RE: Successor MOA Negotiations

The purpose of this letter is to follow up on the letter dated February 14, 2023, in which the Association of Building, Mechanical, and Electrical Inspectors (ABMEI) provided notice of its intent to bargain over a successor MOA as a formal coalition alongside the Association of Engineers and Architects, IFPTE, Local 21 (AEA), the Association of Maintenance Supervisory Personnel, IFPTE, Local 21 (AMSP), the City Association of Management Personnel, IFPTE, Local 21 (CAMP), and the Municipal Employees' Federation, AFSCME, Local 101 (MEF).

As you know, formal coalition bargaining is a permissive subject of bargaining and neither the City nor the unions can be compelled to bargain with a coalition. The City understands that the coalition structure is the preference of the named bargaining units, but the City is not in agreement to conduct negotiations on a successor MOA in this manner. The City's position related to coalition bargaining over successor MOAs was communicated to IFPTE, Local 21 and MEF previously in a letter dated April 1, 2022, and in an email on January 17, 2023.

The City recognizes that successor MOA negotiations are an opportunity for each bargaining unit to raise its unique needs and concerns to the City. In fact, the unique needs of the classifications that ABMEI represents is why the City has formally recognized your bargaining unit as provided for under Employer-Employee Relations Resolution #39367, has its own MOA separate from the other units in the proposed coalition, and why management employees are not part of non-management employee bargaining units and vice versa.

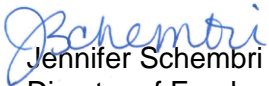

While the City has encouraged coalition negotiations over agencywide matters that affect all bargaining units such as pension reform or health benefits, the City has not historically agreed to coalition bargain over successor MOAs, where the bargaining units differ in make-up, needs, and interests. Although the City did agree to conduct negotiations with MEF, AEA, AMSP, and CAMP jointly in 2021, this was, in large part, due to the expectation that this would lead to a more efficient negotiation process and based on the number of contracts that were set to expire that year. However, the agreement to conduct coalition negotiations in 2021 did not prove to be more efficient, and the City is not agreeable to this process for these or future negotiations over successor MOAs. With that being said, the City's position related to formal coalition bargaining is not intended and does not limit your ability to coordinate with other bargaining units during the negotiation process outside of the negotiation sessions with the City, as has been done in the past.

Again, I look forward to beginning negotiations with ABMEI on behalf of the City, and we are hopeful that we can reach an agreement prior to the expiration of ABMEI's MOA on June 30, 2023. We are available on the following dates and times to commence negotiations. Please advise if these work for ABMEI or provide alternate dates/times to meet.

- Monday, March 13, 2023, 9:00am - 10:00 am
- Monday, March 13, 2023, 3:30pm - 4:30 pm
- Friday, March 17, 2023, 9:00am - 10:00 am
- Friday, March 17, 2023, 3:30pm - 4:30 pm

Sincerely,

Jennifer Schembri
Director of Employee Relations
Director of Human Resources
