Jason Thompson – 29 years of experience in the energy industry performing numerous ASHRAE Level 2 energy and water audits, retro-commissioning projects, and other audits (ASHRAE 1 & 3 audits, decarbonization audits, water audits, etc.). Performed over 150 audits of varying complexities. Performed RCx audits for several utility programs, including PG&E, SCE, ComEd, CenterPoint, Eversource, National Grid, and AES. Licensed as a Professional Engineer in California and certified as Building Commissioning Professional (BCxP) by ASHRAE. Performed audits, RCx, and tune-up studies to meet regulatory requirements for San Francisco, Seattle, New York City (LL87), and Los Angeles.

Will Rice - Over 13 years of experience in the energy services industry performing ASHRAE Level 2 energy and water audits, retro-commissioning projects, and other audits (over 100 audits completed). Worked on projects and programs for commercial, industrial, and institutional facilities throughout the United States. Assisted end-use clients with energy conservation programs (including energy audits, retro-commissioning studies, decarbonization audits/studies, project implementation management, and Measurement & Verification of savings). Licensed as a Certified Energy Manager and achieved ASHRAE certification as a Building Commissioning Professional (BCxP). Performed audits and RCx to meet regulatory requirements for San Francisco, Atlanta, New York City (LL87), and Boulder, CO.
