

Clean Energy Community Advisory Commission 2022-2023 Annual Report (DRAFT)

Clean Energy Community Advisory Commission (CECAC) Annual Report FY 2022-2023			
Objective of FY 2022-2023	Timeframe	Status & Accomplishments	Future Target/Goals
<p>1</p> <p>FY 22-23 Workplan</p> <p>Equity, Collections, and Disconnections Presentation</p> <p>FY 21-22 Annual Report</p>	<p>July 28, 2022</p>	<p>Commissioners reviewed the CECAC FY 22-23 Workplan and asked staff to add value metrics. Workplan was approved with this addition.</p> <p>Next, commissioners listened to a presentation on equity and reducing disconnections. No action was taken.</p> <p>Finally, commissioners reviewed and approved the CECAC FY 21-22 Annual Report.</p>	<p>Add value metrics to FY 23-24 Workplan</p>
<p>2</p> <p>2022 Integrated Resource Plan</p>	<p>September 29, 2022</p>	<p>Commissioners received a briefing from staff on San José Clean Energy’s (SJCE) 2022 Integrated Resource Plan. The commissioners approved the following recommendation to be included in the City Council memo.</p> <p>COMMISSION RECOMMENDATION/INPUT  <i>The Clean Energy Community Advisory Commission (Commission) agrees with the staff recommendation to file the CPUC Compliant Portfolio that achieves slightly lower emissions than SJCE’s proportional share of 25 MMT by 2035. The Commission also agrees with staff recommendation to use the more aggressive City Carbon Neutral Portfolio as a procurement guide to meet the City’s goal to be carbon neutral by 2030. The Commission appreciates that SJCE staff has undertaken aggressive procurement of cost-effective long-term renewable resources from 2019-2022 and encourages staff to seek innovative solutions to overcome any current and ongoing market challenges that may impact SJCE’s ability to meet the aggressive goal of carbon</i></p>	<p>Report back to CECAC with next Integrated Resource Plan in 2024.</p>

		<p><i>neutrality by 2030. The Commission recommends that new resource procurements of 10 years or longer should be approved by City Council and public presentations to City Council should include the expected annual cost of the contract and the expected lifetime cost of the contract. The Commission notes that Commissioners reviewed staff's presentation but did not review the complete Integrated Resource Plan. The Commission also notes that staff has indicated that the federal savings from the Inflation Reduction Act are not yet included in this plan.</i></p>	
<p><b>3</b> Downtown West Mixed-Use Development</p> <p>Cost-of-Service Summary Report for 2023 Rates</p>	<p>November 3, 2022</p>	<p>Commissioners received a briefing from staff on the benefits and risks of San José provided electric distribution service using Downtown West as a case study. The commissioners approved the following recommendation to be included in the City Council memo.</p> <p>COMMISSION RECOMMENDATION/INPUT  <i>The Commission expresses appreciation for the work to define the costs and benefits of City municipal electric distribution service to new developments in the City of San José but is concerned the work to define the costs and benefits of City municipal electric distribution service to new developments in the City of San Jose, as presented to the CECAC, is incomplete. We would like to note that the Commission was not provided the August 24, 2022 memo to Council regarding Downtown West Project (DTW).</i></p> <p><i>The Commission recognizes that the City Council asked the staff to propose an ordinance at the December 6, 2022 City Council meeting to allow the formation of a City owned municipal utility. We recognize the proposed ordinance does not commit</i></p>	<p>Staff will return to CECAC with more information about city provided electric distribution service.</p>

Objective of FY 2022-2023	Timeframe	Status & Accomplishments	Future Target/Goals
<p>4 Programs Roadmap Update</p> <p>Climate Commission</p>	<p>January 19, 2023</p>	<p>Commissioners received an update from staff on the SJCE Programs Roadmap. The commissioners approved the following recommendation to be included in the Transportation and Environment Committee memo.</p> <p>COMMISSION RECOMMENDATION/INPUT <i>During the meeting on January 19, 2023, the Clean Energy Community Advisory Commission (CECAC) agreed with staff recommendations on the 2023 programs roadmap update. The CECAC further agrees with the recommendation that in the near term, before SJCE builds its operational reserves, SJCE will continue to execute existing programs and develop new educational pilots and programs that largely leverage external funding and set the groundwork for future program success. SJCE staff should focus on cost effectiveness and recognize that success will be driven by effective coordination with external partners and agencies.</i></p> <p>Commissioners received a briefing from staff on the creation of a citywide climate commission. The commissioners approved the following recommendation to be included in the City Council memo.</p> <p>COMMISSION RECOMMENDATION/INPUT <i>During the meeting on January 19, 2023, the Clean Energy Community Advisory Commission (CECAC) was presented the concept of establishing a new citywide Climate Commission where CECAC members are invited to serve the remainder of their term. Overall, the CECAC was supportive of the concept and offered feedback on the scope and composition of the commission. Specifically, CECAC recommends seats be</i></p>	<p>Staff will provide another update on the SJCE Programs Roadmap in FY 23-24.</p> <p>CECAC members are invited to serve the remainder of their terms on the newly established Climate Commission starting in January 2024.</p>
