Ms. Kathy Watanabe

Chair, Treatment Plant Advisory Committee

kwatanabe@santaclaraca.gov

Re: Postponement of May 18, 2023 Treatment Plant Advisory Committee Meeting

Dear Ms. Watanabe,

We are respectfully writing to request that the Treatment Plant Advisory Committee (TPAC) meeting scheduled for May 18, 2023 be postponed to June 2023.

As you are aware, the City of Milpitas, West Valley Sanitation District, Cupertino Sanitary District, Burbank Sanitary District, and CSD 2-3 (collectively, the Tributary Agencies) are challenging the basis for San Jose and Santa Clara, as co-owners of the Regional Wastewater Facility, to impose charges for a broad scope of capital project, operations, and maintenance costs. The Tributary Agencies have invested years of effort trying to have these concerns addressed, including via the filing of administrative claims with TPAC consistent with the terms in the Master Agreement.

Due to the inability of the parties to reach a resolution of this dispute, the Tributary Agencies filed a lawsuit in Santa Clara Superior Court in 2018. The jury trial for that lawsuit commenced on April 10 and is continuing to this day. We understand that a verdict will likely be reached by late May or early June.

Given the breadth of the issues in dispute, neither the Co-Owners nor the Tributary Agencies, are in a position to meaningfully participate – much less vote – in a TPAC meeting that is anticipated to address capital projects, contracting, and/or budgetary matters that are currently the subject of the trial proceeding before a jury. The jury's verdict will be highly relevant to the

If the Co-Owners do not agree to postpone the TPAC meeting until June, representatives of the Tributary Agencies have no option but to decline to participate out of deference to the ongoing litigation and the jurors anticipated verdict.

Sincerely,

President Patrick Kwok,
Cupertino Sanitary District Board of Directors

Mr. Patrick Kwok
President, Board of Directors
Cupertino Sanitary District

Re: Response to Postponement of May 18, 2023 Treatment Plant Advisory Committee Meeting

Committee Member Kwok,

I am writing in response to a letter from the Cupertino Sanitary District dated May 12, 2023 seeking to defer TPAC consideration of the 2023-2024 Proposed San Jose-Santa Clara Water Pollution Control Plant Operating and Maintenance Budget and 2024-2028 Proposed San Jose-Santa Clara Water Pollution Control Plant Capital Improvement Program ("RWF Budget") noticed for the May 18, 2023 Treatment Plant Advisory Committee meeting ("TPAC").

Pursuant to the Master Agreement, all agencies are provided by March 1, the preliminary budget materials and 5-year Capital Improvement Program forecast. Each fiscal year, we provide this information to you so that each agency may take the appropriate action to ensure adequate funding for their contribution to the ongoing safe operation of the San Jose- Santa Clara Water Pollution Control Plant. The May 18, 2023 meeting date and time was also noted at the April 13 meeting adjournment. All materials for the May 18, 2023 meeting were provided by May 11, 2023.

San Jose will consider its Sewer Service and Use Charges on June 6, 2023 which is based on the RWF Budget. The City Charter requires adoption of a balanced budget by June 30th each year. I am informed that your agencies have similar requirements and have already approved the FY23-24 sanitary sewer service rates as part of their annual budget process. The Master Agreement requires the City, as the Administering Agency, to seek TPAC recommendation on the RWF Budget prior to San Jose City Council consideration. For the reasons stated above, we cannot grant your request to defer and look forward to you attending to represent your agency.

Respectfully,

Kerrie Romanow
