THE SERVICES, AEI SHALL EXERCISE THE DEGREE OF SKILL AND CARE NORMALLY EXERCISED BY CONSULTANTS IN THE SAME COMMUNITY PROVIDING THE SAME OR SIMILAR SERVICES FOR PROJECTS OF COMPARABLE SIZE, COMPLEXITY, BUDGET, SCHEDULE AND OTHER CHARACTERISTICS OF THE PROJECT (THE "STANDARD OF CARE"). EXCEPT AS SET FORTH IN THE IMMEDIATELY PRECEDING SENTENCE, AEI MAKES NO WARRANTY, EXPRESS OR IMPLIED, WITH RESPECT TO THE SERVICES OR ANY OF ITS ORAL OR WRITTEN REPORTS. CLIENT ACKNOWLEDGES AND AGREES THAT (I) THE SERVICES MAY REQUIRE JUDGMENTS TO BE MADE BY AEI THAT ARE BASED UPON LIMITED DATA RATHER THAN UPON SCIENTIFIC CERTAINITIES; (II) AEI'S APPROACH, RECOMMENDATIONS, AND ASSOCIATED COST ESTIMATES, IF ANY, ARE BASED ON INDUSTRY PRACTICES AND AVERAGES; (III) PROFESSIONAL OPINIONS ARE RENDERED WITH RESPECT TO OBSERVATIONS MADE AND DATA OBTAINED AT THE TIME OF ASSESSMENT; AND (IV) ULTIMATE OUTCOMES COULD BE INCONSISTENT WITH THE CONCLUSIONS, RESULTS AND PROJECTIONS OF AEI. ALL INFORMATION REGARDING OPERATIONS, PLANS, SPECIFICATIONS, CONDITIONS OR OTHER DATA WHICH IS PROVIDED TO AEI BY CLIENT, OWNERS OR THIRD PARTIES (INCLUDING WITHOUT LIMITATION, ANY POINT OF CONTACT AT THE SITE), IS DEEMED BY AEI TO BE CORRECT AND COMPLETE WITHOUT INDEPENDENT VERIFICATION. AEI ASSUMES NO RESPONSIBILITY FOR THE ACCURACY OR COMPLETENESS OF SUCH INFORMATION AND SHALL NOT BE LIABLE IF RELIANCE ON SUCH INFORMATION RESULTS IN INCORRECT CONCLUSIONS OR RESULTS.**

7. **INDEMNIFICATION AND LIMITATION OF LIABILITY.** AEI AGREES TO INDEMNIFY AND HOLD HARMLESS (BUT NOT DEFEND) CLIENT, ITS DIRECTORS, OFFICERS AND EMPLOYEES AGAINST ANY LOSSES, LIABILITY, DAMAGES, COSTS AND EXPENSES TO THE EXTENT CAUSED BY THE NEGLIGENT ACTS, ERRORS, OR OMISSIONS OF AEI, ITS EMPLOYEES, SUBCONTRACTORS OR ANYONE FOR WHOM AEI IS LEGALLY LIABLE, IN THE PERFORMANCE OF SERVICES HEREUNDER. IN NO EVENT SHALL AEI BE LIABLE FOR LATENT OR HIDDEN CONDITIONS, CONDITIONS NOT ACTUALLY OBSERVED BY AEI WITHIN THE LIMITED SCOPE OF WORK, THE POTENTIAL CONSEQUENCES OF OBSERVABLE CONDITIONS, CONDITIONS OF WHICH CLIENT HAD KNOWLEDGE OF AT THE TIME OF THE ASSESSMENT, OR ANY UNAUTHORIZED ASSIGNMENT OF OR RELIANCE UPON THE REPORTS. THE LIABILITY OF AEI, AND THAT OF ITS OFFICERS, DIRECTORS, EMPLOYEES, AGENTS AND SUBCONTRACTORS, TO CLIENT OR TO ANY THIRD PARTY CLAIMING BY OR THROUGH CLIENT, INCLUDING ANY COMPANY AFFILIATED WITH CLIENT, OR ANY OFFICER, DIRECTOR, EMPLOYEE, AGENT, SUBCONTRACTOR, SUCCESSOR, OR ASSIGN OF SUCH PARTIES, FOR ANY LOSSES, WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE AND STRICT LIABILITY), RELATED TO THE SERVICES, THE AGREEMENT OR OTHERWISE, SHALL NOT EXCEED THE AGGREGATE SUM OF TWENTY-FIVE THOUSAND DOLLARS (\$25,000.00). IN NO EVENT SHALL AEI BE LIABLE TO CLIENT FOR ANY EXEMPLARY, PUNITIVE, INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS) ARISING FROM OR IN ANY WAY CONNECTED WITH ITS PERFORMANCE OR FAILURE TO PERFORM UNDER THE AGREEMENT, EVEN IF THE AFFECTED PARTY HAS KNOWLEDGE OF THE POSSIBILITY OF SUCH DAMAGES.

8. **Dispute Resolution.** This Agreement shall be governed by, subject to, and construed in accordance with the laws of the State of California. Any controversy, claim or action arising out of, or related to, this Agreement, the breach thereof, or the coverage of this arbitration provision may be settled by arbitration and will be based on the rules in effect on the date of delivery of demand for arbitration. The arbitrator(s) shall apply California substantive law to the proceedings, except to the extent Federal substantive law would apply to the claim. The arbitrator(s) shall prepare in writing and provide to the parties an award including actual findings and the reasons on which their decision is based. The arbitrator shall not have the power to commit errors of law or legal reasoning, and the award may be vacated or corrected on appeal to a court of competent jurisdiction for any such error. The arbitration of such issues, including the determination of the amount of any damages suffered by either party hereto by reason of the acts or omissions of the other, shall be to the exclusion of any court of law except for enforcement of an arbitrated award. The decision of the arbitrators, or a majority of them, shall be final and binding on both parties and their respective successors and assigns. If the arbitrators determine that a party has initiated a recovery action on a basis inconsistent with the provisions of this Agreement, the initiating party shall, without exception, be assessed all costs incurred by the responding party. Except as identified above, each party shall pay the fees of its own attorneys, and the expenses of its witnesses and all other expenses connected with the presentation of its case. The costs of the arbitration, including the cost of the record or transcripts thereof, if any, administrative fees, fees of the arbitrators, and all other fees and cost shall be borne as determined by the arbitrators.

9. **Reliance and Assignment.** AEI'S WRITTEN REPORT SHALL CONTAIN AEI'S STANDARD RELIANCE LANGUAGE UNLESS ALTERNATE LANGUAGE HAS BEEN PRE-APPROVED BY AEI. IF NO PRE-APPROVED ALTERNATE LANGUAGE EXISTS, THE SERVICES, THE REPORTS AND OTHER RELATED WORK PRODUCT PROVIDED BY AEI MAY BE RELIED UPON BY THE CLIENT, ITS SUCCESSORS AND ASSIGNS WITH RESPECT TO A LOAN SECURED BY THE SITE, AND ANY RATING AGENCY RATING, OR ANY ISSUER OR PURCHASER OF, ANY SECURITY COLLATERALIZED OR OTHERWISE BACKED BY SUCH LOAN. NO OTHER PERSON OR ENTITY MAY RELY ON THE REPORT WITHOUT THE ADVANCE WRITTEN CONSENT OF AEI, AND NO OTHER THIRD PARTY BENEFICIARIES ARE INTENDED, EXCEPT AS DESCRIBED ABOVE, THE CLIENT SHALL NOT ASSIGN THE AGREEMENT, ANY REPORT OR ANY RELATED WORK PRODUCT, WITHOUT THE PRIOR WRITTEN CONSENT OF AEI. ANY UNAUTHORIZED REUSE OR REDISTRIBUTION OF AEI'S WORK PRODUCT OR REPORTS SHALL BE AT THE CLIENT'S AND RECIPIENT'S SOLE RISK, WITHOUT LIABILITY TO AEI. CLIENT WILL HOLD AEI HARMLESS FROM ANY AND ALL LIABILITY, OBLIGATION, COST AND EXPENSE ARISING FROM OR RELATED TO ANY UNAUTHORIZED DISTRIBUTION OR USE BY CLIENT OF AEI'S WORK PRODUCT OR REPORTS. AEI SHALL NOT ASSIGN ITS OBLIGATIONS UNDER THE PROPOSAL; HOWEVER, AEI MAY EMPLOY, BY SUBCONTRACT, SUITABLY TRAINED PERSONS OR ENTITIES ACCEPTABLE TO AEI TO PERFORM THE SERVICES.

10. **Confidentiality.** AEI shall not disclose information regarding the Proposal, the Services or any Documents, except to the Client, employees, consultants, subcontractors, or other persons engaged by AEI to perform the Services, third parties designated by the Client (subject to the reliance limitations described herein), or as required by law. Notwithstanding the terms of this Section, AEI shall comply with all judicial orders, government directives, and laws, regulations and ordinances, regarding the reporting to appropriate public agencies of potential dangers to public health, safety or the environment.

11. **Miscellaneous.** AEI is an independent contractor of Client, and not Client's agent, employee or partner. The Agreement shall be governed by the laws of the State of California and the parties irrevocably consent to the jurisdiction of the courts of the State of California and of the United States District Court for the District of Northern California if a basis for federal jurisdiction exists. In the event a dispute relating to an AEI report results in litigation, and the claimant does not prevail at trial, then the claimant shall pay all costs incurred by AEI in the defense of the claim, including reasonable attorney's fees. Each provision of the Agreement shall be considered separable, and if, for any reason, any provision or provisions herein are determined to be invalid and contrary to any existing or future law, such invalidity shall not affect those portions of this Agreement that are valid. This Agreement constitutes the entire agreement, and supercedes all prior agreements and understandings, both written and oral, between the parties with respect to the Services to be provided pursuant to this Agreement. The provisions of the Agreement may only be modified by a written instrument signed by an authorized representative of each party.

12. **Hazardous Waste and Reporting.** The Client understands and agrees that human health and safety is a priority in implementing any investigation or assessment. AEI and Client agree that the discovery of hazardous materials, suspect hazardous materials or petroleum products, or unexpected conditions may constitute a change in the condition of the job Site mandating a renegotiation of the scope of work or termination of the project and may make it necessary for AEI to take immediate measures to protect human health and safety. AEI agrees to notify Client as soon as practicable if such materials are encountered. Client encourages AEI to take any and all measures, that in AEI's professional opinion, are justified to protect AEI's personnel and the public. Client agrees to waive any claim against AEI and to indemnify, defend and hold harmless AEI from any and all claims arising out of AEI's encountering unanticipated hazardous materials or suspected hazardous materials. Client agrees to compensate AEI for all costs associated with such an event based upon AEI's prevailing fee schedule.

13. **Utilities.** If AEI is expressly engaged to perform soil boring or other invasive testing, AEI shall not be responsible for damages to underground or aboveground utilities, for unmarked or mismarked utilities or other features, or for damage that occurs to such utilities or features. The Client is responsible for providing information to AEI regarding the location of in-Site utilities. Client recognizes that the use of exploration equipment may unavoidably affect, alter or damage existing structures, vegetation and terrain at the Site. AEI, including subcontractors, will take reasonable precautions to limit damage. However, Client recognizes that such damage is inherent in the normal course of the contracted scope of work and the cost of the repair for any damages is not part of the contracted services. In the event of damage to the property as a result of such work and specifically stated above, Client will hold harmless, AEI, including subcontractors, for damage caused during the course of the agreed upon scope of work.

14. **Conflict of Interest.** To the best of AEI's knowledge, AEI has no actual, potential or apparent conflict of interest pertaining to this Agreement, except as has been previously disclosed to Client in writing, and AEI covenants and agrees that it shall promptly advise Client of any other actual, potential or apparent conflicts of interest, whether existing as of the execution date of this Agreement or arising in the future, upon discovering the same.

AUTHORIZATION TO PROCEED

Proposal for Phase I ESA

300 and 345 South 1st Street, San Jose, CA 95113 and 409 and 425 1/2 S. 2nd Street, San Jose, CA

Client Authorization and Billing Information:

I hereby accept the proposal and authorize AEI to proceed with the scope of work as described herein. AEI reserves the right to suspend or delay work for late payment. Should any project information change, I understand that additional fees may accrue and the due date may be extended. Should the agreement be terminated by either party upon written notice through no fault of the party initiating termination, compensation shall be paid for all services performed and expenses incurred to the date of termination.

EXHIBIT B

Copy of Services Agreement Between
David J. Powers and Associates, Inc. and Westbank

PROFESSIONAL SERVICES AGREEMENT

THIS PROFESSIONAL SERVICES AGREEMENT (the "Agreement") is made and entered into effective Oct 28, 2020 (the "Agreement Date") by and between:

OWNER:

Project Valley Title LLC
2107 Elliott Ave, Suite 303
Seattle, WA
98121

(hereinafter referred to as the "Owner")

CONSULTANT:

David J. Powers & Associates, Inc.
1871 The Alameda, Suite 200
San José, CA
95126

(hereinafter referred to as the "Consultant")

PROJECT:

For the following Project:
Valley Title
located at 345 South 2nd Street, San Jose, California

(hereinafter referred to as the "Project")

WHEREAS:

- A. The Owner desires the Consultant to perform certain services for the Project as set out in this Agreement, including the attached Fee Proposal (the "Proposal") dated Oct 22, 2020, which forms SCHEDULE B - PROPOSAL of this Agreement, for the noted Professional Services (the "Services"), and the Consultant desires to perform such Services in accordance with the terms and conditions set forth in this Agreement;
- B. It is agreed and acknowledged by the Owner and the Consultant that the terms and conditions contained in this Agreement supersede and replace in their entirety any duplicate or similar terms in the Proposal, or any previously signed proposals or agreements between the Owner and the Consultant relating to the Services. **TO THE EXTENT THERE ARE ANY INCONSISTENCIES BETWEEN THE TERMS AND CONDITIONS OF THIS AGREEMENT AND THE TERMS AND CONDITIONS SET OUT IN THE PROPOSAL, THE TERMS AND CONDITIONS IN THIS AGREEMENT WILL PREVAIL. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, IT IS EXPRESSLY AGREED AND ACKNOWLEDGED BY BOTH THE OWNER AND THE CONSULTANT THAT UNDER NO CIRCUMSTANCES SHALL THIS AGREEMENT INCLUDE ANY TERMS AND CONDITIONS CONTAINED IN THE PROPOSAL OTHER THAN THE TERMS IN THE PROPOSAL RELATING TO THE FEE PAYABLE TO THE CONSULTANT AND SCOPE OF SERVICES TO BE PROVIDED BY THE CONSULTANT;**
- C. It is agreed and acknowledged by the Owner and the Consultant that the Contract Price, as set out in SCHEDULE A - CONTRACT PRICE AND PAYMENT PROVISIONS, attached to and forming part of this

Agreement, includes not only the cost of performing and providing the Services but also necessarily, without exception or qualification, the cost of the fulfilling each and every obligation and requirement of this Agreement; and

- D. In order to consummate this authorization to proceed with the Services, the Consultant shall return a signed and duly executed copy of this Agreement to the Owner. The Owner will then duly sign and execute this Agreement and forward an executed copy to the Consultant. Receipt of a fully executed copy of this Agreement by the Consultant will be required prior to commencement of the Services.

NOW, THEREFORE, for and in consideration of the foregoing, of the promises and covenants set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties do hereby agree, undertake, covenant and consent to be legally bound as follows:

ARTICLE 1 -- SERVICES

The Services to be performed and provided to the Owner by the Consultant under this Agreement include the work that is described in SCHEDULE B – PROPOSAL. The Services also include other work that is specified in this Agreement, as well as the Services that are necessary to be performed by the Consultant to prepare the deliverables that are described in SCHEDULE B and that are customarily performed based on industry standards for consultants that are performing comparable work and furnishing similar deliverables that are the subject of this Agreement. The Consultant shall furnish the necessary qualified personnel, labor, materials, tools and equipment to properly and fully perform and provide the Services. The Consultant represents and warrants that it possesses the necessary skills, expertise, knowledge and experience required for performance of the Services and acknowledges that the Owner is relying on such skills, expertise, knowledge and experience. The Consultant shall provide the Services hereunder to the Owner on a non-exclusive basis and shall be free to provide its services to third parties during the term of this Agreement, provided however that the Consultant shall not provide such services to third parties in such a way that is inconsistent with any provisions hereof, or that so occupy the Consultant's time and efforts as to impair or diminish the quality, professionalism or first priority performance of the Services provided to the Owner hereunder or delay the timing of delivery of such services to Owner.

ARTICLE 2 -- DUTY AND STANDARD OF CARE

The Consultant undertakes, represents and warrants that it has the expertise, experience and capabilities necessary to properly and fully perform the Services. The Services to be performed by the Consultant under this Agreement shall be conducted with the reasonable care, skill and diligence required and in a manner consistent with customarily accepted professional practices and procedures normally provided in the performance of such Services by other professional and prudent consultants practicing under similar conditions, at a similar time and in a similar location in which the Services are to be provided. This standard of care is the sole and exclusive standard of care that will be applied to assess, judge, evaluate and measure the Consultant's performance under this Agreement. Consultant shall comply with all applicable governmental laws, ordinances, rules, regulations and codes in performing the Services. Consultant shall use every effort and shall do all the things necessary and appropriate to perform the Services in an expeditious and economical manner consistent with the foregoing professional practices. Consultant shall supervise and direct all Services, be solely responsible for all methods, sequences and procedures used, and be responsible for coordinating all portions of the Services. Any employee of Consultant whose presence Owner in good faith believes to be objectionable to Owner, shall be removed immediately, subject to any applicable provision of any agreement with organized labor or of any law or other governmental enactment.

ARTICLE 3 -- INTENTIONALLY OMITTED

ARTICLE 4 -- MEETINGS

The Consultant shall attend Project meetings when requested by the Owner, including meetings with the Owner and the Owner's other consultants and advisors, public information sessions, rezoning meetings and meetings with representatives of the applicable governmental authorities and shall liaise with such parties as required or when

requested by the Owner. The scope of Services includes attendance by Consultant at eight (8) meetings. If attendance by Consultant is needed at any additional meetings or public hearings, such additional attendance shall be added to scope of Services upon approval in writing by Owner and Consultant, on a time and material basis. The Consultant shall regularly confer with the Owner to discuss the progress of the Consultant's performance of the Services, as well as any outstanding issues that need to be addressed for the Consultant to complete the Services. Consultant further agrees to (i) advise and consult with Owner with respect to the Services and the development of drawings, specifications, budgets, estimates and schedules, as applicable; (ii) furnish Owner with information concerning costs, availability, methods and other pertinent information which may be of value to Owner in determining or reviewing the Services provided with respect to the Project; and (iii) provide Owner a detailed description of any and all payments required to be made by Consultant to any subcontractor or subconsultant on account of the Services or to any governmental authorities (whether taxes or other payment) or to any pension or other trust, fund or plan (whether or not established pursuant to a collective bargaining agreement).

ARTICLE 5 -- COORDINATION OF DESIGN AND QUALITY CONTROL

The Services include the Consultant coordinating its design documents with the applicable design and other documents prepared by other consultants that are working on the Project. This includes, but is not limited to, coordinating the Consultant's design with the designs prepared by the Consultant's Subconsultants. Prior to the finalization of its deliverables that the Consultant is to furnish under this Agreement, the Consultant shall perform a through quality control review of its design documents, as well as its Subconsultants' work product, to minimize the likelihood of the discovery of errors, conflicts, and other discrepancies in the work product and to facilitate the construction of the design.

ARTICLE 6 -- PROJECT SCHEDULE

Attached to this Agreement is SCHEDULE C -- PROJECT SCHEDULE, which is the Project Schedule for the Project. The Consultant agrees to provide the Services in accordance with the Project Schedule. Should the Consultant experience a delay during the performance of the Services that cause the Consultant to believe that it cannot meet the Project Schedule, the Consultant shall notify within five (5) business days of experiencing the delay. The Owner reserves the right to adjust the Project Schedule based on the best interests of the Project. Upon written notification from Owner to suspend Services, Consultant shall immediately suspend Services on any phase or item of Services so designated by Owner. Within a thirty (30) day period after such suspension by Owner, Consultant shall commence Services after any such suspension at direction of Owner. If there is a suspension of Services which extends beyond ninety (90) days, then Owner and Consultant may negotiate such terms of this Contract as have been affected by extension of the time of performance as stated in this Agreement.

If the completion of the Services is delayed for any cause beyond Consultant's control which is not reasonably foreseeable or anticipated and which is not due to any fault of Consultant, including only (i) neglect, unreasonable delay or default of Owner, (ii) damage or delay which arises by fire, storm, lightning, flood, earthquake, surface or subsurface water, vandalism or other comparable casualty, then the time of completion will be extended for a period equivalent to the time lost by reason of any or all such causes; provided that as a precondition to any such extension Consultant shall have delivered a written claim for such an extension to Owner within five (5) business days after the occurrence of such cause specifying the nature of the occurrence of such cause and describing possible alternatives for making up the time, and the costs and other pertinent factors attributable to each alternative.

ARTICLE 7 -- OWNER'S RESPONSIBILITIES

The Services performed by the Consultant will assist the Owner in establishing the Owner's program and budget requirements for the Project. When and where applicable, the Owner shall coordinate, facilitate, arrange and make provision for the Consultant's access to the site in order for the Consultant to complete the Services. In addition, the Owner will furnish information in its possession reasonably requested by the Consultant regarding the physical characteristics of the site. During the course of the Consultant's performance of the Services, the Owner may review and comment on the Consultant's work product. It is understood and agreed that no approval, inspection, review, comment, or audit by the Owner, or by anyone acting on its behalf, shall relieve, reduce or modify any of the

Consultant's obligations under this Agreement. Similarly, any peer reviews of the Consultant's design performed by the Owner's other consultants shall similarly not relieve the Consultant of its responsibility for its design. The Consultant shall be solely responsible for performance of the Services as well as for any acts or omissions of any the Consultant's personnel. Furthermore, nothing contained in this Agreement shall be construed or interpreted as making the Owner, or anyone acting on their behalf, responsible for anything which is the responsibility of the Consultant under this Agreement. The responsibility for the proper and timely performance of the Services lies solely and exclusively with the Consultant.

ARTICLE 8 -- SUBCONSULTANTS

The Consultant shall not retain any Subconsultants or contractors to perform any of the Services without the Owner's approval. The Consultant expressly agrees and covenants that it shall be as fully responsible to the Owner for acts and omissions of Subconsultants and/or contractors and of any persons directly or indirectly employed by them as for acts and omissions of persons directly employed by the Consultant. It is acknowledged and agreed that payments from the Owner to the Consultant may be subject to set-offs and withholding, as permitted by this Agreement, such that any non-payment of Subconsultants or contractors by the Consultant, in whole or in part, by reason of receiving payment from the Owner in an amount less than that submitted and applied for by the Consultant, shall constitute a material breach of this Agreement on the part of the Consultant and may result in the termination of this Agreement by Owner. All Subconsultants and contractors retained by Consultant to perform any of the Services shall comply with the insurance requirements set forth in this Agreement, unless the Owner provides its written consent to waive a particular requirement.

ARTICLE 9 -- REJECTED OR DEFICIENT SERVICES

At no additional cost to the Owner, the Consultant shall promptly correct any errors, omissions, or other conflicts that are included with its work product, including that prepared by its Subconsultants and/or contractors. In addition, any Services that has been rejected by the Owner as failing to conform to this Agreement shall be promptly corrected by the Consultant at no additional cost to the Owner. If, in the opinion of the Owner, it is not expedient to have the Consultant correct deficient Services or to undertake Services not performed, the Owner reserves the right to deduct the Services at issue from the Consultant's scope of work, with the Owner taking an appropriate credit for the reduced scope of services. If the Owner and the Consultant cannot agree on the appropriate credit, the matter shall be settled in accordance with ARTICLE 26 --- DISPUTE RESOLUTION. The Owner's issuance of the final payment to the Consultant in no way relieves the Consultant from correcting deficiencies in the Consultant's work product.

ARTICLE 10 -- COMPENSATION

The Consultant shall prepare and submit invoices for the Contract Price, plus applicable taxes, on a monthly basis in an amount approximately proportionate to the percentage of the Services completed during the previous month or in fixed amounts based on milestones, and for any reimbursable expenses expressly set out below, all according to the procedures set forth in SCHEDULE A – CONTRACT PRICE AND PAYMENT PROVISIONS.

ARTICLE 11 -- ADJUSTMENTS TO THE CONTRACT PRICE AND CONTRACT TIME; MODIFICATION TO SERVICES

No extras or cost overruns will be paid by the Owner unless written authorization is first given by the Owner before the extra work commences. If the Consultant believes that it is being required to perform Services that exceed the scope of Services indicated in this Agreement, the Consultant shall submit to the Owner within five (5) business days, documentation relative to the claimed additional service and the proposed adjustment to the Contract Time and Contract Price as required. This notice must be provided before the Consultant performs any claimed additional costs. Failure to so notify the Owner prior to the incurring such costs will necessarily and absolutely relieve the Owner from any obligation to reimburse the Consultant for such additional or changed work. If such notice under this Article is deemed not to be acceptable to the Owner, the request shall may be withdrawn or referred to be settled in accordance with ARTICLE 26 --- DISPUTE RESOLUTION.

At any time during the progress of the Services, Owner may order modifications, alterations or deviations in the Services or may order additional work not shown in this Agreement ("Modification"). If Owner should order a Modification, such action shall in no way invalidate this Agreement. Such Modifications, if any, shall be written as an amendment or addendum to this Agreement and if acceptable to both Consultant and Owner, shall be executed by parties to this Agreement. Any such Modification shall contain a detailed description of the scope of Services to be performed by Consultant, a Project completion date, and the type of payment authorized for the Modification.

If Owner orders a Modification that will financially impact the Project, or makes a request for consideration of a possible Modification, Consultant shall provide to Owner, within a reasonable time not to exceed ten (10) business days, a written report stating the estimated cost of such Modification and estimated time to incorporate it into the work and the impact, if any, upon the Consultant's compensation and/or the Project Schedule. Time allowed by this Agreement for Consultant to complete the Services shall be extended or reduced by the amount of time agreed in writing by Owner and Consultant in the Modification.

ARTICLE 12 -- WITHHOLDING OF PAYMENT, DEDUCTIONS AND SET-OFFS

Without prejudice to any other right or remedy of the Owner, the obligation of the Owner to make any payment to the Consultant under or in connection with this Agreement is subject to the Owner's right to deduct or set off against any such payment any sum which may be due to the Owner, or to which the Owner has a claim, under this Agreement. Moreover, it is expressly acknowledged and understood by the Consultant that if the Owner fails to pay any amount owing to the Consultant because of a good faith dispute, no default by the Owner under this Agreement shall be deemed to exist because of such failure of payment, provided the Owner pays the amount the parties agree is owing to the Consultant within ten (10) days following the resolution of such dispute.

Consultant agrees that payments may be withheld and reasonable costs incurred by Owner shall be charged against all monies due Consultant under this Agreement if: (a) Consultant does not make proper payments to Consultant's employees, agents, Subconsultants, contractors and/or subcontractors when such payments are due under their respective agreements; (b) Owner is damaged by an act for which Consultant or any of its agents, employees, contractors, subcontractors or other representatives is responsible; or (c) in the reasonable opinion of Owner, the Services are not progressing or being completed satisfactorily and Owner reasonably determines that it may incur additional costs or damages as a result thereof.

ARTICLE 13 -- USE AND OWNERSHIP OF WORK PRODUCT

The final work product developed or produced by the Consultant in performance of the Services (i.e. an addendum to environmental review documentation for Valley Title Project) shall be the property of the City of San Jose.

ARTICLE 14 -- CONFIDENTIAL INFORMATION

The Consultant acknowledges that in the provision of the Services hereunder to the Owner, it may acquire information (the "Confidential Information") about certain matters and things which are confidential to the Owner, and which information is the exclusive property of the Owner. This information includes, but is not limited to, business and project plans, techniques, concepts, trade secrets, names and addresses and preferences of present customers and clients of the Owner, and confidential and proprietary information about customers and clients of the Owner, excluding of course, information which (a) was at the time of disclosure or thereafter became part of the public domain through no act or omission of the Consultant; (b) became available to the Consultant from a third party who did not acquire such information under an obligation of confidentiality either directly or indirectly to the Owner; or (c) was known to the Consultant at the time of disclosure by the Owner and such knowledge can be demonstrated by written records that were in existence at the time of the disclosure. The Consultant acknowledges that the Confidential Information could be used to the detriment of the Owner and its clients. Accordingly, the Consultant acknowledges and agrees to be bound by the express obligation to keep confidential all Confidential Information disclosed to it by the Owner, provided that the Consultant is able to disclose the Confidential Information (a) to those persons who need to know such information for the purposes that relate to the performance of the Services; and (b) which is required to be disclosed by law or legal proceeding, provided that the Consultant

immediately notifies the Owner of such requirement to disclose and thereafter takes all reasonable steps to lawfully resist or narrow the requirement to disclose the Confidential Information.

ARTICLE 15 -- DURATION OF CONFIDENTIALITY

The Consultant shall maintain in confidence and shall not disclose to any person not a party hereto, unless permitted to do so and provided for under this Agreement, any Confidential Information for a period of one (1) year following substantial completion of construction of the Project, unless such information ceases to be Confidential Information prior to the end of such one (1) year period through no fault of the Consultant, or if the Consultant and the Owner enter into a written agreement authorizing same.

ARTICLE 16 -- OWNERSHIP AND PROPRIETARY RIGHTS

Title to all Confidential Information disclosed under this Agreement, including without limitation, information in computer software or held in electronic storage media, shall be and shall remain the exclusive property of the Owner. This Agreement is not intended to and does not grant, expressly or by implication, any right or license to any intellectual property right or similar proprietary right of any kind, including but not limited to, licenses or rights under patent, copyright, trademark or trade secret that the Owner may possess relative to the Confidential Information. The Consultant agrees and acknowledges that it shall under no circumstances acquire any right, title or interest in, or of, the Confidential Information and that it shall not disclose such to any third party either during the term of this Agreement or thereafter, without the prior written consent of the Owner.

ARTICLE 17 -- NO BENEFIT, RESTRICTED USE

The Consultant shall not, in any manner, derive any benefit, directly or indirectly, from the Confidential Information or the use of such Confidential Information, for any purpose. Furthermore, the Consultant agrees and covenants not to appropriate for its own use or exploit in any way whatsoever any of the Confidential Information disclosed to it by the Owner.

ARTICLE 18 -- RETURN OF CONFIDENTIAL INFORMATION

The Consultant covenants to promptly return all Confidential Information in its possession or under its control to the Owner including any tangible materials, and all copies thereof, containing or reflecting the Confidential Information, including copies that have been converted to computerized media in the form of image, data, word processing, or other types of files either manually or any image capture, based on or including any Confidential Information, in whatever form of storage or retrieval, at such time as the Owner may so request in writing. Alternatively, the Consultant, with the written consent of the Owner, may erase all notes, memoranda and other material prepared by the Consultant which reflect, interpret, evaluate, include or are derived from any Confidential Information and the reasonably nonrecoverable data erasure of computerized data, and, upon written request from the Owner, certify in writing such destruction by an authorized officer of the Consultant supervising the destruction. The Consultant shall confirm such return, delivery and/or destruction in writing to the Owner in the form attached as SCHEDULE E – CONFIRMATION OF DESTRUCTION OR RETURN OF CONFIDENTIAL INFORMATION. Notwithstanding the foregoing, the Consultant will not be required to purge any electronic documents in its electronic archiving system, provided that any Confidential Information retained in accordance with this Article shall remain subject to the obligations of confidentiality under this Agreement.

ARTICLE 19 -- PROMOTIONAL MATERIALS

The Consultant shall not refer to the Project in its website or other marketing/promotional materials, without the express prior written consent of the Owner.

ARTICLE 20 -- COPYRIGHT AND PATENT INFRINGEMENT

The Consultant shall pay all royalties and patent fees associated or in any way connected with the performance of the Services. The Consultant shall protect, defend, indemnify and hold the Owner harmless from any and all claims,

demands, losses, costs, damages, actions, suits, or proceedings of any kind arising out of the Consultant's performance of the Services which are caused by, result from, or are attributable to an infringement, or an alleged infringement, of a patent of invention by the Consultant or anyone for whose acts the Consultant may be liable.

ARTICLE 21 -- INSURANCE

The Consultant agrees to maintain, or cause to be maintained, at Consultant's cost and expense, insurance coverage in connection with the provision of the Services to the Owner hereunder in accordance with the requirements as set out in SCHEDULE D-- OWNER'S INSURANCE REQUIREMENTS attached hereto.

ARTICLE 22 -- INDEMNIFICATION

The Consultant expressly agrees and covenants to defend (with legal counsel reasonably acceptable to Owner), indemnify and hold the Owner, including its officers, directors, partners, lenders, members, affiliates, managers, shareholders, employees, consultants, contractors, parent and subsidiary companies, agents, successors and assigns harmless from and against any and all claims, damages, losses, costs, actions, causes of action, demands, liens, suits or proceedings, expenses, liabilities, penalties, fines and assessments, whether direct or indirect, consequential damages, including but not limited to legal fees and charges and court and arbitration or mediation costs, resulting from damages of any kind or injuries (including personal injury (including death) and property damage) to the extent arising out of, related to or claimed to arise out of, or attributable to the Consultant's negligent performance of any of the Services or breach of any term contained in this Agreement. The foregoing right of indemnification shall include and shall extend to claims occurring or arising after completion of the Services, as well as those occurring or arising during the time the Services were being performed. The foregoing notwithstanding, if Owner reasonably determines that legal counsel selected or retained by Consultant to defend Consultant and Owner in any litigation, arbitration or other legal proceeding covered by Consultant's indemnity obligation would have a conflict of interest, then Owner may retain its own legal counsel to defend Owner in such litigation, arbitration or other legal proceeding and the attorneys' fees incurred by the Owner in connection with such defense shall be reimbursed by Consultant to Owner within ten (10) business days following receipt by Consultant of an invoice or invoices from Owner evidencing the attorneys' fees incurred by Owner. This indemnity shall not deprive the Owner of any action, right or remedy otherwise available to it at common law or otherwise. Neither the issuance of any insurance required hereunder nor the minimal limits specified herein with respect to insurance coverage shall be deemed to limit or restrict in any way the Consultant's obligation to indemnify under this Agreement, occasioned wholly or in part by any act or omission of the Consultant, its agents, contractors, employees, servants or licensees. The provisions of this Article 22 shall survive the termination of this Agreement and completion of the Project.

ARTICLE 23 -- NOTICES

The parties agree that all notices, consents, and approvals required to be given hereunder shall be in writing and shall be given to the designated representatives of each party. All notices required by this Agreement to be given by either party shall be deemed to be properly given and received within two (2) business days if made in writing to the other party by certified mail, facsimile or any other form of electronic communication widely accepted and used in the course of normal business practice.

The Consultant hereby designates Shannon George, and the Owner designates Andrew Jacobson each of whom is authorized to act on behalf of that party and receive notices in writing under this Agreement. For the purposes of this Agreement, such representatives shall be vested with complete, full and binding legal authority to act on behalf of their principals in respect to all matters arising under this Agreement.

ARTICLE 24 -- SUSPENSION

The Owner shall retain the right to suspend the Consultant's performance of the Services at the Owner's sole and exclusive discretion and without cause. Should the Owner exercise this right, the Consultant shall be paid all outstanding monies owing to the Consultant up to the date of such suspension. Should the Services be suspended pursuant to this Article for a period of one hundred and twenty (120) calendar days or more, either party may,

without prejudice to any other right or remedy the parties may have under this Agreement, terminate this Agreement by giving the other party notice in writing to that effect.

ARTICLE 25 -- TERMINATION

The Owner may, in its sole discretion, terminate this Agreement or all or any part of the Services, at any time and without cause, by providing at least five (5) days' prior written notice to the Consultant. In the event of such termination by Owner without cause, Consultant shall cease work on the Project upon such termination of this Agreement and Owner shall then pay Consultant only for work done until the time of termination. Either party shall have the right to terminate for cause should the other party default under this Agreement. For any termination for cause, the terminating party shall provide at least fifteen (15) days' advance written notice to the other party, and this notice shall specify the basis for the default. If the basis for the default is not cured within such fifteen (15) day period, the terminating party may effect a termination of this Agreement by providing a second written notice to the Consultant of the intent to terminate, and the termination shall be effective three (3) days after the receipt of the second notice. Upon any termination of this Agreement, the Consultant agrees to reasonably cooperate and assist the Owner with the transition of the Services to the Owner or to an alternate service provider. This includes, but is not limited to, the Consultant furnishing all records and electronic files for the Consultant's work product prepared under this Agreement. The Owner agrees to pay the outstanding and undisputed amounts that are owing for the Services properly performed by the Consultant, less (if the termination is for cause) the Owner's damages caused by the Consultant's default.

ARTICLE 26 -- DISPUTE RESOLUTION

Prior to the enforcement of any remedies relative to a dispute under this Agreement, the Owner and the Consultant shall firstly make all reasonable efforts to resolve disputes by amicable and good faith negotiations and agree to provide frank, candid and timely disclosure of relevant facts, information and documentation to facilitate these negotiations. If the parties are unable to resolve their dispute through such negotiations in a reasonable time, then the dispute will be referred to litigation that is filed in a court of appropriate jurisdiction where the Project is located. In the event of litigation, the prevailing party, as determined by the Court, shall be awarded reasonably attorneys' fees and other costs of litigation from the non-prevailing party.

ARTICLE 27 -- DUTY OF CONTINUED PERFORMANCE

If the Owner has paid the Consultant all amounts currently due under this Agreement, other than those subject to a good faith dispute, the Consultant shall proceed with the Services, including any disputed portion thereof, without interruption or delay, while any claim or dispute is being considered, arbitrated or litigated. Failure to continue the Services diligently during the pendency of a dispute or claim shall constitute a default under this Agreement, which could result in the termination of this Agreement. Unless provided for to the contrary in this Agreement, the Consultant shall continue to perform the Services and the Owner shall continue to satisfy its payment obligations to the Consultant, pending final resolution of any dispute or disagreement between the Owner and the Consultant.

ARTICLE 28 -- GOVERNING LAW

The Owner and the Consultant agree and unconditionally consent that this Agreement, all transactions and conduct related to this Agreement, and all disputes and causes of action between the Owner and the Consultant related thereto (in contract, warranty, tort, strict liability, by statute, regulation or otherwise) shall be governed exclusively by and construed, enforced and interpreted in accordance with the laws of the state where the Project is located. The Owner and the Consultant hereby irrevocably and unconditionally consent to the jurisdiction of the courts where the Project is located with respect to any and all disputes, claims and causes of action between the Owner and the Consultant.

ARTICLE 29 -- INDEPENDENT CONTRACTOR

In performing the Services and its obligations under this Agreement, the Consultant shall operate as, and have the legal status of, an independent contractor and shall not act as, or be in any practical, effective or legal sense, an employee of the Owner. This Agreement does not create any agency, partnership, joint venture, servant, fiduciary or other relationship as between the Consultant and the Owner other than the relationship of an independent contractor. Nothing in this Agreement will create or will be construed to create the relationship of principal and agent between the Owner and the Consultant. Moreover, nothing contained in this Agreement shall create any employment or contractual relationship between the Owner, or anyone acting on its behalf, and any personnel of the Consultant.

ARTICLE 30 -- HEALTH AND SAFETY PRECAUTIONS RE WORKPLACE

The Consultant shall be solely responsible for supervising and managing all aspects of the Consultant's activities relating to the performance of the Services, including ensuring that the Services are performed in a safe manner in compliance with applicable rules, health and safety legislation, regulations and practices. Without limiting the foregoing, the Consultant shall comply with all health and safety precautions and programs established at the location that the Services are being performed. The Consultant shall take adequate measures to identify and eliminate hazards that could affect the health and safety of its employees and other representatives or members of the general public. The Consultant shall indemnify and hold harmless the Owner from and against claims, demands, losses, costs, damages, actions, suits, or proceedings arising out of or attributable to the Consultant's failure to perform any of its obligations under this Article, including, without limitation, all amounts for penalties, fines, assessments and levies issued by any and all governmental authorities having jurisdiction that the Owner may incur as a result of the Consultant's non-compliance of any violation of any health and safety order.

ARTICLE 31 -- RIGHTS AND REMEDIES

Except as expressly provided for in this Agreement, the duties and obligations imposed by this Agreement and the rights and remedies available thereunder shall be in addition to and are not a limitation of duties, obligations, rights, and remedies otherwise imposed or available by law. No action or failure to act by the Owner or the Consultant shall constitute a waiver of any right or duty afforded any of them under this Agreement, not shall any such action or failure to act constitute an approval of or acquiescence in any breach thereunder, except as may be specifically agreed in writing. Nothing done or omitted to be done by the Owner, or those acting on its behalf, shall operate as a waiver by the Owner of the obligations of the Consultant hereunder.

Failure of Consultant to perform Consultant's obligations, or any of them, hereunder and/or to fully comply with the covenants, conditions and provisions hereof shall constitute a default. In the event of such default, Owner shall give a notice thereof to Consultant as provided in Article 25 above and shall direct Consultant to cure said default within the cure period specified in Article 25 above. In the event Consultant shall fail to cure said default within the time specified, Owner may, at its option, pursue one or more of the following remedies, all of which shall be cumulative. These remedies are in addition to any of the remedies which Owner may have according to law. Owner may:

- (a) Terminate this Agreement.
- (b) Commence an action for damages arising out of such breach, including consequential damages flowing therefrom, if any.
- (c) Withhold the payment of any money due Consultant until the default and breach of Consultant has been cured to the satisfaction of Owner.
- (d) Pay or withhold from money due Consultant all sums or allegedly due any persons, firms, or other entities to whom Consultant may be obligated where such obligations are attributable to the Property, when such obligations are, or might become a lien upon the Property.

ARTICLE 32 -- INTENTIONALLY OMITTED

ARTICLE 33 -- WAIVER

No waiver by either party of any breach of this Agreement will be binding and have effect unless made in writing and any such waiver will extend only to the specific breach waived and not to any future breach. Failure of the Owner to insist upon strict performance of any term or condition of this Agreement, or to exercise any option, right or privilege hereunder of this Agreement in any one or more instances, shall in no way affect the Owner's right to require such performance any time thereafter, nor shall it constitute a waiver of any succeeding breach of the same term, condition or option, or any other covenants or agreements, or any other provision, nor shall it in any way affect the validity of this Agreement or any part thereof which shall be and remain in full force and effect, or the right of the Owner thereafter to enforce such provision.

ARTICLE 34 -- SEVERABILITY

If any term, condition or covenant of this Agreement or the application of such part to any party, person or circumstance shall, to any extent, be deemed by a Court of competent jurisdiction to be invalid, illegal, void, unenforceable, or incapable of being enforced by any rule of law or public policy, in whole or in part, all other conditions and provisions of this Agreement or the application of such part to any party, person or circumstance, shall not be affected thereby and shall nevertheless remain in full force and effect and each remaining term, condition or covenant of this Agreement shall be valid and enforceable to the fullest extent permitted by law and shall remain binding on the Owner and the Consultant. Upon such determination that any term, condition or covenant is invalid, illegal, void, unenforceable, or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually agreeable manner, in order that the Services contemplated hereby shall be consummated as originally contemplated to the greatest extent possible.

ARTICLE 35 -- SURVIVAL

The terms of this Agreement, which by their inherent nature are continuing, shall survive the termination or other expiration of this Agreement. It is understood, accepted and acknowledged by the Consultant that the Consultant's obligations under this Agreement shall not be released, and shall specifically survive the completion of all Services hereunder by the Consultant; final payment to the Consultant; and the termination of this Agreement for any reason, including any provision that is necessary for the interpretation or enforcement of same, which shall continue as valid.

ARTICLE 36 -- ASSIGNMENT

The Consultant shall not assign this Agreement or any portion thereof without the Owner's written consent, which consent may be withheld. The Consultant, when requesting the Owner's consent to an assignment, shall provide evidence satisfactory to the Owner of the ability of the proposed assignee to properly and fully complete the Services in respect of its technical and financial competence, its workforce and its equipment along with any other information requested by the Owner. The Owner may assign this Agreement without the consent of the Consultant. The Owner shall promptly provide the Consultant notice of the assignment. If the Owner assigns this Agreement, such assignment shall relieve the Owner of its obligations hereunder, but only to the extent that the assignee expressly assumes the Owner's existing obligations. Except as otherwise provided for in this Agreement, nothing in this Agreement affords any legal rights to, or creates any liability on the part of, anyone not executing this Agreement.

ARTICLE 37 -- INUREMENT

This Agreement shall inure to the benefit of and be binding upon the parties hereto, their successors, executors, administrators or permitted assigns.

ARTICLE 38 -- ENTIRE AGREEMENT

The Recitals of this Agreement are incorporated by reference into the body of this Agreement and made a part hereof. This Agreement constitutes the sole entire agreement between the Owner and the Consultant relating to the provision of the Services, and supersedes all prior undertakings, agreements and communications between them, whether oral or written, respecting the subject matter hereof and no other terms, conditions or warranties, whether express or implied, shall form a part thereof. No modification of this Agreement and no waiver of rights under this Agreement shall be valid or binding on the parties unless the same be in writing, duly signed by the Owner and the Consultant. No oral representations or other agreements have been made by the parties except as specifically stated in this Agreement. In the event of any conflict between any Schedule or Appendix attached to and forming part of this Agreement and the terms and conditions in the body of this Agreement, the terms and conditions of this Agreement shall take precedence. **NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, IT IS EXPRESSLY AGREED AND ACKNOWLEDGED BY BOTH THE OWNER AND THE CONSULTANT THAT UNDER NO CIRCUMSTANCES SHALL THIS AGREEMENT INCLUDE ANY TERMS AND CONDITIONS CONTAINED IN THE PROPOSAL REFERRED TO IN THE RECITALS OF THIS AGREEMENT OTHER THAN THE TERMS IN THE PROPOSAL RELATING TO THE FEE PAYABLE TO THE CONSULTANT AND SCOPE OF SERVICES TO BE PROVIDED BY THE CONSULTANT.**

ARTICLE 39 -- COUNTERPARTS

This Agreement may be executed in counterparts and provided in writing, and if so executed, all such parts shall be read as valid and constituting one agreement as if all parties executing this Agreement in such manner were signatories to one copy of this Agreement.

The parties, intending to be legally bound, have made, accepted and executed this Agreement as of the Agreement Date noted above.

IT IS SO AGREED:

PROPOSAL

(Balance of page left intentionally blank)

DRAFT

October 22, 2020

Andrew Jacobson
Westbank
1067 West Cordova Street, 6th Floor
Vancouver BC, Canada V6C 1C7

RE: VALLEY TITLE MIXED-USE PROJECT SCOPE OF WORK

Dear Mr. Jacobson:

David Powers & Associates (DJP&A) is pleased to submit to you this scope of work to complete environmental review in compliance with the California Environmental Quality Act (CEQA) for the Valley Title Mixed-Use Project.

The approximately 2.8-acre project site is located at 345 S. 2nd Street in downtown San José. It is our understanding that the existing restaurant on-site would remain, the office would be demolished, and three new buildings would be constructed with a mix of office, retail, and residential land uses.

Based on our understanding of the project, we propose to prepare a project-specific Supplemental Environmental Impact Report that will tier from the analysis contained in the Downtown Strategy 2040 FEIR. The attached scope of work details the environmental review process, project schedule, and cost estimate.

If this proposed scope of work is acceptable to you, a dated, countersigned copy of this letter proposal, returned to us with a deposit of \$30,000 will serve as our binding legal agreement for the work described herein. Please note that the initial customer deposit would be retained by DJP&A and would be applied to the final invoices for the project. In the event the project does not proceed, you would be reimbursed the unused amount of the deposit. Any unpaid invoices may be paid with the customer deposit prior to reimbursement. This proposal is valid for 60 days from the date of the proposal.

We appreciate your consideration of our firm for this project. Please feel free to contact me at 408-454-3402 if you have any questions about this proposal or need any additional information. We look forward to working with you on this project.

Environmental Consultants and Planners

1871 The Alameda • Suite 200 • San José, CA 95126 • Tel: 408-248-9641 • www.davidjpowers.com

Sincerely,

Shannon George
Vice President/Principal

Client understands and acknowledges receiving, reviewing and approving a copy of the Terms and Conditions attached hereto and to which this Agreement and the relationship between DJP&A and Client shall be subject.

Approved and Authorized to sign on behalf of
Westbank

Valley Title Mixed-Use Project Supplemental Environmental Impact Report

October 22, 2020

Primary Contact

The primary David J. Powers & Associates, Inc. (DJP&A) contact information is provided below.

Shannon George

Direct: (408) 454-3402

Email: sgeorge@davidjpowers.com

Project Understanding

The approximately 2.8-acre project site is located on three parcels (APNs 467-46-080, -081, -082) at 345 S. 2nd Street in downtown San José. The site currently contains a three-story office building and a large public parking lot. The proposed project would demolish the office building and construct two new buildings on-site with office over ground floor retail. The buildings would share a six-level, below-grade parking structure.

The project site is currently designated Downtown under the City's General Plan and zoned Downtown Primary Commercial. The project appears consistent with applicable land use designations.

Scope of Services

Based on our understanding of CEQA and the scope of the proposed project, we are proposing a Supplemental Environmental Impact Report (SEIR) that will tier off the *Downtown Strategy 2040 Final EIR* (FEIR). The proposed project has the potential to impact nearby historic structures. Therefore, we anticipate the primary issues to be impacts to historic structures and construction impacts to nearby residences.

Notice of Preparation

DJP&A will prepare the Notice of Preparation (NOP) in compliance with the CEQA Guidelines and City's requirements. The NOP will include a brief project description, project and vicinity maps, and an overview of the anticipated environmental impacts of the proposed project. The NOP will be sent to City staff for review and approval. Once approved, the NOP will be submitted to the City for

public distribution. The NOP must circulate for 30 days and relevant comments received will be incorporated into the EIR.

Immediately upon receipt of the project description and site plans, DJP&A will prepare the NOP. It should be noted that if any substantive changes to the project description are made after release of the NOP, the NOP will likely need to be revised and recirculated for an additional 30 days.

Preparation of the SEIR

Initial Study

DJP&A will prepare an Initial Study (IS), based on the CEQA checklist, which will be used to focus the SEIR on issues that are specific to the project and the project site, and/or address changes in environmental conditions that have occurred since the *Downtown Strategy 2040 FEIR* was completed. The IS will be included as Appendix A of the SEIR and will serve as the basis for all less than significant impact discussions.

Administrative Draft SEIR

DJP&A will prepare an Administrative Draft SEIR (ADSEIR) that will include a preface/introduction, executive summary, description of the project and environmental setting, an in-depth discussion of potentially significant impacts, identification of proposed and recommended mitigation measures, a discussion of cumulative impacts, project alternatives, and all other required discussions.

Once the project description is finalized, DJP&A will prepare the ADSEIR. Upon completion of the ADSEIR, DJP&A will submit up to five hard copies of the document to the City for review and comment. DJP&A will then revise the ADSEIR based on comments received from the City and submit an electronic copy of the Screencheck version to the City for final review and comment. The City may require two rounds of review prior to the Screencheck. DJP&A will make any final revisions to the Screencheck ADSEIR and prepare the Draft SEIR for public circulation. DJP&A will provide the City with up to 35 hard copies of the SEIR for public distribution and a PDF of the document for posting on the City's website.

Project Description

The SEIR will provide a detailed description of the proposed project, including the physical characteristics (maximum square footages/number of units, maximum building heights, demolition and excavation, parking, landscaping, circulation, etc.) of the development. Maps and graphics will be provided to illustrate the text.

DJP&A will draft a project description and provide it to the City and the applicant to review for accuracy. The project description will be based on project information to be provided by the applicant. A preliminary list of project information needed is included on page 9 of this scope of work.

Consistency with Plans and Policies

In relevant sections of the SEIR, a discussion of the proposed project's consistency with the City's General Plan, City Code, and other applicable plans and policies will be included. As required by CEQA and the CEQA Guidelines, particular attention will be given to inconsistencies, if any are identified.

Environmental Setting, CEQA Checklist, and Mitigations

The SEIR will be divided into subsections for each environmental resource. The subsections will be formatted to include a description of the existing environmental setting followed by the relevant CEQA checklist section. Mitigation measures will be identified to reduce significant impacts as appropriate.

Based upon our current understanding of the project, we anticipate the key environmental issues for the project will include the following resources:

- Air Quality
- Biological Resources
- Cultural Resources
- Greenhouse Gas Emissions
- Noise and Vibration
- Transportation

The technical reports proposed for these resource areas are outlined below.

Air Quality/Greenhouse Gas Emissions

Residents and other sensitive receptors located within approximately 1,000 feet of the site could be exposed to toxic air contaminants (TACs) from construction of the project. The SEIR will discuss the community risk health impacts from construction TACs based on an analysis completed by Illingworth and Rodkin, Inc., under contract to DJP&A. The analysis will also assess operational community risk impacts associated with stationary equipment used for operation, such as back-up generators that are powered by diesel engines. Effects of these sources will be assessed using screening tools and project details regarding the size of generators, locations, etc. If significant impacts are identified, mitigation measures will be identified, as appropriate.

The air quality analysis will also assess operational emissions of criteria pollutants. However, this scope assumes the operational criteria pollutant emissions associated with project-generated vehicle trips are covered by the Downtown Strategy 2040 FEIR as part of the cumulative analysis of Downtown development. Therefore, the analysis will focus on operations within the building that either directly or indirectly generate emissions, such as energy consumption and water usage. Emissions from these types of operational activities will be computed using the California Emissions Estimator Model (CalEEMod).

The project would be built and operational after 2020, and therefore would be subject to the state's greenhouse gas (GHG) reduction targets for 2030 set by Senate Bill 32. The City is in the process of adopting a new Greenhouse Gas Reduction Strategy, which will be approved in time to be utilized for this project. As a result, GHG emissions need not be quantified, but the Initial Study/Addendum will qualitatively address the projects consistency with the Reduction Strategy based on the projects green building measures. If significant impacts are identified, mitigation measures will be developed to lessen or avoid impacts when feasible.

Biological Resources - Trees

There are existing trees on and adjacent to the site that may be affected by construction of the proposed development. A tree survey will be completed by HMM under contract to DJP&A that will identifying all trees within the impact area, including species and size. The SEIR will address the loss of trees based on the tree survey and in accordance with City policies and standard permit conditions. Mitigation measures will be developed, as required, to reduce identified impacts.

Cultural Resources

Subsurface Resources

The project site is located within downtown San José, which has an extensive prehistoric history due to Native American occupation of the Santa Clara Valley. In addition, the project site interfaces with multiple historic buildings. An archaeological literature review will be completed by *Holman & Associates* under contract to DJP&A to address potential subsurface archaeological resources on the project site. Mitigation measures will be identified that would lessen or avoid the impacts.

Historic Resources

As noted above, the project site may include a historic building and is located in proximity to multiple historic structures, including the California Theater. Therefore, the SEIR will address the potential for the project to impact the historic significance of these structures based on a historic assessment prepared by *TreanorHL* under contract to DJP&A.

The scope of work includes the following tasks:

1. Review existing information. Review existing information about the properties and San Jose Historic Resources Inventory (SJHRI).
2. Conduct a site visit. Prepare field materials in advance and observe the properties.
3. Undertake historic research. Consult an array of archival sources in order to evaluate the historic significance of the project site and surrounding properties. These sources include Assessor's Office data, available building permits and plans, historic photographs (including aeriels),

Sanborn maps, city directories, and other archival materials which are located at local and regional repositories.

4. Prepare evaluation forms.
5. Identify and list properties within a 200-foot radius of the site.
6. Review proposed design of the project against applicable standards.
7. Evaluate potential effects of the development on existing and potential historic resources.
8. Prepare draft and final reports.

The scope of the historic analysis must be reviewed and approved by the City's Historic Preservation Officer and is subject to change.

Hazards and Hazardous Materials

The project site is located within a commercial/residential area of downtown San José where industrial and agricultural land uses were historically located. As a result, it is possible that native soil on the site is contaminated with pesticides and/or herbicides, or other chemicals. The potential to encounter hazardous materials during redevelopment of the site will be based on a Phase I Environmental Site Assessment to be completed by AEI Consultants under contract to DJP&A. Pending the recommendations and findings of the Phase I Environment Site Assessment, a Phase II Environmental Site Assessment may also be required to complete the environmental review. If a Phase II is required, it would be completed on a time and materials basis upon authorization from Westbank. Mitigation measures to reduce impacts to future users and/ or construction workers during redevelopment of the site will be identified as appropriate.

Noise and Vibration

The project is located in proximity to sensitive land uses (i.e. residential) so the operational noise impacts (e.g., from project generated traffic, mechanical ventilation systems, and other features) of the project on surrounding land uses will be quantified and assessed based on City of San José standards. In addition, potential short-term construction noise and vibration impacts of the proposed project on surrounding land uses will be addressed. The noise assessment will be completed by Illingworth & Rodkin, Inc., under contract to DJP&A, based on project data provided by the applicant. If significant impacts are identified, based on the technical analysis, mitigation measures will be developed to lessen or avoid the impacts when feasible.

Based upon the December 2015 California Supreme Court BIA vs. BAAQMD decision, the issues of existing environmental conditions affecting a project is no longer required under CEQA, but may be included at the discretion of the Lead Agency to inform the planning process as to how the project

complies with relevant local policies/regulations that protect sensitive land uses from existing environmental conditions. The City of San José has specific General Plan policies pertaining to noise relative to the placement of non-residential projects. The SEIR will include a discussion of site-specific noise impacts from nearby noise sources. The noise analysis will include quantifying the existing ambient noise levels, predictions of future noise levels, and assessment of noise impacts to the project site. If the project is found inconsistent with applicable City policies, measures will be developed to lessen or avoid the impact.

Heavy equipment use during construction of the project would result in ground-borne vibration. Because of the project site's proximity to multiple historic buildings, Illingworth & Rodkin will also evaluate the effects of vibration that may occur during project construction. Project specific mitigation measures will be identified for vibration impacts as necessary to avoid or lessen the impact.

Transportation

The proposed project is not required to complete a formal transportation analysis under Council Policy 5-1 because the downtown area has already assessed using the vehicle miles traveled (VMT) methodology under the Downtown Strategy 2040 EIR. The project will, however, be required to prepare a local transportation assessment (LTA). It is our understanding that Westbank will provide DJP&A with the LTA prepared by Fehr & Peers consistent with City requirements.

Other Sections

All other technical information will be derived from the *Downtown Strategy 2040 FEIR*.

In addition to the issues described above, DJP&A will address aesthetics, agricultural and forest resources, geology and soils, hydrology and water quality, land use, mineral resources, population and housing, public services, recreation, tribal cultural resources, utilities, and wildfires.

Alternatives to the Proposed Project

As required by CEQA, the SEIR will identify alternatives to the project as it is proposed. The emphasis will be on alternatives that might reasonably be assumed to reduce the significant impacts of the project. Alternatives will be identified in consultation with City staff, and may include a smaller size project, in addition to the "No Project" alternative required by CEQA.

Cumulative Impacts

The SEIR will include a discussion of cumulative impacts from the project in combination with other past, pending, and reasonably foreseeable future development in the area, in conformance with CEQA Guidelines Section 15130. This list of projects will be based upon information provided by City staff.

Preparation of the Final SEIR

After the mandatory 45-day circulation period, we will prepare for City staff review an administrative draft Final SEIR that includes responses to all comments received by the City on the Draft SEIR and appropriate revisions to the text of the Draft SEIR, as necessary. This scope assumes that up to an equivalent of 40 pages of substantive comments will be received on the Draft SEIR. If more comments are received, we can provide assistance in responding to them on a time and materials basis, upon your authorization.

This scope assumes no new technical analysis will be required to respond to comments. This scope does not include work that might be required for recirculation of all or part of the SEIR, should the City determine that to be necessary.

After making revisions requested by the City, we will print a sufficient number of copies of the Final SEIR for distribution. This scope of work assumes up to 35 copies will be required.

Preparation of Mitigation Monitoring or Reporting Program

In accordance with state law and CEQA Guidelines, DJP&A will draft a Mitigation Monitoring or Reporting Program (MMRP) identifying when mitigation measures will be implemented, who will be responsible for implementing them, and who will provide oversight. The draft MMRP will be submitted to the City prior to the hearing on the project.

Findings

Although we are not attorneys and cannot legally prepare findings, we will assist City staff in compiling information from the SEIR for findings required under CEQA Guidelines Section 15091. Because of our desire to avoid an appearance of a conflict of interest, we cannot assist in preparing a Statement of Overriding Considerations, should one be required. We can, however, advise the City on documentation to support such a statement.

Attendance of Meetings and Hearings

This scope of work includes DJP&A attendance at up to six project meetings/conference calls (including the scoping meeting) and two public hearing. DJP&A can attend additional meetings as requested on a time and materials basis.

Project Management and Contract Administration

DJP&A will provide general project management, contract administration, and coordination with the City and project team throughout the process. The DJP&A Project Manager will coordinate with the City on a regular basis using email and telephone communications.

Estimated Schedule

DJP&A proposes the following schedule for preparation of the SEIR. DJP&A can commit to maintain the schedule in the areas that are within our control. Completion of the SEIR, as outlined in the schedule below, is based upon receipt of project information listed on the following page in accordance with the schedule. Delays in receiving requested information or responses by others will result in at least day-for-day delays in the overall schedule.

Task	Duration of Task	Time Elapsed
1. DJP&A receives authorization to proceed and request project information	---	1 day
2. Receipt of all project data from applicant	1 week	1 week
3. DJP&A prepared Administrative Draft Notice of Preparation (NOP)	1 week	2 weeks
4. City reviews Administrative Draft NOP	3 weeks	5 weeks
5. DJP&A revises Administrative Draft NOP and submits Screencheck NOP	1 week	6 weeks
6. Historic, Hazardous Materials, and Tree Survey complete	5 weeks	6 weeks
7. City reviews Screencheck NOP	2 weeks	8 weeks
8. DJP&A finalizes the NOP and submits for circulation	0.5 weeks	8.5 weeks
9. Traffic scope approval and traffic analysis complete ¹	9 weeks	10 weeks
10. City circulates NOP	4 weeks	12.5 weeks
11. Air quality/GHG and noise analyses complete	3 weeks	13 weeks
12. DJP&A completes Administrative Draft SEIR	3 weeks	16 weeks
13. City staff review of Administrative Draft SEIR	7 weeks	23 weeks
14. DJP&A revises document and submits 2 nd Administrative Draft SEIR	2 weeks	25 weeks

¹ Because the LTA is not being completed under the direction of DJP&A, the timeline for completion is unknown. This schedule assumes that the LTA will be completed and provided to DJP&A within six weeks of our notice to proceed. Any delays in receiving the LTA will result in day for day delays to the remainder of the schedule.

15. City staff review of 2 nd Administrative Draft SEIR	5 weeks	30 weeks
16. DJP&A revises document and submits Screencheck SEIR	1 week	31 weeks
17. City staff review of Screencheck SEIR	3 weeks	34 weeks
18. DJP&A prepares and prints Draft SEIR for distribution and posting	1 week	35 weeks
19. City prepared for public review period	2 weeks	37 weeks
20. City circulates Draft SEIR for public circulation	6.5 weeks	43.5 weeks
21. DJP&A prepares Administrative Draft Final EIR	3 weeks	46.5 weeks
22. City reviews Administrative Draft Final EIR	4 weeks	50.5 weeks
23. DJP&A revises Final EIR and submits Screencheck	1 week	51.5 weeks
24. City reviews Screencheck Final EIR	2 weeks	53.5 weeks
25. DJP&A revised Screencheck and prints Final EIR for circulation	1 week	54.5 weeks
26. City circulates Final EIR for public review	1.5 weeks	56 weeks
Total		+/- 56 weeks

Project Information Required

Our scope and schedule are based on the assumption that we will receive the below project information concurrent with the authorization to proceed.

Plans (in PDF)

- Project plans, including landscaping plan, stormwater control plan, utility plan, grading plan, and parking and circulation plan
- Building elevations/cross-sections
- Renderings (if available)
- Lighting plan

Project Details

- Written description of the project, including maximum development assumptions and discretionary approvals
- Construction details, including duration, maximum depth of excavation, and total amount of cut/fill
- Utility improvements (if any)
- Right of way improvements (if any)
- Green building measures, LEED or Greenpoint certification details
- List of Best Management Practices to conform to Provisions C.3 of the NPDES permit

Technical Reports

- Geotechnical Report (if available)

Terms and Conditions

1. **Notice.** Notice shall be deemed received (i) on the date when either personally delivered, (ii) the next day when sent by email, (iii) the next day when sent by overnight mail, or (iv) three (3) days after deposited in the U.S. Mail, sent by certified mail, return receipt requested, postage prepaid to the last known address for the party on the records of the other party.

2. **Entire Agreement.** This Agreement contains the entire and complete understanding and agreement between the parties hereto and any prior or contemporaneous oral or written agreement not contained herein shall be of no further force or effect.

3. **Due Date, Interest and Attorneys' Fees.** All invoices are absolutely due and payable in full within ten (10) days from receipt; provided that they will be deemed late if not paid in full by the thirtieth (30th) day from receipt of the invoice from DJP&A. All due and unpaid amounts shall bear and incur interest at the rate of one and one-half percent (1 ½%) per month calculated on the basis of actual days from the beginning of the eleventh (11th) day until paid. If any action is taken to collect for non-payment of any invoice, the prevailing party, in addition to any other relief which the court may grant, shall be reimbursed for attorneys' fees and actual cost incurred. In addition, the prevailing party shall, as a separate item, also be reimbursed for attorneys' fees and costs incurred in enforcing and recovering under any judgment, and further this post-judgment attorneys' fees provision is intended to be severable from the other provisions of the contract and is intended to survive any judgment and is not to be deemed merged into the judgment.

Notwithstanding any other actions taken or available remedies to DJP&A, in addition to and not instead of any other actions or remedies DJP&A may have or have already taken, DJP&A shall have the option in its sole discretion, if payment in full of all unpaid invoices is not received within sixty (60) days of the receipt of the invoice from DJP&A, to stop or cease any and all work remaining to be performed under the agreement upon three (3) days prior written notice to the Client. DJP&A may exercise this option to stop or cease work at any time after the sixty (60) day period and shall not be deemed to have waived its right to exercise this option notwithstanding any actions taken or not taken by DJP&A, except a written waiver specifically referencing this option signed by DJP&A. The Client understands and acknowledges that if DJP&A exercises its option to cease its work hereunder that the timing and completion of DJP&A's work would be delayed and not completed within any time periods indicated in the scope of work until payment in full of all outstanding amounts is received by DJP&A from the Client. The Client understands and knowingly waives any claim for damages or injuries caused by DJP&A's stopping or ceasing to continue its work until payment in full is received.

4. **Governing Law, Jurisdiction and Venue.** This Agreement shall be governed by and construed in accordance with the laws of the state of California. The parties agree that the exclusive jurisdiction and venue for all Federal and State Court actions, including arbitrations, arising out of or in connection to this contract shall be only sought and maintained in Santa Clara County, California.

5. **Amendments and Changes.** No amendments, changes or modification of this Agreement shall be valid and binding unless in writing and signed by authorized representatives by both parties.

6. **Additional Work.** Notwithstanding the above, the client may verbally authorize DJP&A to perform additional work beyond the scope of the work indicated in this Agreement and DJP&A may subsequently confirm the additional work authorized by client in writing along with the costs for the additional work. If the Client does not correct, disagree or reject the additional work set forth in the writing from DJP&A within two (2) business days of receipt of the writing from DJP&A, the Client shall

irrevocably be deemed to have consented and agreed to the terms, price and scope of work set forth in the writing received from DJP&A.

7. **Severability.** If any term or provision is held or deemed to be void or unenforceable, the rest of the terms and conditions shall be interpreted and enforced as if said void or unenforceable term or provision was not contained herein.

8. **Interpretation.** Both parties acknowledge that they have had adequate time to review and understand this Agreement and any unclear or ambiguous term or provision shall not be more strongly construed against the party drafting this Agreement.

9. **Authority.** The person executing this Agreement represents and warrants to the other party that it has the authority and power to bind its party to all the terms and conditions contained herein and additional work authorizations.

10. **Counterparts and Electronic Signatures.** This Agreement may be signed in counterparts, which together shall constitute one and the same instrument. An electronic or faxed copy of a party's signature shall be deemed binding and conclusive on said party to the same extent as an original signature.

11. **No Representation or Warranty by DJP&A.** DJP&A does not represent, warrant or guaranty that it will make any particular finding or result regarding the work and investigation it is providing under this Agreement and the Scope of Work.

12. **Limitation of Liability.** DJP&A's liability on any claim by the Client of any kind (excluding bodily injury or death) based on contract, warranty, tort (including negligence), strict liability or otherwise, for any loss or damage arising out of, connected with, or resulting from this Agreement or from the performance or breach thereof, or from services covered by or furnished under this Agreement, will in no case exceed the total amount actually received by DJP&A under this Agreement. In no event will DJP&A be liable for special, incidental, exemplary or consequential damages including but not limited to loss of profits or revenue to Client arising out of the work performed by DJP&A under the Agreement.

13. **Dispute Resolution/Attorney's Fees.** All disputes, claims, and causes of action, in law or equity, arising from or relating to this Agreement or its enforcement, performance, breach, or interpretation (other for the non-payment of monies owed by Client to DJP&A) shall be pursued and resolved solely and exclusively by final, binding and confidential arbitration through Judicial Arbitration & Mediation Services/Endispute, Inc. ("JAMS") under the then existing JAMS arbitration rules. The parties understand and agree that this provision waives their right to a jury trial on these claims. This arbitration shall be held in Santa Clara County. Nothing in this provision is intended to prevent DJP&A from pursuing a civil suit to collect on monies owed by Client, or either party from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. The arbitrator shall have the authority to allocate the expenses relating to the arbitration in the manner the arbitrator determines to be appropriate, after taking into account the relative success and reasonableness of the arguments and positions advanced by the parties in the arbitration, and the arbitrator also shall have the authority to award the prevailing party its reasonable attorneys' fees and other costs if it determines that the other party's arguments or positions were frivolous or were otherwise made in bad faith.

14. **Incorporation by Reference.** The Client understands and agrees that all of the terms and provisions contained in the terms and conditions set forth above shall be incorporated by reference and shall be included in and shall be deemed part of the agreement with Client.

SCHEDULE C
PROJECT SCHEDULE

DRAFT

SCHEDULE D

OWNER'S INSURANCE REQUIREMENTS

The Consultant expressly acknowledges and agrees that the insurance requirements herein replace and supersede any and all insurance requirements referenced in the Proposal. The Consultant shall, at its sole cost, obtain and maintain in force for the duration of this Agreement or as described otherwise below, insurance of the following types, with limits not less than those set forth below. All insurance required to be obtained by the Consultant under this Agreement shall be placed with insurers which are satisfactory to the Owner (such satisfaction not to be unreasonably withheld) and which are licensed to provide insurance coverage in the jurisdiction in which the Services will be rendered:

1.0 Commercial General Liability Insurance

The Consultant shall provide, maintain and pay for Commercial General Liability Insurance (CGL) on an "occurrence basis" and shall have a minimum combined single limit of liability of Two Million Dollars (**\$2,000,000**) inclusive per occurrence and Four Million Dollars (**\$4,000,000**) in the aggregate for bodily injury and property damage and for personal and advertising injury liability. Limits may be met with a combination of primary and excess policies. Such insurance shall include Products and Completed Operations Liability, Broad Form Property Damage, Blanket Contractual Liability (Broad Form Coverage), and both Cross Liability and Severability of Interests Clause. This insurance shall be maintained in full force and effect for not less than Three (3) years following completion of the Services.

The General Liability policy shall be endorsed to name the parties identified in Section 5.0 of this Schedule as Additional Insureds, pursuant to ISO endorsement forms CG 20 10 and CG 20 37, for bodily injury and property damage and personal and advertising injury liability arising from the Consultant's operations required by this Agreement. Such insurance shall provide the Additional Insureds protection against any claims that may arise during the period of not less than Three (3) years following completion of the Services.

2.0 Automobile Liability Insurance

The Consultant shall provide, maintain and pay for Automobile Liability Insurance having a minimum combined single limit of liability of not less than One Million Dollars (\$1,000,000) per occurrence and insuring against claims for bodily injury, including death, and for property damage arising out of the use, operation, loading and unloading of all owned, non-owned, hired or leased automobiles in the performance of the Services under this Agreement. Physical Damage coverage for owned and non-owned automobiles is also required. The Consultant's Automobile Liability Insurance policy shall contain a cross liability or severability of interest clause. This insurance shall include a waiver of subrogation by the insurers in favour of the parties identified as Additional Insureds in Section 5.0 of this Schedule.

3.0 Worker's Compensation and Employer's Liability Insurance

The Consultant shall provide, maintain and pay for Workers Compensation Insurance, including occupational illness or disease coverage, in compliance with the laws and other statutory obligations imposed by the jurisdiction of the state or other sovereign where the Services are performed. All Worker's Compensation Insurance shall be for limits as required by applicable law. The Consultant shall additionally secure Employer's Liability insurance with a minimum limit of One Million Dollars (**\$1,000,000**) per accident and, for bodily injury by disease, and One Million Dollars (**\$1,000,000**) per employee. The Employer's Liability insurance shall name the parties identified in Section 5.0 of this Schedule as Additional Insureds.

4.0 Professional Liability

The Consultant shall obtain and then maintain professional liability (errors and omissions) insurance in an amount not less than Two Million Dollars (**\$2,000,000**) per claim and in the aggregate covering damages caused by any negligent acts or omissions of the Consultant, or of any other person for whose negligent acts or omissions the Consultant is legally responsible, arising out of the performance of the Services by the Consultant under this Agreement. If this coverage is written on a claims-made basis, the Consultant shall maintain this insurance for three years following substantial completion of Consultant's Services.

5.0 Additional Insureds

With regard to all insurance that is required in this Schedule, with the exception of professional liability and worker's compensation, the Consultant shall arrange to have the following named as Additional Insureds under each policy: the Owner; including their respective officers, directors, partners, members, affiliates, managers, shareholders, employees, parent and subsidiary companies, designated agents, successors and assigns (collectively, the "Additional Insureds").

6.0 Evidence of Insurance Required

The Consultant shall provide the Owner ACORD Certificates of Insurance satisfactory in form to the Owner, evidencing that the insurance required to be provided by the Consultant is in force and effect and that the Additional Insureds have been so named under the required policies. Such Certificates shall be furnished prior to the commencement of the Services, and, thereafter, seven (7) days prior to the annual renewal of the insurance and otherwise from time to time as is reasonably required by the Owner. The Owner is under no obligation to advise the Consultant in the event its insurance is not in compliance with this Agreement. The policies shall provide that not less than thirty (30) days written notice will be given to the Owner prior to any cancellation or non-renewal of, or material change to, the policies. The insurance companies issuing the foregoing insurance to be maintained by Consultant shall have an AM Best Insurance Rating of A- VII or better.

Unless specified otherwise, the duration of each insurance policy shall be from the date of commencement of the Services until the date of completion of the Services.

7.0 Primary and Non-Contributory

The foregoing insurance coverages afforded Additional Insureds shall be non-contributory and apply only as primary, and not as excess, with respect to any other insurance or self-insurance which may be available to, and/or maintained by, the Owner and the other Additional Insureds. The fact that the Consultant has obtained the insurance required shall in no manner lessen or affect the Consultant's other obligations or liabilities set forth in this Agreement.

8.0 Deductibles

The Consultant shall be responsible for any deductible amounts under the policies of insurance that it is required to maintain in accordance with this Agreement.

9.0 Additional Insurance

The Consultant shall provide, maintain and pay for any additional insurance which it is required to provide by law or which it considers necessary to cover risks not otherwise covered by insurance specified in this Agreement. For greater certainty, it is expressly agreed and understood that the Owner does not represent or warrant that the insurance policies described in this Schedule will be sufficient to protect the Consultant against all of its responsibilities under this Agreement or as required by law. The insurance coverage described under this Agreement shall in no way limit the Consultant's obligations under ARTICLE 22 -- --- INDEMNIFICATION.

10.0 Failure to Maintain Insurance

Should the Consultant fail to provide and maintain the required insurance, of the type, with the prescribed coverages and endorsements, deductibles and limits as set out in this Agreement, the Owner shall have the right, but not the obligation, to obtain the required insurance, the cost of which shall be the sole and exclusive responsibility of the Consultant. The Owner shall retain the right to deduct, and otherwise set-off, any and all costs incurred by it related to the provision of this insurance as against any funds due to the Consultant. Furthermore, the Consultant agrees, acknowledges and covenants to indemnify, defend and hold harmless the Owner and the other Additional Insureds from and against all claims, demands, costs, damages, actions, suits or proceedings, of any kind arising directly or indirectly out of, or otherwise resulting from, or attributable to, the Consultant's failure to comply with the insurance obligations as set out under this Agreement.

11.0 Waiver of Subrogation

Notwithstanding anything to the contrary in this Agreement, the Consultant hereby releases the Owner and the other Additional Insureds for bodily injury, property damage or other insured claims arising out of the Consultant's performance of the Services under this Agreement to the extent covered by the Consultant's insurance required hereunder or otherwise maintained by Consultant.

12.0 Subconsultants' Insurance

Any and all subconsultants' retained by the Consultant shall comply with each of the insurance requirements set forth herein, unless the Owner agrees in writing to reduce the minimum insurance requirements of the subconsultant. All subconsultants shall name the Owner and the other Additional Insureds as additional insureds under the applicable insurance policies maintained by the subconsultants.

SCHEDULE E

CONFIRMATION OF DESTRUCTION OR RETURN OF CONFIDENTIAL INFORMATION

Subject to the terms and conditions contained in this Agreement between the Owner and the Consultant duly executed on [Date of Agreement], certain Confidential Information was provided to the Consultant.

It was an express term of this Agreement that the Consultant return the Confidential Information to the Owner or permanently destroy any records created by or on behalf of the Consultant that incorporate, identify, disclose or contain any part of the Confidential Information and confirm such destruction in writing to the Owner.

The Consultant hereby acknowledges, warrants and represents that:

- a. any of the Confidential Information in a tangible form has been returned to the Owner or been permanently destroyed as requested by the Owner;
- b. any of the Confidential Information in an electronic format has been purged, erased or otherwise permanently removed from any electronic storage medium;
- c. the Consultant has received written confirmation or, upon its own review is fully satisfied, that any employees, consultants, contractors and representatives of the Consultant or others who have received the Confidential Information from the Consultant have returned or destroyed the Confidential Information; and
- d. the Confidential Information has been fully removed from the Consultant's possession and control.

All of the terms and conditions of this Agreement continue to survive despite the signing of this confirmation.

APPENDIX G

ASTM USER QUESTIONNAIRE

DRAFT

ASTM E 1527-13 USER QUESTIONNAIRE

To qualify for the protection offered under the EPA All Appropriate Inquiry (AAI) Standard, the User (entities seeking to use the ASTM E1527-13 Practice to complete an environmental site assessment of the property; i.e. Lenders and/or Borrowers) must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that AAI is not complete. This information should be the collective knowledge of the entities relying on the Phase I. **Please note that you are not being asked to evaluate the property, but rather to provide your knowledge of information on the property.**

Site Name/Address: _____

Property Owner (Name/Title/Company): _____

Phone/Email: _____

Key Site Personnel (Name/Title/Company): _____

Phone/Email: _____

Past Owner (Name/Title/Company) _____

Phone/Email: _____

1. Environmental cleanup liens that are filed or recorded against the property (40 CFR 312.25).

Did a search of recorded land title records (or judicial records where appropriate, see NOTE 1 below) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?

NOTE 1: In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records must be searched for environmental liens and AULs.

Yes No If yes, please include an explanation in the space provided below:

2. Activity and land use limitations that are in place on the property or that have been filed or recorded against the property (40 CFR 312.26(a)(1)(v) and vi).

Did a search of recorded land title records (or judicial records where appropriate, see NOTE 1 above) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?

Engineering Controls are defined as physical modifications to a site or facility to reduce or eliminate the potential for exposure to hazardous substances or petroleum products in the soil or ground water on the property). Institutional Controls are defined as a legal or administrative restriction on the use of, or access to, a site or facility to 1) reduce or eliminate the potential for exposure to hazardous substances or petroleum products in the soil or ground water on the property, or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment.

Yes No If yes, please include an explanation in the space provided below:

3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).

Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes No If yes, please include an explanation in the space provided below:

4. Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).

Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

Yes No

If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

Yes No

Comments:

5. Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:

a. Do you know the past uses of the property?

Yes No

b. Do you know of specific chemicals that are present or once were present at the property?

Yes No

c. Do you know of spills or other chemical releases that have taken place at the property?

Yes No

d. Do you know of any environmental cleanups that have taken place at the property?

Yes No

If yes for questions above, please include an explanation in the space provided below:

6. The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

Yes No If yes, please include an explanation in the space provided below:

1 MASTER CONTROL VALVE
SCALE: NONE

- MASTER CONTROL VALVE WITH FLOW CONTROL AND MANUAL BLEED (PRESSURE REGULATOR WHERE SHOWN ON PLANS). CENTER WITHIN BOX.
- 14" X 19" RECTANGULAR PLASTIC VALVE BOX WITH BOLT DOWN LID. INSTALL BOX AS SHOWN IN BOX INSTALLATION DETAIL.
- FINISH GRADE.
- 19 GAUGE 1/2" [12mm] SQUARE WIRE MESH. WRAP UP SIDES OF BOX.
- SCH 80 PVC PIPE. LENGTH AS REQUIRED.
- TYP. PVC SCHEDULE 80 45° ELBOW (SxS)-4 TOTAL.
- PVC MAIN LINE FROM BACKFLOW OR PUMP.
- BRICK-ONE ON EACH CORNER.
- SCH 80 PVC MALE ADAPTER-2 TOTAL.
- SCHEDULE 80 PVC THREADED UNION-2 TOTAL.
- PEA GRAVEL OR 3/4" DRAIN ROCK - 4" [100mm] DEEP BELOW VALVE (NO SOIL IN VALVE BOX).
- 3" LONG SCHEDULE 80 PVC NIPPLE-2 TOTAL. MATCH VALVE SIZE.
- VALVE CONTROL WIRE- PROVIDE 3M-DBY SEAL PACKS AT ALL SPLICES AND 36" OF EXCESS WIRE IN A 1" DIAMETER COIL.
- 3" MIN 6" MAX.
- VALVE I.D. TAG (CONTROLLER AND STATION NUMBER). FOR RECYCLED WATER USE PURPLE TAG.
- REFER TO IRRIGATION LEGEND.
- PVC MAIN LINE TO FLOW SENSOR.

2 FLOW SENSOR
SCALE: NONE

NOTE:
TWO WIRE DECODER SYSTEMS MUST BE PROPERLY GROUNDED IN ORDER TO PROTECT AGAINST LIGHTNING SURGES. THE COMMUNICATION CABLE MUST BE GROUNDED NO FURTHER THAN 500' FROM ANY DECODER. THE SURGE DEVICE MUST BE A WEATHERTRAK MODEL WT2W-LSP. THE MINIMUM DISTANCE BETWEEN THE SURGE ARRESTOR AND THE GROUND ROD SHOULD BE 3' (91.4CM). WEATHERTRAK RECOMMENDS A SPLIT BOLT CONNECTION TO BE USED TO CONNECT THE SURGE DEVICE TO THE GROUND WIRE WITH A 3M DBY-6 WATERPROOF CONNECTOR.

- FINISH GRADE.
- 14" X 19" RECTANGULAR PLASTIC VALVE BOX WITH BOLT DOWN LID. INSTALL BOX AS SHOWN IN BOX INSTALLATION DETAIL.
- 18 GAUGE AWG DIRECT BURIAL WIRE. FLOW SENSOR WIRE MUST BE RUN IN 1" PVC CONDUIT FROM FLOW SENSOR TO CONTROLLER ENCLOSURE. PROVIDE 3M-DBY SEAL PACKS AT ALL SPLICES AND 36" OF EXCESS WIRE IN A 1" DIAMETER COIL.
- 1" SCH 40 PVC CONDUIT.
- SCH 80 PVC PIPE.
- SCH 80 PVC REDUCER IF REQUIRED.
- PVC MAIN LINE TO MASTER CONTROL VALVE.
- 19 GAUGE 1/2" SQUARE WIRE MESH. WRAP UP SIDES OF BOX.
- BRICK-ONE ON EACH CORNER.
- PEA GRAVEL OR 3/4" DRAIN ROCK - 4" DEEP BELOW VALVE (NO SOIL IN VALVE BOX).
- VALVE CONTROL WIRE- PROVIDE 3M-DBY SEAL PACKS AT ALL SPLICES AND 36" OF EXCESS WIRE IN A 1" DIAMETER COIL.
- FLOW SENSOR MUST BE INSTALLED WITH INSERT (TOP) POSITIONED VERTICALLY AND BODY (TEE) POSITIONED HORIZONTALLY.
- PVC MAIN LINE TO IRRIGATION SYSTEM.

3 REMOTE CONTROL VALVE (DRIPZONE)
SCALE: NONE

NOTE:
1. ALL DECODERS SHALL HAVE A VALVE NUMBER ADDRESSED AT CONTROLLER PRIOR TO INSTALLATION.
2. USE U.F. SAFETY CABLE STRIPPER BY KING INNOVATION (MODEL NUMBER 46200) FOR ALL TWO-WIRE SPLICE CONNECTIONS.

- FINISH GRADE.
- RECTANGULAR PLASTIC VALVE BOX WITH BOLT DOWN LID. ONE VALVE PER BOX- NO EXCEPTIONS. INSTALL BOX AS SHOWN IN BOX INSTALLATION DETAIL.
- SCHEDULE 80 PVC UNION BALL VALVE (ONE PER VALVE).
- SCHEDULE 80 PVC THREADED UNION.
- REMOTE CONTROL VALVE DRIP ZONE KIT. (SHALL INCLUDE VALVE, FILTER AND A 40 PSI PRESSURE REDUCING VALVE).
- VALVE I.D. TAG (CONTROLLER AND STATION NUMBER). FOR RECYCLED WATER USE PURPLE TAGS.
- SCHEDULE 40 MALE ADAPTER.
- BRICK-1 EACH CORNER.
- PVC MAIN LINE.
- SCHEDULE 40 OR 80 PVC TEE. REFER TO LEGEND FOR TYPE.
- SCHEDULE 80 PVC NIPPLE-(4-TOTAL) LENGTH AS REQUIRED.
- PEA GRAVEL OR 3/4" [20mm] DRAIN ROCK - 4" [102mm] DEEP BELOW VALVE (NO SOIL IN VALVE BOX).
- 19 GAUGE 1/2" [13mm] SQUARE WIRE MESH.
- SCHEDULE 80 PVC 90° ELBOW (1X1).
- VALVE CONTROL WIRE- PROVIDE 3M-DBY SEAL PACKS AT ALL SPLICES AND 3' [1m] OF EXCESS WIRE IN A 1" [25mm] DIAMETER COIL.
- SCHEDULE 80 PVC NIPPLE (4 TOTAL).
- VALVE I.D. TAG (CONTROLLER AND STATION NUMBER). FOR RECYCLED WATER USE PURPLE TAGS.
- SCHEDULE 80 PVC THREADED UNION.
- PEA GRAVEL OR 3/4" DRAIN ROCK - 4" [100mm] DEEP BELOW VALVE (NO SOIL IN VALVE BOX).
- 19 GAUGE 1/2" [12mm] SQUARE WIRE MESH.
- UPC APPROVED SCHEDULE 40 PVC TEE.
- SCHEDULE 80 PVC 90° ELBOW (1X1).
- SCHEDULE 80 PVC NIPPLE- LENGTH AS REQUIRED.
- BRICK-1 EACH CORNER.
- PVC MAIN LINE.
- SCHEDULE 80 PVC UNION BALL VALVE (ONE PER VALVE).

4 REMOTE CONTROL VALVE
SCALE: NONE

- REMOTE CONTROL VALVE WITH FLOW CONTROL AND MANUAL BLEED (PRESSURE REGULATOR WHERE SHOWN ON PLANS). VALVE BOX WITH BOLT DOWN LID FOR 1" VALVES. FOR 1.5" AND LARGER VALVES INSTALL BALL VALVE WITH A SEPARATE 10" ROUND BOX OR ONE BALL VALVE PER MANIFOLD OF VALVES. GATE VALVE SIZE SHALL BE SAME AS LARGEST VALVE WITHIN BOX INSTALLATION DETAIL.
- FINISH GRADE.
- PVC LATERAL LINE.
- REFER TO IRRIGATION SPECS.
- 3" [75mm] MIN. 6" [150mm] MAX.
- VALVE CONTROL WIRE- PROVIDE SEAL PACKS AT ALL SPLICES AND 3' [1m] OF EXCESS WIRE IN A 1" [25mm] DIAMETER COIL.
- SCHEDULE 80 PVC NIPPLE (4 TOTAL).
- VALVE I.D. TAG (CONTROLLER AND STATION NUMBER). FOR RECYCLED WATER USE PURPLE TAGS.
- SCHEDULE 80 PVC THREADED UNION.
- PEA GRAVEL OR 3/4" DRAIN ROCK - 4" [100mm] DEEP BELOW VALVE (NO SOIL IN VALVE BOX).
- 19 GAUGE 1/2" [12mm] SQUARE WIRE MESH.
- UPC APPROVED SCHEDULE 40 PVC TEE.
- SCHEDULE 80 PVC 90° ELBOW (1X1).
- SCHEDULE 80 PVC NIPPLE- LENGTH AS REQUIRED.
- BRICK-1 EACH CORNER.
- PVC MAIN LINE.
- SCHEDULE 80 PVC UNION BALL VALVE (ONE PER VALVE).

5 CONTROLLER - EXTERIOR WALL MOUNTED
SCALE: NONE

- IRRIGATION CONTROLLER.
- 120 VOLT SERVICE IN RIGID STEEL CONDUIT.
- 120 VOLT LOCKABLE WEATHERPROOF ON/OFF SWITCH PROVIDED UNDER IRRIGATION CONTRACT.
- 120 VOLT SERVICE TO CONTROLLER LOCATION PROVIDED BY CONTRACTOR.
- LOW VOLTAGE WIRE IN SCHEDULE 40 PVC CONDUIT. PAINT CONDUIT ABOVE GRADE TO MATCH BUILDING SURFACE COLOR.
- FINISH GRADE OR HARDSCAPE.

6 GATE VALVE
SCALE: NONE

- 10" ROUND PLASTIC VALVE BOX WITH BOLT DOWN LID.
- PURPLE VALVE I.D. TAG (RECYCLED WATER).
- 8" [200mm] CLASS 160 OR SCHEDULE 40 PVC PIPE (NOTCH TO FIT OVER MAIN LINE PIPE).
- PVC MAIN LINE.
- FINISH GRADE.
- PEA GRAVEL OR 3/4" [20mm] DRAIN ROCK - 4" [100mm] DEEP (NO SOIL IN VALVE BOX).
- BRICK-2 TOTAL.
- 19 GAUGE 1/2" [13mm] SQUARE WIRE MESH.
- GATE VALVE.
- MALE ADAPTER. REFER TO LEGEND FOR FITTING TYPE.

7 IRRIGATION TWO WIRE PULL BOX
SCALE: NONE

- FINISH GRADE.
- 24" LOOP OF TWO WIRE CABLE.
- GREY RECTANGULAR PLASTIC VALVE BOX WITH BOLT DOWN LID. HEAT BRAND "PFB" INTO LID.
- 18 GAUGE 1/2" [13mm] SQUARE STAINLESS STEEL WIRE MESH.
- BRICK-ONE ON EACH CORNER.
- SCHEDULE 40 PVC SWEEP ELLS.
- SCHEDULE 40 U.L. LISTED PVC CONDUIT.
- PEA GRAVEL OR 3/4" [20mm] DRAIN ROCK - 4" [102mm] DEEP BELOW VALVE (NO SOIL IN VALVE BOX).
- SEAL ALL CONDUIT OPENINGS WITH WATERPROOF FOAM.

8 LIGHTNING ARRESTOR
SCALE: NONE

NOTE:
1. ALL DECODERS SHALL HAVE A VALVE NUMBER ADDRESSED AT CONTROLLER PRIOR TO INSTALLATION.
2. USE U.F. SAFETY CABLE STRIPPER BY KING INNOVATION (MODEL NUMBER 46200) FOR ALL TWO-WIRE SPLICE CONNECTIONS.

- 2-WIRE PATH JACKETED/ TWISTED FROM CONTROLLER. ALLOW A 24" SLACK PER DECODER.
- LIGHTNING ARRESTOR (MODEL WT2W-LSP, 1 EVERY 500' FROM STARTING FROM CONTROLLER).
- 3M DBY/Y-6 OR APPROVED EQUAL WATERPROOF SPLICE KIT (4 TOTAL).
- 2-WIRE PATH JACKETED/ TWISTED TO NEXT DECODER.
- 18 GAUGE 1/2" [13mm] SQUARE STAINLESS STEEL WIRE MESH.
- 1.25" CONDUIT FOR 2 WIRE CABLE WITH LONG SWEEPS IN AND OUT OF EACH VALVE BOX. SEAL ALL CONDUIT OPENINGS WITH WATERPROOF FOAM.
- INSTALL 5/8" DIAMETER COPPER GROUND ROD OF 8' LENGTH.
- BRICK-ONE ON EACH CORNER.
- GREY RECTANGULAR PLASTIC VALVE BOX WITH BOLT DOWN LID. HEAT BRAND "GR" INTO LID.
- DECODER.

9 DECODER WIRING IN CONDUIT
SCALE: NONE

- #14AWG TWO WIRE CABLE FROM CONTROLLER. REFER TO IRRIGATION NOTES FOR MODEL NUMBER OF WIRE. ALLOW A 24" SLACK PER DECODER. USE ELECTRICAL TAPE TO HOLD SLACK CABLES TOGETHER.
- TWO WIRE CABLE TO NEXT DECODER.
- 3M DBY/Y-6 OR APPROVED EQUAL WATERPROOF SPLICE KIT (4 TOTAL).
- A MAXIMUM OF 4" OF WIRE SHALL BE STRIPPED FROM TWO WIRE CABLE WHEN SPLICING AT DECODERS.
- CONNECT CORRECT DECODER WIRES TO TWO WIRE CABLES.
- DECODER.
- CONNECT CORRECT DECODER WIRES TO VALVE SOLENOID WIRES.
- REFER TO REMOTE CONTROL VALVE DETAIL FOR INSTALLATION INSTRUCTIONS.
- REFER TO REMOTE CONTROL VALVE DETAIL FOR INSTALLATION INSTRUCTIONS.
- 1.25" CONDUIT FOR 2 WIRE CABLE WITH LONG SWEEPS IN AND OUT OF EACH VALVE BOX. SEAL ALL CONDUIT OPENINGS WITH WATERPROOF FOAM.
- BRICK-ONE ON EACH CORNER.

10 2-WIRE SPLICE BOX AT MAIN LINE TEE OR 3 WAY WIRE BRANCH
SCALE: NONE

- FINISH GRADE.
- 10" ROUND VALVE BOX.
- CONDUIT FOR TWO WIRE CABLE. SEAL OPENINGS WITH WATERPROOF FOAM.
- 3M DBY/Y-6 OR APPROVED EQUAL WATERPROOF CONNECTOR.
- TWO WIRE CABLE.
- BRICK-ONE ON EACH CORNER.
- PEA GRAVEL.

11 QUICK COUPLING VALVE
SCALE: NONE

- 10" ROUND PLASTIC VALVE BOX WITH BOLT DOWN LID.
- 1 1/4" x 1 1/4" x 3/16" [30mm x 30mm x 5mm] ANGLE IRON 30° [760mm] LONG W/2 STAINLESS STEEL STRAPS (ONE AROUND COV).
- PVC MAIN LINE.
- 3" [75mm] LONG SCHEDULE 80 PVC THREADED NIPPLE.
- FINISH GRADE.
- QUICK COUPLING VALVE.
- 19 GAUGE 1/2" [13mm] SQUARE WIRE MESH.
- BRICK - 2 TOTAL.
- SCHEDULE 80 PVC THREADED NIPPLE.
- 10" [250mm] LONG SCHEDULE 80 PVC THREADED NIPPLE.
- SCHEDULE 80 PVC THREADED 90° ELL.
- PURPLE VALVE ID TAG (FOR RECYCLED WATER).

NOTE:
NIPPLES AND FITTINGS TO BE SAME SIZE AS VALVE IPT INLET THREAD SIZE.

12 WEATHERPROOF WIRE SPLICE ASSEMBLY
SCALE: NONE

NOTE:
MAXIMUM # OF WIRES PER CONNECTOR:
• 3-#14 GAUGE
• 2-#12 GAUGE

INSTRUCTIONS:
1. STRIP WIRES APPROXIMATELY 1/2" FROM ENDS TO EXPOSE WIRE.
2. TWIST CONNECTOR AROUND WIRES CLOCKWISE UNTIL HAND TIGHT, DO NOT OVERTIGHTEN.
3. INSERT WIRE ASSEMBLY TO BOTTOM OF GEL-FILLED TUBE. CHECK TO MAKE SURE CONNECTOR HAS BEEN PUSHED PAST LOCKING FINGERS AND IS SEATED AT THE BOTTOM OF THE TUBE.
4. PLACE WIRES WHICH EXIT TUBE IN WIRE EXIT HOLES AND CLOSE CAP UNTIL IT SNAPS.
5. INSPECT FINAL SPLICE ASSEMBLY THAT IT IS SECURED.

13 VALVE BOX INSTALLATION
SCALE: NONE

VALVE IDENTIFICATION

ITEMS TO BRAND:	BRAND CODE
GATE VALVE	GV
PRESSURE REDUCER	PRV
MASTER VALVE	MV
FLOW SENSOR	FS
HYDROMETER	HM
MAIN LINE AIR RELIEF	ARV
REMOTE CONTROL VALVE	A
QUICK COUPLER	QC
SPLICE BOX	SB
PULL BOX	PB
LIGHTNING ARRESTOR	LA
GROUND ROD	GR

INSTRUCTIONS:
1. CENTER VALVE BOX OVER REMOTE CONTROL VALVE TO FACILITATE SERVICING VALVE.
2. SET BOXES 1" ABOVE FINISH GRADE OR MULCH COVER IN GROUND COVER/SHRUB AREA AND FLUSH WITH FINISH GRADE IN TURF AREA.
3. SET ROV AND VALVE BOX ASSEMBLY IN GROUND COVER/SHRUB AREA WHERE POSSIBLE. INSTALL IN LAWN ONLY IF GROUND COVER DOES NOT EXIST ADJACENT TO LAWN PLACE BEHIND SECOND ROW OF SHRUBS (TYPICAL).
4. SET BOXES PARALLEL TO EACH OTHER AND PERPENDICULAR TO EDGE OF LAWN, WALK, FENCE, CURB, ETC.
5. AVOID HEAVILY COMPACTING SOIL AROUND VALVE BOXES TO PREVENT COLLAPSE AND DEFORMATION OF VALVE BOX SIDES.
6. INSTALL EXTENSION BY VALVE BOX MANUFACTURER AS REQUIRED TO COMPLETELY ENCLOSE ASSEMBLY FOR EASY ACCESS.

14 TRENCHING
SCALE: NONE

NOTE:
1. ALL MAIN SUPPLY LINES AND LATERAL LINES SHALL BE PLACED IN SLEEVES UNDER PAVED SURFACES. INSTALL LOW VOLTAGE WIRES WITHIN A SEPARATE CONDUIT UNDER PAVED SURFACES. DO NOT TAPE WIRES WITHIN CONDUIT.
2. REUSE SALVAGED EXCAVATED FILL AND COMPACT TO ORIGINAL DENSITY IN LANDSCAPE AREAS. ALL OTHER AREAS SHALL BE AT 95% COMPACTION. BACKFILL MATERIAL SHALL BE THE EARTH EXCAVATED FROM THE TRENCHES, FREE FROM ROCKS (ANYTHING LARGER THAN 2"), CONCRETE CHUNKS, AND OTHER FOREIGN OR COARSE MATERIALS.
3. WHEN 12" POP-UP SPRINKLER HEADS ARE USED, INCREASE THE DEPTH OF LATERAL TO 18" AT THE SPRINKLER LOCATION ONLY.

- FINISH GRADE.
- CLEAN BACKFILL MATERIAL.
- LATERAL LINE.
- 3" DETECTABLE WARNING TAPE OVER MAIN LINE. INSTALL 3" ABOVE MAIN LINE. USE CHRISTY MODEL #TA-DT-3-BIRR FOR POTABLE IRRIGATION SYSTEMS OR #TA-DT-3-PRW FOR RECYCLED IRRIGATION WATER SYSTEMS.
- MAIN LINE.
- LOW VOLTAGE CONTROL WIRES, TWO-WIRE CABLE, OR CONDUIT WITH WIRES. FOR MULTIPLE WIRES, TAPE AND BUNDLE WIRES AT 10 FT. INTERVALS. WIRING SHALL BE LAID OUT LOOSELY IN THE TRENCH.

15 TREE AND SHRUB BUBBLER
SCALE: NONE

NOTE:
SUGGESTED QUANTITY OF BUBBLERS PER TREES AND SHRUBS SIZE:
• 15 GAL OR 24" BOX = 2 BUBBLERS
• 36 GAL OR 48" BOX = 4 BUBBLERS
• 80 GAL OR 72" BOX = 6 BUBBLERS

- BUBBLER (TO BE INSTALLED ON SIDE OF ROOTBALL).
- 1/2" [13mm] SCH. 40 MALE ADAPTER.
- 8" [150mm] STEEL STAPLE.
- FINISH GRADE.
- TREE OR SHRUB ROOTBALL.
- 1/2" [13mm] IPS FLEXIBLE PVC.
- PVC TEE (SST), ELBOW (ST) OR FEMALE ADAPTER.
- PVC LATERAL LINE.
- TREE STAKES.
- TREE OR SHRUB.
- EDGE OF ROOTBALL (TYPICAL).

NOTES

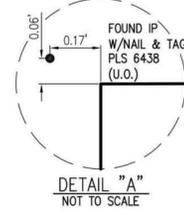

1. THIS PLOT WAS PREPARED FROM INFORMATION FURNISHED IN A POLICY OF TITLE INSURANCE, PREPARED BY CHICAGO TITLE INSURANCE COMPANY, DATED FEBRUARY 12, 2020, ORDER NO. 98202645-982-SK-KC. NO LIABILITY IS ASSUMED FOR MATTERS OF RECORD NOT STATED IN SAID POLICY OF TITLE INSURANCE THAT MAY AFFECT THE TITLE LINES, OR EXCEPTIONS, OR EASEMENTS OF THE PROPERTY.
2. ALL DISTANCES AND ELEVATIONS SHOWN HEREON ARE IN FEET AND DECIMALS THEREOF.
3. THE TYPES, LOCATIONS, SIZES AND/OR DEPTHS OF EXISTING UNDERGROUND UTILITIES AS SHOWN ON THIS TOPOGRAPHIC SURVEY WERE OBTAINED FROM SOURCES OF VARYING RELIABILITY. THE CONTRACTOR IS CAUTIONED THAT ONLY ACTUAL EXCAVATION WILL REVEAL THE TYPES, EXTENT, SIZES, LOCATIONS AND DEPTHS OF SUCH UNDERGROUND UTILITIES. (A REASONABLE EFFORT HAS BEEN MADE TO LOCATE AND DELINEATE ALL KNOWN UNDERGROUND UTILITIES). HOWEVER, THE ENGINEER CAN ASSUME NO RESPONSIBILITY FOR THE COMPLETENESS OR ACCURACY OF ITS DELINEATION OF SUCH UNDERGROUND UTILITIES WHICH MAY BE ENCOUNTERED, BUT WHICH ARE NOT SHOWN ON THESE DRAWINGS.
- PHYSICAL ITEMS SHOWN ON THIS SURVEY ARE LIMITED TO THOSE ITEMS VISIBLE AS OF THE DATE OF THIS SURVEY. SUBSURFACE STRUCTURES, IF ANY, ARE NOT SHOWN. SAID SUBSURFACE OBJECTS MAY INCLUDE, BUT ARE NOT LIMITED TO, CONCRETE FOOTINGS, SLABS, SHORING, STRUCTURAL PILES, UTILITY VAULTS, PIPING, UNDERGROUND TANKS, AND ANY OTHER SUBSURFACE STRUCTURES NOT REVEALED BY A SURFACE INSPECTION.
4. THE SUBJECT PROPERTY IS SHOWN ON THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) FLOOD INSURANCE RATE MAP (FIRM) FOR SANTA CLARA COUNTY, CALIFORNIA, FOR COMMUNITY NUMBER 0608500234H, WITH AN EFFECTIVE DATE OF MAY 18, 2009, AS BEING LOCATED IN FLOOD ZONE "D".
ACCORDING TO FEMA THE DEFINITION OF ZONE "D" IS: AREAS IN WHICH FLOOD HAZARDS ARE UNDETERMINED, BUT POSSIBLE.
FEMA BASE FLOOD ELEVATIONS ARE BASED ON NAVD88 DATUM.
5. BENCHMARK:
CITY OF SAN JOSE BENCHMARK 349-H; THE LETTER "O" IN THE WORD "OAKLAND" ON TOP OF CATCH BASIN AT SOUTHEAST RETURN OF EAST WILLIAM ST AND FOURTH ST.

San Jose, California

SECTION 1: INTRODUCTION

This report presents the results of the Phase I Environmental Site Assessment (ESA) performed at 409 and 425 South 2nd Street in San Jose, California (Site) as shown on Figures 1 and 2. This work was performed for Urban Catalyst Manager LLC (Urban Catalyst) in accordance with our March 15, 2019 Agreement (Agreement).

1.1 PURPOSE

The scope of work presented in the Agreement was prepared in general accordance with ASTM E 1527-13 titled, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM Standard). The ASTM Standard is in general compliance with the Environmental Protection Agency (EPA) rule titled, "Standards and Practices for All Appropriate Inquiries; Final Rule" (AAI Rule). The purpose of this Phase I ESA is to strive to identify, to the extent feasible pursuant to the scope of work presented in the Agreement, Recognized Environmental Conditions at the property.

As defined by ASTM E 1527-13, the term Recognized Environmental Condition means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not Recognized Environmental Conditions.

Cornerstone Earth Group, Inc. (Cornerstone) understands that Urban Catalyst intends to purchase the Site for construction of a multi-story residential tower with ground floor retail space. We performed this Phase I ESA to support Urban Catalyst in evaluation of Recognized Environmental Conditions at the Site. This Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for Recognized Environmental Conditions at the Site.

1.2 SCOPE OF WORK

As presented in our Agreement, the scope of work performed for this Phase I ESA included the following:

- A reconnaissance of the Site to note readily observable indications of significant hazardous materials releases to structures, soil or groundwater.

- Drive-by observation of adjoining properties to note readily apparent hazardous materials activities that have or could significantly impact the Site.
- Acquisition and review of a regulatory agency database report of public records for the general area of the Site to evaluate potential impacts to the Site from reported contamination incidents at nearby facilities.
- Review of readily available information on file at selected governmental agencies to help evaluate past and current Site use and hazardous materials management practices.
- Review of readily available maps and aerial photographs to help evaluate past and current Site uses.
- Interviews with persons reportedly knowledgeable of existing and prior Site uses.
- Preparation of a written report summarizing our findings and recommendations.

The limitations for the Phase I ESA are presented in Section 10; the terms and conditions of our Agreement are presented in Appendix A.

1.3 ASSUMPTIONS

In preparing this Phase I ESA, Cornerstone assumed that all information received from interviewed parties is true and accurate. In addition, we assumed that all records obtained by other parties, such as regulatory agency databases, maps, related documents and environmental reports prepared by others are accurate and complete. We also assumed that the boundaries of the Site, based on information provided by Urban Catalyst, are as shown on Figure 2. We have not independently verified the accuracy or completeness of any data received.

1.4 ENVIRONMENTAL PROFESSIONAL

This Phase I ESA was performed by Stason I. Foster, P.E. and Kurt M. Soenen, P.E., Environmental Professionals who meet the qualification requirements described in ASTM E 1527-13 and 40 CFR 312 § 312.10 based on professional licensing, education, training and experience to assess a property of the nature, history and setting of the Site.

SECTION 2: SITE DESCRIPTION

This section describes the Site as of the date of this Phase I ESA. The location of the Site is shown on Figures 1 and 2. Tables 1 through 3 summarize general characteristics of the Site and adjoining properties. The Site is described in more detail in Section 7, based on our on-Site observations.

2.1 LOCATION AND OWNERSHIP

Table 1 describes the physical location, and ownership of the property, based on information provided by Urban Catalyst.

Table 1. Location and Ownership

Assessor's Parcel No. (APN)	467-47-019, -020- and -097
Reported Address/Location	409 and 425 South 2 nd Street, San Jose, California
Owner	Not reported
Approximate Lot Size	0.75 acres

In addition to the current address listed in Table 1, several historical addresses for the Site were identified during our review of historical Sanborn fire insurance maps. These include 405, 411 and 435 South 2nd Street, and 26 and 30 East San Salvador Street. The historical addresses also were researched during this Phase I ESA.

2.2 CURRENT/PROPOSED USE OF THE PROPERTY

The current and proposed uses of the property are summarized in Table 2.

Table 2. Current and Proposed Uses

Current Use	Bo Town Seafood Restaurant at 409 S. 2 nd Street. A small structure at 425 S. 2 nd street is used as storage space and has an unoccupied residence on the second floor.
Proposed Use	Multi-story residential tower with ground floor retail space

2.3 SITE SETTING AND ADJOINING PROPERTY USE

Land use in the general Site vicinity appears to be primarily commercial. Based on our Site vicinity reconnaissance, adjoining Site uses are summarized below in Table 3.

Table 3. Adjoining Property Uses

Northeast	Restaurant and Super Market (across South 2 nd Street)
Northwest	Parking lot (across East San Salvador Street)
Southeast	Pacific Motor Inn
Southwest	Night club, restaurants and office space

SECTION 3: USER PROVIDED INFORMATION

The ASTM standard defines the User as the party seeking to use a Phase I ESA to evaluate the presence of Recognized Environmental Conditions associated with a property. For the purpose of this Phase I ESA, the User is Urban Catalyst. The "All Appropriate Inquiries" Final Rule (40 CFR Part 312) requires specific tasks be performed by or on behalf of the party seeking to qualify for Landowner Liability Protection under CERCLA (*i.e.*, the User).

Per the ASTM standard, if the User has information that is material to Recognized Environmental Conditions, such information should be provided to the Environmental Professional. This information includes: 1) specialized knowledge or experience of the User, 2) commonly known or reasonably ascertainable information within the local community, and 3) knowledge that the purchase price of the Site is lower than the fair market value due to contamination. A search of title records for environmental liens and activity and use limitations also is required.

3.1 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

An environmental lien is a financial instrument that may be used to recover past environmental cleanup costs. Activity and use limitations (AULs) include other environmental encumbrances, such as institutional and engineering controls. Institutional controls (ICs) are legal or regulatory restrictions on a property's use, while engineering controls (ECs) are physical mechanisms that restrict property access or use.

The regulatory agency database report described in Section 4.1 did not identify the Site as being in 1) US EPA databases that list properties subject to land use restrictions (*i.e.*, engineering and institutional controls) or Federal Superfund Liens or 2) lists maintained by the California Department of Toxic Substances Control (DTSC) of properties that are subject to AULs or environmental liens where the DTSC is a lien holder.

ASTM E 1527-13 categorizes the requirement to conduct a search for Environmental Liens and AULs as a User responsibility. A search of land title records for environmental liens and AULs was not within the scope of the current Phase I ESA.

3.2 SPECIALIZED KNOWLEDGE AND/OR COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

Based on information provided by or discussions with Urban Catalyst, we understand that Urban Catalyst does not have specialized knowledge or experience, commonly known or reasonably ascertainable information regarding the Site, or other information that is material to Recognized Environmental Conditions.

SECTION 4: RECORDS REVIEW

4.1 STANDARD ENVIRONMENTAL RECORD SOURCES

Cornerstone conducted a review of federal, state and local regulatory agency databases provided by Environmental Data Resources (EDR) to evaluate the likelihood of contamination incidents at and near the Site. The database sources and the search distances are in general accordance with the requirements of ASTM E 1527-13. A list of the database sources reviewed, a description of the sources, and a radius map showing the location of reported facilities relative to the project Site are attached in Appendix B.

The purpose of the records review was to obtain reasonably available information to help identify Recognized Environmental Conditions. Accuracy and completeness of record information varies among information sources, including government sources. Record information is often inaccurate or incomplete. The Environmental Professional is not obligated to identify mistakes or insufficiencies or review every possible record that might exist with the Site. The customary practice is to review information from standard sources that is reasonably available within reasonable time and cost constraints.

4.1.1 On-Site Database Listings

Jack E Castro at the Site address of 411 South 2nd Street was identified in 1955 on EDR's database of historical automobile repair businesses.

4.1.2 Nearby Spill Incidents

Based on the information presented in the agency database report, no nearby off-Site spill incidents were reported that appear likely to significantly impact soil, soil vapor or groundwater beneath the Site. The potential for impact was based on our interpretation of the types of incidents, the locations of the reported incidents in relation to the Site and the assumed groundwater flow direction.

4.2 ADDITIONAL ENVIRONMENTAL RECORD SOURCES

The following additional sources of readily ascertainable public information for the Site also were reviewed during this Phase I ESA.

4.2.1 City and County Agency File Review

Cornerstone requested available files pertaining to the Site at the following public agencies: the San Jose Building Department (BD), San Jose Fire Department (FD), and the Santa Clara County Department of Environmental Health (DEH). The information reviewed is summarized in Table 4. The DEH indicated that they have no files pertaining to the Site.

Table 4. File Review Information

Agency Name	Date	Occupant	Remarks
405 South 2nd Street			
BD	1930	NA	Building, electrical and fixture permit. The occupant was not identified; however, the owner was listed as Seaside Oil Company.
BD	1967	NA	Permit to demolish a 2-story apartment building. The owner was listed as Sambo's Restaurant
409 South 2nd Street			
BD	1967	Sambo's Restaurant	Permit and plans to build a 1-story restaurant building.
FD	1972 to 1980	Sambo's Restaurant	Fire safety inspection reports.
BD	1978	Sambo's Restaurant	Electrical permit.
BD	1983	China Station Restaurant	Building and electrical permits for interior alterations.
FD	1983 to 1985	China Station Restaurant	Fire safety inspection reports.
BD	1987	Chinatown Restaurant	Building permit for interior alterations.
FD	1987 to 1992	Chinatown Restaurant	Fire safety inspection reports.
BD	1991	Bo Town Restaurant	Building permit and plans for interior alterations.
FD	1992 to 1999	Bo Town Restaurant	Fire safety inspection reports.
BD	2009	Bo Town Restaurant	Building permit and plans for facade alterations.

Continued.

Table 4. Continued.

Agency Name	Date	Occupant	Remarks
411 South 2nd Street			
BD	1967	Residence	Permit to demolish a 2-story residence.
425 South 2nd Street			
BD	1987, 1990 and 1996	Residence	Electrical and plumbing permits.
BD	1989	Residence	Fire damage report.
BD	1989	Residence	Permit to demolish a 2-story residence.
BD	1997	Parking lot	Permit for lighting.
BD	2013	Residence	Plumbing permit to add cleanout.
435 South 2nd Street			
BD	1963	Residence	Permit to demolish a 2-story residence.

As noted above, Seaside Oil Company was identified as the owner of 405 South 2nd Street in 1930. Ownership of a corner parcel by an oil company often suggests that a gasoline station may have been present; however, historical data sources discussed in Section 6 indicate that 405 South 2nd Street was occupied by a residence from the late 1800s until construction of the existing restaurant building in the late 1960s.

SECTION 5: PHYSICAL SETTING

We reviewed readily available geologic and hydrogeologic information to evaluate the likelihood that chemicals of concern released on a nearby property could pose a significant threat to the Site and/or its intended use.

5.1 RECENT USGS TOPOGRAPHIC MAP

A 1980 USGS 7.5 minute topographic map was reviewed to evaluate the physical setting of the Site. The Site's elevation is approximately 95 feet above mean sea level; topography in the vicinity of the Site slopes downward gently to the northwest towards the San Francisco Bay.

5.2 HYDROGEOLOGY

Based on our experience and information presented in the California Geotracker database pertaining to nearby properties, the shallow ground water beneath the Site is likely present at depths of approximately 10 to 20 feet. Groundwater likely flows toward the northwest. Northerly and northeasterly flow directions also have been reported in the Site vicinity.

SECTION 6: HISTORICAL USE INFORMATION

The objective of the review of historical use information is to develop a history of the previous uses of the Site and surrounding area in order to help identify the likelihood of past uses having led to Recognized Environmental Conditions at the property. The ASTM standard requires the identification of all obvious uses of the property from the present back to the property's first developed use, or back to 1940, whichever is earlier, using reasonably ascertainable standard historical sources.

6.1 HISTORICAL SUMMARY OF SITE

The historical sources reviewed are summarized below. The results of our review of these sources are summarized in Table 5.

- **Historical Aerial Photographs:** We reviewed aerial photographs dated between 1939 and 2012 obtained from EDR of Shelton, Connecticut; copies of aerial photographs reviewed are presented in Appendix C.
- **Historical Topographic Maps:** We reviewed USGS 15-minute and 7.5-minute historical topographic maps dated between 1889 and 2012; copies of historical topographic maps reviewed are presented in Appendix C.
- **Historical Fire Insurance Maps:** We reviewed Sanborn fire insurance maps dated 1884, 1891, 1915, 1950, 1969 and 1984 obtained from EDR; copies of Sanborn maps are presented in Appendix C.
- **Local Street Directories:** We reviewed city directories obtained from EDR that were researched at approximately 5 year intervals between 1922 and 2014 to obtain information pertaining to past Site occupants. As shown in the city directory summary presented in Appendix D, listed historical occupants included multiple individuals, suggesting prior residential use. Listed commercial occupants are included in Table 5.

Table 5. Summary of Historical Source Information for Site

Date	Source	Comment
1884, 1891, 1915 and 1950	Sanborn maps	The Site is shown to be developed with four dwellings and associated outbuildings (stables, a shed and a water tank house). By 1915, a structure noted to be vacant also is shown on the western corner of the Site fronting East San Salvador Street; this structure is noted to be occupied by a store by 1950. The 1950 map additionally depicts the existing on-Site structure on the 425 South 2 nd Street parcel that appears to be a detached garage associated with a residence.
1889 to 2012	Topographic maps	The Site is shown within the urban developed area of San Jose.
1939 to 1956	Aerial photograph	Although Site details are difficult to interpret due to the scale and quality of the photographs, the Site generally appears to be developed with four residences and associated outbuildings as depicted on the Sanborn maps.
1940	City directory	Occupant listed as Jett A N Used Tires (30 E. San Salvador St.)
1950 to 1963	City directories	Occupant listed as Jack E Castro auto repair (411 S. 2 nd Street)
1960	City directory	Occupant listed as Shamrock Glass Installation (30 E. San Salvador Street)
1966	City directory	Occupant listed as Hull's Door Service (30 E. San Salvador Street)
1963 to 1983	Aerial photograph	On the 1963 photograph, the former store structure and the existing on-Site garage structure are apparent, and a former residence on the southeast portion of the Site is shown to have been removed. By 1968, the store structures and two residences on the northwestern portion of the Site were removed and replaced by the existing restaurant building.
1969 and 1984	Sanborn maps	By 1969, the existing restaurant building is shown to have been constructed and a residence at 425 South 2 nd Street is noted to consist of eight apartments. The other three residences and the

		store structure are shown to have been removed.
1970 to 1980	City directories	Occupant listed as Sambo's Restaurant (409 S. 2 nd Street)
1985 and 1986	City directories	Occupant listed as China Station Restaurant (409 S. 2 nd Street)
1991	City directory	Occupant listed as Chinatown Seafood Restaurant (409 S. 2 nd St.)
1993 to 2016	Aerial photograph	The former residence at 425 South 2 nd Street appears to have been removed and the Site appears generally similar to the existing conditions.
1996 to 2014	City directories	Occupant listed as Bo Town Restaurant (409 S. 2 nd Street)

6.2 HISTORICAL SUMMARY OF SITE VICINITY

Based on our review of the information described in Section 6.1, the general Site vicinity historically consisted mainly of residences by the late 1800s. An increase in commercial development, mainly along South 1st Street, is apparent by 1915. During subsequent decades, further increases in commercial development are apparent in the general vicinity, along with a corresponding decrease in residential properties.

SECTION 7: SITE RECONNAISSANCE

We performed a Site reconnaissance to evaluate current Site conditions and to attempt to identify Site Recognized Environmental Conditions. The results of the reconnaissance are discussed below. Additional Site observations are summarized in Table 6. Photographs of the Site are presented in Section 7.2.1.

7.1 METHODOLOGY AND LIMITING CONDITIONS

To observe current Site conditions (readily observable environmental conditions indicative of a significant release of hazardous materials), Cornerstone staff Stason I. Foster, P.E. visited the Site on March 28, 2019. The Site reconnaissance was conducted by walking representative areas of the Site, including the interiors of the on-Site structures, the periphery of the structures and the Site periphery. Cornerstone staff only observed those areas that were reasonably accessible, safe, and did not require movement of equipment, materials or other objects. Physical obstructions that limited our ability to view the ground surface at the Site included the existing buildings and associated asphalt paved parking areas and vehicle drives (typical of developed properties).

7.2 OBSERVATIONS

At the time of our visit, the Site was developed with a single-story commercial building occupied by Bo Town Seafood Restaurant at 409 South 2nd Street. The restaurant had recently closed and the owners were in the process of vacating the building. A small two-story wood framed structure was observed at 425 South 2nd Street that consisted of storage space on the ground floor and an unoccupied residence on the 2nd floor. Retail products for the adjacent super market (located across South 2nd Street) were stored on the ground floor, as well as within a fenced area on the northwest side of the structure. The remainder of the Site consisted of paved parking areas and vehicle drives. No hazardous materials were observed on-Site.

Electricity and/or natural gas fuel sources appeared to be used for building heating/cooling purposes. Potable water appeared to be supplied by the local water service provider. The buildings presumably are connected to the publically owned sanitary sewer system; no on-Site septic systems were obvious.

Table 6. Summary of Readily Observable Site Features

General Observation	Comments
Aboveground Storage Tanks	Not Observed
Agricultural Wells	Not Observed
Air Emission Control Systems	Not Observed
Boilers	Not Observed
Burning Areas	Not Observed
Chemical Mixing Areas	Not Observed
Chemical Storage Areas	Not Observed
Clean Rooms	Not Observed
Drainage Ditches	Not Observed
Elevators	Not Observed
Emergency Generators	Not Observed
Equipment Maintenance Areas	Not Observed
Fill Placement	Not Observed
Groundwater Monitoring Wells	Not Observed
High Power Transmission Lines	Not Observed
Hoods and Ducting	Observed in kitchen
Hydraulic Lifts	Not Observed
Incinerator	Not Observed
Petroleum Pipelines	Not Observed
Petroleum Wells	Not Observed
Ponds or Streams	Not Observed
Railroad Lines	Not Observed
Row Crops or Orchards	Not Observed
Stockpiles of Soil or Debris	Not Observed
Sumps or Clarifiers	Not Observed
Transformers	Not Observed
Underground Storage Tanks	Not Observed
Vehicle Maintenance Areas	Not Observed
Vehicle Wash Areas	Not Observed
Wastewater Neutralization Systems	Not Observed

The comment "Not Observed" does not warrant that these features are not present on-Site; it only indicates that these features were not readily observed during the Site visit.

7.2.1 Site Photographs

Photograph 1. View of the on-site restaurant building looking east.

Photograph 2. View of the on-site restaurant building looking west.

Photograph 3. Restaurant interior.

Photograph 4. Restaurant kitchen.

Photograph 5. 425 South 2nd Street structure looking west.

Photograph 6. Stored retail products in 425 South 2nd Street structure.

Photograph 7. Kitchen of residential unit at 425 South 2nd Street.

Photograph 8. On-Site parking area, looking west.

SECTION 8: ENVIRONMENTAL QUESTIONNAIRE AND INTERVIEWS

8.1 ENVIRONMENTAL QUESTIONNAIRE / OWNER INTERVIEW

To help obtain information on current and historical Site use and use/storage of hazardous materials on-Site, we provided an environmental questionnaire to the Site owner's representative. The completed questionnaire was not returned to us as of the date of this report.

8.2 INTERVIEWS WITH PREVIOUS OWNERS AND OCCUPANTS

Contact information for previous Site owners and occupants was not provided to us. Therefore, interviews with previous Site owners and occupants could not be performed.

SECTION 9: FINDINGS, OPINIONS AND CONCLUSIONS (WITH RECOMMENDATIONS)

Cornerstone performed this Phase I ESA in general accordance with ASTM E1527-13 to support Urban Catalyst in evaluation of Recognized Environmental Conditions. Our findings, opinions and conclusions are summarized below.

9.1 HISTORICAL SITE USAGE

Based on the information obtained during this study, by the late 1800s, the Site was developed with four dwellings and associated outbuildings (stables, a shed and a water tank house). By 1915, a commercial structure was constructed on the western corner of the Site fronting East San Salvador Street; this structure was occupied by a used tire shop (1940), a glass installation business (1960) and door service business (1966). The commercial structure and three of the residences were removed by the late 1960s. The existing restaurant building was constructed in approximately 1967 and has been occupied for restaurant use since its construction. The last remaining residence at 425 South 2nd Street was demolished following a fire in 1989.

Historical city directories list Jack E Castro auto repair as an occupant of 411 South 2nd Street during the 1950s and 1960s. City directories often listed the occupation of the occupant. Thus,

Jack E. Castro may have been an auto repairman by trade that occupied the residence that was present at 411 South 2nd Street during the 1950s and early 1960s. Alternatively, an auto repair business may have been present concurrently with the residence.

9.2 CHEMICAL STORAGE AND USE

No hazardous materials were observed on-Site during our visit. Additionally, the Site does not appear to have historically been occupied by businesses that are typically associated with the use or storage of significant quantities of hazardous materials, except for a possible auto repair business that may have operated at 411 South 2nd Street concurrently with a former residence.

9.3 POTENTIAL ENVIRONMENTAL CONCERNS WITHIN THE SITE VICINITY

Based on the information obtained during this study, no hazardous material spill incidents have been reported in the Site vicinity that would be likely to significantly impact the Site. However, as is typical to many commercial areas, several facilities in the vicinity were reported as hazardous materials users. If leaks or spills occur at these facilities, contamination could impact the Site, depending upon the location of the property, the magnitude of the release, and the effectiveness of cleanup efforts.

9.4 ASBESTOS CONTAINING BUILDING MATERIALS (ACBMS)

Due to the age of the on-Site structures, building materials may contain asbestos. If demolition, renovation, or re-roofing of the buildings is planned, an asbestos survey is required by local authorities and/or National Emissions Standards for Hazardous Air Pollutants (NESHAP) guidelines. NESHAP guidelines require the removal of potentially friable ACBMs prior to building demolition or renovation that may disturb the ACBM.

9.5 LEAD-BASED PAINT AND TERMITE CONTROL PESTICIDES

The Consumer Product Safety Commission banned the use of lead as an additive in paint in 1978. Based on the age of the building(s), lead-based paint may be present. The removal of lead-based paint is not required prior to building demolition if the paint is bonded to the building materials. However, if the lead-based paint is flaking, peeling, or blistering, it should be removed prior to demolition. In either case, applicable OSHA regulations must be followed; these include requirements for worker training, air monitoring and dust control, among others. Any debris containing lead must be disposed appropriately.

Additionally, soil adjacent to structures that are painted with lead-containing paint can become impacted with lead as a result of the weathering and/or peeling of painted surfaces. Soil near wood framed structures also can be impacted by pesticides historically used to control termites. No information was identified during this study documenting the use of lead based paint or termite control pesticides on-Site; however, if used, residual pesticide and lead concentrations may remain in on-Site soil. Prior to redevelopment of the Site, we recommend that shallow soil at the existing and former structure locations be evaluated for the possible presence of lead and pesticides.

9.6 DATA GAPS

ASTM Standard Designation E 1527-13 requires the Environmental Professional to comment on significant data gaps that affect our ability to identify Recognized Environmental Conditions. A data gap is a lack of or inability to obtain information required by ASTM Standard Designation E 1527-13 despite good faith efforts by the Environmental Professional to gather such information. A data gap by itself is not inherently significant; it only becomes significant if it raises reasonable concerns. The following data gaps were identified:

- Contact information for the former occupants and owners of the Site was not provided to us. Thus, former occupants and owners were not interviewed during this study. Additionally, the environmental questionnaires provided for completion by the Site owners were not returned to us as of the date of this report. The general environmental setting of the Site appears to have been established based on the information reviewed from other data sources. We do not consider these data gaps to be significant.

9.7 DATA FAILURES

As described by ASTM Standard Designation E 1527-13, a data failure occurs when all of the standard historical sources that are reasonably ascertainable and likely to be useful have been reviewed and yet the historical research objectives have not been met. Data failures are not uncommon when attempting to identify the use of a Site at five year intervals back to the first use or to 1940 (whichever is earlier). ASTM Standard Designation E 1527-13 requires the Environmental Professional to comment on the significance of data failures and whether the data failure affects our ability to identify Recognized Environmental Conditions. A data failure by itself is not inherently significant; it only becomes significant if it raises reasonable concerns. No significant data failures were identified during this Phase I ESA.

9.8 RECOGNIZED ENVIRONMENTAL CONDITIONS

Cornerstone has performed a Phase I ESA in general conformance with the scope and limitations of ASTM E 1527-13. This assessment identified the following Recognized Environmental Conditions¹.

- Soil adjacent to structures that are painted with lead-containing paint can become impacted with lead as a result of the weathering and/or peeling of painted surfaces. Soil near wood framed structures also can be impacted by pesticides historically used to control termites. There is a potential that residual lead and pesticide concentrations could remain in on-Site soil resulting from existing and/or prior on-Site structures.

SECTION 10: LIMITATIONS

Cornerstone performed this Phase I ESA to support Urban Catalyst in evaluation of Recognized Environmental Conditions associated with the Site. Urban Catalyst understands that no Phase I ESA can wholly eliminate uncertainty regarding the potential for Recognized Environmental Conditions to be present at the Site. This Phase I ESA is intended to reduce, but not eliminate,

¹ The presence or likely presence of hazardous substances or petroleum products on the Site: 1) due to any release to the environment; 2) under conditions indicative of a release to the environment; or 3) under conditions that pose a material threat of a future release to the environment.

uncertainty regarding the potential for Recognized Environmental Conditions. Urban Catalyst understands that the extent of information obtained is based on the reasonable limits of time and budgetary constraints.

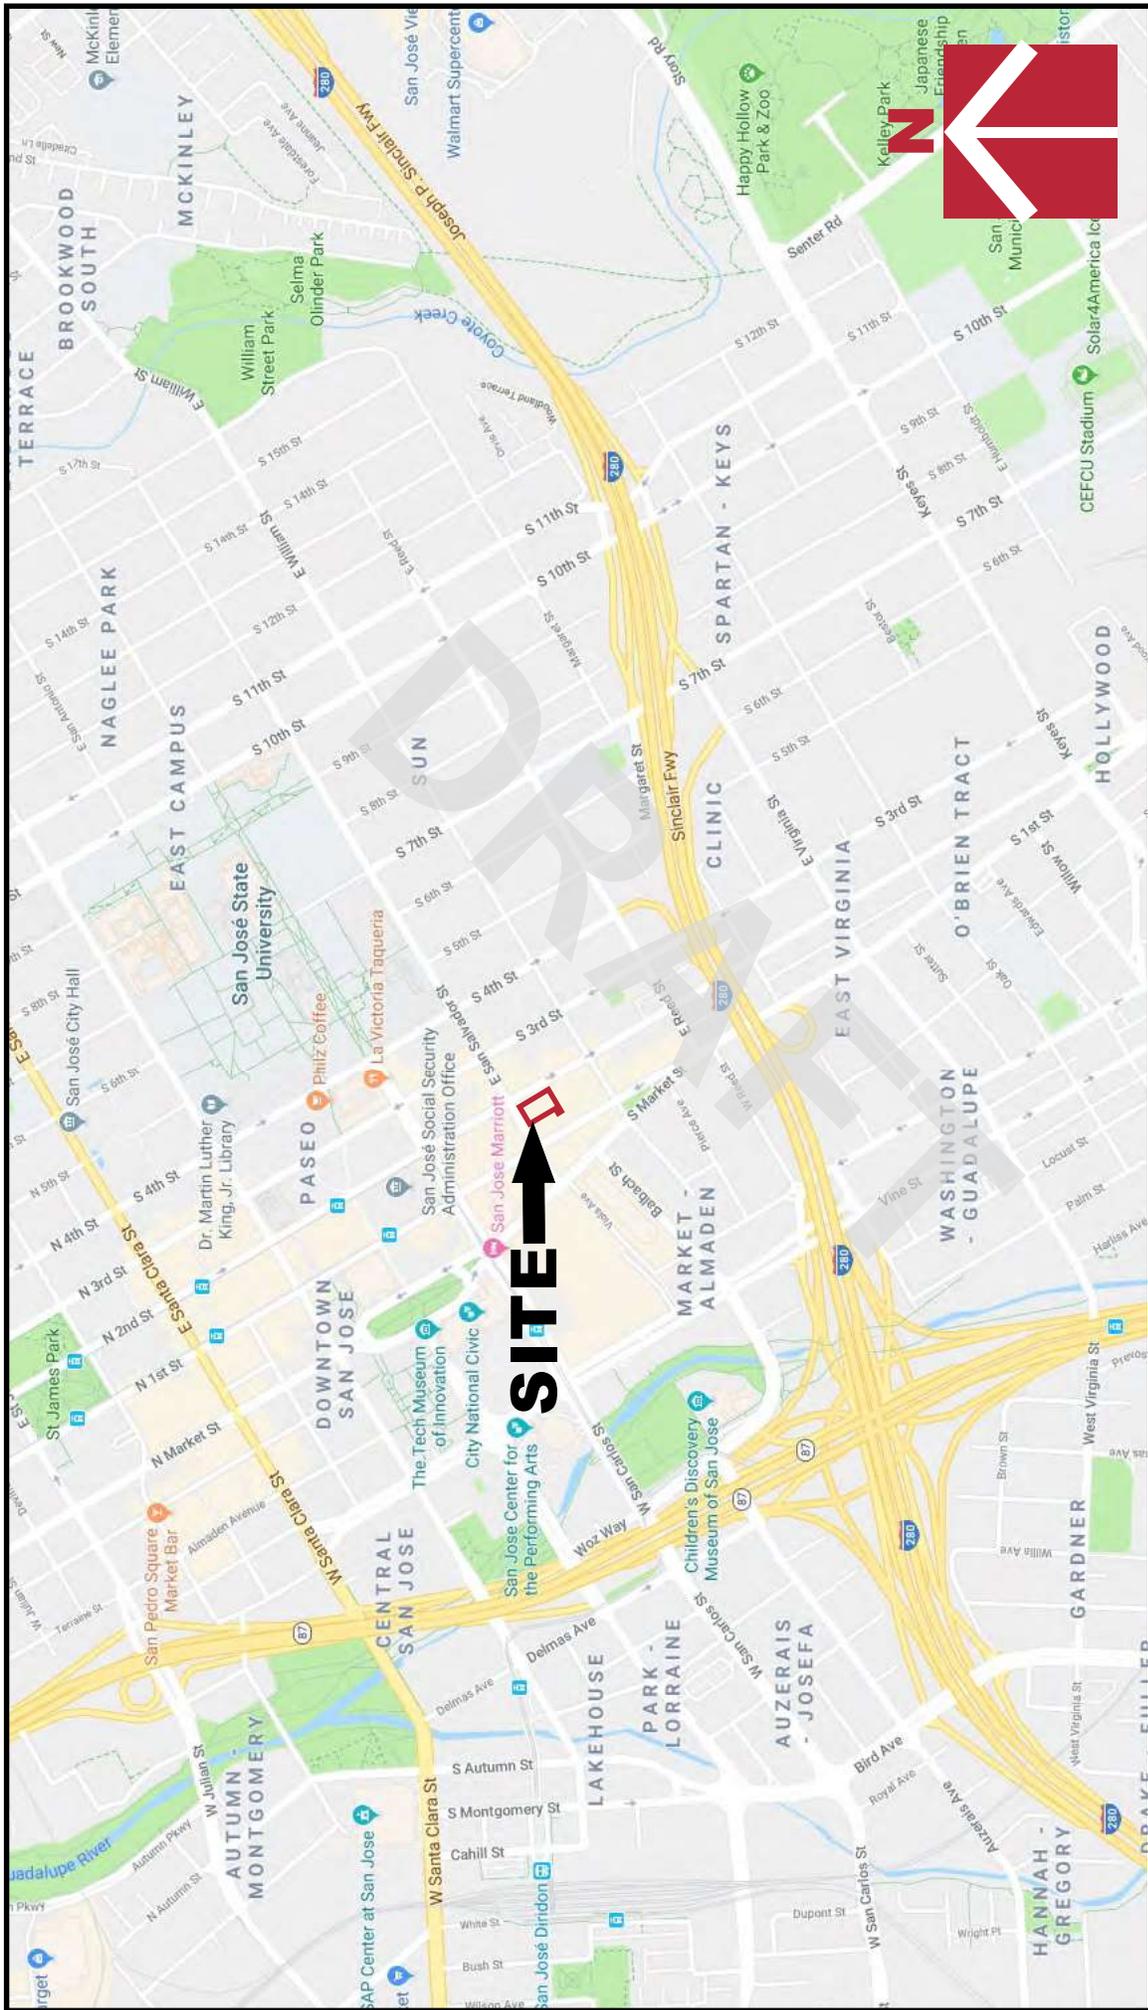

Findings, opinions, conclusions and recommendations presented in this report are based on readily available information, conditions readily observed at the time of the Site visit, and/or information readily identified by the interviews and/or the records review process. Phase I ESAs are inherently limited because findings are developed based on information obtained from a non-intrusive Site evaluation. Cornerstone does not accept liability for deficiencies, errors, or misstatements that have resulted from inaccuracies in the publicly available information or from interviews of persons knowledgeable of Site use. In addition, publicly available information and field observations often cannot affirm the presence of Recognized Environmental Conditions; there is a possibility that such conditions exist. If a greater degree of confidence is desired, soil, groundwater, soil vapor and/or air samples should be collected by Cornerstone and analyzed by a state-certified laboratory to establish a more reliable assessment of environmental conditions.

Cornerstone acquired an environmental database of selected publicly available information for the general area of the Site. Cornerstone cannot verify the accuracy or completeness of the database report, nor is Cornerstone obligated to identify mistakes or insufficiencies in the information provided (ASTM E 1527-13, Section 8.1.3). Due to inadequate address information, the environmental database may have mapped several facilities inaccurately or could not map the facilities. Releases from these facilities, if nearby, could impact the Site.

Urban Catalyst may have provided Cornerstone environmental documents prepared by others. Urban Catalyst understands that Cornerstone reviewed and relied on the information presented in these reports and cannot be responsible for their accuracy.

This report, an instrument of professional service, was prepared for the sole use of Urban Catalyst and may not be reproduced or distributed without written authorization from Cornerstone. It is valid for 180 days. An electronic transmission of this report may also have been issued. While Cornerstone has taken precautions to produce a complete and secure electronic transmission, please check the electronic transmission against the hard copy version for conformity.

Cornerstone makes no warranty, expressed or implied, except that our services have been performed in accordance with the environmental principles generally accepted at this time and location.

San Jose, CA**

APPENDIX A – TERMS AND CONDITIONS

DRAFT

**CORNERSTONE EARTH GROUP, INC.
TERMS AND CONDITIONS**

1. Agreement

- 1.1 Cornerstone Earth Group, Inc.'s ("Cornerstone") services are defined by and limited to (a) those services (the "Work") described in the attached proposal, which is incorporated herein by this reference, and (b) these Terms and Conditions of Agreement ("Terms and Conditions"). Together, the proposal and Terms and Conditions form the "Agreement." This Agreement represents the entire agreement between the Client and Cornerstone (collectively, the "Parties") and supersedes all prior negotiations, representations, or agreements, either written or oral. The Agreement can only be amended by a written instrument signed by both the Client and Cornerstone. In the event that the Client authorizes the Work by means of a purchase order or other writing ("Confirmation"), it is expressly agreed that these Terms and Conditions shall apply, and any terms, conditions or provisions appearing in the Confirmation are void and inapplicable except to the extent the Confirmation authorizes the Work and binds the Client to this Agreement.
- 1.2. Failure to immediately enforce any provision in this Agreement shall not constitute a waiver of the right to enforce that provision or any other provision. No waiver by the Parties of a breach of any term or covenant contained in this Agreement, whether by conduct or otherwise, in any one or more instances shall be deemed to be or construed as a further or continuing waiver of any such breach or as a waiver of a breach of any other term or covenant in this Agreement.

2. Scope of Services

- 2.1 Cornerstone will serve the Client by providing professional counsel and technical advice based on information furnished by the Client. The Client will make available to Cornerstone all known information regarding existing and proposed conditions of the site, and will immediately transmit any new information that becomes available or any change in plans. The Client and Cornerstone agree that Cornerstone, its officers, directors, employees, agents and/or subcontractors shall not be liable for any claims, damages, costs, or losses arising from or in any way related to conditions not actually encountered during the course of Cornerstone's Work and Cornerstone shall not have any liability or responsibility for losses resulting from inaccurate or incomplete information supplied by the Client, and the Client agrees to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against claims, damages, costs or losses arising therefrom. Cornerstone, its officers, directors, employees, agents and/or subcontractors shall not be liable for failing to discover any condition the discovery of which would reasonably require the performance of services not authorized by the Client.

3. Terms of Payment

- 3.1 The Client's obligation to pay for the Work is in no way dependent upon the Client's ability to obtain financing. The Client's obligation to pay for the Work is in no way dependent upon the Client's successful completion of the Client's project. No provision of this Agreement shall be construed to constitute a "Pay-When-Paid" clause or a "Pay-If-Paid" clause.
- 3.2 Payment for the Work shall be due and payable upon receipt of Cornerstone's invoice. To be recognized, any dispute over charges must be claimed in writing within thirty (30) calendar days of the billing date. Any dispute over an invoice amount shall not affect the Client's obligation to pay invoice amounts not in dispute. Amounts unpaid thirty (30) calendar days after the issue date of Cornerstone's invoice shall be assessed a service charge of 1 percent per month on balances outstanding.
- 3.3 Timely payment is a substantial condition of the Client's performance under this Agreement. Cornerstone may at its option withhold delivery of reports or other work product or suspend performance of the Work pending receipt of payments for all past due invoices and Cornerstone, its officers, directors, employees, agents and/or subcontractors shall have no liability to the Client for delay or damage caused because of such withholding or suspension. In the event that Cornerstone must take legal action to enforce this Agreement for payment for the Work performed and Cornerstone prevails, Cornerstone will be reimbursed by the Client for all expenses, including but not limited to reasonable attorney's fees and litigation costs.

4. Standard of Care

- 4.1 While performing the Work under this Agreement, Cornerstone shall exercise the degree of care and skill ordinarily exercised under similar circumstances by members of the environmental and geotechnical engineering consulting professions, as applicable, performing the kind of services to be performed hereunder and practicing in the same or similar locality at the same period of time.
- 4.2 Except for the express promise set forth in Subsection 4.1 herein, Cornerstone neither makes, nor offers, nor shall Cornerstone be liable to the Client for any express or implied warranties with respect to the performance of the Work.

5. Force Majeure

- 5.1 Cornerstone will diligently proceed with its services and will complete the Work in a timely manner, but it is expressly agreed to and understood by the Client that Cornerstone shall not be held responsible for delays occasioned by factors beyond its control, nor by factors which could not reasonably have been foreseen at the time of the execution of the Agreement between the parties.
- 5.2 Except for the obligation to pay for the Work performed and expenses incurred, neither Cornerstone nor the Client shall be liable for its failure to perform hereunder, in whole or in part, due to contingencies beyond its reasonable control, included, but not limited to, strikes or other concerted acts of workmen not in Cornerstone's employ, whether direct or indirect, riots, war, acts of terrorism, fire, floods, storms, washouts, acts of God or the public enemy, explosions, accidents, epidemics, breakdowns, injunctions, compliance with any law, regulation or order, whether valid or invalid, of the United States of America or any governmental body or any instrumentality thereof, whether now existing or hereafter created.

6. Effect of Delay or Impediment to Work

- 6.1 If any event occurs which causes or may cause Cornerstone: (a) to be impeded in its performance of the Services; or (b) to be delayed in the completion of the Work within the time provided in the attached proposal and/or in an applicable Change Order due to any act or omission of the Client, its officers, directors, employees and agents, or the Client's contractors, or due to any contingency beyond Cornerstone's control as provided in Section 5 herein, Cornerstone shall notify the Client in writing within ten (10) business days of the date on which Cornerstone becomes aware of such event.
- 6.2 The Client shall notify Cornerstone in writing of the Client's agreement or disagreement with Cornerstone's claim of an impediment or delay to performance within five (5) business days after receipt of Cornerstone's notice under Subsection 6.1. If the Client agrees with Cornerstone's claim, the time for performance of such requirement may be extended as mutually agreed in writing by the parties as provided in Subsection 1.1. If the Client disputes Cornerstone's assertion of an impediment or delay, such dispute shall be resolved pursuant to Section 17.
- 6.3 Impediments or delays to performance, addressed pursuant to this Section, shall not (a) constitute a breach hereunder; (b) give rise to any special right to terminate this Agreement; or (c) give rise to a claim by the Client for damages or other relief, if and to the extent that such impediment or delay is due to any act or omission of the Client, its officers, directors, employees and agents, or the Client's contractors, or due to any contingency beyond Cornerstone's control as provided in Section 5.

7. Right of Entry

- 7.1 Unless otherwise agreed in writing, the Client shall furnish and/or secure right of entry to the Site described in the proposal for Cornerstone personnel and equipment in order for Cornerstone to perform the Work. The Client shall waive any claim against Cornerstone, its officers, directors, employees, agents and/or subcontractors and agree to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors from any claims arising from entry onto the Site which is the subject of the Work.

7.2 The Parties acknowledge and agree that although Cornerstone will take reasonable precautions to minimize damage to property, including landscapes, hardscapes, crops and underground utilities, any and all damages, losses or expenses which could result from damage to such property due to Cornerstone's performance of the Work under this Agreement shall be the sole and exclusive responsibility of the Client provided that such damages, losses or expenses are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein. The Client shall indemnify, defend and hold harmless Cornerstone, its officers, directors, employees, agents and/or subcontractors from any damages, losses or expenses including, without limitation, attorney's fees, sustained or incurred by Cornerstone, its officers, directors, employees, agents and/or subcontractors as a result of any and all claims arising out of any damage to subsurface utilities due to Cornerstone's performance of the Work under this Agreement, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

8. Monitoring of Construction

8.1 The Client acknowledges and understands that unanticipated or changed conditions may be encountered during construction. There is a substantial risk to the Client and to Cornerstone if Cornerstone is not engaged to provide complete services, including but not limited to, construction observation services. Such risks include the increased likelihood of misinterpretation of Cornerstone's findings and conclusions and error in implementing recommendations by Cornerstone. If Client fails to retain Cornerstone to provide complete services, the Client agrees, notwithstanding any other provisions of this Agreement, to the fullest extent permitted by law, to indemnify and hold harmless Cornerstone, its officers, partners, employees and Cornerstones from and against any and all claims, suits, demands, liabilities, losses, damages or costs, including reasonable attorneys' fees and defense costs arising out of or in any way connected with the Work or arising out of implementing or interpreting Cornerstone's work product except when the Claim arises from the sole negligence of Cornerstone or where the Claim arises from the willful, wanton or reckless conduct of Cornerstone.

8.2 Cornerstone shall not be required to make exhaustive or continuous on-site observations to check the quality or quantity of the Work and shall not be responsible for any contractor's failure to carry out the work in accordance with the contract documents.

8.3 Cornerstone shall not be responsible for the acts or omissions of any contractor or subcontractor or any of the contractors' or subcontractors' agents or employees or other persons performing any work on the Project.

9. Changed Conditions

9.1 If, during the term of this Agreement, circumstances or conditions that were not originally contemplated by or known to Cornerstone are revealed, to the extent that they affect the scope of services, compensation, schedule, allocation of risks or other material terms of this Agreement, Cornerstone may call for renegotiation of appropriate portions of this Agreement. Cornerstone shall notify the Client of the changed conditions necessitating renegotiation, and Cornerstone and the Client shall promptly and in good faith enter into renegotiation of this Agreement to address the changed conditions. If terms cannot be agreed to, the parties agree that either party has the absolute right to terminate this Agreement, in accordance with the termination provision hereof.

10. Jobsite Safety

10.1 Neither the professional activities of Cornerstone nor the presence of Cornerstone or its employees, subconsultants and subcontractors shall relieve the Client or the Client's General Contractor of its obligations, duties and responsibilities, including, but not limited to, health and safety programs. Cornerstone and its personnel have no authority to exercise any control over the site or any construction contractor or its employees in connection with their work or any health or safety programs or procedures. The Client acknowledges and agrees that Cornerstone shall not be responsible for jobsite safety.

11. Hazardous Materials and Environmental Contamination

11.1 The Client hereby warrants that if it knows or has any reason to assume or suspect that hazardous or toxic substances, or any other type of environmental hazard, contamination or pollution may exist at the Site, the Client will immediately inform Cornerstone to the best of the Client's knowledge of such hazardous or toxic substances, environmental hazard, contamination or pollution's type, quantity and location.

11.2 Cornerstone, its officers, directors, employees, agents and/or subcontractors shall have no title to, ownership of, or legal responsibility and/or liability for any and all contamination at the Site, including, but not limited to, the groundwater thereunder. "Contamination at the Site" includes but is not limited to any hazardous or toxic substance, or any other type of environmental hazard, contamination or pollution present at or under the Site, including, but not limited to the ground water thereunder, which is not brought onto the Site by Cornerstone, its officers, directors, employees, agents and/or subcontractors.

11.3 Cornerstone and the Client agree that the discovery of unanticipated Contamination at the Site may constitute a changed condition mandating renegotiation and/or termination of this Agreement. Cornerstone and the Client agree that the discovery of unanticipated Contamination at the Site may make it necessary for Cornerstone to take immediate measures to protect the public health, safety and the environment. The Client agrees that Cornerstone may take any or all measures that in Cornerstone's professional opinion are justified to preserve and protect the health and safety of Cornerstone's personnel, the public and the environment, and the Client agrees to compensate Cornerstone for the cost of such services.

11.4 The Client agrees to indemnify, defend and hold harmless Cornerstone, its officers, directors, employees, agents and/or subcontractors from any and all damages, losses or expenses, including, but not limited to, reasonable attorney's fees and legal costs connected therewith, liabilities, penalties and fines sustained by Cornerstone, its officers, directors, employees, agents and/or subcontractors as a result of any and all claim with respect to and arising out of any and all Contamination at the Site, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

11.5 Subsurface sampling may result in unavoidable contamination of certain subsurface areas, as when a probe or boring is advanced or drilled through a contaminated area into a clean soil or water-bearing zone. Because of the risks posed by such work, and because subsurface sampling is often a necessary part of Cornerstone's Work, the Client hereby agrees to waive all claims against Cornerstone, its officers, directors, employees, agents and/or subcontractors with respect to and arising out of any and all subsurface sampling, including but not limited to claims relating to cross-contamination occurring because of such subsurface sampling, provided that such claims are not the result of Cornerstone's breach of the standard of care set forth in Subsection 4.1 herein.

12. Disposal of Samples and Drill Cuttings

12.1 Unless mutually agreed in writing by the Parties as provided in Subsection 1.1 herein, Cornerstone shall hold samples collected during the performance of the Work no longer than thirty (30) calendar days after their date of collection. Drill cuttings and waste materials will be left on-Site. In the event that soil, rock, water, drill cuttings and/or other samples or materials are contaminated or are suspected to contain hazardous materials or other toxic substances hazardous or detrimental to public health, safety or the environment as defined by federal, state or local law, Cornerstone will, after completion of testing, notify the Client of the same in order for the Client to arrange for the disposal of the samples and/or materials. The Client recognizes and agrees that Cornerstone at no time assumes title to said samples and/or materials, and that the Client is responsible for the disposal of such samples and/or materials. The Client agrees to pay all costs associated with any storage, transport and/or disposal of samples and/or materials, and to defend and indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors from any and all claims arising out of or in any way related to the storage, transport and/or disposal of asbestos, hazardous or toxic substances, and/or pollutants, including but not limited to any samples and/or materials.

13. Use and Ownership of Documents

13.1 All reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents and instruments prepared by Cornerstone as instruments of service shall remain the property of Cornerstone. Cornerstone shall retain all common law, statutory and other reserved rights, including copyright thereto. In the event the Client, the Client's contractors or subcontractors, or anyone for whom the Client is legally liable makes or permits to be made any changes to reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents prepared by Cornerstone without obtaining Cornerstone's prior written consent, the Client shall assume full responsibility for the results of such changes. Therefore, the Client agrees to waive any claim against Cornerstone and to release Cornerstone from any liability arising directly or indirectly from such changes. In addition, the Client agrees, to the

fullest extent permitted by law, to indemnify and hold harmless Cornerstone from any damages, liabilities or costs, including reasonable attorney’s fees and costs of defense, arising from such changes.

The Client agrees that all reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents and other services furnished to the Client or its agents and/or employees by Cornerstone, which are not paid for, shall be immediately returned upon demand and may not be used by the Client for any purpose. Any reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents, advice or opinions provided by Cornerstone to the Client as part of the Work are provided for the sole and exclusive use of the Client for specific application to the Site detailed in this Agreement. Any third party use of any drafts, reports, letters, plans, figures, specifications, computer files, field data, logs, notes and other documents, advice or opinion of Cornerstone is the sole responsibility of the Client.

14. Insurance

- 14.1 Cornerstone, its officers, directors, employees and agents have and shall maintain during the term of this Agreement insurance in the following types: (a) Worker’s Compensation Insurance; (b) Employer’s Liability Insurance; (c) Commercial General Liability Insurance (GLI); and (d) Professional Liability Insurance.
- 14.2 Cornerstone shall, at the Client’s request, provide the Client with a certificate of insurance or other satisfactory evidence that such insurance has been obtained and are maintained in force through the term of this Agreement. Any additional insurance policy or increase in the coverage of existing insurance required by the Client shall constitute an additional expense under this Agreement, and the Client shall reimburse Cornerstone for any additional premiums and costs incurred by Cornerstone in connection with obtaining such additional insurance.

15. Prevailing Wage Obligations

- 15.1 The Client shall notify Cornerstone in writing if the Work contemplated by this Agreement constitutes a “public work” under any and all federal, state and/or local prevailing wage laws, and/or living wage laws, including but not limited to the Davis-Bacon Act and the provisions of California Labor Code §§ 1720 *et seq.* In addition, the Client shall notify Cornerstone if Cornerstone is obligated by statute, any public contracting authority and/or a developer to pay prevailing wages and benefits and/or any predetermined wages or benefits (collectively, “prevailing wage obligations”). In the event that Cornerstone must adhere to federal, state and/or local prevailing wage obligations for the Work performed, the Client shall provide Cornerstone with any and all prevailing wage determinations applicable to the Work to be performed under this Agreement. Any prevailing wage obligations might affect the payment terms contemplated by this Agreement and thus constitute a changed condition mandating renegotiation and/or termination of this Agreement. The Client understands and agrees that Cornerstone will rely on the representations made by the Client with regard to prevailing wage obligations and the Client agrees to indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney’s fees and legal costs, arising from Cornerstone’s reliance upon the Client’s representations regarding prevailing wage obligations.

16. Limitations—THIS CLAUSE LIMITS CORNERSTONE’S LIABILITY

- 16.1 Cornerstone shall not be responsible for the validity or accuracy of data collected by others or for interpretations made by others.
- 16.2 Cornerstone’s relationship with the Client under this Agreement shall be that of an independent contractor. Nothing in this Agreement shall be construed to designate Cornerstone, its officers, directors, employees, agents and/or subcontractors as employees, agents, joint ventures or partners of the Client. Cornerstone shall have no authority to bind, commit or obligate the Client in any manner and shall not hold itself out to third parties as being capable of doing so.
- 16.3 The Client and Cornerstone have discussed the risks and rewards associated with this project, as well as Cornerstone’s fee for services. After negotiation, the Client and Cornerstone have expressly agreed to allocate certain of the risks so that, to the fullest extent permitted by law, the total aggregate liability of Cornerstone, its officers, directors, employees, agents and subcontractors to the Client and all third-parties is limited to \$50,000 or the amount of Cornerstone’s fee, whichever is greater, for any and all injuries, damages, claims, losses, expenses, or claim expenses (including attorney’s fees) arising out of this Agreement from any cause or causes. Such causes include but are not limited to Cornerstone’s negligence, errors, omissions, strict liability, breach of contract or breach of warranty. In no event shall Cornerstone, its officers, directors, employees, agents and/or subcontractors be liable in contract, tort, strict liability, warranty or otherwise, for any special, incidental or consequential damages, such as but not limited to delay, disruption, loss of product, loss of anticipated profits or revenue, loss of use of any equipment or system, non-operation or increased expense of operation of any equipment or systems, cost of capital, or cost of purchase or replacement equipment systems or power.
- 16.4 Notwithstanding any other provision of this Agreement , the total aggregate liability of Cornerstone, its officers, directors, employees, agents and subcontractors to the Client and all third parties, including attorney’s fees awarded pursuant to this Agreement, for claims, damages or losses arising out of the treatment, transport, storage, discharge, dispersal or release of hazardous materials, shall be limited to \$50,000 or the amount of Cornerstone’s fee, whichever is greater and regardless of the legal theory under which liability is imposed.
- 16.5 For an additional 5% of Cornerstone’s total fee or \$500, whichever is greater, Cornerstone will raise the limitation of liability up to the amount that actually would be paid by Cornerstone’s insurance carriers if Client and Cornerstone initial below:

LIMITATION INCREASE: THE LIMITATION OF LIABILITY IS INCREASED TO THE ACTUAL AMOUNT PAID BY CORNERSTONE’S INSURANCE CARRIERS IN EXCHANGE FOR AN ADDITIONAL FEE OF 5% OF THE TOTAL SERVICE CHARGE OR \$500, WHICHEVER IS GREATER.

Client’s Initial	Date	Cornerstone’s Initial	Date

- 16.6 The Client shall indemnify, defend and hold harmless Cornerstone and its officers, directors, employees, agents and subcontractors from any and all damages, losses, or expenses, included but not limited to reasonable legal expenses and attorney’s fees connected therewith, sustained by Cornerstone, its officers, directors, employees, agents and subcontractors as a result of any and all claims, demands, suits, causes of action, proceedings, judgments and liabilities for property damage, statutory penalty and/or personal injury with respect to and arising out of the Client’s negligent acts, omissions or material breach of this Agreement. In the event a claim is the result of joint negligent acts or omissions of the Client and Cornerstone, the Client’s duty of indemnification shall be in proportion to its respective allocable share of the joint negligence.
- 16.7 Client acknowledges and agrees that in no event shall any action or proceeding be brought against Cornerstone or proceeding be brought against Cornerstone by Client or its assignees for any claim or cause of action arising from or in any way related to the Work or this Agreement unless such action or proceeding is commenced within three (3) years from the Date of Completion of Work provided by Cornerstone under this Agreement. The Date of Completion shall be the date of the final invoice for the Work performed under this Agreement.
- 16.8 If Client requests that Cornerstone’s work product be relied upon by a third party, including, but not limited to a lender, Client agrees to provide the third party with a copy of these terms and conditions, and Client agrees to require said third party to agree to limit Cornerstone’s total liability to Client and any third party as described in paragraph 16.4 and Client agrees to indemnify Cornerstone, its officers, directors, employees, agents and/or subcontractors against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney’s fees and legal costs, arising from third party claims, damages, costs and losses arising our of or in any way related to Work.

17. Disputing Cornerstone’s Performance

- 17.1 Except as provided in Section 6 and Subsection 17.2 herein, if Cornerstone shall breach any provision herein, the Client shall notify Cornerstone within five (5) business days of the Client’s knowledge of such breach. Except as provided in Subsections 17.3 herein, upon receipt of the Client’s notice, Cornerstone shall have the option to take such corrective measures, if any, to remedy the breach, and shall notify the Client within five (5) business days after receipt of the

Client's notification of the corrective measures Cornerstone shall take and the estimated time period within which the corrective measures shall be taken. In no event shall Cornerstone be liable to the Client for any damages without being given a reasonable opportunity to remedy its breach as provided herein.

- 17.2 The Client shall make no claim for professional negligence unless the Client has first provided Cornerstone with a written certification executed by an independent Consultant currently practicing in the same discipline and locality as Cornerstone and licensed in the State of California. This certification shall (a) contain the name and license number of the certifier; (b) specify the acts or omissions that the certifier contends are not in conformance with the standard care for a Cornerstone performing professional services under similar circumstances; and (c) state in detail the basis for the certifier's opinion that such acts or omissions do not conform to the standard of care. This certificate shall be provided to Cornerstone no less than thirty (30) calendar days prior to the presentation of any claim or the institution of any mediation, arbitration or judicial proceeding.
- 17.3 Cornerstone agrees that upon receipt of written notice from the Client pursuant to Subsection 17.2 herein it will implement necessary corrections to the Work performed by Cornerstone that fails to conform to the standard of care that Cornerstone has accepted pursuant to Subsection 4.1, as mutually agreed in writing by the Parties as provided in Subsection 1.1. herein, if such written notice is received within one (1) year of the performance of the Work failing to conform to Subsection 4.1. If Cornerstone has been paid by the Client for such Work, Cornerstone shall perform the corrections at its own expense. If Cornerstone has not been paid by the Client for such Work, and the Work is subsequently corrected to conform with the standard of care that Cornerstone has accepted pursuant to Subsection 4.1, the Client shall pay Cornerstone in accordance with Section 3 herein.
- 17.4 In no event shall Cornerstone, its officers, directors, employees, agents and/or subcontractors be liable for any special, incidental or consequential damages, such as but not limited to delay, disruption, loss of product, loss of anticipated profits or revenue, loss of use of any equipment or system, non-operation or increased expense of operation of any equipment or systems, cost of capital, or cost of purchase or replacement equipment systems or power, or any other incidental, special, indirect or consequential damages of any kind or nature whatsoever resulting from Cornerstone's performance or failure to perform the Work in accordance with the standard of care that Cornerstone has accepted pursuant to Subsection 4.1.
- 18. Termination**
- 18.1 Cornerstone shall have the right to terminate this Agreement ten (10) business days after written notice is sent to the Client if (a) the Client fails to pay any of Cornerstone's undisputed invoices within sixty (60) days from the date of the invoice; or (b) Cornerstone's attached proposal and/or the Work was based upon misinformation, whether by the Client or a third party, or upon information not fully disclosed to Cornerstone, whether by the Client or a third party.
- 18.2 Except as provided for in Section 6, and after compliance with Section 17, the Client shall have the right to terminate this Agreement ten (10) business days after written notice is sent to Cornerstone if Cornerstone fails to comply in any material respect with any of the material provisions herein and subsequently fails to notify the Client pursuant to Subsections 17.1 and 17.3 of the corrective measures Cornerstone intends to take.
- 18.3 The termination of this Agreement by Cornerstone under Subsection 18.1 herein, or by the Client under Subsection 18.2 herein, shall not relieve the Client of its obligations to pay Cornerstone for any of the Work performed and expenses incurred as of the date of termination, and shall not constitute a waiver by Cornerstone or the Client of any cause of action for breach of this Agreement or any provision herein.
- 19. Miscellaneous Provisions.**
- 19.1 "Indemnity Defined. The term "indemnify" shall mean indemnify, defend and hold harmless from and against any and all claims, liabilities, suits, demands, losses, costs and expenses, including but not limited to reasonable attorney's fees and all legal costs incurred on appeal, and all interest thereon, accruing or resulting to any and all persons, firms, or any other legal entities, on account of any damages or losses to property or persons, including death or economic losses, arising out of the item, matter, action or inaction specified in the specific provision.
- 19.2 "Choice of Counsel. In any circumstance whereby Cornerstone is entitled to indemnification by the Client, Cornerstone shall have the right to select counsel of its choosing.
- 19.3 "Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of the Parties and their successors and assigns as provided herein. The Client shall not assign, sell, transfer or subcontract this Agreement or any interest herein without the prior written consent of Cornerstone. Cornerstone shall not assign, sell, transfer or subcontract this Agreement or any interest herein without the prior written consent of the Client. The Client hereby consents to the subcontracting of those portions of the Work as the attached proposal herein indicates are or will be subcontracted. Notwithstanding the above, Cornerstone shall have the right to assign monies due hereunder for the Work performed and expenses incurred.
- 19.4 "Third Party Beneficiaries. The Parties agree that this Agreement is not intended by either Cornerstone or the Client to give any benefits, rights, privileges, actions or remedies to any person or entity, partnership, firm or corporation as a third party beneficiary or otherwise under any theory of law, that is not a signatory to this Agreement.
- 19.5 "Survival. In order that the Parties may fully exercise their rights and perform their obligations arising from the performance of this Agreement, any provisions of this Agreement that are necessary to ensure such exercise or performance shall survive the termination of this Agreement.
- 19.6 "Severability. If any part, term or provision of this Agreement shall be held illegal, unenforceable or in conflict with any federal, state or local law having jurisdiction over this Agreement, the validity of the remaining parts, terms or provisions of this Agreement shall not be affected thereby.
- 19.7 "Choice of Law and Venue. This Agreement shall be governed by California law. The venue for any legal action brought pursuant to this Agreement shall be located within the County of Santa Clara, State of California.
- 19.8 "Publicity. Unless otherwise mutually agreed in writing by the parties as provided in Subsection 1.1, Cornerstone may use and publish the Client's name and a general description of Cornerstone's services with respect to the Work in describing Cornerstone's experience and qualifications to other clients or prospective clients.
- 19.9 "Signatories. Each undersigned representative of the Parties to this Agreement certifies that he or she is fully authorized to enter into the terms and conditions of this Agreement and to execute and legally bind such Party to this document.
- 19.10 "Corporate Protection. It is intended by the parties to this Agreement that Cornerstone's services in connection with the Work shall not subject Cornerstone's individual employees, officers or directors to any personal legal exposure for the risks associated with this Project. Therefore, and notwithstanding anything to the contrary herein, the Client agrees that as the Client's sole and exclusive remedy, any claim, demand or suit shall be directed and/or asserted only against Cornerstone, a California Corporation, and not against any of Cornerstone's individual employees, officers or directors.
- 19.11 "Code Compliance. Cornerstone shall exercise usual and customary professional care in its efforts to comply with applicable laws, codes and regulations as of the date of this Agreement.
- 19.12 "Quotation. Unless stated in writing, this quotation shall not remain in effect after thirty (30) days of the Proposal date.
- 19.13 "Contractors State License. Cornerstone maintains a General Engineering A license (No. 905816) with a Hazardous Substances Removal and Remedial Actions Certification with the State of California, which are regulated by the Contractors State License Board. Any questions concerning a contractor may be referred to the Registrar, Contractors State License Board, P.O. Box 26000, Sacramento, California 95826.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 02/06/2019 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
LORENTZ BARREL & DRU Cerclis ID:: 901287 EPA Id: CAD029295706	1515 S 10TH ST	ESE 1/2 - 1 (0.955 mi.)	0	9

Federal CERCLIS list

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on

EXECUTIVE SUMMARY

the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 02/06/2019 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 02/06/2019 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/01/2018 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/01/2018 has revealed that there are 11 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 01/28/2019 has revealed that there

CA CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA CPS-SLIC list, as provided by EDR, has revealed that there are 11 CA CPS-SLIC

State and tribal registered storage tank lists

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there are 7 CA UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/01/2018 has revealed that

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the

EXECUTIVE SUMMARY

environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there are 2 EDR MGP sites within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

GARDEN CITY GAS WORK	W. ST JOHN AND MONTG	WNW 1/2 - 1 (0.947 mi.)	203	917

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 29 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EXECUTIVE SUMMARY

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 9 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Substance: TRICHLOROETHYLENE (TCE)
CAS #: 79-01-6
Pathway: GROUND WATER PATHWAY
Scoring: 2

Summary Details:

Conditions at proposal (October 15, 1984): Lorent Barrel Drum Co. recycles drums at a plant in San Jose, Santa Clara County, California. The 5-acre site is surrounded by residential, industrial, and business areas. On-site monitoring wells are contaminated with trichloroethane, trichloroethylene, 1,1-dichloroethylene, and tetrachloroethylene, according to analyses conducted by a consultant to Lorent. Contamination is believed to have resulted from overflowing sumps and spills. About 250,000 people obtain drinking water from wells within 3 miles of the site. Lorent is working with the California Regional Water Quality Control Board (CRWQCB) to determine the extent of ground water contamination. The board issued a Cleanup and Abatement Order to the company in August 1983. The plant received Interim Status under Subtitle C of the Resource Conservation and Recovery Act (RCRA) when the company filed Part A of a permit application. On March 25, 1981, EPA removed the facility as a treatment, storage, or disposal facility because it was not engaged in hazardous waste activities. This is one of 19 sites in the South Bay Area of San Francisco. Facilities at these sites have used a variety of toxic chemicals, primarily chlorinated

organic solvents, which contaminate a common ground water basin. Although these sites are listed separately, EPA intends to apply an area-wide approach to the problem as well as take specific action as necessary. Status February 1986): In March 1985, EPA and the California Department of Health Services CDHS) discovered over 300 drums containing phenols, methylene chloride, and PCBs stored on the Lorent property. In response to action by the Santa Clara District Attorney, the company removed the drums. CRWQCB is overseeing the Lorent investigation to determine the extent of ground water contamination. CDHS will oversee the investigation of soil contamination. On February 7, 1986, the Santa Clara County District Attorney filed a complaint against the company for violation of State hazardous waste laws. The facility has been shut down until procedures for compliance are developed. Status June 24, 1988): EPA is proposing to place this previously proposed RCRA site on the final NPL. The company is classified as a non-filer. Hence, it satisfies a component of EPA's NPL/RCRA policy. In July 1987, the owner of the Lorent site was ordered to shut it down permanently, sentenced to 2 years in jail, and fined 2.04 million. Recent sampling by CDHS consultants has shown extensive contamination in soil and ground water, both on- and off-site. In addition to the chlorinated organics identified earlier, pesticides, metals, and PCBs are present. On December 1, 1987, EPA took over as lead agency for a remedial investigation/feasibility study (RI/FS) at the site. In February 1988, CDHS completed an expedited response action consisting of excavating soil with high concentrations of PCBs. In March 1988, EPA and CDHS completed removal of 1,000 drums of hazardous materials. All materials were transported to regulated disposal facilities. The site was then graded and the surface sealed to control drainage. In May 1988, EPA completed an engineering evaluation cost analysis for systems to pump and treat shallow contaminated ground water. Status October 4, 1989): EPA has placed this site on the NPL. EPA completed the RI/FS. Following a period of public comment, a Record of Decision was signed in September 1988 finalizing the remedy as treatment of ground water with an on-site ultraviolet light oxidation system. EPA is currently designing an off-site extraction system and an on-site treatment facility. EPA is also investigating the extent of the contamination in soils and on structures and expects to complete an RI/FS for the overall site in early 1990.

Completed Info:

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Record of Decision - Amendment
Completed Date: 03/10/1998
Comments: US EPA approved a ROD amendment for groundwater treatment process.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Record of Decision w/ESD
Completed Date: 05/21/1998
Comments: US-EPA approved an ESD for soil remediation.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 09/28/1998
Comments: Preliminary close-out report finalized. Report documents completion of construction activities for OU1 and OU2. Remaining response consists of operation and maintenance of groundwater treatment system, soil vapor extraction system, and cap.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 05/15/1998
Comments: Cap design completed. Design calls for 229,000 square feet of 3" asphalt concrete pavement with 6" layer of aggregate base.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 05/15/1998
Comments: Remedial design report approved. Report outlines plans for design, installation, and O&M of SVE system and asphalt cap.

Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 09/30/1994
Comments: EPA completed 3 separate removal actions: (1) Removal of 5 buildings and the process equipment and scrap within including 17 sumps, 7 tanks and several debris stockpiled. At the end of this RA, 1033 tons of industrial wastes, 15 tons of liquid hazardous was and 73 tons of solid hazardous waste was shipped off-site for disposal. (2) Removal of 1200 drums, 150 drums containing solvents, 350 drums containing debris, and 23 drums containing ash and liquids. Removal of tanks, vats, sumps, and process equipment. Removal of 1.18 tons of asbestos containing building materials. (3) Paving of previously and newly exposed surface soil resulting from the above removal actions. Paving used a chip seal material. Approximately 4-1/4 acres were sealed.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Record of Decision
Completed Date: 08/26/1993
Comments: EPA issued ROD for soil operable unit. The ROD addresses soil/source remediation.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation / Feasibility Study
Completed Date: 04/22/1993
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 03/30/1992
Comments: Shallow groundwater treatment system completed.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 06/28/1991
Comments: Remedial design for groundwater completed.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Record of Decision
Completed Date: 09/30/1988
Comments: EPA issued a ROD for the shallow groundwater operable unit. The remedy includes extraction/treatment of shallow groundwater and discharge of treated water to the storm sewer.

1000208886

Completed Date: 08/30/1988
Comments: Completed EE/CA for shallow groundwater expedited response action. Groundwater pump-and-treat system was determined to be an effective method for remediating the shallow groundwater.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 03/30/1988
Comments: Implemented an Expedited Response Action (ERA). The ERA consisted of the following activities: drum inventory; construction of decontamination facilities; removal of polychlorinated biphenyl (PCB) contaminated pits, which were later backfilled with clean soil and capped; removal, recycling, or treatment of thousands of gallons of processed plant liquids; removal of 15 tons of contaminated scrap; and design of a surface water control plan, which was submitted to EPA for implementation. EPA installed a chip seal over approximately two thirds of the five-acre site. Demobilization occurred at the end of March 1988. A total of 21,286 drums, 1,330 tons of scrap metal, and 2,982 cubic yards of contaminated soil were removed from the site. Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Public Participation Plan / Community Relations Plan
Completed Date: 05/30/1987
Comments: Completed Public Participation Plan.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Public Notice
Completed Date: 02/13/2004
Comments: Public notice announced lodging of proposed consent decree.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Public Notice
Completed Date: 01/27/2004
Comments: Public notice announced lodging of proposed consent decree.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 05/15/1998
Comments: SVE system design completed. Design includes submersible pumps, equalization tank, air-water separator, centrifugal transfer pump, positive displacement blower, air-to-air heat exchanger, liquid phase GAC, and vapor phase GAC.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 07/27/1990
Comments: Remedial Investigation Report approved. Nature and extent of contamination in surface soils, subsurface soils, groundwater, surface water, air, and structures evaluated. Fate and transport of PCBs, pesticides, VOCs, base/neutral and acid extractable compounds,

metals, and dioxins/furans discussed. Current and future exposure pathways included in baseline risk assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 02/01/1987
Comments: Preliminary Site Assessment completed. Report summarizes site characteristics, site history, known soil and groundwater conditions, hydrogeology, surface hydrology, and risks to nearby receptors.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 06/19/1992
Comments: Six addenda to the Remedial Investigation include: report of monitoring well installations in Zone B, C, and D aquifers; results of shallow soil investigation on Recycled Fibers, Inc. property; update to the risk assessment for soils; results of the investigation of four conduits near the leading edge of the plume; results of soil sampling; results of installation and sampling of a monitoring well in the Zone C aquifer.

Completed Area Name: Newark Group property
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Plan Amendment
Completed Date: 08/01/2006
Comments: Soil investigation concluded that pesticides, PCE, TCE, and metals including arsenic were present in soil, however, all contaminants were present at concentrations below human health screening levels (or established background). The proposed design for the repairs includes removal of 1,424 square feet of concrete and asphalt, replacement of the cap in these areas with slab and AC over 12" of aggregate, and sealing of 4,000 linear feet of less severe cracks with joint sealant.

Completed Area Name: Shallow Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 12/27/2007
Comments: 2007 GW monitoring report reviewed by DTSC and found to be adequate.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 5 Year Review Reports
Completed Date: 09/21/2010
Comments: DTSC reviewed the 5-year report and did not have any comments and concurs with the USEPA recommendations in the report and the finding that the selected remedy continues to be protective in the short-term. Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Monitoring Report
Completed Date: 07/30/2010
Comments: DTSC have reviewed the shallow groundwater treatment monitoring report and has no comments. This is a USEPA and WaterBoard lead site.

Completed Document Type: Record of Decision w/ESD
Completed Date: 11/22/2013
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 5 Year Review Reports
Completed Date: 09/01/2015
Comments: The Fourth Five-Year Review Report identified as a remedy performance issue that the migration of 1,4-dioxane may not be controlled and there is continued diffusion of contamination from the A/B aquitard to Zone A soil vapor and Zone B groundwater. The remedies for OU-1 and OU-2 were determined to be protective of human health and the environment; however, in order for the remedies to be protective in the long-term, the Focused Feasibility Study needs to be completed in order to evaluate the current remedies for both OU-1 and OU-2 and make recommendations to modify the existing remedies or select new remedies for both OUs. .

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Unilateral Order (I/SE, RAO, CAO, EPA AO)
Completed Date: 02/23/1987
Comments: DTSC issued RAO for soil and groundwater contamination resulting from drum reconditioning business.

Management. Residences, hospitals, day care facilities, food cultivation, and groundwater extraction are prohibited at the site. Interference with site cap and remediation system are also prohibited. Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Decree
Completed Date: 10/07/1992
Comments: Seven respondents signed agreement to conduct a limited removal action at the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Decree
Completed Date: 09/30/1989
Comments: EPA issued a Consent Decree with 11 PRPs to implement the groundwater remediation recommended by the ROD. In May 1989, EPA conducted an investigation, identifying approximately 200 companies who had delivered drums and barrels to the former drum recycling facility.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Unilateral Order (I/SE, RAO, CAO, EPA AO)
Completed Date: 06/30/1987
Comments: Determined noncompliance with the RAO issued in February 1987.

Completed Area Name: Newark Group property
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 11/16/2006
Comments: Site inspection found compliance with land use covenant on Newark Group property.

Completed Area Name: Newark Group property
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction
Completed Date: 06/10/2005
Comments: Deed restriction recorded for property currently owned by the Newark Group. Residences, hospitals, day care facilities, food cultivation, and groundwater extraction are prohibited at the site. Cap interference is also prohibited.

Completed Area Name: Newark Group property
Completed Sub Area Name: Not reported
Completed Document Type: Consent Settlement - Administrative
Completed Date: 04/22/2005
Comments: Consent Order signed. The Newark Group agreed to pay response costs incurred by DTSC and to abide by the terms of the site deed restriction.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

SUPERFUND NPL

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

STATE MASTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Description: Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.
Violation Notes: As evidenced by the nature and the number of violations, employee training has not been effective and employees are not thoroughly familiar with hazardous waste management. Provided facility with the County's free Hazardous Waste Management Class flyer.
Violation Division: Santa Clara County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 169711
Site Name: W.E. Harding Co
Violation Date: 10-24-2016
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description: Hazardous Waste Generator Program - Operations/Maintenance - General
Violation Notes: Observed 4 empty 5W40 containers that did not have the empty date.
Violation Division: Santa Clara County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 169711
Site Name: W.E. Harding Co
Violation Date: 10-24-2016
Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31
Violation Description: Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.
Violation Notes: Observed saturated rags and absorbent on the floor and on top of drums in the hazardous waste storage area. Observed free flowing amounts of used oil on top of used oil drums. Ensure that these areas are kept lean of any free flowing liquids and debris to prevent an unplanned release into the environment.
Violation Division: Santa Clara County Environmental Health
Violation Program: HW
Violation Source: CERS

Violation Date: 10-24-2016
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description: Hazardous Waste Generator Program - Administration/Documentation - General
Violation Notes: Disposal records for used oil, waste coolant, used oil filters and spent parts washing solution were unavailable for review.
Violation Division: Santa Clara County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 169711
Site Name: W.E. Harding Co
Violation Date: 10-24-2016
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.
Violation Notes: Observed 1 x55 gallon over pack drum in the back storage area with free flowing amounts of dark oil like liquid on top of the lid. Various auto parts were on top on and around the container. Per facility, they did not know what the contents of this container were. Make a hazardous waste determination for this container and its contents and if determined to be hazardous, manage accordingly.
Violation Division: Santa Clara County Environmental Health
Violation Program: HW
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-24-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Inspection began on 10/18/24 and concluded today. Observed the following wastes on site: 4 x 55 gallons of used oil 1 x 90 gallon container of waste coolant 1 x 55 gallon container of waste coolant 3 x 15 gallon used oil rollers 1 x 15 gallon waste coolant roller 1 x 1 gallon container of waste coolant 1 x 55 gallon drum of used oil filters 1 x 15 gallon drum of used oil filters Fire extinguishers have had annual maintenance Spill control is available on site Battery cores are managed by Interstate Emergency information is posted on site Parts washer on site uses hot water and soap. Spent solution gets pumped out directly from the unit when service is needed.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

. Waste code: D001
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D039
. Waste name: TETRACHLOROETHYLENE

Violation Status: No violations found

FINDS:

Registry ID: 110002919227

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Status: Completed - Case Closed
Status Date: 06/03/2011
Case Worker: Not reported
RB Case Number: 14-806
Local Agency: Not reported
File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: 07S1E08P02f
Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Heating Oil / Fuel Oil
Site History: Underground heating oil tank located within the basement of the building. In 1992, a water main/line ruptured near this building and flooded the basement. The flooding caused the product to come out of the tank. The tank was taken out of service and the tank was left in place. Subsurface investigation conducted in 2010 found soil and groundwater contamination. The UST will be properly closed in place.

Violation Date: 11-22-2016
Citation: 22 CCR 12 66262.34(e) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(e)

Violation Description: Failed to meet the conditions of satellite accumulation regulations, including but not limited to the following: accumulate up to 55 gallons of hazardous waste or one quart of acute hazardous waste at or near the initial point of accumulation which was under the control of the operator the container must be clearly marked with the initial date that hazardous waste is first placed in the container and labelled with the words Hazardous Waste including specified information container must be labelled with the date the satellite accumulation limit is reached and moved within three days after reaching the 55 gallon (or one quart) limit to a 90 day accumulation area 55 gallons (or one quart of acute hazardous waste) of waste per process may be accumulated Total time hazardous waste can be accumulated onsite in any generator accumulation area is one year, i.e., the combined accumulation time at a satellite accumulation point and at a 90/180/270 accumulation area (depending on size of generator and distance transported), whichever comes first.

Violation Notes: Returned to compliance on 12/01/2016. The last disposal of photo-processing chemicals was 6/30/14. Per facility, photo-processing chemicals are disposed of every 2 years. Using point of generation rules, ensure that wastes are picked up at least once per year.

Violation Date: 11-22-2016
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 12/01/2016. Per the biology teacher, BioCorporation specimens are packed in preservative liquid are rinsed off used specimens and discarded in the sink. The used specimens are shipped back to Biocorporation. Safety data sheets from BioCorporation's website show their "embalming fluid" to have 1.8% formalin and their "pail packing fluid" to contain 3% formalin. Facility is unsure which is used for their samples as safety data sheets for their specimens on site were not available for review. Make a hazardous waste determination for the waste fluids off specimens and if determined to be hazardous manage accordingly.

Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-22-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Areas inspected include the chemistry labs, biology labs, photo-processing lab, and the custodial storage area. Observed the following wastes on site: 2 x 5 gallon containers of zinc chloride containing wastes (point of generation) 2 x 10 gallon containers of spent photo-processing chemicals (point of generation) Fire extinguishers have had annual maintenance Spill kit is available on site Eye wash stations are located in the storage rooms for chemistry and biology labs Disposal records were reviewed and in good order EPA ID# CAR000117705 is active The following violations were corrected on site: 2 x 5 gallon containers of zinc chloride containing wastes were missing hazardous waste markings. Markings were added during inspection.

Fuel supply and return line secondary containment piping were both pressure tested using nitrogen at 5.2 p.s.i.g. for 1 hour. Both lines passed. Gauges returned to zero when pressure was released at end of test. Tank top piping sump was tested using the Incon TS-STs accelerated hydrostatic testing apparatus and passed. Submit a copy of the UST secondary containment system test report within 30 days. Note: Next round of triennial secondary containment testing is due in May of 2018.

Evaluation:
Eval General Type: Other/Unknown
Eval Date: 05-11-2015
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: UST secondary containment systems were tested by UST Service Technician Eddie Martinez of Advanced Fuel Services, Inc. and functioned properly. Mr. Martinez has current ICC California UST Service Technician certification (exp. 3/17/2016) and Franklin Fueling Systems (Incon Level 4) Sump test System (TS-STs) certification (exp. 2/25/2017). UST is a single-wall tank, so no annular space to test. Fuel supply and return line secondary containment piping were both pressure tested using nitrogen at 5.2 p.s.i.g. for 1 hour. Both lines passed. Gauges returned to zero when pressure was released at end of test. Tank top piping sump was tested using the Incon TS-STs accelerated hydrostatic testing apparatus and passed. Submit a copy of the UST secondary containment system test report within 30 days. Note: Next round of triennial secondary containment testing is due in May of 2018.

Fuel supply and return line secondary containment piping were both pressure tested using nitrogen at 5.2 p.s.i.g. for 1 hour. Both lines passed. Gauges returned to zero when pressure was released at end of test. Tank top piping sump was tested using the Incon TS-STs accelerated hydrostatic testing apparatus and passed. Submit a copy of the UST secondary containment system test report within 30 days. Note: Next round of triennial secondary containment testing is due in May of 2018.

Eval Type: Routine done by local agency
Eval Notes: All UST monitoring equipment was tested today by UST Service Technician Steven Parmenter of Service Station Systems, Inc. and functioned properly. Mr. Parmenter has current ICC California UST Service Technician certification (exp. 3/19/2017) and Franklin Fueling Systems (Incon) Level 1 & 2 certification (Level 1 exp. 9/23/2016, Level 2 exp. 10/13/2016). Both sensors were tested using water and triggered audible and visual alarms on Incon TS-1001 automatic tank gauging (ATG) console. ATG probe was visually inspected. The UST fill spill bucket was hydrostatically tested for 1 hour by the tank operator and passed. Presence of mechanical overfill prevention valve in drop tube was visually confirmed. Notes: 1. Designated UST Operator monthly inspection and facility employee training records are in order. 2. Records of visual inspections of emergency generator tank system (EGTS) unburied piping monthly and each time the system is operated are in order. 3. Since [Truncated]

Eval Notes: On-site to witness the annual monitoring system certification and spill bucket test performed by Mr. Eddie Martinez (certifications current) of Advanced Fuel Services. Sump and day tank (piping) sensors tested and provided audible and visible alarms. Automatic Tank Gauge (ATG) used for tank monitoring was removed and functioned properly alarming for overfill, high, and low product. Overfill protection is provided in all tanks by a flapper valve in the fill riser. The spill bucket is direct buried was hydrostatically tested for one hour with no loss. Reviewed DUSTO Monthly Reports, DUSTO Training records, testing reports, aboveground piping inspection records, tank tightness testing records and maintenance documentation. Annual DUSTO training performed today. Tank and monitoring system information submitted to the California Environmental Reporting System (CERS) on 9/22/2015 is accurate as observed. Received return to compliance (RTC) paperwork for the [Truncated]

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-23-2014
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: All UST monitoring equipment was tested today by UST Service Technician James Ruble of Advanced Fuel Services, Inc. and functioned properly. Mr. Ruble has current ICC California UST Service Technician certification (exp. 3/29/2015) and Franklin Fueling Systems (Incon) Level 1 & 2 certification (exp. 12/27/2014). All sensors were tested using water and triggered audible and visual alarms. ATG probe was visually inspected. The UST fill spill bucket was hydrostatically tested for 1 hour and passed. Presence of mechanical overfill prevention valve in drop tube was visually confirmed. Submit a copy of

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-25-2017
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On-site to conduct a UST compliance inspection of 1 x 3000 gallon single-walled emergency generator tank system. Annual monitoring system certification and spill bucket test performed by Mr. Michael Stromecki (certifications current) of Advanced Fuel Services. Mr. Stromecki had all of the required certifications. During testing the following was observed: -Sump and day tank (piping) sensors tested and provided audible and visible alarms. -Overfill protection is provided in all tanks by a flapper valve in the fill riser. -The spill bucket is direct buried and was hydrostatically tested for one hour with no loss. The following documents were reviewed on-site: -Incon alarm panel set-up and alarm history, monthly Designated UST Operator inspections, DUSTO training log (DUSTO training 9/19/16) and maintenance & monitoring records (including tank test records). The following CERS submittal elements dated 7/25/17 were reviewed: -Owner/Operator Identification, UST [Truncated]

Eval Notes: Underground storage tank (UST) retrofit inspection associated with replacement of Incon UST leak detection monitoring console. All UST monitoring equipment was tested today by UST Service Technician Steven Parmenter of Service Station Systems, Inc. and functioned properly. Mr. Parmenter has current ICC California UST Service Technician certification (exp. 3/19/2017) and Franklin Fueling Systems (Incon) Level 1 & 2 certification (Level 1 exp. 9/23/2016, Level 2 exp. 10/13/2016). Both sensors were tested using water and triggered audible and visual alarms on Incon TS-1001 automatic tank gauging (ATG) console. ATG probe was visually inspected. TS-1001 is programmed to perform 0.2 g.p.h. ATG tests each day at midnight. Retrofit is complete. Final HMCD project sign-off is granted. Submit a copy of the completed Monitoring System Certification form within 30 days.

CERS HAZ WASTE:

Site ID: 64623
CERS ID: 10097317
CERS Description: Hazardous Waste Generator

Violations:

Site ID: 64623
Site Name: SAN JOSE MARRIOTT
Violation Date: 03-07-2014
Citation: 23 CCR 16 2637 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2637
Violation Description: Failure to comply with one or more of the following: conduct secondary containment testing, within six months of installation and every 36 months thereafter, conducted in accordance with proper practices, protocols, or test methods.
Violation Notes: Returned to compliance on 04/10/2014.

The

last secondary containment testing report on file was after a repair/install that was done on 3/11/2013. Newly installed secondary containment systems must be tested again at 6 months. Have the secondary containment tested or supply more recent testing report showing that the 6 month interval has not been exceeded.

Violation Division: Santa Clara County Environmental Health

Violation Date: 03-24-2015
Citation: 22 CCR 23 66273.34 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.34
Violation Description: Failure to properly label the following categories of universal waste as: 1) Each batteries or the container in which the batteries are contained as "Universal Waste-Battery(ies)". 2) Each mercury-containing equipment or the container in which the mercury-containing equipment is contained as "Universal Waste -Mercury-Containing Equipment". 3) Each Florescent lamp or the container or package in which the lamps are contained as "Universal Waste-Lamp(s)". 4) Each electronic devices or the container or pallet in or on which the electronic devices are contained as "Universal Waste-Electronic Device(s)". 5) Each CRTs or the container or pallet in or on which the CRTs are contained as "Universal Waste-CRT(s)". 6) A container of CRT glass shall be labeled or marked clearly with the following phrase: "Universal Waste-CRT glass". 7) In lieu of labeling individual electronic devices, CRTs, and/or containers of CRT glass pursuant to subsections d) through f) of this section, a universal waste handler may combine, package, and accumulate those universal wastes in appropriate containers or within a designated area demarcated by boundaries that are clearly labeled with the applicable portion(s) of the following phrase: "Universal Waste-Electronic Device(s)/Universal Waste - CRT(s)/Universal Waste-CRT Glass".
Violation Notes: Mark all containers holding Universal Waste with the words, "UNIVERSAL WASTE - LAMPS" (for used fluorescent lamp tubes and bulbs) or "UNIVERSAL WASTE - BATTERIES" (for consumer-type batteries). Either implement an inventory system (e.g., log) to keep track of Universal waste container accumulation times or mark each container with the initial date of accumulation.

Violation Description: 16, Section(s) 2641(a)
Failure of sensor to be located in the proper position/location.

Violation Notes: _____ The brass couplings in the piping sump and the transition sump have their schrader valves removed but they are still oriented on the top of the pipe, not downwards as noted in the 3/24/2015 report. The openings must be on the bottom half (between the 3 and 9 o'clock positions)

Violation Date: 03-14-2018
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2

Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violation Notes: This is a repeat violation. Despite being repeatedly being directed to certify your HMBP annually, no Hazardous Materials Inventory or Emergency Response and Training Plans information was electronically submitted via CERS between 2/21/2014 and 3/13/2018. The information submitted on 3/13/2018 will be reviewed and the submittal status updated. Certify your HMBP every 12 months as required.

Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)

Violation Description: Failure to electronically update business plan within 30 days of any one of the following events: A 100 percent or more increase in the quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan.

Violation Notes: This is a repeat violation. The HMBP was not revised and submitted within 30 days of change in ownership of the hotel and changes in responsible persons Ensure that the HMBP is kept current on CERS as required.

certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been properly trained.

Violation Notes: _____ The DUSTO

Monthly Inspection Report for 11/7/2016 incorrectly listed N/A to the question of whether secondary containment tests have been completed within the required timeframe. Additionally, the DUSTO Inspection Report from 4/4/2016 incorrectly listed N/A to the question of whether each alarm for the previous month has been responded to appropriately (alarms occurred due to annual monitoring system certification and the correct answer should be yes).
