CITY COUNCIL PUBLIC HEARINGS SET BY CITY CLERK

HEARING DATE

- a. File No. GPT22-006 - Amend City Council Transportation Analysis Policy 5-1 to streamline CEQA review for affordable housing projects and to expand areas for significant and unavoidable impacts override for housing projects, including those in high VMT areas, meeting the land use policies of the General Plan. This program allows land use projects that have Significant and Unavoidable CEQA Impacts to pay a fee for transportation improvements proportionate to their impact. These amendments aim to improve San José’s housing production and existing affordable housing stock throughout the City in a range of residential densities, especially at higher densities, and product types. While not part of the staff recommended project, the City Council may also consider amending City Council Transportation Analysis Policy 5-1 to provide a pathway for City Council to adopt a Statement of Overriding Consideration for market rate housing with immitigable VMT impacts that are inconsistent with the General Plan, allowing said projects to proceed. Such projects would need to meet specific criteria, including being sited on lands already zoned for housing, being sited within the Urban Growth Boundary, maximizing their proposed VMT mitigation, and providing onsite affordable housing to further achieve the City’s affordable and moderate-income housing goals and to offset the project’s VMT impact. Council District: citywide.
